GENERAL INFORMATION

Current Prospectus

Copies of the latest Eastspring Investments' (the "SICAV") Articles of Association and Prospectus dated February 2025 and Key Investor Document may be obtained, free of charge, from the Registered Office of the SICAV.

Please refer to the Prospectus dated February 2025 to have the current applicable terms and conditions.

The SICAV is governed by the Luxembourg Law dated December 17, 2010, as amended (the "2010 Law").

The SICAV complies with the provisions of the Directive 2009/65/EC of the European Parliament and of the Council of July 13, 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS).

Annual General Meeting

The annual general meeting of Shareholders of the SICAV will be held at the Registered Office of the SICAV or at such other place in Luxembourg at a date and time decided by the Board of Directors being no later than 6 months after the end of the Company's previous financial year.

Notices of all general meetings will be sent to the holders of registered Shares by post 8 days prior to the meeting at their addresses in the register of Shareholders.

The notices of all general meetings of Shareholders may be published in any newspapers as the Board of Directors may decide.

Report and Accounts

The financial year-end of the SICAV will be the last day of December of each year.

Audited annual reports will be published within 4 months after the financial year-end and unaudited semi-annual reports will be published within 2 months after the end of the relevant period. Such reports will be made available at the Registered Office of the SICAV during normal business hours.

Publication of Prices

The Net Asset Value ("NAV") and the Issue, Conversion and Redemption Prices of the Shares in any Sub-Fund will be made public and available at the website of the Management Company (<https://www.eastspring.com/lu>) and at the Registered Office of the SICAV.

Prices for the Share classes listed on the Luxembourg Stock Exchange (Euro MTF market) are available on the Bourse de Luxembourg (www.bourse.lu).

At year-end, the following share classes were listed on the Euro MTF market segment of the Luxembourg Stock Exchange:

US High Yield Bond Fund Class A_{DM}
US High Yield Bond Fund Class C

Purchases and Sales

A detailed list of investments purchased and sold and statement of changes in portfolio for any Sub-Fund during the year/period is available upon request, free of charge, from the Registered Office of the SICAV.

Environmental, social and governance ("ESG") policy

Sustainability-related information required in accordance with Regulation (EU) 2019/2088 (SFDR) is available in the SFDR periodic disclosure section.

REPORT OF THE BOARD OF DIRECTORS

As at December 31, 2024

Dear Shareholders,

I. Financial Statements

The Directors would like to submit to you their report and the audited financial statements for the year ended December 31, 2024.

The audited financial statements are set out in this Annual Report, with results for the year appearing in the Combined Statement of Net Assets, the Combined Statement of Operations and Changes in Net Assets, Statement of Investments, and the Notes to the Financial Statements.

II. Code of Conduct

The Board of Directors of the SICAV adheres to the principles of the Association of the Luxembourg Fund Industry (“ALFI”) code of conduct for Luxembourg investment funds published in June 2013 and as amended in 2022. The code of conduct sets a frame work of high-level principles and best practice recommendations for the governance of Luxembourg investment funds.

III. Activities during the year

During the past year, the SICAV launched 39 additional Classes of Shares and four new Sub-Funds. As at December 31, 2024, assets equalled USD 15.483 billion for a total of 47 Sub-Funds and 332 Classes of Shares. The performance of each Sub-Fund is provided in the Report of the Investment Manager with further details included in Appendix 3.

Events arising due to the current market disruption created by the Russian-Ukraine conflict and deteriorating tradability of Russian shares, has impacted on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia. As at December 31, 2024, these securities have been valued at Nil within the Sub-Funds of the SICAV. The Board of Directors and Management Company are actively monitoring the situation and will continue to review during this period of uncertainty.

IV. Board of Directors

The Directors of the SICAV are listed under the section Directory, Administration and Management. Two of the three Directors are independent directors and free from any business or other relationship which could materially interfere with the exercise of their independent judgment.

The Board of Directors has delegated the management and operation of the SICAV to Eastspring Investments (Luxembourg) S.A. (the “Management Company”). The Management Company is entrusted with the day-to-day management of the SICAV, with responsibility for performing directly or by way of delegation all operational functions relating to the SICAV’s investment management, administration, risk management and marketing of the Sub-Funds.

The Directors are formally responsible for the Annual Report and the financial statements for each financial year, which are required under general principles to give a true and fair view of the state of affairs of the SICAV.

On November 25, 2024, Mr Nicolas Lauden resigned from the Board of Directors. The Board would like to thank Mr Nicolas Lauden for his contribution.

The Board of Directors would like to take this opportunity to thank the Shareholders for their on-going support.

Luxembourg,
March 2025

REPORT OF THE INVESTMENT MANAGER

As at December 31, 2024

Market Background

Global equity markets rose over the period, supported by a broad rally in technology stocks, cooling inflation and rate cuts by global central banks. The US Federal Reserve ("Fed") cut rates by 50 basis points in September with further 25 basis point cuts in November and December, whilst domestic GDP growth remained solid for the year. The US market was the standout performer globally, outperforming all other major regions during the period on a US Dollar basis.

US stocks received further upward support in the final quarter, following Donald Trump's victory in the US election. Sentiment was buoyed by expectations that Trump's policies would lift growth, reduce taxes and cut regulation.

Asian and Emerging Markets ("EM") sold off in the final quarter, however, on the anticipation of heightened trade tensions and the implementation of tariffs by President Trump, particularly on China. In addition, a stronger US Dollar following Trump's win and expectations for slower rate cuts by the Fed in 2025, further weighed on Asia and EM.

Several Asian markets still posted strong returns for the year as a whole, despite the weakness in the final quarter, including Taiwan and China. Taiwan continued to benefit from the broader global technology strength and ongoing optimism around Artificial Intelligence, whilst China rallied during the second half of the year following the announcement of a raft of stimulus measures aimed at reversing the slowdown in the broader Chinese economy.

Japanese equities were volatile, with the prospect of the Bank of Japan raising interest rates leading to a shift in market expectations, an unwind of the yen carry trade and a sharp decline in both Japanese and global equities in August, although markets quickly snapped back.

ASEAN markets performed relatively well, outperforming both Asia excluding Japan and EM, although the variance of underlying country returns was substantial. Singapore outperformed significantly and was amongst the best performing markets globally, benefiting from its more defensive profile amid the ongoing tensions between the US and China, and as investors were attracted by Singapore's political stability and relative neutrality. Indonesia sold off and strongly underperformed the broader ASEAN region.

In fixed income markets, the US 10 Year Treasury yield was volatile but ended the period higher, particularly following President Trump's victory and as markets pared back expectations for rate cuts by the Fed in 2025. Credit markets posted positive returns, supported by declining inflation and generally strong growth in major markets, including the US.

Outlook

The world faces a year of uncertainty going into 2025. Global growth is expected to plod along in the first half of 2025, with the second half influenced by developments in the US and China. The incoming Trump administration's policies are expected to be inflationary and boost US short-term growth, but protectionism and tariffs may weigh on the global economy. China's further stimulus measures will be closely watched. The US Fed's rate cut cycle may be tempered by a cloudier inflation picture with the Fed's terminal rate potentially higher than initially expected.

Market volatility presents active opportunities for equity investors while carry is likely to drive bond returns. Market disappointments over rising inflation, the uncertain path of US interest rates, and the risk of a stronger US dollar can impact asset prices in 2025. Given this economic backdrop, investors will need to be smarter about how they diversify and manage risks.

GLOBAL EXPOSURE AND EXPECTED LEVEL OF LEVERAGE (UNAUDITED)

The method used to calculate the global exposure on all Sub-Funds (except Global Multi Asset Income Plus Growth Fund, Global Market Navigator Fund, Global Multi Asset Balanced Fund, Global Multi Asset Conservative Fund and Global Multi Asset Dynamic Fund) is the commitment approach. The commitment approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Sub-Fund to financial derivative instruments. For Global Multi Asset Income Plus Growth Fund, Global Market Navigator Fund, Global Multi Asset Balanced Fund, Global Multi Asset Conservative Fund and Global Multi Asset Dynamic Fund, the method used to calculate the global exposure is the Absolute Value-at-Risk (VaR). The below table provides additional information on the application of the VaR method on these five Sub-Funds.

Sub-Funds	Analytical/Parametric VaR 01-Jan-2024 - 31-Dec-2024			Leverage Sum of Notionals 01-Jan-2024 - 31-Dec-2024
	Min	Max	Average	Leverage
Eastspring Investments - Global Multi Asset Income Plus Growth Fund	4.05%	7.06%	5.46%	70.85%
Eastspring Investments - Global Market Navigator Fund	5.71%	8.76%	6.88%	61.86%
Eastspring Investments - Global Multi Asset Balanced Fund	4.34%	6.19%	5.55%	24.38%
Eastspring Investments - Global Multi Asset Conservative Fund	2.62%	4.29%	3.63%	24.44%
Eastspring Investments - Global Multi Asset Dynamic Fund	6.27%	7.95%	7.45%	28.82%

Independent auditor's report

To the Shareholders of
Eastspring Investments
26, boulevard Royal
L-2449 Luxembourg

Opinion

We have audited the financial statements of Eastspring Investments (the "Fund") and of each of its sub-funds, which comprise the combined statement of net assets, statements of investments as at 31 December 2024, and the combined statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the *réviseur d'entreprises agréé*" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the *réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Shape the future with confidence

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

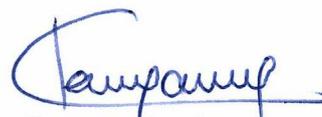

Shape the future with confidence

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "*réviseur d'entreprises agréé*" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "*réviseur d'entreprises agréé*". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Notes to the Financial Statements as at December 31, 2024

1. Organisation

Eastspring Investments (the “SICAV”) is an open-ended investment company with variable capital (société d’investissement à capital variable) registered in the Grand Duchy of Luxembourg on the official list of collective investment undertakings pursuant to Part I of the Luxembourg law of December 17, 2010, relating to undertakings for collective investment, as amended (the “2010 Law”), and the Directive 2014/91/EU, as amended from time to time.

The SICAV has entrusted Eastspring Investments (Luxembourg) S.A. (the “Management Company”) with the day-to-day management of the SICAV, with responsibility for performing directly or by way of delegation all operational functions relating to the SICAV’s investment management, administration, risk management, and marketing of the Sub-Funds. The Management Company, a Luxembourg société anonyme, is authorized as a fund management company and as an Alternative Investment Fund Manager in accordance with respectively, Chapter 15 of the 2020 Law and 2013 Law.

The SICAV aims to provide subscribers with a choice of Sub-Funds investing in a wide range of transferable securities and other permitted assets and featuring a diverse array of investment objectives.

As at December 31, 2024, the SICAV had 47 active Sub-Funds opened to Investors. Four new Sub-Funds launched and three Sub-Funds redeemed during the financial year:

Global Multi Asset Balanced Fund, Global Multi Asset Conservative Fund and Global Multi Asset Dynamic Fund launched on May 3, 2024.

Global Emerging Markets Total Return Bond Fund launched on May 13, 2024.

Asia Real Estate Multi Asset Income Fund closed on February 29, 2024.

Malaysia Equity Fund closed on March 15, 2024.

Thailand Equity Fund closed on June 5, 2024.

The Prospectus in issue for the current financial period is dated March 2024.

The SICAV currently offers the following share classes:

Class of Share	Terms	Currency
Class A	reserved for retail investors	USD
Class A (hedged)*	reserved for retail investors	USD
Class A _A (hedged)*	reserved for retail investors	AUD
Class A _{ADM} (hedged)*	reserved for retail investors where dividends may be declared on a monthly basis	AUD

* Share class hedges the currency risk between the share class currency and the base currency of the Sub-Fund.

Further details of the share classes available for each of the Sub-Funds can be found in the Prospectus. A list of share class launches/closures during the year can be found in Appendix 1.

2. Summary of Significant Accounting Policies

The financial statements of the Fund and each of its Sub-Funds have been prepared on a going concern basis, except for the Sub-Funds which have been closed subsequent to the end of the year (as disclosed in Note 18, if any) whose financial statements have been prepared on a non-going concern basis as the Board of Directors (the "Board of Directors", the "Board" or the "Directors") has decided to liquidate these Sub-Funds. Consequently the latter Sub-Funds assets have been recorded at their estimated realisable values and liabilities at estimated settlement amounts.

The Financial Statements have been prepared based on the last official Net Asset Value of the year with the prices as of that date.

Notes to the Financial Statements as at December 31, 2024 (continued)

2. Summary of Significant Accounting Policies (continued)

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements for investment funds and the following is a summary of significant accounting policies followed by the Sub-Funds:

(a) Valuation of Investments and Other Assets

- 1 the value of any cash on hand or on deposit, bills and demand notes, account receivables, prepaid expenses, cash dividends and interest declared or accrued and not yet received shall be deemed to be the full amount thereof, unless unlikely to be paid or received in full, in which case the value will be discounted as the Directors may consider appropriate in such case to reflect the true value thereof;
- 2 the value of securities which are quoted or dealt in on any Stock Exchange shall be in respect of each security, the last known price, and where appropriate, the middle market price on the Stock Exchange which is normally the principal market for such security;

In accordance with the pricing policy of the relevant Sub-Funds, the market prices applied to equity Sub-Funds and bond Sub-Funds are the mid prices and the bid prices respectively.
- 3 securities dealt in on another regulated market are valued in a manner as near as possible to that described in the preceding paragraph;
- 4 in the event that any of the securities held in any portfolio on the relevant valuation day are not quoted or dealt in on a Stock Exchange or another regulated market or, for any of the securities where no price quotation is available, or if the price as determined pursuant to sub-paragraphs (2) and/or (3) is not in the opinion of the Directors' representation of the fair market value of the relevant securities, the value of such securities will be determined based on the reasonably foreseeable sales price determined prudently and in good faith;
- 5 all other assets will be valued at their respective fair values as determined in good faith by the Directors in accordance with generally accepted valuation principles and procedures.

Valuation of Corporate Bonds and Securitisations

Corporate bonds and securitised assets are valued based on either indicative prices communicated by brokers or calculated prices from sources such as FT Interactive Data or Valuelink. The Directors believe that such quotes and prices correspond to the market practice valuation of these securities.

