INDEPENDENT AUDITOR'S REPORT

To the Members' Council Eastspring Investments Fund Management Limited Liability Company

We have reviewed the accompanying Financial Safety Ratio Report of Eastspring Investments Fund Management Limited Liability Company ("the Company") as at 30 June 2020 including the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on 11 August 2020 ("the Financial Safety Ratio Report"), as set out on pages 5 to 27.

Management's Responsibility

The Company's Board of Directors is responsible for the preparation and presentation of the Financial Safety Ratio Report in accordance with the requirements of Circular No. 87/2017/TT-BTC ("Circular 87") dated 15 August 2017 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations, and for such internal control as the Board of Directors determines is necessary to enable the preparation of the Financial Safety Ratio Report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the Financial Safety Ratio Report based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements 2410 – *Review of interim financial information performed by the independent auditor of the entity*.

A review of the Financial Safety Ratio Report consists of making inquiries, primarily of persons responsible for Financial Safety Ratio Report matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Opinion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Financial Safety Ratio Report of Eastspring Investments Fund Management Limited Liability as at 30 June 2020 has not been prepared, in all material respects, in accordance with the requirements of Circular No. 87/2017/TT-BTC dated 15 August 2017 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations.

Basis of Preparation and Restriction on Use

We draw attention to Note 2(a) to the Financial Safety Ratio Report, which describes the basis of preparation. The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular No. 87/2017/TT-BTC dated 15 August 2017 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations. As a result, the Financial Safety Ratio Report may not be suitable for another purpose. Our audit review is intended solely for the Company's submission to the State Securities Commission disclosure of information as required by Circular 87 and should not be used for any other purposes.

Eastspring Investments Fund Management Limited Liability Company Notes to Financial Safety Ratio Report as of 30 June 2020

These notes form an integral part of and should be read in conjunction with the accompanying Financial Safety Ratio Report.

1. Reporting entity

(a) Ownership structure

Eastspring Investment Fund Management Limited Liability Company (“the Company”) is a limited liability company licensed and incorporated in the Socialist Republic of Vietnam.

(b) Principal activities

The principal activities of the Company are to establish and manage securities investment funds, to provide portfolio management services and to provide financial consultancy and securities investment consultancy under the Fund Management Establishment and Operation Licence and its amendments.

The chartered capital of the Company as stipulated in the Fund Management Establishment and Operation Licence is VND25 billion.

As at 30 June 2020, the Company had 20 employees (31/12/2019: 21 employees) of which one (1) is management personnel. During the year, there was one (1) employee resigning and no disciplinary action was taken against any of the employees. As at 30 June 2020, the Company had 9 employees (31/12/2019: 9 employees) who were qualified for fund and asset management.

2. Basis of preparation

(a) Statement of compliance

The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular No. 87/2017/TT-BTC dated 15 August 2017 issued by the Ministry of Finance (“Circular 87”) regulating financial safety ratios and measures for non-compliance applicable to securities business organisations. Accordingly, the Financial Safety Ratio Report and its utilisation are not designed for those who are not informed about the principles and requirements of Circular 87 on preparation and presentation of the Financial Safety Ratio Report applicable to securities business organisations in Vietnam. As a result, the Financial Safety Ratio Report may not be suitable for another purpose.

(b) Underlying financial data

The Financial Safety Ratio Report was prepared based on the Company’s financial data as of and for the six-month period ended 30 June 2020. This Financial Safety Ratio Report should be read in conjunction with the Company’s financial statements for the six-month period ended 30 June 2020.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(c) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for Financial Safety Ratio Report presentation purpose rounded to the nearest thousand ("VND'000").

3. Summary of significant policies adopted in the preparation of the Financial Safety Ratio Report

The following significant policies have been adopted by the Company in the preparation of this Financial Safety Ratio Report.

(a) Liquid capital ratio

The Company's liquid capital ratio is calculated in accordance with the requirements of Circular 87 as follows:

$$\text{Liquid capital ratio} = \frac{\text{Liquid capital}}{\text{Total risk value}} * 100\%$$

in which, total risk value is the aggregate of market risk value (Note 3(c)), settlement risk value (Note 3(d)) and operational risk value (Note 3(e)).