Due to public holidays and/or non-trading days in China, Hong Kong, Indonesia and Japan on December 31, 2024, the last Net Asset Value ("NAV") as at the current financial year end for China A Shares Growth Fund, China Equity Fund, Dragon Peacock Fund, Greater China Equity Fund, Indonesia Equity Fund, Japan Dynamic Fund, Japan ESG Equity Fund and Japan Smaller Companies Fund was calculated on December 30, 2024 which was the last business day of the financial year with respect to these markets.

Due to public holidays in the Philippines on December 30, 2024 and December 31, 2024, the last Net Asset Value ("NAV") as at the current financial year end for Philippines Equity Fund was calculated on December 27, 2024 which was the last business day of the financial year with respect to these markets.

(b) Income from Investments

The SICAV takes credit for income from its investments on the following basis:

- on fixed deposits, and bonds on a time apportionment basis;
- on other stocks on the basis of dividends declared.

(c) Forward Foreign Exchange Contracts and Futures Contracts

During the year, the SICAV entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the accounting date. Surpluses/deficits arising from these and closed unsettled contracts are taken to unrealised appreciation/ depreciation and are included under assets or liabilities (as appropriate) in the Combined Statement of Net Assets.

Notes to the Financial Statements as at December 31, 2024 (continued)

2. Summary of Significant Accounting Policies (continued)

(d) Options

Options outstanding that are traded on a regulated market are valued using the closing price or the value of the last available price of the instrument. The market values of the open option contracts as at financial period end are disclosed in the Combined Statement of Net Assets (see note 9 for details).

(e) Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. The credit default swaps are marked to market daily based on their yield curves and recorded in the Combined Statement of Net Assets (see note 11 for details).

(f) Conversion of Foreign Currencies

The value of the assets denominated in a currency other than the Reference Currency of the relevant Class of any Sub-Fund will be translated at the rates of exchange prevailing in Luxembourg at the time of the determination of the corresponding Net Asset Value on the last valuation date of the period. Foreign currency transactions during the period are translated into the Reference Currency using the exchange rates prevailing at the dates of the transactions.

The rates used to convert assets and liabilities at December 31, 2024, for all Sub-Funds and the SICAV, were as:

EUR/GBP	0.8283	USD/DOP	61.0601	USD/PHP	57.8450
EUR/USD	1.0376	USD/EGP	50.8300	USD/PLN	4.1204
USD/AED	3.6731	USD/EUR	0.9637	USD/QAR	3.6410
USD/ARS	1,030.9782	USD/GBP	0.7982	USD/RUB	109.7500
USD/AUD	1.6130	USD/HKD	7.7658	USD/SAR	3.7574
USD/BRL	6.1778	USD/HUF	396.4006	USD/SEK	11.0331

JPY/SGD	0.0086	USD/GBP	0.7965	USD/ZAR	18.7675
JPY/USD	0.0064	USD/HKD	7.7633		
JPY/ZAR	0.1195	USD/IDR	16,135.0010		

The rates used to convert the assets and liabilities at December 27, 2024, were as follows (applicable to the Sub-Fund disclosed in note 2(a)):

USD/JPY	157.8250	USD/PHP	57.8450	USD/SGD	1.3586
---------	----------	---------	---------	---------	--------

Notes to the Financial Statements as at December 31, 2024 (continued)

2. Summary of Significant Accounting Policies (continued)

(g) Total Combined Figures

The combined figures* of the SICAV are expressed in USD and are equal to the sum of the net assets of the various active Sub-Funds translated into USD (where required):

- at the rates of exchange prevailing in Luxembourg at the Sub-Fund's relevant valuation dates in the Combined Statement of Net Assets, and
- at the average yearly rates of exchange prevailing in Luxembourg in the Combined Statement of Operations and Changes in Net Assets. The exchange rate differences resulting from the application of the average exchange rates are reflected under the line "currency translation" in the Combined Statement of Operations and Changes in Net Assets.

* The combined opening balance was translated in USD using the average yearly rates of exchanges of 2024. The same net assets after dilution when combined using the average yearly rates of exchanges of 2023 reflected a figure of USD 17,297,011,071.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds. For the Statement of Net Assets, the exchange rates prevailing at the Fund's valuation point in Luxembourg on December 31, 2024 are:

USD/EUR	0.9637
USD/JPY	156.7750

For the Statement of Operations and Changes in Net Assets, the exchange rates are the average rate calculated over the year:

USD/EUR	0.9241
USD/JPY	151.2467

Some of the Sub-Funds use cross investment techniques, meaning that the Sub-Funds invest into other Sub-Funds of the SICAV. The Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments.

The following Sub-Funds held cross umbrella investments as at December 31, 2024, outlined in the Schedule of Investments of the respective Sub-Fund the market value of which represents 0.51% of the combined assets.

Sub-Fund	Cross Umbrella Investment	Currency	Market Value	% of Net Assets
Global Equity Navigator Fund	Eastspring Investments - Global Dynamic Growth Equity Fund	USD	5,199,006	3.96
Global Equity Navigator Fund	Eastspring Investments - Global Multi Factor Equity Fund	USD	12,879,377	9.80

Global Multi Asset Income Plus Growth Fund	Eastspring Investments - US High Yield Bond Fund	USD	6,119,088	18.15
Global Multi Asset Income Plus Growth Fund	Eastspring Investments - World Value Equity Fund	USD	2,173,800	6.45

At December 31, 2024, the total cross investments amounted to USD79,136,601 and therefore the combined NAV without cross investments amounted to USD15,403,480,382.

(h) Dilution and Fair Value Adjustment Policy

(i) Price Adjustment Policy / Swing Pricing

The basis on which the assets of each Sub-Fund are valued for the purposes of calculating the NAV is set out in the Prospectus and in the Articles of Incorporation. The actual cost of purchasing or selling assets and investments for a Sub-Fund may however deviate from the latest available price or net asset value used, as appropriate, in calculating the NAV per Share due to duties, charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of a Sub-Fund and are known as “dilution”.

Shares will in principle be issued, redeemed and converted on the basis of a single price, i.e., the NAV per Share. However, to mitigate the effect of dilution, the NAV per Share may be adjusted for any Valuation Day in the manner set out in the Prospectus depending on whether or not a Sub-Fund has a net subscription position or in a net redemption position which exceeds the established threshold, triggering the price adjustment. Where there is no dealing in a Sub-Fund or Class of a Sub-Fund on any Valuation Day, the applicable price will be the unadjusted NAV per Share. The Board of Directors will retain the discretion in relation to the circumstances under which to make such a price adjustment.

The current policy is to apply a dilution adjustment to the NAV of each Class of Shares of all Sub-Funds of the Fund. The maximum adjustment will be limited to 2% of the applicable NAV per share.

As at December 31, 2024, no dilution adjustment was applied to the closing NAV of the Sub-Funds, except for Sub-Fund Global Multi Asset Income Plus Growth Fund. All Sub-Funds are subject to dilution, and all Sub-Funds applied a dilution during the year, except for the Sub-Funds China Bond Fund, CICC China USD ESG Bond Fund, Global Emerging Markets Fundamental Value Fund, Global Emerging Markets ex-China Dynamic Fund, Global Multi Asset Balanced Fund, Global Multi Asset Conservative Fund, Global Multi Asset Dynamic Fund, Global Technology Fund, and Greater China Equity Fund. For those Sub-Funds, the dilution adjustment calculated in accordance with the principles of the “Price Adjustment Policy” disclosed in the Fund’s Prospectus and applied on its closing NAV as at December 31, 2024 is disclosed in the Combined Statement of Net Assets under the caption “Adjustment due to dilution”.

(ii) Fair Value Adjustment Policy

In addition to “dilution” adjustments and as stated in the Prospectus under the section “Price adjustment policy”, price adjustments may also be applied to prevent arbitrage.

Events may occur between the determination of an investment’s last available price and the determination of a Sub-Fund’s Net Asset Value per Share at the valuation point that may, in the opinion of the Directors, mean that the last available price does not truly reflect the true market value of the investment. In such circumstances, a fair value adjustment factor is applied to the price of such investments in accordance with applicable trigger rules. This fair value adjustment, mainly applicable to Asian stocks, takes the Nikkei, S&P and Hang Seng future movement for the stale period from when the market closes to the European strike time (4 pm Luxembourg time). Fair valuation ensures that the potential market movement between local market closes and SICAV valuation cutoff is anticipated with a view of preventing investor arbitrage, considering that the Sub-Fund has a predominantly Asian portfolio weighting.

Notes to the Financial Statements as at December 31, 2024 (continued)

2. Summary of Significant Accounting Policies (continued)

(h) Dilution and Fair Value Adjustment Policy (continued)

As at December 31, 2024, there were price adjustments applied to a number of Sub-Funds' year end NAVs to prevent arbitrage. Such price adjustments were not material.

3. Investment Management Fees

During the year, Eastspring Investments (Singapore) Limited (the "Investment Manager") is entitled to receive a fee, payable monthly in arrears as a percentage per annum of the average monthly Net Asset Value of the Sub-Fund during the relevant month.

The Management Company collects from the SICAV the amount of fees due to the Investment Manager before paying the latter for the services provided.

For Sub-Funds where the management of which has been sub-delegated from the Investment Manager to the Investment Sub-Managers, a portion of the above Investment Management Fee shall be paid monthly, from the Investment Manager to the Investment Sub-Managers, based on the average NAV.

For the year ended December 31, 2024, the Investment Management Fees per class are up to a maximum of 2% as stated in the Prospectus.

⁽²⁾ Sub-Fund launched, see Note 1.

4. Operating and Servicing Expenses

The Management Company is entitled to receive a fee from the SICAV to cover certain operating and servicing expenses which are incurred throughout the lifetime of the SICAV, its Sub-Funds or Share Classes.

The expenses attributable to the individual Sub-Funds shall be allocated directly to them. Otherwise the expenses shall be allocated among the individual Sub-Funds in proportion to the Net Asset Value of each Sub-Fund.

The Management Company is responsible for paying out of this fee, the fees and expenses payable to the Depositary, the Administration Agent and the Registrar and Transfer Agent or any other appointed entity.

The following list is indicative but not exhaustive of the types of services that the operating and servicing expenses cover:

- Management Company expenses
- Custody, depositary and safekeeping charges
- Transfer, registrar and payment agency fees
- Administration, domiciliary and fund accounting services
- Transaction fees
- Collateral management fees
- Audit fees
- Registration fees
- Taxe d'abonnement – an annual subscription tax in Luxembourg
- Listing fees
- SICAV Directors' fees
- Professional costs (including, without limitation, the fees and disbursements of counsel, consultants, tax and other advisers or third party support services) that may be incurred by the SICAV, the Management Company, the Depositary, the correspondents or the Administration Agent while acting in the interest of the Shareholders
- Documentation costs – preparing, printing, translating and distributing documents including, but not limited to, the Prospectus, Key Information Documents, annual reports, semi-annual reports and other offering documents necessary under local regulations made available directly or through intermediaries to its shareholders in markets in which the Sub-Funds are registered for sale in compliance with local regulations
- Formation expenses for current and new Sub-Funds including initial registration fees may be amortised over a period not exceeding 5 years from the formation date of the Sub-Fund

Notes to the Financial Statements as at December 31, 2024 (continued)

4. Operating and Servicing Expenses (continued)

- Costs associated with the collection, reporting and publication of data about the SICAV, its investments and shareholders as required by laws and regulations from time to time
- Fees charged by third party vendors for publishing fund performance data
- Any industry association fees for the benefit of the SICAV.

To preserve Shareholders from fluctuations in a Sub-Fund's operating and servicing expenses, the SICAV has agreed with the Management Company that the fee charged to cover operating and servicing expenses is normally set, for each Sub-Fund and/or Share Class, at a fixed annual percentage of the net asset value of the relevant Sub-Fund or Share Class. Such fixed annual percentage will correspond to anticipated expenses determined on an arm's length basis by the SICAV and the Management Company. The excess of such expenses above such annual percentage will be borne directly by the Management Company or its affiliates, and equally the Management Company or its affiliates may retain any surplus.

The expenses will be accrued daily and will be payable monthly in arrears.

The actual amount paid for operating and servicing expenses are disclosed in the Combined Statement of Operations and Changes in Net Assets.

For the year ended December 31, 2024 the Operating and Servicing Expenses per Class A, F, G, R and T3 are 0.25% per annum, and Class B, C, D, E, J, Q and Z are 0.10% per annum. The Operating and Servicing Expenses are calculated based on these share classes for the year ended December 31, 2024.

5. Distribution Fee

The Management Company shall receive from the SICAV a fee payable monthly in arrears as a percentage per annum of the average monthly NAV of the Sub-Fund during the relevant month and typically uses some or all of this fee to compensate the Global Distributor for their services in connection with marketing and distributing Class T3 Shares. The maximum distribution fee will be 1.00% as indicated in the Prospectus.

6. Tax Status

The SICAV is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the SICAV. However, it is subject to an annual "taxe d'abonnement" calculated at an annual rate of 0.05% of the net assets, such tax being payable quarterly and calculated on the basis of the net assets of all Sub-Funds at the end of the relevant calendar quarter. This tax is reduced to 0.01% per annum of the net assets relative to shares reserved to institutional investors. The portion of the net assets invested in undertakings for collective investments already subject to the "taxe d'abonnement" are exempt from this tax. Dividends, interest and capital gains on securities held by the SICAV may be subject to non-recoverable withholding tax or capital gains tax in the country of origin.

On 20 December 2023, legislation was enacted in Luxembourg to introduce with effect from 1 January 2024 the OECD's Pillar Two global minimum tax rules and qualified domestic minimum tax, both at a rate of 15 per cent. The SICAV, as an investment entity, is not subject to the Luxembourg domestic minimum tax rules and the global minimum tax rules will not apply to the SICAV because it does not hold a controlling interest in an overseas constituent entity. As such, no material impact to the SICAV's tax charge for the 2024 financial year is expected.

For Austrian residents only:

Some share classes of the SICAV are tax transparent in Austria. The list of share classes considered as tax transparent in Austria is available on the website of the Oesterreichische Kontrollbank AG ("OeKB") at <https://www.profitweb.at> under section "Liste KEST-Meldefonds".

The Deemed Distribution Income (or "DDI") or any distribution payments to investors are likely available no later than seven months after year-end of the fund or rather one day before the payment date of distribution. It will be published on the OeKB website upon availability. If the shares are held by individuals and corporations tax resident in Austria and subject to Austrian withholding tax at an Austrian deposit, Austrian banks deduct the Austrian withholding tax at investor level.