(b) Liquid capital

Liquid capital is the capital which can be converted into cash within 90 days. Liquid capital comprise the following items:

- Investment capital of the owner, excluding redeemable share capital (if any);
- Share premium does not include redeemable share capital (if any);
- Reserve fund to supplement charter capital;
- Development investment fund (if any);
- Financial risk and operational risk funds;
- Other funds belonging to owners' equity;
- Retained earnings after tax;
- Provision for impairment of assets;
- Fifty percent (50%) of the incremental value of the fixed asset is revalued in accordance with the law (in case of increased valuation), or deducted from the total value of the reduced value (in in case of price decrease);
- Exchange rate difference; and
- Other capital (if any).

Increases of the Company's liquid capital include the following items:

- All increases in the values of investments, financial assets at book value excluding the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Convertible bonds and preference shares issued by the Company with the original terms to maturity of at least five (5) years, unsecured by assets of the Company, only acquired by the term

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

under the owner's request or acquired on secondary market after informing to the State Securities Commission of Vietnam, ceased to pay interest and allowed to transfer cumulative interest to the following year if the interest payment results in loss to the Company's performance and registered with the State Securities Commission of Vietnam to supplement the liquid capital; and

- Other debt instruments issued by the Company with the original terms to maturity of more than ten (10) years and unsecured by assets of the Company; ceased to pay interest and allowed to transfer cumulative interest to the following year if the interest payment results in loss to the Company's performance and registered with the State Securities Commission to supplement the liquid capital.

Value of items used to supplement the liquid capital is capped at 50% of the Company's equity. For debts convertible to equity and registered with the State Securities Commission of Vietnam to supplement the liquid capital, the Company deducts 20% of original value each year during the last five (5) years before maturity/conversion into ordinary shares and deducts 25% of the remaining value for each quarter in the last four (4) quarters before maturity/conversion into ordinary shares.

Deductions from the Company's liquid capital include the following items:

- Redeemable preference shares and treasury shares (if any);
- 100% value of the downward revaluations of fixed assets, if any, in accordance with the prevailing regulations;
- All decreases in the values of investments, financial assets at book value excluding the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Long-term assets and current assets with remaining term to maturity of more than 90 days; and
- Asset items being qualified in the reviewed financial statements (if any).

When determining the deductions from liquid capital, the Company deducts from the liquid capital an amount equal to the minimum value of the market value of the assets, the book value and the residual value of the obligations (for the assets used as collaterals for the obligations of the Company and third parties) and the minimum value of the market value of the collaterals and the book value (for the assets secured by customers' assets).

(c) Market risk value

Market risk value is the value corresponding to the level of loss which may occur if the market value of owned assets and expected owned assets according to guarantee commitments changes unfavourably. Market risk value is determined in accordance with the requirements of Circular 87 as follows:

$$\text{Market risk value} = \text{Net position} * \text{Asset value} * \text{Market risk coefficient}$$

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(i) Net position

Net position of any securities at a point of time is the quantity of securities currently held by the Company, after deducting the number of securities lent out and adding the number of securities borrowed in accordance with the prevailing regulations.

The market risk value is not determined for following securities and assets:

- Treasury shares;
- Securities issued by a related organisation of the Company;
- Securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Matured bonds, debt instruments and money market valuable papers; and
- Securities which have already been hedged by sell options or futures contracts; and sell options and sell option contracts which have been used to hedge the underlying securities.

(ii) Asset value

Asset value is determined in accordance with principles for determining market value in Circular 87 as follows:

No.	Type of asset	Principles for determining market value
Cash and cash equivalents, money market instruments		
1	Cash in VND	Account balance at the reporting date
2	Foreign currencies	Value converted into VND at the exchange rate of credit institutions authorised for trading foreign currencies at the reporting date

(iii) Market risk coefficient

Market risk coefficient is determined for each type of asset in accordance with the requirements of Circular 87 as disclosed in Note 4.

(iv) Increase in market risk value

The market risk values of assets will be increased if the Company significantly invests in such assets, except for secured underwriting securities, Government bonds and bonds guaranteed by the Government. Market risk value is increased in accordance with the following principles:

- Increase by 10% if the value of any investment accounts for from over 10% to 15% of the Company's equity;
- Increase by 20% if the value of any investment accounts for from over 15% to 25% of the Company's equity; or
- Increase by 30% if the value of any investment accounts for more than 25% of the Company's equity.

Dividends, coupons, value of privileged rights of securities (if any) or interest receivables from cash and cash equivalents, transferrable instruments and valuable papers are added to the asset values when determining the market risk value.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(d) Settlement risk value

Settlement risk value is the value corresponding to the level of loss which may occur if a counterparty is unable to settle obligations or transfer assets on time as committed. Settlement risk value is determined at the end of transaction date or contract date as follows:

- Settlement risk value before the due date for payment/transfer of securities is determined in accordance with the following principle:

Settlement risk before due date:

$$= \text{Settlement risk coefficient by counterparty} * \text{Value of the asset with settlement risk}$$

The above principle to determine settlement risk value before due date is applicable for following contracts:

- Term deposits at credit institutions, loans to other organisations and individuals;
 - Securities lending contracts and securities borrowing contracts in compliance with laws;
 - Repurchase agreements in compliance with laws;
 - Reverse repurchase agreements in compliance with laws;
 - Margin loan contracts in compliance with laws; and
 - Undue accounts receivable, other receivables from customers relating to securities brokerage activities.
- Overdue settlement risk value is determined in accordance with the following principle:

Overdue settlement risk:

$$= \text{Settlement risk coefficient by overdue status} * \text{Value of the asset with settlement risks}$$

The above principle to determine settlement risk value over the due date is applicable for:

- Overdue receivables, including maturing bonds, valuable papers, debt instruments that have matured but have not yet been paid;
- Assets over the time of transfer, including securities in business activities of the company, securities of customers in securities brokerage activities; and
- Securities, unspent securities, money which not received from transactions, maturing contracts including term deposits at credit institutions, loans to other organisations and individuals; The contracts on borrowing or borrowing securities in accordance with the provisions of law; Sale contracts with commitments to buy back securities in accordance with the provisions of law; A contract of sale with a commitment to resell securities in accordance with the provisions of law; Securities collateral loan contract in accordance with the law; and accounts receivable from customers.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(i) Settlement risk coefficient

In accordance with the requirements of Circular 87, settlement risk coefficient by counterparty is as follows:

No.	Counterparty	Settlement risk coefficient
1	The Government, issuing organisations guaranteed by the Government and Central banks of countries in the OECD, People's Committee of provinces and cities under Central authority	0%
2	The Stock Exchanges, Vietnam Securities Depository	0.8%
3	Credit institutions, financial institutions, and securities companies established in countries in the OECD and with a credit rating satisfying the internal rules of the Company	3.2%
4	Credit institutions, financial institutions, and securities companies established in countries outside the OECD; or established in countries in the OECD but with a credit rating not satisfying the internal rules of the Company	4.8%
5	Credit institutions, financial institutions and securities companies established and operating in Vietnam	6%
6	Other organisations and individuals	8%

In accordance with the requirements of Circular 87, settlement risk coefficient by overdue status is as follows:

No.	Overdue status	Settlement risk coefficient
1	From 0 to 15 days after the due date for payment/transfer of securities	16%
2	From 16 to 30 days after the due date for payment/transfer of securities	32%
3	From 31 to 60 days after the due date for payment/transfer of securities	48%
4	Above 60 days after the due date for payment/transfer of securities	100%

Time for payment/transfer of securities is in accordance with regulations on derivative securities (for derivative securities) T+2 (for listed securities), T+1 (for listed bonds), or T+n (for transactions agreed outside the trading system in n days according to agreement).