For German residents only:

Investors are advised that the following Sub-Funds: Eastspring Investments – Japan Dynamic Fund, Eastspring Investments – Global Emerging Markets Dynamic Fund, Eastspring Investments – China A Shares Growth Fund, and Eastspring Investments – Global Low Volatility Equity Fund qualify as equity funds ("Aktienfonds") within the meaning of section 2 paragraph 6 of the German Investment Tax Reform Act dated July 8, 2016 (GITA) effective since January 1, 2018.

Notes to the Financial Statements as at December 31, 2024 (continued)

6. Tax Status (continued)

In accordance with the partial tax exemption regime as it is defined in the section 20 paragraph 1 of the GITA, all the above listed Sub-Funds invest and will continuously invest at least 51% of their assets in equity participations in accordance with section 2 paragraph 8 of the GITA.

For Swiss residents only:

Some share classes of the SICAV are tax transparent in Switzerland and are visible on <https://www.ictax.admin.ch>.

The Net Investment Income ("NII") will be published on the website of the Swiss Federal Tax Administration upon availability at <https://www.ictax.admin.ch>.

Investors are responsible for reporting and disclosing the relevant tax figures and distributed income where necessary in their own tax return.

For UK residents only:

The United Kingdom Reporting Fund Status ("UK RFS") has been granted to some share classes of the SICAV.

Details of which funds have UK RFS can be found on the HMRC's website at

<https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>. This list reflects as well the ceased date when the share classes withdraw from the regime.

Reportable income figures are available six months after year end and will be published on the website of the Management Company (www.eastspring.lu) upon availability, as well as on the website <https://www.kpmgreportingfunds.co.uk/>.

Investors are responsible for reporting and disclosing the relevant excess of reportable income and distributed income where necessary in their own tax return.

India Tax

Gains arising from transfer/sale of Indian securities are subject to tax in India ("Capital Gains Tax"). With effect from August 28, 2017, based on current best estimates, SICAV has made a provision of the potential Capital Gains Tax ("CGT") using the applicable tax rates enacted during the financial year. This amount refers to the daily provision calculated which reflects the potential tax to be paid considering the aging of the assets and their current prices on the market. The provision is reflected into the NAV to ensure the potential CGT is accounted for and hence negligible impact on the NAV once CGT arising from the sale of Indian securities will actually be paid. The actual CGT payment will be offset against the daily provision such that the NAV will not be hit by this tax payment. Subject to relevant tax adjustments, the actual CGT assessment may slightly differ from the provision estimates.

China Withholding Income Tax and Value-Added Tax

By investing in China-A shares or People's Republic of China ("PRC") debt securities, the SICAV or the relevant Sub-Fund(s) may be subject to Withholding Income Tax (WHT) and Value-Added Tax (VAT) at the applicable tax rates. From May 7, 2018 until November 6, 2018, WHT & VAT provisions were included in the NAV on interest income received from the PRC debt securities investments. No further provisions were made in view of the 3 years exemption of PRC corporate income tax and Value-Added Tax on bond interest derived by foreign institutional investors from investment in bonds in China bond market. The exemption is from November 7, 2018 to December 31, 2025.

7. Other Expenses

The following expenses are not covered by the above Operating and Servicing Expenses and will be paid by the SICAV out of the assets of each Sub-Fund. Other expenses consist of, but are not limited to the following:

- All taxes (including, without limitation, all income and franchise taxes, tax reclaim costs but excluding the Luxembourg tax d'abonnement), levies, duties or similar charge which may be due on or with respect to the assets and the income of the SICAV;
- All costs (which may, if permissible under European Directive 2014/65/EU on markets in financial instruments (MiFID II), include fees and expenses related to investment research provided to the Investment Manager) of purchasing or selling assets of the SICAV, including but not limited to brokerage charges, subscription and redemption charges, anti-dilution levies, implicit transactions costs, costs associated with execution/trading or settlement platforms, costs associated with derivative use and any losses incurred in connection therewith are for the account of the relevant Sub-Fund;
- The costs of borrowing including interest expenses;
- Expenses for operating hedged Share Classes;

Notes to the Financial Statements as at December 31, 2024 (continued)

7. Other Expenses (continued)

• Any extraordinary expenses, such as litigation (for instance, fees connected with the filing of class action lawsuits), exceptional measures, particularly, legal, business or tax expert appraisals or legal proceedings undertaken to protect Shareholders' interests and all similar charges and expenses.

8. Open Futures Contracts

As at December 31, 2024 the SICAV has the following open futures contracts:

11. Credit Default Swaps

As at December 31, 2024 the SICAV held credit default swaps contracts as follows:

Purchase/Sale of protection	Denomination/ Description	Counterparty	Deal Spread	Expiry Date	Nominal Value	Unrealised (Loss)	Market Value	
US High Investment Grade Bond Fund						USD	USD	USD
Purchase	Fund receives default protection on CDX. NA.IG.40. V1; and pays Fixed 1%	Bank of America Merrill Lynch	1.00%	20/06/2028	3,000,000	(36,760)	(64,215)	
Total						(36,760)	(64,215)	

The SICAV has entered into swap agreements to exchange the return generated by one instrument for the return generated by another investment. In the case of credit default swaps, a series of premiums is paid to the seller of the protection, in return for a payment contingent on a credit event (predefined in the agreement). Changes in the market values of the swaps are recorded as net change in unrealised appreciation/ (depreciation) in the Combined Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the swaps and the interest earned or incurred in relation to the swaps are presented in the Combined Statement of Operations and Changes in Net Assets.

12. Securities Lending

The Management Company for and on behalf of the SICAV has decided to facilitate the technique whereby a Sub-Fund may, in compliance with applicable regulations, enter into securities lending transactions to ensure efficient portfolio management. The securities lending agent on behalf of the Sub-Funds is The Bank of New York Mellon SA/ NV. Subject to the investment restrictions, a Sub-Fund may opportunistically and on a temporary basis enter into securities lending transactions for the purpose of efficient portfolio management to generate additional capital or income. These securities lending transactions may only be entered into with trading counterparties regarded as highly rated global investment banks of any legal form with specific track records and expertise in the types of instruments to be transacted and which have their registered office in one of the OECD countries. In accordance with the SICAV's collateral policy as set out in the Prospectus, loaned securities will be collateralised at a minimum of 102% and up to 110% of their value.

Notes to the Financial Statements as at December 31, 2024 (continued)

12. Securities Lending (continued)

At December 31, 2024, there was securities lending on the Funds listed in the tables below. These tables show the securities lending income earned. This securities lending income earned is net of the lending agent fee.

Fund	Base Currency	Gross Earnings	Direct Costs Paid to The Bank of New York Mellon SA/NV (14%)	Net Earnings to Company (86%)

13. Soft Commission

As far as permitted under the European Directive 2014/65/EU on markets in financial instruments (MiFID II), the Investment Manager and, where applicable, the Investment Sub-Managers of any Sub-Fund (together, the "Relevant Parties") may be entitled to receive and/or enter into soft-dollar commissions/arrangements in respect of the SICAV or the Sub-Funds (as the case may be). The Relevant Parties will comply with applicable regulatory and industry standards on soft-dollars. The soft-dollar commissions/arrangements shall include specific advice as to the advisability of dealing in, or as to the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, the conduct of research or analysis, or analysis of trade execution, and custodial service in relation to the investments managed for clients.

Soft-dollar commissions/arrangements shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

The Relevant Parties shall not accept or enter into soft-dollar commission/arrangements unless (a) such soft-dollar commissions/arrangements would reasonably assist the Relevant Party concerned in the management of the SICAV or the Sub-Funds; (b) the Relevant Party shall ensure at all times that transactions are executed on the best available terms taking into account the relevant market at the time for transactions of the kind and size concerned; and (c) no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

The Relevant Parties do not retain for its/their own account, cash or commission rebates arising out of transactions for the SICAV or any of its Sub-Funds. In addition, the Investment Manager is permitted to use, in respect of each Sub-Fund and under its responsibility and control, the support of one or more investment adviser(s) to advise it with respect to the management of a Sub-Fund's assets and provide investment advisory services (the "Investment Adviser"). The remuneration of any such Investment Adviser is at the expense of the Investment Manager.

Notes to the Financial Statements as at December 31, 2024 (continued)

14. Transactions with Connected Persons

Certain Directors of the SICAV are or may also be officers and/or directors of one or more of the Investment Manager or the Investment Sub-Managers of the SICAV. During the year, none of the Directors of the SICAV held shares in any of the Sub-Funds of the SICAV. Any potential conflict of interest in this respect is being disclosed and monitored under Management Company's conflicts of interest policy, which also applies to SICAV Board members.

The SICAV has entered into, via the Management Company, agreements and arrangements with the Investment Manager and Global Distributor, who is considered a connected person, under which the Investment Management Fees and Distribution Fees are payable.

The SICAV has entered into, via the Management Company, agreements and arrangements with the Management Company and Directors, who are considered connected persons. These agreements and arrangements cover Management Company expenses and SICAV Directors' fees, under which Operating and Servicing Expenses are payable.

The Investment Management Fees that are paid by the SICAV to the Investment Manager, via the Management Company, are detailed in note 3 to the financial statements.

No transactions of the SICAV were effected through a broker who is a connected person of the SICAV, the Investment Manager or the Directors of the SICAV. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms.

15. Transaction Costs

The Sub-Funds incurred transaction costs from January 1, 2024 to December 31, 2024 and these relate to costs incurred for the purchase or sale of transferable securities, derivatives or other eligible assets.

Transaction costs include commission costs, settlement fees, broker fees and depositary transaction fees.

The transaction costs incurred are as follows:

Sub-Funds	Transaction Cost
Asia ESG Bond Fund	USD 4,951
Asia Opportunities Equity Fund	USD 380,480
Asia Pacific Equity Fund	USD 1,564,023
Asia Real Estate Multi Asset Income Fund ⁽¹⁾	USD 7,528

US Investment Grade Bond Fund	USD 7,889
Vietnam Equity Fund	USD 134,199
World Value Equity Fund	USD 564,312

⁽¹⁾ Sub-Fund redeemed, see Note 1.

⁽²⁾ Sub-Fund launched, see Note 1.

Transaction costs are recorded directly in the acquisition cost/sale price of the related assets and are not recorded separately in the Combined Statement of Operations and Change in Net Assets, except when separately identifiable. The transaction cost disclosed in the table above also include the transaction fees disclosed separately (if any) in the Combined Statement of Operations and Change in Net Assets.

16. Dividend and Income Distribution

Distributions of interim dividends are at the discretion of the Board of Directors and there is no guarantee that any distribution will be made and if distributions are made, such distributions are not in any way a forecast, indication or projection of the future or likely performance/distribution of the Sub-Fund(s). The making of any distributions shall not be taken to imply that further distributions will be made. The Board of Directors may also vary the frequency and/or amount of the distributions made.

When distributions are declared and paid out with respect to the Sub-Fund(s), the net assets attributable to the Shares will stand reduced by an amount equivalent to the product of the number of Shares outstanding and distribution amount declared per Share. The distribution amount may be sourced from gross income, net realised capital gains and from capital from time to time. When dividends are paid out of gross income, all or part of the Sub-Fund's fees and expenses are effectively charged to the capital.

The Board of Directors may amend the distribution policy and by giving not less than one month's notice to investors. The Board of Directors may in future review the distribution amount depending on prevailing market conditions, dividend payout of the underlying stocks and dividend policy of the SICAV. Distribution payments shall, subject to determination by the Directors, be made out of either (a) income; or (b) net capital gains; or (c) capital of the Fund or a combination of (a) and/or (b) and/or (c).

For the launch of a new Class of Share, the first distribution will usually be declared after the Class of Share has been launched for a full year i.e. a full calendar month for a monthly distributing Class of Share, a full quarter for a quarterly distributing Class of Share.

For capital distributing Classes of Shares with subscripts D followed by C1, C2 or C3, the Classes of Shares may declare a stable rate or amount of distribution. The Board of Directors may determine if and to what extent dividends paid include realised capital gains and/or capital.

The Board of Directors may at its discretion pay dividends out of the capital of a Sub-Fund or pay dividends out of gross income while charging/paying all or part of a Sub-Fund's fees and expenses to/out of the capital of the relevant Sub-Fund, resulting in an increase in distributable income for the payment of dividends by the Sub-Fund. Therefore, the Sub-Fund may effectively pay dividends out of capital.

Notes to the Financial Statements as at December 31, 2024 (continued)

16. Dividend and Income Distribution (continued)

Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of a Sub-Fund's capital may result in an immediate reduction of the Net Asset Value per share. However, the payment of distributions will never result in the net assets of the SICAV falling below the legal minimum of €1,250,000.

An income equalisation amount may be calculated so that the distribution of dividends corresponds to the actual entitlement.

17. Cash held in closed Sub-Funds at year-end

The following sub-funds have some residual cash due to over accrued (liquidation) expenses. These amounts will be combined with the anticipated withholding tax reclaims (including payment of reclaim fees) and then returned to the investors. The timing and exact amount of the withholding tax reclaims is outside of the control of the Company, so an exact date of the full closure of the following sub-funds cannot yet be provided.

Sub-Funds	Cash Balance at December 31, 2024
Asia Real Estate Multi Asset Income Fund	USD 71,129
Asian Infrastructure Equity Fund	USD 430
Asian Property Securities Fund	USD 16
Asian Smaller Companies Fund	USD 205
Asian Total Return Bond Fund	USD 37
Capital Reserve Fund	USD 11,069
Developed and Emerging Asia Equity Fund	USD 4,826
Emerging Europe, Middle East and Africa Dynamic Fund	USD 4
Emerging Europe, Middle East and Africa (ex South Africa) Dynamic Fund	USD 27,587
Malaysia Equity Fund	USD 11,373
Thailand Equity Fund	USD 15,824
US Strategic Income Bond Fund	USD (187)

18. Illiquid positions held in closed Sub-Funds at year-end

Asia Real Estate Multi Asset Income Fund, Asian Property Securities Fund and Emerging Europe, Middle East & Africa Dynamic Fund each hold an illiquid position that remain unsold at Custody at year end. There are no public markets available to sell these securities.

19. Subsequent events

A new Prospectus was issued in February 2025.

Effective 30 April 2025, Eastspring Investments - Asia ESG Bond Fund will be renamed to Eastspring Investments - Asia Select Bond Fund, and Eastspring Investments - CICC China USD ESG Bond Fund will be renamed to CICC China USD Select Bond Fund.

Appendix 4 (Unaudited) Remuneration Policy

Eastspring Investments (Luxembourg) S.A. has implemented a remuneration policy pursuant to Directive 2014/91/EU of the European Parliament and of the Council of July 23, 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (“UCITS”) as regards to depositary functions, remuneration policies and sanctions (the “UCITS V Directive”), which was transposed into Luxembourg law on June 1, 2016 by way of the law of May 10, 2016. The remuneration policy, which has been approved by the Management Company’s Board of Directors, includes measures to avoid conflicts of interest, promotes sound and effective risk management, does not encourage risk taking which is inconsistent with the risk profile and articles of incorporation of the SICAV and does not impair compliance with the Management Company’s duty to act in the best interest of the SICAV’s shareholders.

The remuneration policy, which describes, amongst others, how remuneration and benefits are determined, is available at www.eastspring.com/lu or on request from the Management Company. As at the end of the SICAV’s financial year on December 31, 2024, the aggregate amount of remuneration broken down as follows:

	Number of beneficiaries	Total remuneration paid (USD)	Fixed remuneration paid (USD)	Variable remuneration paid (USD)	Amount paid directly by the UCITS itself, including any performance fee
Total remuneration paid by the Management Company and by the UCITS during the financial year	15	4,477,889	3,616,671	861,217	0
Total remuneration to staff of the investment manager’s sub-managers who have the ability to materially affect the risk profile of the Management Company or its funds, including individuals who although not directly employed by the Management Company, are assigned by their employee to carry out services directly for the Management Company during the financial year.	28	5,175,346	1,971,847	3,203,499	0

The benefits summarised in the above table have been calculated in the following way:

Total remuneration has been calculated on the following basis.

- The remuneration of the Luxembourg-based Staff, who are Management and Control functions, has been pro-rated based on the assets under management of the Management Company as of December 31, 2024.
- The remuneration of the UK-based Staff is pro-rated based upon the clients invested in the SICAV.
- Remuneration includes the following benefits: discretionary bonus, long-term incentive plan, contribution to pension plan and lunch vouchers.
- Variable remuneration is calculated based on accrued amounts or payments made in 2024.

The outcome of our annual review as required by the UCITS Law is satisfactory. We have not identified any significant findings in the risk, compliance and audit reviews, which may have to be considered by the Board.

There have been the following changes to the remuneration policy:

- Management Company’s Staff roles are reviewed to take into account new joiners (if any) and conclude on Identified Staff* accordingly.
- Further to ESMA Guidelines on sound remuneration principles as well as the ESMA Q&As on the application of remuneration-related disclosure requirements under Article 69(3)(a) of the UCITS Directive to the staff of the delegate of a management company to whom investment management functions have been delegated, Eastspring Investments (Luxembourg) SA wishes to provide the investors of Eastspring Investments SICAV with the relevant details as appropriate.

Appendix 4 (Unaudited) (continued)

Remuneration Policy (continued)

In that context, the present annex includes not only the disclosures on the remuneration of the Management Company itself, but also disclosures on the Management Company's delegated investment manager (Eastspring Investments (Singapore) Limited) and sub-managers. The complete list of sub-managers is available at the latest Prospectus of the SICAV (Chapter 1 – "Principle Features of Eastspring investments" – Section 1.3 "Investment Manager and sub-managers"). The disclosed amounts are provided on a pro-rata basis, as they are related only to the investment management of the SICAV at the level of the investment manager and sub managers and strictly concern the relevant staff of each entity. Each delegated entity has applied its proper methodology for the determination of number of beneficiaries (shown at the above table) based on its structure and organisation. The above principle applies to both fixed and variable remuneration disclosures.

Further details on the Remuneration policy of Eastspring Investments (Luxembourg) SA, may be available under request at the Management Company's registered office at 26, boulevard Royal, L-2449 Luxembourg.

* categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls into the remuneration bracket of senior management and risk takers, whose professional activities have a material impact on the management company's risk profile or the risk profiles of the UCITS that it manages and categories of staff of the entity(ies) to which investment management activities have been delegated by the management company, whose professional activities have a material impact on the risk profiles of the UCITS that the management company manages.

Appendix 5 (unaudited)

Securities Financing Transactions Regulation (SFTR)

The Investment Manager is required to make available an Annual Report for the financial year for each of its Sub-Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse of collateral (the "Regulation"). The disclosures set out below are included to meet the requirements of the Regulation.

Securities lending

During the year ended and as at December 31, 2024 the SICAV was engaged in securities lending as type of securities financing transaction in scope of the Regulation.

Please refer to Note 12 Securities Lending for details on revenue arising from security lending for the year ended December 31, 2024 together with direct and indirect operational costs/fees incurred.

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, The Bank of New York Mellon SA/NV, and separately between the Securities Lending Agent and the approved borrowing counterparty.

The following table details the aggregate value of securities on loan by Sub-Fund as a proportion of total lendable assets and each Sub-Fund's NAV as at December 31, 2024:

Sub-Fund	Currency	Aggregate value of securities on loan	% of Total lendable assets	% of Net asset value
Asia ESG Bond Fund	USD	16,633,310	9.65	3.09
Asia Opportunities Equity Fund	USD	1,918,479	2.22	0.94
Asia Pacific Equity Fund	USD	2,364,283	0.78	1.88

The collaterals are held in the name of the Securities Lending Agent to the order of its clients; the actual segregation to underlying client level is done with the Securities Lending Agent's books and records. The collaterals are held on account at the tri-party agent, who acts as a settlement and collection service for securities and collateral between the lender and the borrower. The tri-party agents used but not limited to, The Bank of New York Mellon, London Branch, JPMorgan Chase Bank N.A and Euroclear Bank.

The following tables provide an analysis of the amounts held at each collateral agent as non-cash collateral received in respect of securities lending transactions as at December 31, 2024:

Sub-Fund	Collateral agent	Aggregate value of collateral held

The type and quality of collateral obtained in respect of securities lending transactions are as follows:

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

The following tables provide an analysis of the type and quality of non-cash collateral received in respect of securities lending transactions as at December 31, 2024:

Sub-Fund	Type of Collateral	Quality of Collateral	Aggregate value of collateral held

As at December 31, 2024, none of the collateral assets that was received was reused or reinvested.

All collateral received by the Sub-Funds is held in segregated accounts.

SFDR periodic disclosure (unaudited)

Section I. General Remarks

Sustainable finance usually refers to the process of making investment decisions by considering environmental, social and governance factors (such as employee matters, respect for human rights, anti-corruption and anti-bribery factors) (the “**ESG factors**”). There is no universal definition of what is meant by ESG factors. However, for the purpose of this Appendix the following shall apply:

- Environmental factor: refers to the direct or indirect impact of the activity of an issuer on the environment. It takes into account considerations relating to, among other things, energy consumption and efficiency, water and waste treatment, anti-pollution measures and resource management.
- Social factor: relates to the direct or indirect impact of an issuer’s activity on stakeholders, with reference to universal values (in particular human rights, international labour standards, client welfare, anti-corruption, etc.).
- Governance factor: refers to the sound and durable governance of the issuer and target entities, including inter alia independence and supervision of the boards, transparency, remuneration, risk management, exercise of voting rights, shareholder’s and stakeholders’ rights and interests, internal structure, measures taken against corruption and mechanisms for whistleblowing.

The above considerations are not exhaustive, constitute examples and might evolve over time, as the Investment Manager attempts to integrate ESG factors and sustainability risks in the investment decisions making process of the below mentioned Sub-Funds.

The Regulation (EU) 2019/2088 of the European Parliament and of the Council of November 27, 2019 on sustainability-related disclosures in the financial services sector (the “**SFDR**”) lays down harmonised rules on transparency with regard to the integration of sustainability risks and the consideration of adverse sustainability impacts in their processes and the provision of sustainability-related information with respect to financial products. Sustainability risks mean, as defined in the SFDR and for the purpose of this Appendix, an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of a Sub-Fund’s investment.

The Sub-Funds listed in the overleaf table are categorized under SFDR Article 8. These Sub-Funds do promote environmental characteristics but do not have an environmental objective as defined by the EU Taxonomy.

The Sub-Funds listed in the overleaf table seek to promote environmental characteristics, including but not limited to, factors affecting climate change (carbon emissions, pollution, waste management, energy efficiency, sustainable production practices), and resource management; corporate governance issues such as board independence, alignment of interests to goals besides shareholder profits and gender diversity; and social objectives including diversity and inclusion, health and wellbeing, safety and security, fair labour practices and more equal access to financial services. The Sub-Funds listed in the below table may seek to promote other ESG Characteristics not included in the list above, if they are considered both financially material and/or support the international norms and standards as defined by the Sustainable Finance Disclosure Regulation (SFDR) of the EU (2019/2088).

The periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are relating to the Sub-Funds listed above are outlined overleaf.

The Sub-Funds listed in the below table are categorized under SFDR Article 6. For the purpose of the Taxonomy Regulation, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

European Investment Grade Bond Fund	Pan European Fund
Global Dynamic Growth Equity Fund	Vietnam Equity Fund

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asia ESG Bond Fund*

Legal entity identifier:

549300HC2WEPDLKQ9837

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

It made **sustainable investments with an environmental objective**: __%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: __%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 21.41% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.78% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data. The ESG integration process resulted in the assignment of an overall internal ESG risk and preparedness ranking. Issuers assessed to have high ESG risk and low ESG preparedness were excluded from the investment universe of this sub-fund.

*The name of the sub-fund changed to Asia Select Bond Fund on February 28th, 2025.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens

- i) Excluded companies that are involved in thermal coal and oil sands extraction (PAI 4)
- ii) Excluded companies that are not members of the Round Table for Sustainable Palm Oil (RSPO),
- iii) Excluded sovereign bond securities issued by countries on the UN Sanctions list
- iv) Excluded companies with UNGC human rights violations and (PAI 10)
- v) Excluded companies rated "CCC" by MSCI.

● **How did the sustainability indicators perform?**

In accordance with the Prospectus, the fund's weighted average ESG score was higher than its reference index's while the fund's carbon footprint metrics were at least 30% lower than the reference's index. In addition, the fund complied with the exclusions detailed in its Prospectus, further details below.

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.78%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety. The ESG integration process results in the assignment of an overall internal ESG risk and preparedness ranking of high, medium and low on each dimension.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens: the following ESG Exclusions also applied

- i) Companies that are involved in thermal coal and oil sands extraction
- ii) Companies that are not members of the Round Table for Sustainable Palm Oil (RSPO),
- iii) Sovereign bond securities issued by countries on the UN Sanctions list,
- iv) Companies with UNGC human rights violations, and
- v) Companies rated "CCC".

● ***...and compared to previous periods?***

Similar to the previous period the fund's weighted average ESG score was higher than its reference index while the carbon footprint metrics were at least 30% lower than the reference index. All the investments in the fund during the period were in line with the exclusions as these are detailed in the latest prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 90.22%

2023: 94.71%

2024: 97.78%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

3) Additional Screens:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives to which the sub-fund's sustainable investments contributed to were climate change mitigation and climate change adaptation.

The sustainable investments focused on ESG issues as further described under the Prospectus question "What environmental and/or social characteristics are promoted by this financial product?" that are material with regards to the issuer's credit fundamentals, i.e. those that have current or potential future impact on its operating or financial performance (through fines and compensations, operational disruption, reputational loss, reduced access to financing etc), its risk of default, and the valuation of the bonds it issues).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager took into account relevant principal adverse impact indicators to assess and estimate the impact of the sustainable investments on environmental or social objectives (“DNSH test”). The Investment Manager used a combination of exclusionary screening and monitoring to ensure that portfolio companies adhere to the Do No Significant Harm principle. The Sub-Fund adhered to an extensive list of exclusion criteria to exclude investments in companies that are involved in controversial behaviour and controversial activities, including controversial weapons, chemical weapons, biological weapons, nuclear weapons, certain conventional weapons, tobacco, fossil fuel, fossil fuel based power generation, nuclear power generation, severe violations of the UN Global Compact.

How were the indicators for adverse impacts on sustainability factors taken into account?

As an integral part of the investment process, the Investment Manager shall consider relevant Principal Adverse Impact (PAI) indicators on the Sub-Fund’s sustainable investments, including all mandatory PAI indicators and certain relevant optional indicators. List of indicators that were considered is available under the latest Prospectus.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager used MSCI ESG Controversies research conclusions to support their ESG considerations as part of their investment process. A combination of exclusionary screening and monitoring of ESG controversies was implemented to avoid and/or identify companies which were involved in controversial practices that may constitute a breach of the UN Global Compact, the UN Guiding Principles on Business and Human Rights, the ILO’s Broader Sets of Standards and Fundamental Principles and Rights at Work as well as OECD Guidelines for Multinational Enterprises.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal; that are involved in thermal coal and oil sands extraction
- iii) PAI 10: No investment in companies with UNGC human rights violations

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

There is 21.41% in sustainability-related investment.