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(ii) Value of assets with settlement risk

➤ *Value of assets with settlement risk in securities borrowing activities, securities lending activities, margin trading activities, and repurchase/reverse repurchase agreements:*

No.	Type of transaction	Value of assets with settlement risks
1	Term deposits and unsecured loans	Total value of the deposits and loans
2	Securities lending	Max {(Market value of the contract – Value of collateral assets (if any)), 0}
3	Securities borrowings	Max {(Value of collateral assets – Market value of the contract), 0}
4	Reverse repurchase agreements	Max {(Contract value calculated in accordance with purchase price – Market value of the contract * (1 – Market risk coefficient)),0}
5	Repurchase agreements	Max {(Market value of the contract * (1 – Market risk coefficient) – Contract value based on the selling price),0}
6	Margin loans (lending to customers to purchase securities)/Other arrangements with similar nature	Max {(Outstanding loan balance – Value of collateral assets),0}

Outstanding balance comprises the principal, interest and related fees.

Value of collateral assets is based on the market value. When the market values of collateral assets are not available, market values are determined in accordance with Company's internal methodology.

➤ *Value of assets with settlement risk in securities trading activities:*

No.	Time	Value of assets with settlement risks
A. For the sale of securities transactions (seller is the Company or the Company's customers in brokerage activities)		
1	Before the due date for payment	Nil
2	After the due date for payment	Market value of the contract (if the market value is lower than the transaction price)
		Nil (if the market value is higher than the transaction price)
B. For the purchase of securities transactions (buyer is the Company or the Company's customers in brokerage activities)		
1	Before the due date for securities transfer	Nil
2	After the due date for securities transfer	Market value of the contract (if the market value is lower than the transaction price)
		Nil (if the market value is higher than the transaction price)

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

- *Settlement risk values of overdue accounts receivable, matured bonds and debt instruments are the underlying amounts including par value plus accrued interest and fees, less actual cash previously received, if any.*

(iii) Deductions from the value of assets with settlement risk

The Company deducts the value of collateral asset received from counterparties or customers from the value of assets with settlement risk when determining the value of assets with settlement risks if the contracts and transactions meet the following criteria:

- The counterparties or customers have collateral assets to secure for their obligations including cash, cash equivalents, valuable papers, transferable money market instruments, listed securities on the Stock Exchanges, Government bonds, or bonds underwritten by the Ministry of Finance; and
- The Company has the right to control, manage, use or transfer the collateral assets if the counterparties or customers fail to settle the obligations according to the contractual schedules.

Value of collateral assets deducted from the value of assets with settlement risk is calculated as follows:

$$\text{Value of collateral assets} = \text{Asset quantity} * \text{Asset value per unit} * (1 - \text{Market risk coefficient})$$

Asset value is determined in accordance with the requirements of Circular 87 as described in Note 3(c)(ii).

Market risk coefficient is determined in accordance with the requirements of Circular 87 as described in Note 4.

(iv) Settlement risk value increase

Settlement risk values are increased in the following cases:

- Increase by 10% if the value of term deposits, loans, undue receivables, reserve repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals accounts for from over 10% to 15% of the Company's equity;
- Increase by 20% if the value of term deposits, loans, undue receivables, reserve repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals accounts for from over 15% to 25% of the Company's equity; or
- Increase by 30% if the value of term deposits, loans, undue receivables, reserve repurchase agreements, repurchase agreements to any organisation or individuals and group of related organisations and individuals (if any), or to any individuals and entities related to such individuals (if any), accounts for from more than 25% of the Company's equity.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 30 June 2020 (continued)

(v) ***Netting off value of assets with settlement risk***

The value of assets with settlement risk is netted off if:

- The settlement risk is related to the same counter party;
- The settlement risk arises from the same type of transactions; and
- The netting off is agreed by the parties in writing.

(e) **Operational risk value**

Operational risk value is the value corresponding to the level of loss which may occur due to a technical or system error, human error during the operations, shortage of capital arising from expenses, losses from investment activities, or other reasons.

The operational risk value of the Company is calculated at the higher of:

- 25% of the cost of maintaining the Company's operations for 12 consecutive months up to the time of calculation; and
- 20% of capital in accordance with the legal

Operating expenses include all costs incurred during the period after deducting:

- Depreciation and amortisation expenses;
- Additions to/(reversal of) allowance for diminution in the value of short-term financial assets;
- Additions to/(reversal of) allowance for diminution in the value of long-term financial assets; and
- Additions to/(reversal of) allowance for doubtful debts.