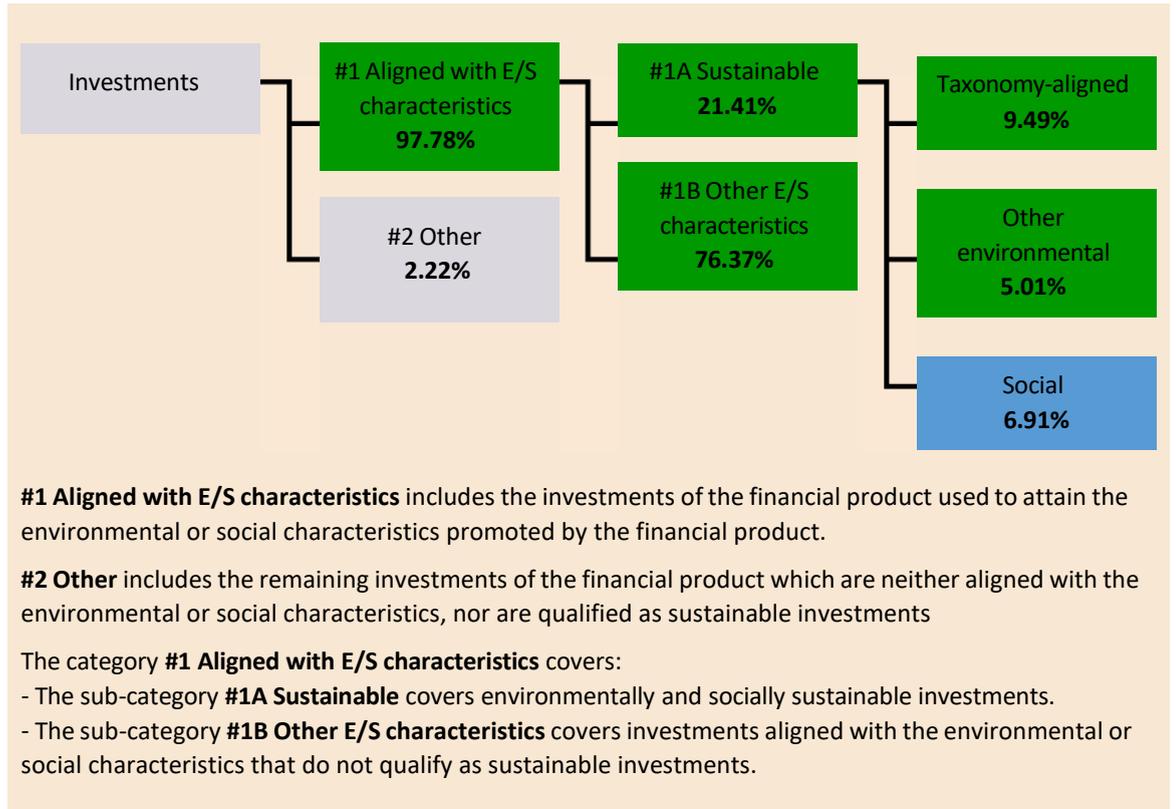

Asset

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
Unclassified	Unclassified	22.18%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	19.33%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	8.93%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

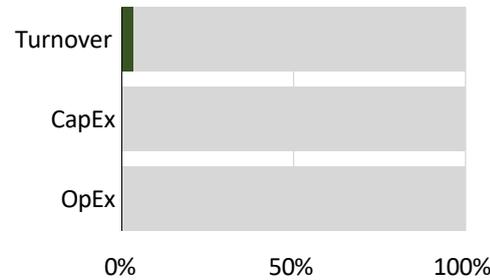

The Investment Manager allocated 9.49 % of the assets of the Sub-Fund to taxonomy aligned sustainable investments that address climate change mitigation and/or climate change adaptation objective while remaining consistent to their investment process.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

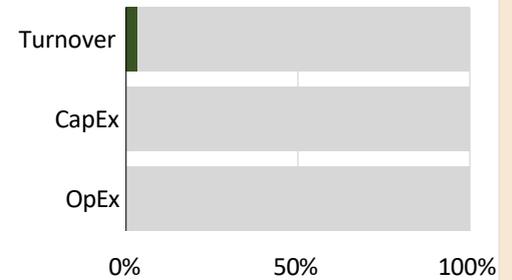

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 3.4183%
- Non Taxonomy-aligned : 96.5817%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 3.4183%
- Non Taxonomy-aligned : 96.5817%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

1) Percentage of investments that were aligned with the EU Taxonomy:

2022: 13.48%

2023: 14.74%

2024: 9.49%

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

5.01% of the sub-fund's sustainable investments with environmental objective were not in line with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

The share of socially sustainable investments was 6.91%

● **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data. The ESG integration process resulted in the assignment of an overall internal ESG risk and preparedness ranking. Issuers assessed to have high ESG risk and low ESG preparedness were excluded from the investment universe of this sub-fund.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens

- i) Excluded companies that are involved in thermal coal and oil sands extraction
- ii) Excluded companies that are not members of the Round Table for Sustainable Palm Oil (RSPO)
- iii) Excluded sovereign bond securities issued by countries on the UN Sanctions list
- iv) Excluded companies with UNGC human rights violations and
- v) Excluded companies rated "CCC" by MSCI.

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

- ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

- ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.57% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.57%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 96.38%

2023: 96.74%

2024: 97.57%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

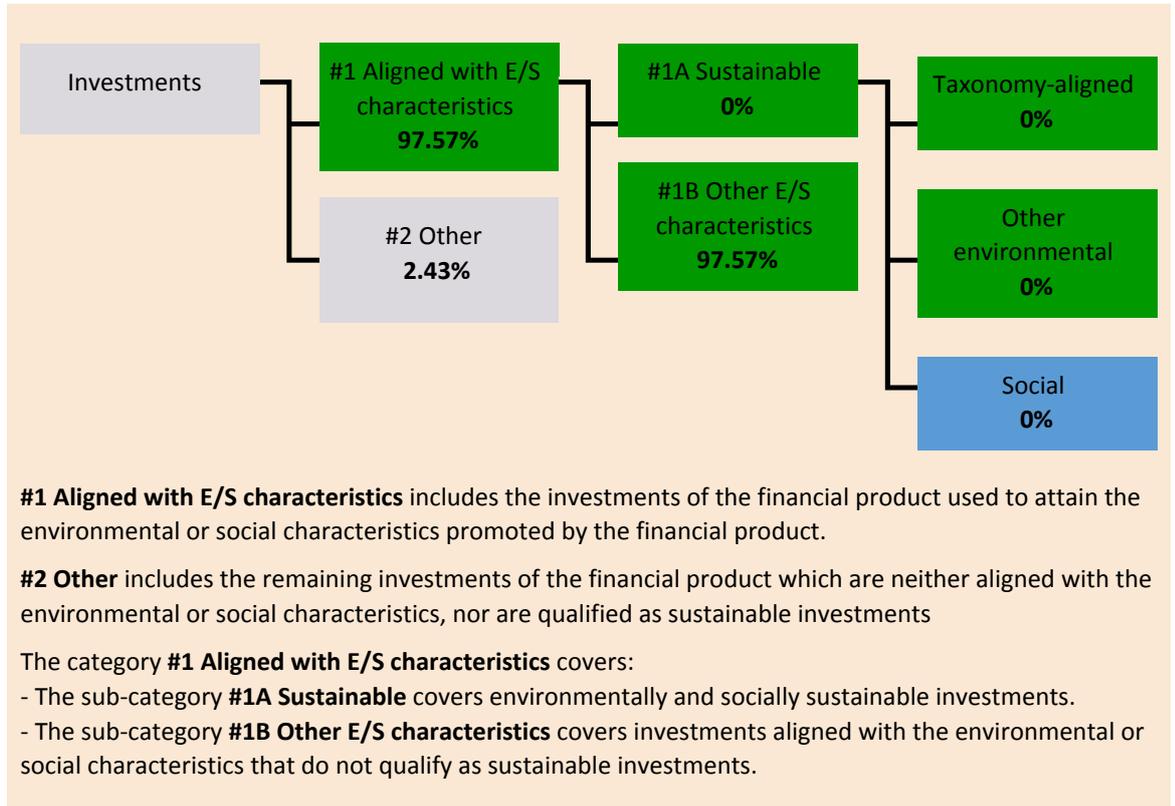

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
MANUFACTURING	Manufacture of electronic components and boards	17.42%
Unclassified	Unclassified	15.75%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	10.38%
INFORMATION AND COMMUNICATION	Other information service activities	7.16%
MANUFACTURING	Manufacture of communication equipment	4.82%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	4.29%
MANUFACTURING	Manufacture of motor vehicles	4.28%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	2.92%
INFORMATION AND COMMUNICATION	Computer programming, consultancy and related activities	2.36%
MINING AND QUARRYING	Extraction of crude petroleum	2.31%
MANUFACTURING	Manufacture of other special-purpose machinery	2.25%
MANUFACTURING	Manufacture of refined petroleum products	2.04%
MANUFACTURING	Manufacture of batteries and accumulators	2.00%
INFORMATION AND COMMUNICATION	Software publishing	1.99%
Transporting and storage	Passenger air transport	1.90%
HUMAN HEALTH AND SOCIAL WORK ACTIVITIES	Hospital activities	1.85%
MANUFACTURING	Manufacture of other general-purpose machinery	1.68%
MANUFACTURING	Manufacture of irradiation, electromedical and electrotherapeutic equipment	1.56%
MANUFACTURING	Manufacture of computers and peripheral equipment	1.53%
MANUFACTURING	Manufacture of transport equipment n.e.c.	1.39%
INFORMATION AND COMMUNICATION	Motion picture, video and television programme activities	1.36%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Renting and leasing of other machinery, equipment and tangible goods	1.33%
MANUFACTURING	Manufacture of general-purpose machinery	1.32%
MANUFACTURING	Manufacture of pharmaceutical preparations	1.14%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	1.00%
ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	Electric power generation, transmission and distribution	0.67%
MANUFACTURING	Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	0.65%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Travel agency and tour operator activities	0.52%
MANUFACTURING	Manufacture of bakery and farinaceous products	0.50%
MANUFACTURING	Manufacture of parts and accessories for motor vehicles	0.49%
MANUFACTURING	Manufacture of knitted and crocheted apparel	0.46%
MANUFACTURING	Manufacture of glass and glass products	0.31%
MANUFACTURING	Repair of fabricated metal products, machinery and equipment	0.26%
MANUFACTURING	Manufacture of plastics products	0.08%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

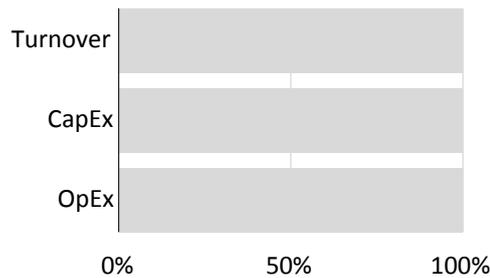

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

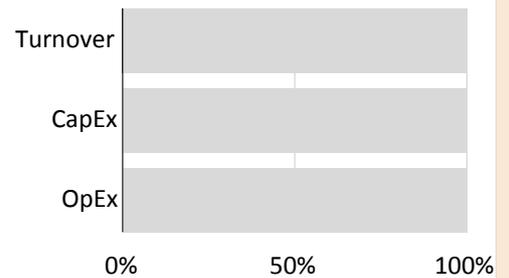

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asia Pacific Equity Fund

Legal entity identifier:

549300SX9M2AHKA18K27

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

98.07% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 98.07%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.56%

2023: 98.34%

2024: 98.07%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

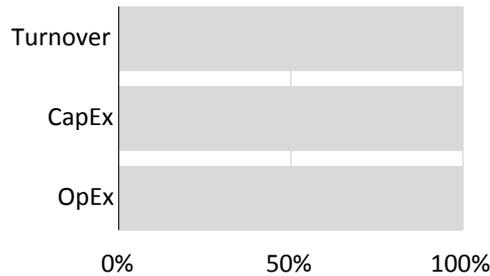

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

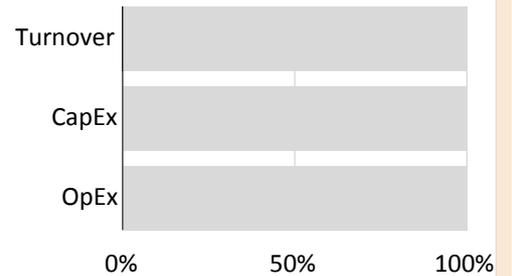

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

96.82% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 96.82%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

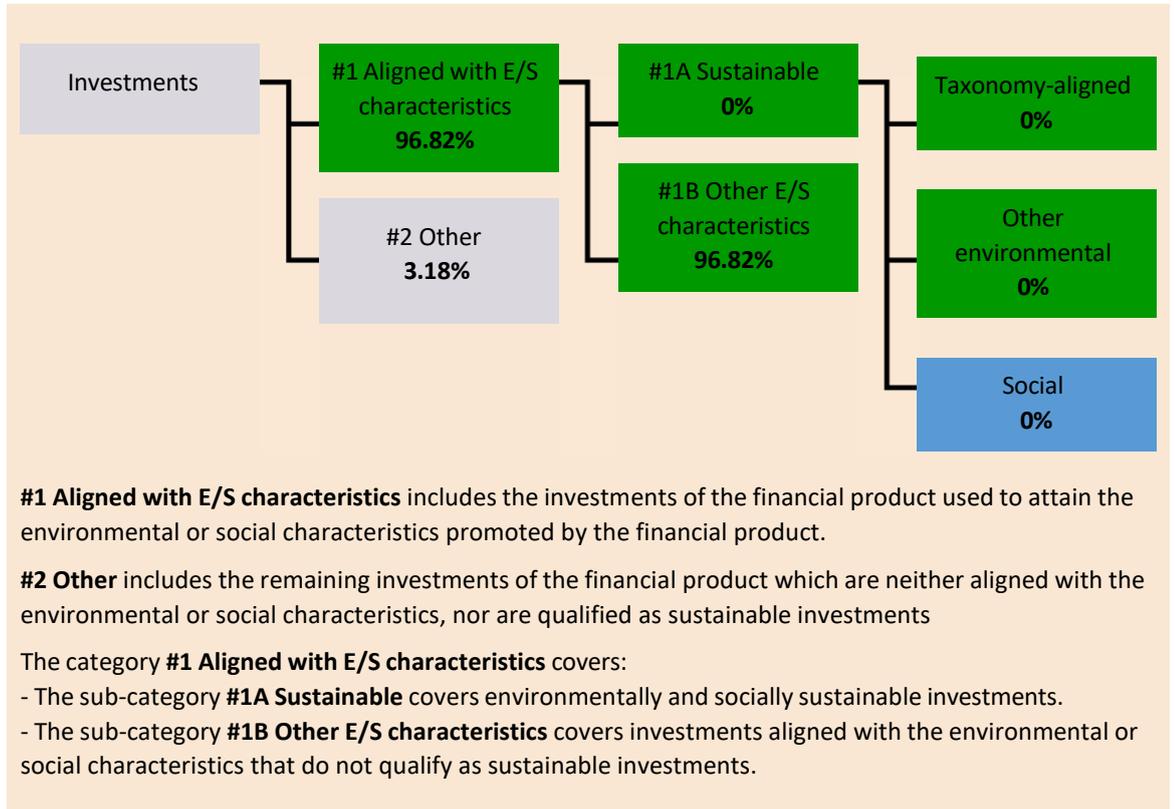

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

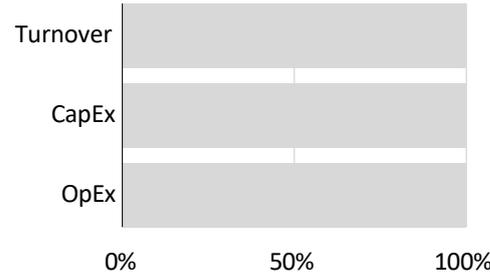

Yes

In fossil gas In nuclear energy

No

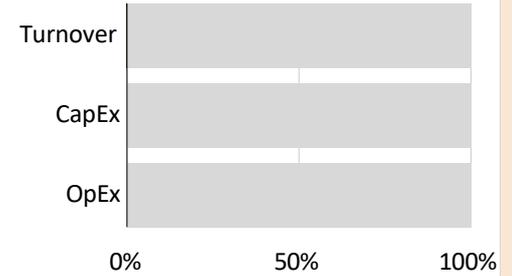

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology (“GICS”): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asian Dynamic Fund

Legal entity identifier:

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

96.44% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 96.44%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 96.88%

2023: 97.96%

2024: 96.44%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.47%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.67%

2023: 97.86%

2024: 97.47%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

MANUFACTURING	Manufacture of knitted and crocheted apparel	0.21%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

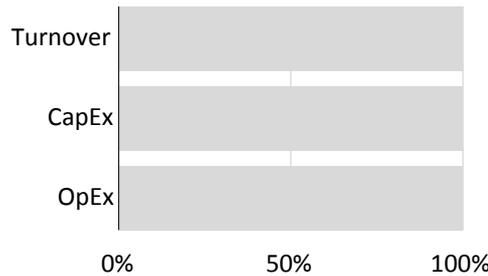

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

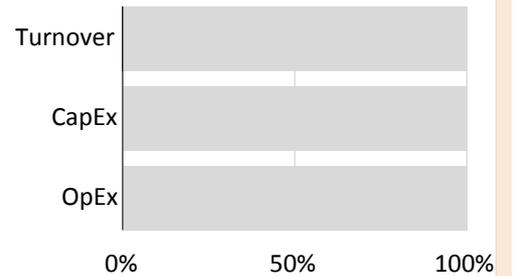

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asian Equity Income Fund

Legal entity identifier:

549300XJC0LJG7Y4O255

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

95.36% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics -95.36%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 96.24%

2023: 97.10%

2024: 95.36%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:
Eastspring Investments – Asian High Yield Bond Fund

Legal entity identifier:
549300N03E23HGSY7R08

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

It made **sustainable investments with an environmental objective**: __%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: __%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.73% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.73%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 99.19%

2023: 95.37%

2024: 97.73%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

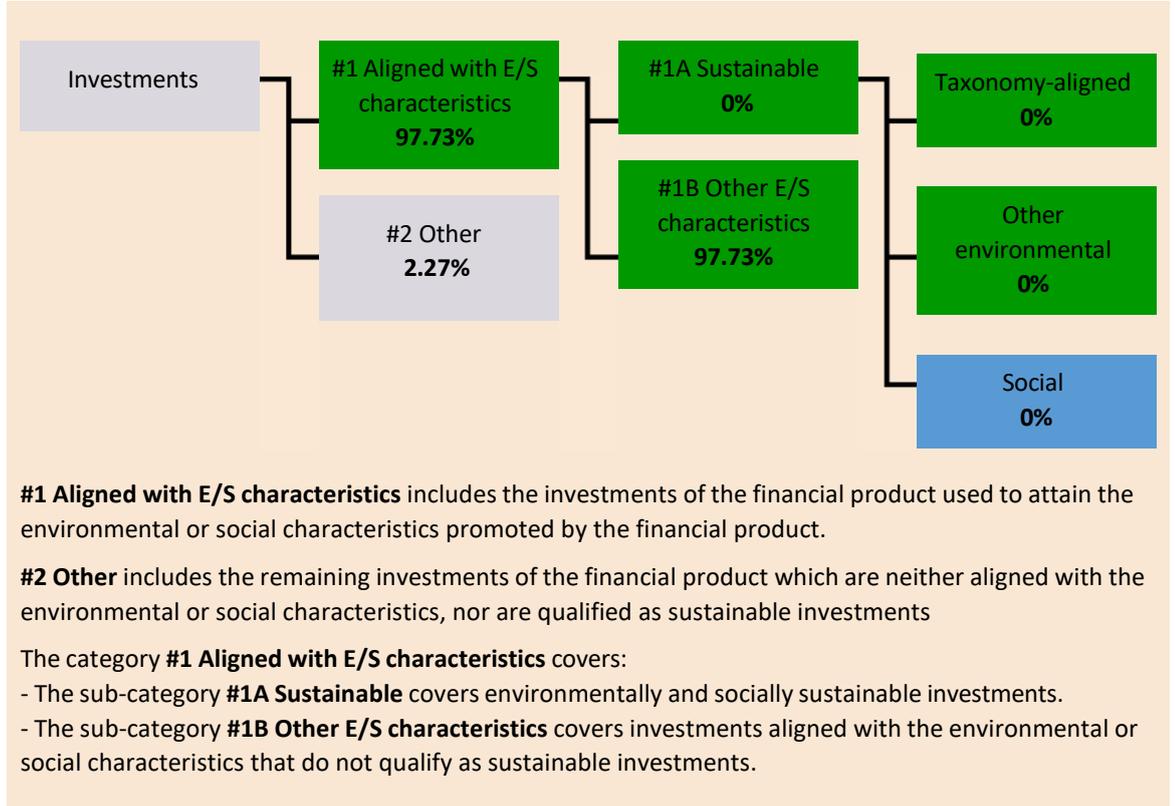

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	26.06%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

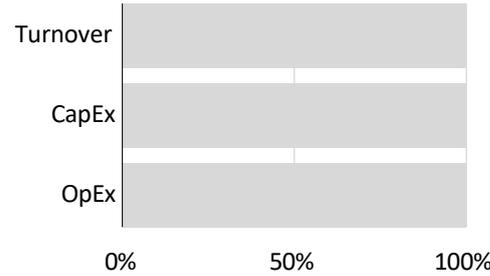

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

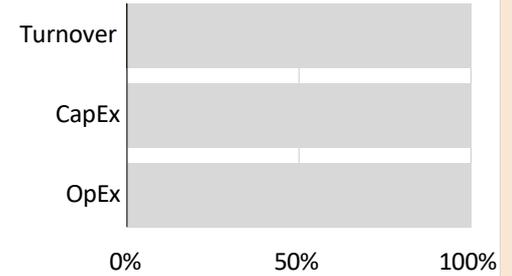

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds which may not be aligned with E/S characteristics. Environmental and social safeguards were not considered for their inclusion, or they were investments that were not assessed for alignment with the E/S characteristics described for this sub-fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

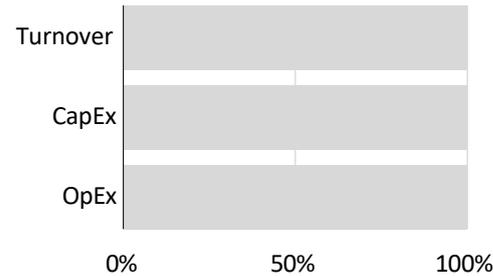

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

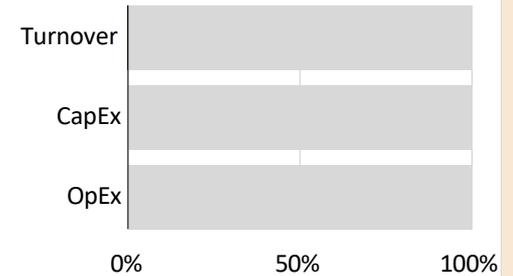

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The asset allocation for the Sub-Fund is not directly aligned with environmental and social characteristics. While taking into account material ESG factors into their assessment of each investment, the portfolio manager’s discipline seeks to overweight asset classes, sectors and securities that are considered to have superior relative value versus other comparable opportunities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asian Local Bond Fund

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

99.01% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 99.01%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 98.88%

2023: 98.35%

2024: 99.01%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

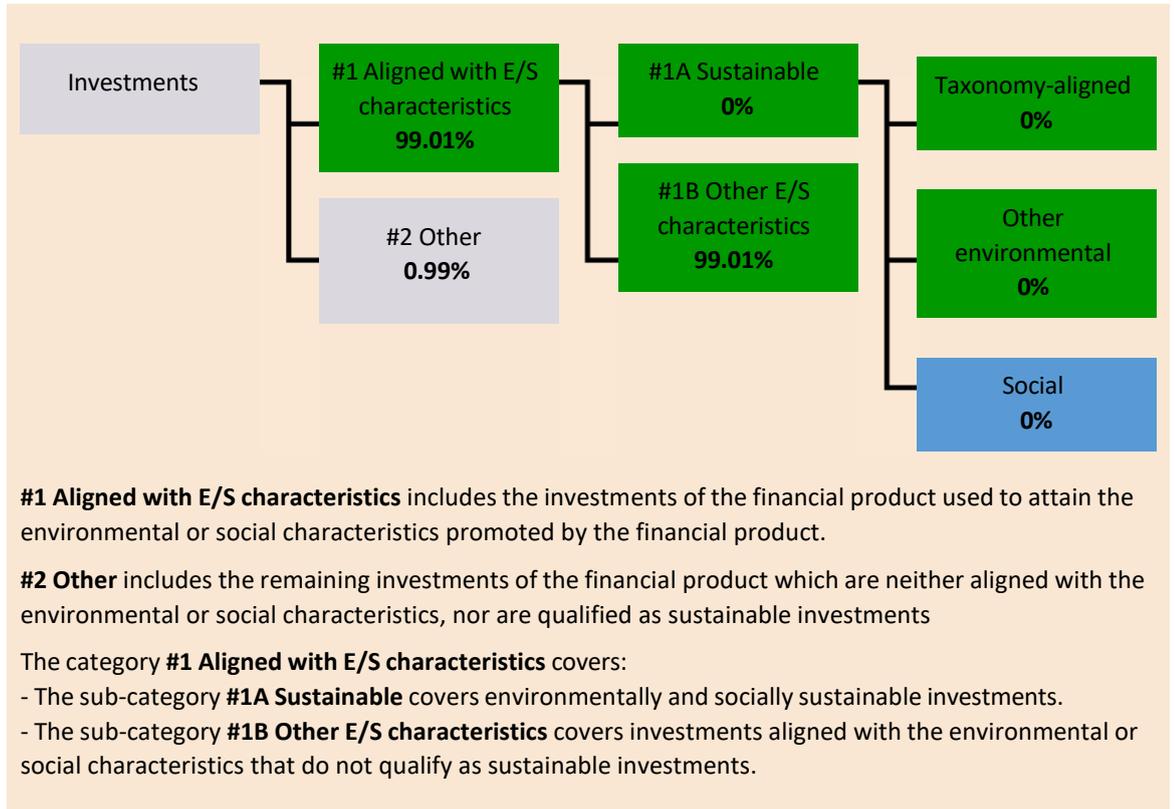

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

● ***In which economic sectors were the investments made?***

Sector	Sub Sector	% Assets
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY	Administration of the State and the economic and social policy of the community	61.11%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	8.93%
Unclassified	Unclassified	6.47%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	4.91%
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	4.41%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	4.13%

REAL ESTATE ACTIVITIES	Buying and selling of own real estate	0.13%
ACCOMMODATION AND FOOD SERVICE ACTIVITIES	Hotels and similar accommodation	0.13%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

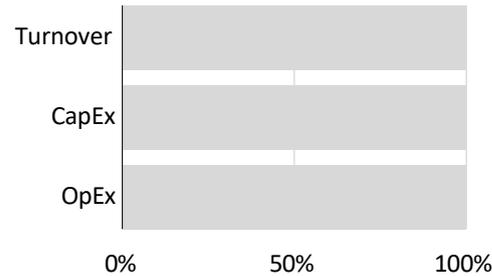

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

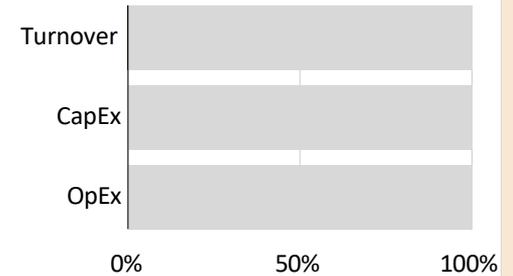

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology (“GICS”): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

98.64% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics 98.64% - Quantifiable ESG metrics that were incorporated within the sub-fund's research program are generated by MSCI and include datapoints corresponding to E, S and G key issues such as company ESG ratings, board quality scores, occupational health and safety scores, and greenhouse gas emissions intensity.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

CONSTRUCTION	Construction of residential and non-residential buildings	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

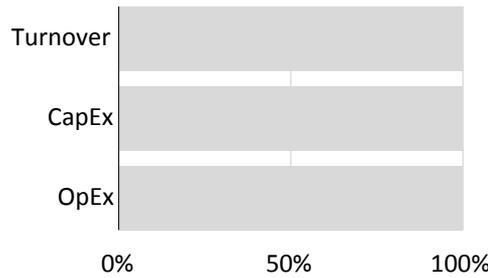

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

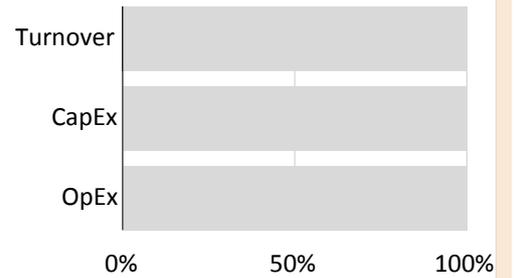

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not Applicable.

● ***How did this financial product perform compared with the broad market index?***

Not Applicable.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Asian Multi Factor Equity Fund

Legal entity identifier:

5493006BASILHY1ST494

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

99.19% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

- ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.
- ESG Exclusions were applied on
 - Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics 99.19% - Quantifiable ESG metrics that were incorporated within the sub-fund's research program are generated by MSCI and include datapoints corresponding to E, S and G key issues such as company ESG ratings, board quality scores, occupational health and safety scores, and greenhouse gas emissions intensity.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 99.65%

2023: 99.07%

2024: 91.19%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
TAIWAN SEMICONDUCT TWD 10	MANUFACTURING	9.55%	Taiwan (Province of China)
TENCENT HOLDI HKD 0.00002	INFORMATION AND COMMUNICATION	6.78%	China

NATCO PHARMA LTD INR 2	MANUFACTURING	1.28%	India

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

allocation describes the share of investments in specific assets.

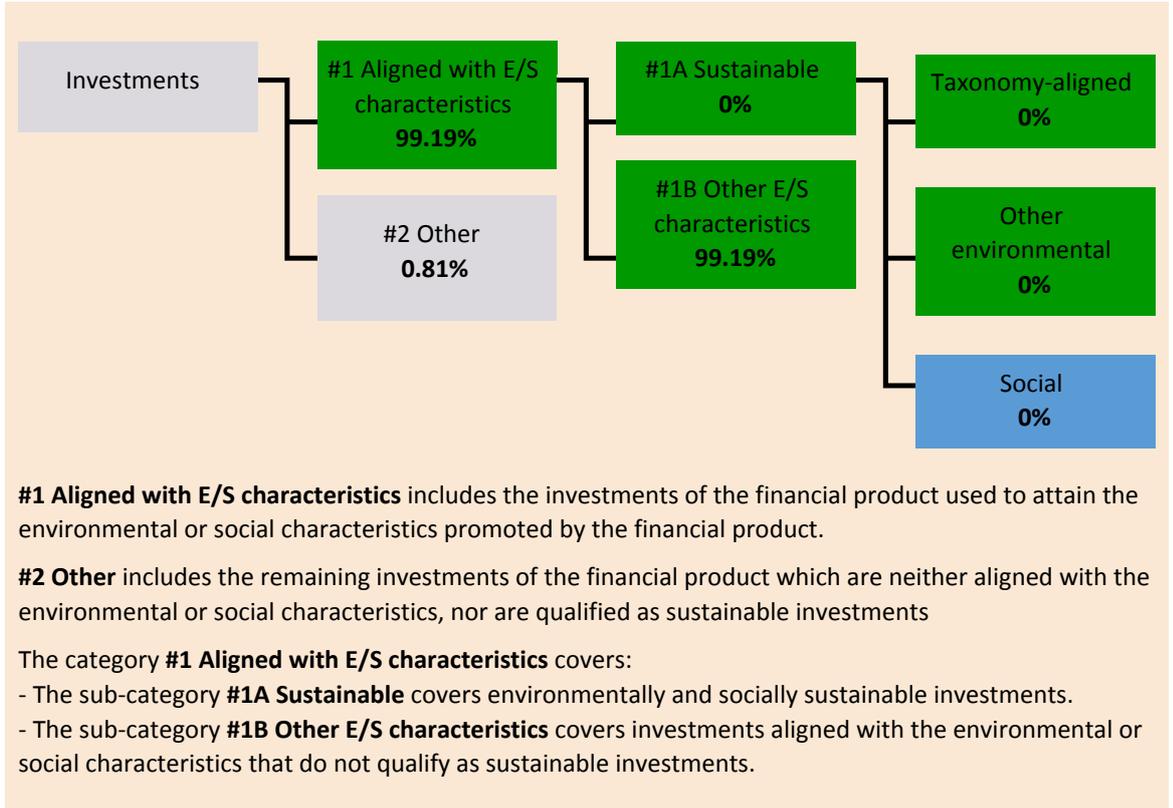

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital**

expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
MANUFACTURING	Manufacture of electronic components and boards	17.46%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	9.41%
INFORMATION AND COMMUNICATION	Other information service activities	6.98%
MANUFACTURING	Manufacture of communication equipment	6.77%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	6.43%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	5.88%
Unclassified	Unclassified	4.23%
MANUFACTURING	Manufacture of motor vehicles	4.21%
MANUFACTURING	Manufacture of pharmaceutical preparations	3.39%
Transporting and storage	Passenger air transport	3.17%
MANUFACTURING	Manufacture of refined petroleum products	2.54%
MANUFACTURING	Manufacture of beverages	2.03%
INFORMATION AND COMMUNICATION	Computer programming, consultancy and related activities	1.88%
CONSTRUCTION	Construction of residential and non-residential buildings	1.53%
MANUFACTURING	Manufacture of basic precious and other non-ferrous metals	1.48%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	1.43%
FINANCIAL AND INSURANCE ACTIVITIES	Activities auxiliary to financial services, except insurance and pension funding	1.40%
ACCOMMODATION AND FOOD SERVICE ACTIVITIES	Hotels and similar accommodation	1.18%
ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	Manufacture of gas; distribution of gaseous fuels through mains	1.17%
MANUFACTURING	Manufacture of optical instruments and photographic equipment	1.12%
INFORMATION AND COMMUNICATION	Wireless telecommunications activities	0.97%
Transporting and storage	Sea and coastal freight water transport	0.93%
MANUFACTURING	Manufacture of other special-purpose machinery	0.87%
REAL ESTATE ACTIVITIES	Renting and operating of own or leased real estate	0.75%

CONSTRUCTION	Construction of utility projects	0.02%
MANUFACTURING	Manufacturing n.e.c.	0.02%
MANUFACTURING	Manufacture of computers and peripheral equipment	0.01%
INFORMATION AND COMMUNICATION	Sound recording and music publishing activities	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

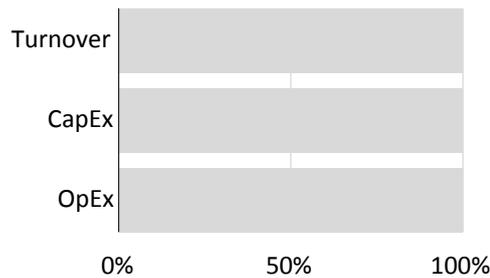

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

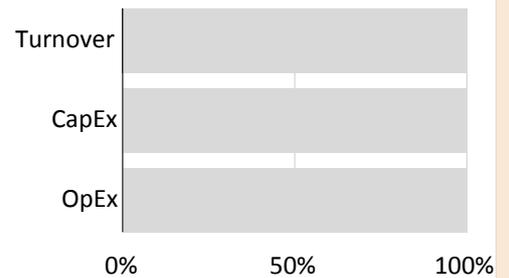

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

● ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

● ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – China A Shares Growth Fund

Legal entity identifier:

549300WUZPQOX78MOL21

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **X No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.59% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.59%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 98.27%

2023: 98.18%

2024: 97.59%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

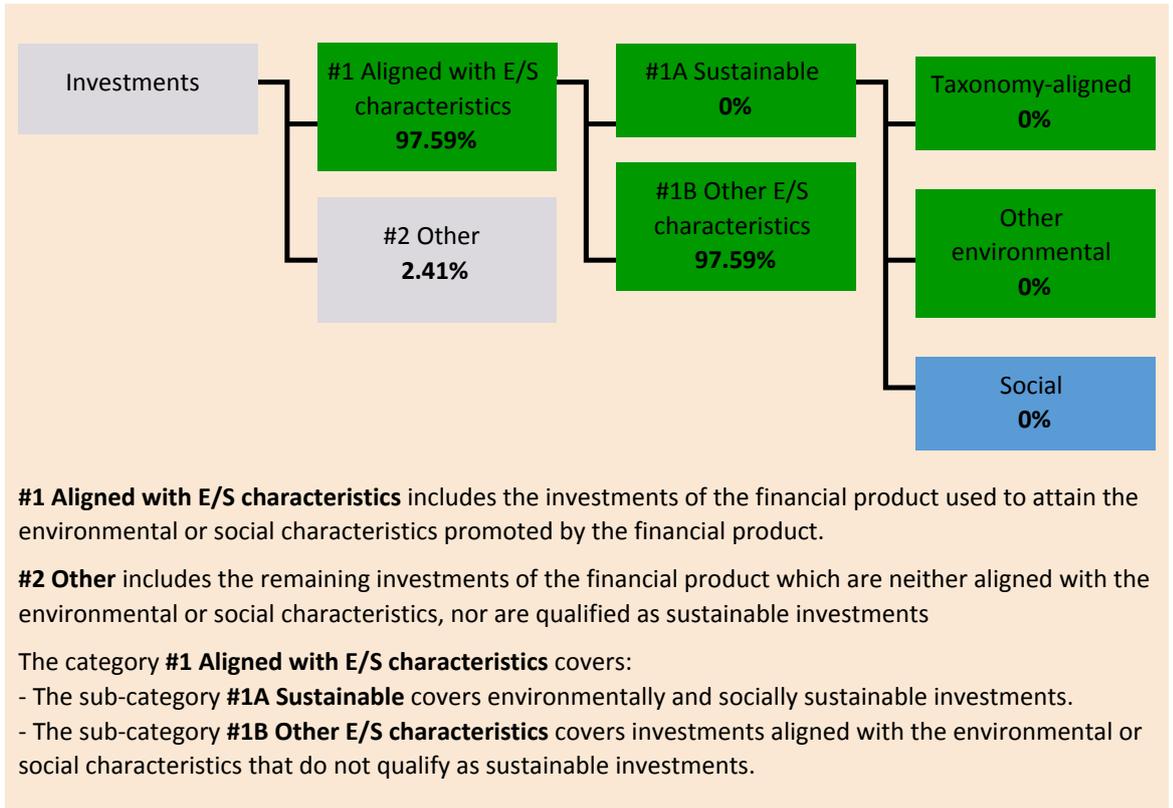

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
Unclassified	Unclassified	10.84%
MANUFACTURING	Manufacture of electronic components and boards	7.91%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	7.83%
MANUFACTURING	Manufacture of motor vehicles	6.08%
MANUFACTURING	Manufacture of beverages	5.90%
MANUFACTURING	Manufacture of communication equipment	5.04%
MANUFACTURING	Manufacture of pharmaceutical preparations	4.64%
MANUFACTURING	Manufacture of other special-purpose machinery	4.15%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	3.99%

PROFESSIONAL, SCIENTIFIC AND TECHNICAL ACTIVITIES	Advertising	0.29%
INFORMATION AND COMMUNICATION	Computer programming, consultancy and related activities	0.27%
MANUFACTURING	Manufacture of basic iron and steel and of ferro-alloys	0.27%
AGRICULTURE, FORESTRY AND FISHING	Animal production	0.25%
MANUFACTURING	Manufacture of wiring and wiring devices	0.24%
ACCOMMODATION AND FOOD SERVICE ACTIVITIES	Restaurants and mobile food service activities	0.24%
MANUFACTURING	Building of ships and boats	0.21%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Other specialised wholesale	0.21%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

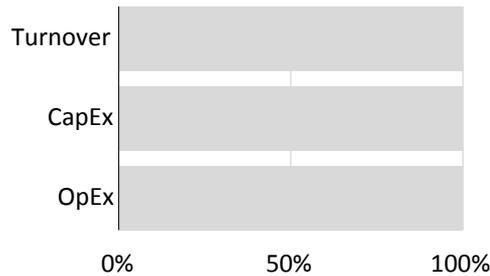

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

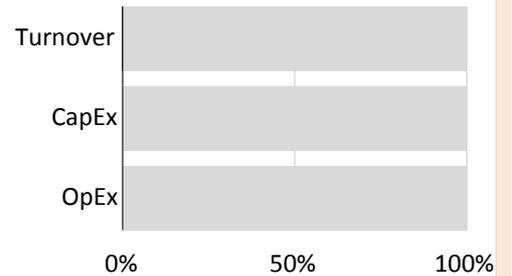

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds which may not be aligned with E/S characteristics. Environmental and social safeguards were not considered for their inclusion, or they were investments that were not assessed for alignment with the E/S characteristics described for this sub-fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

i) For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

ii) For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – China Bond Fund

Legal entity identifier:

549300H7BXWY84BG9B41

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

94.13% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 94.13%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 93.90%

2023: 90.73%

2024: 94.13%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

allocation describes the share of investments in specific assets.

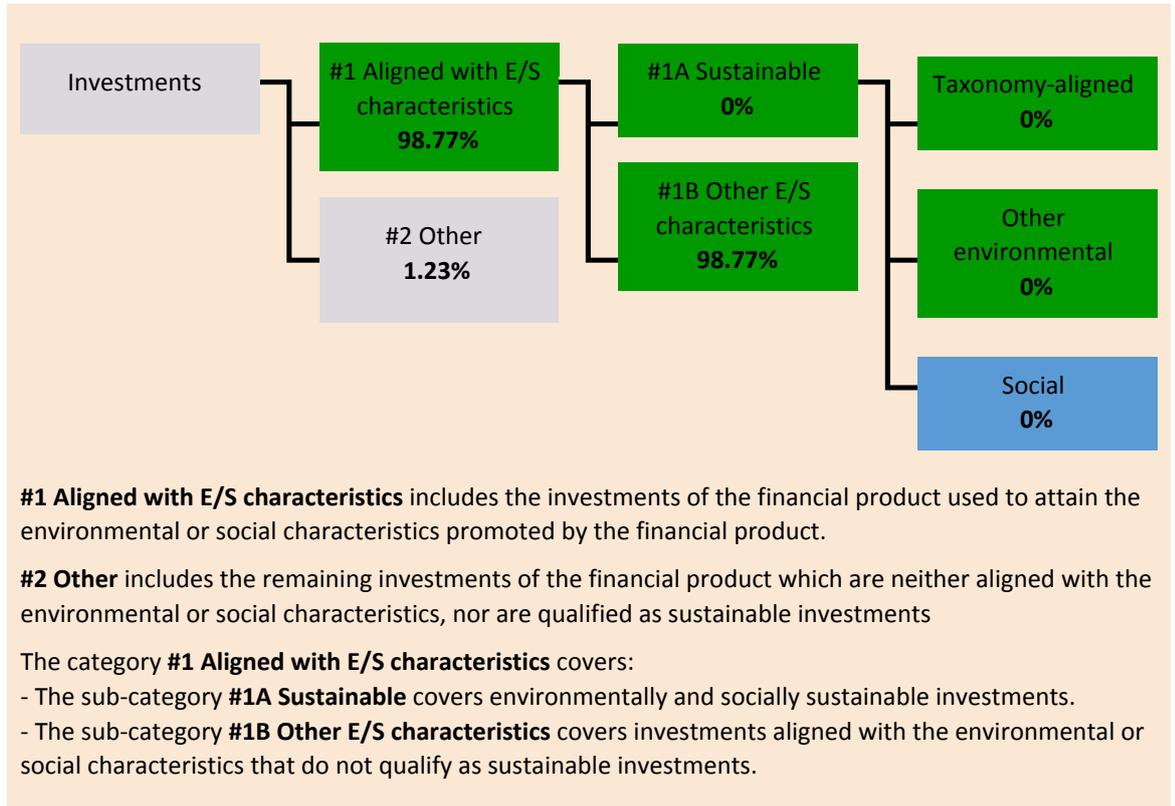

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital**

- **operational expenditure** (OpEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

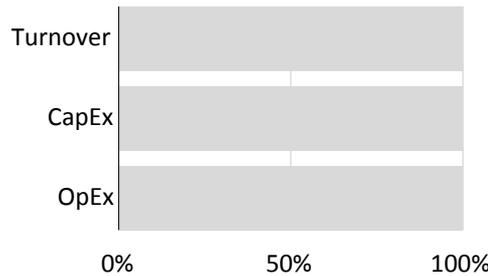

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

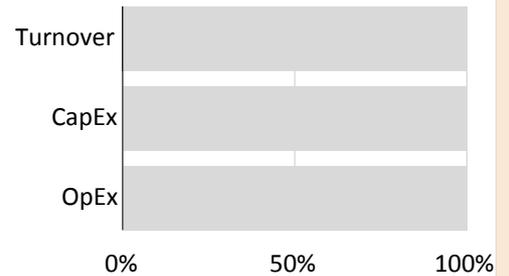

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

Not Applicable

- ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – CICC China USD ESG Bond Fund*

Legal entity identifier:

549300VQGZ6600ZHFI63

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

|---|---|

To what extent were the environmental and/or social characteristics promoted by this financial product met?

95.84% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data. The ESG integration process resulted in the assignment of an overall internal ESG risk and preparedness ranking. Issuers assessed to have high ESG risk and low ESG preparedness were excluded from the investment universe of this sub-fund.

*The name of the sub-fund changed to CICC China USD Select Bond Fund on February 28th, 2025.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens

- i) Excluded companies that are involved in thermal coal and oil sands extraction (PAI 4)
- ii) Excluded companies that are not members of the Round Table for Sustainable Palm Oil (RSPO),
- iii) Excluded sovereign bond securities issued by countries on the UN Sanctions list
- iv) Excluded companies with UNGC human rights violations and (PAI 10)
- v) Excluded companies rated "CCC" by MSCI.

● **How did the sustainability indicators perform?**

In accordance with the Prospectus, more than 70% of the fund's assets were invested in securities issued by debt issuers that have an internal ranking of Preparedness that is commensurate with the ESG Risk ranking or better based on our Internal ESG Analysis. In addition, the fund complied with the exclusions detailed in its Prospectus, further details below.

1. Proportion of sub-fund stated as aligned with E/S characteristics - 95.84%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety. The ESG integration process results in the assignment of an overall internal ESG risk and preparedness ranking of high, medium and low on each dimension.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens: the following ESG Exclusions also applied

- i) Companies that are involved in thermal coal and oil sands extraction
- ii) Companies that are not members of the Round Table for Sustainable Palm Oil (RSPO),
- iii) Sovereign bond securities issued by countries on the UN Sanctions list,
- iv) Companies with UNGC human rights violations, and
- v) Companies rated "CCC".

● ***...and compared to previous periods?***

Similar to the previous period, more than 70% of the fund's assets were invested in securities issued by debt issuers that have an internal ranking of Preparedness that commensurate with the ESG Risk ranking or better based on our Internal ESG Analysis. All the investments in the fund during the period were in line with the exclusions as these are detailed in the latest prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 94.35%

2023: 92.57%

2024: 95.84%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

3) Additional Screens

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives to which the sub-fund's sustainable investments contributed to were climate change mitigation and climate change adaptation.

The sustainable investments focused on ESG issues as further described under the Prospectus question "What environmental and/or social characteristics are promoted by this financial product?" that are material with regards to the issuer's credit fundamentals, i.e. those that have current or potential future impact on its operating or financial performance (through fines and compensations, operational disruption, reputational loss, reduced access to financing etc), its risk of default, and the valuation of the bonds it issues).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager took into account relevant principal adverse impact indicators to assess and estimate the impact of the sustainable investments on environmental or social objectives (“DNSH test”). The Investment Manager used a combination of exclusionary screening and monitoring to ensure that portfolio companies adhere to the Do No Significant Harm principle. The Sub-Fund adhered to an extensive list of exclusion criteria to exclude investments in companies that are involved in controversial behaviour and controversial activities, including controversial weapons, chemical weapons, biological weapons, nuclear weapons, certain conventional weapons, tobacco, fossil fuel, fossil fuel based power generation, nuclear power generation, severe violations of the UN Global Compact.

How were the indicators for adverse impacts on sustainability factors taken into account?

As an integral part of the investment process, the Investment Manager shall consider relevant Principal Adverse Impact (PAI) indicators on the Sub-Fund’s sustainable investments, including all mandatory PAI indicators and certain relevant optional indicators. List of indicators that were considered is available under the latest Prospectus.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager used MSCI ESG Controversies research conclusions to support their ESG considerations as part of their investment process. A combination of exclusionary screening and monitoring of ESG controversies was implemented to avoid and/or identify companies which were involved in controversial practices that may constitute a breach of the UN Global Compact, the UN Guiding Principles on Business and Human Rights, the ILO’s Broader Sets of Standards and Fundamental Principles and Rights at Work as well as OECD Guidelines for Multinational Enterprises.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons (“NPT”) as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal; that are involved in thermal coal and oil sands extraction
- iii) PAI 10: No investment in companies with UNGC human rights violations

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

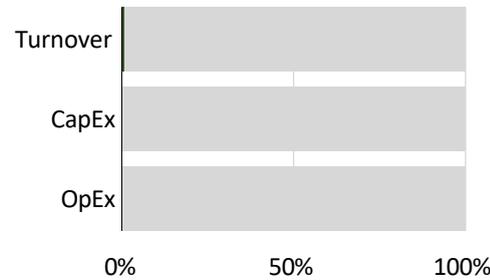

The sustainable investments of the sub-fund were not aligned with EU Taxonomy. It is reminded that as per the pre contractual disclosures, the sub-fund does not commit to alignment with EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

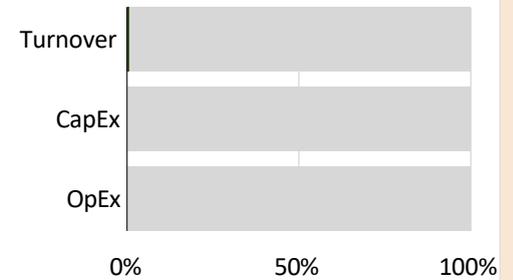

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0.8624%
- Non Taxonomy-aligned : 99.1376%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0.8624%
- Non Taxonomy-aligned : 99.1376%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

1) Percentage of investments that were aligned with the EU Taxonomy:

2022: 0%

2023: 6.84%

2024: 0%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

4.62% of the sub-fund's sustainable investments with environmental objective were not in line with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

3. Additional screens

i) Excluded companies that are involved in thermal coal and oil sands extraction (PAI 4)

ii) Excluded companies that are not members of the Round Table for Sustainable Palm Oil (RSPO),

iii) Excluded sovereign bond securities issued by countries on the UN Sanctions list

iv) Excluded companies with UNGC human rights violations and (PAI 10)

v) Excluded companies rated "CCC" by MSCI.

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Dragon Peacock Fund

Legal entity identifier:

549300OKXQ5J5QDRNW89

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

96.71% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 96.71%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 96.28%

2023: 96.65%

2024: 96.71%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

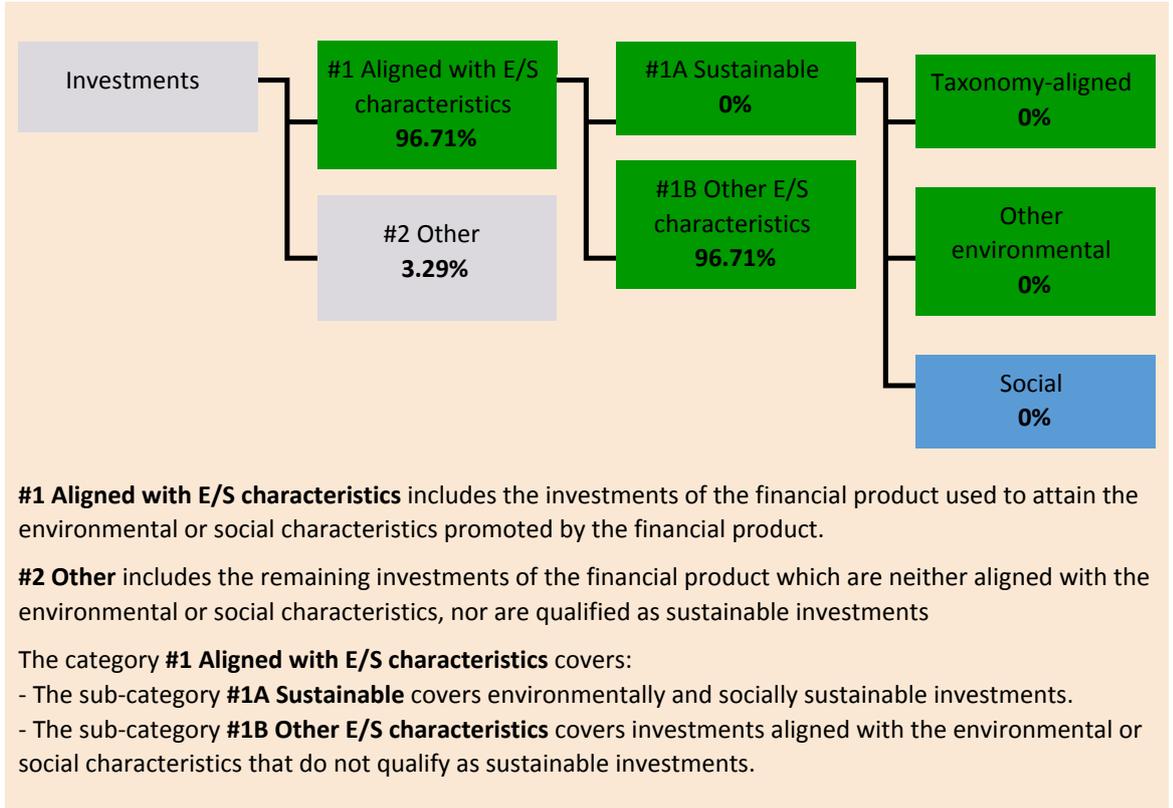

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	14.94%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	9.69%
INFORMATION AND COMMUNICATION	Other information service activities	8.86%
Unclassified	Unclassified	7.37%

INFORMATION AND COMMUNICATION	Wireless telecommunications activities	0.28%
INFORMATION AND COMMUNICATION	Data processing, hosting and related activities; web portals	0.23%
CONSTRUCTION	Construction of residential and non-residential buildings	0.08%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

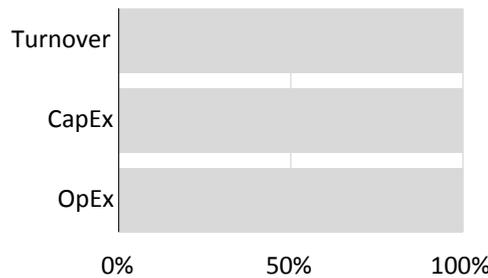

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

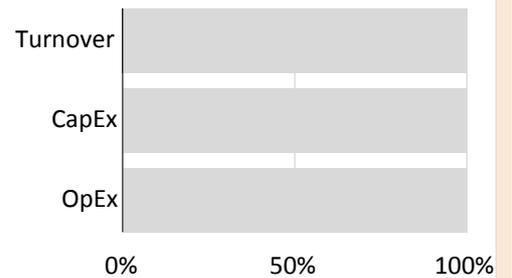

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

MINING AND QUARRYING	Extraction of natural gas	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

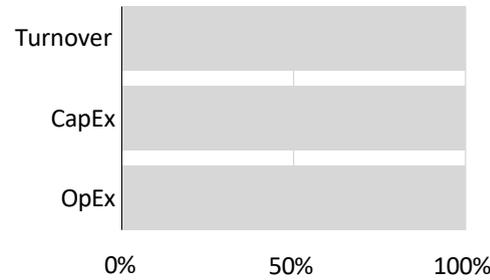

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

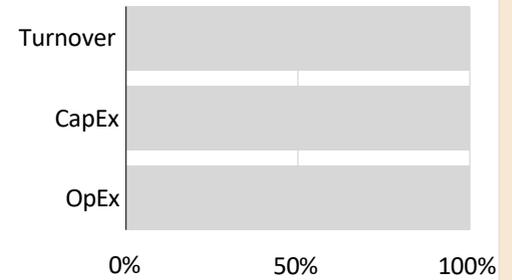

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Global Emerging Markets Dynamic Fund

Legal entity identifier:

549300PRNN1UOMEMAD71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective : __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : __%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.99% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.99%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.42%

2023: 97.24%

2024:97.99%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

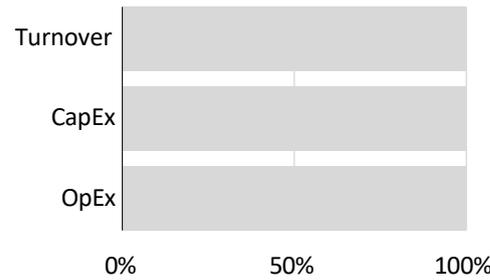

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

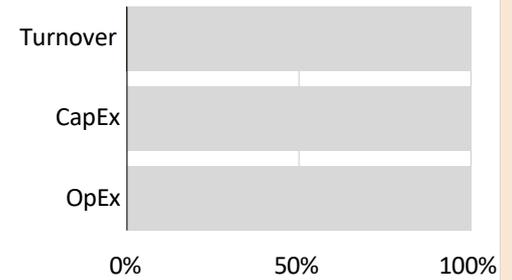

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Other assets may include cash or cash equivalents in addition to instruments held for the purposes of efficient portfolio management, e.g. temporary holdings of index derivatives. No minimum environmental or social safeguards are applied to such investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.63%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 96.88%

2023: 97.63%

2024: 97.63%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

Asset

allocation describes the share of investments in specific assets.

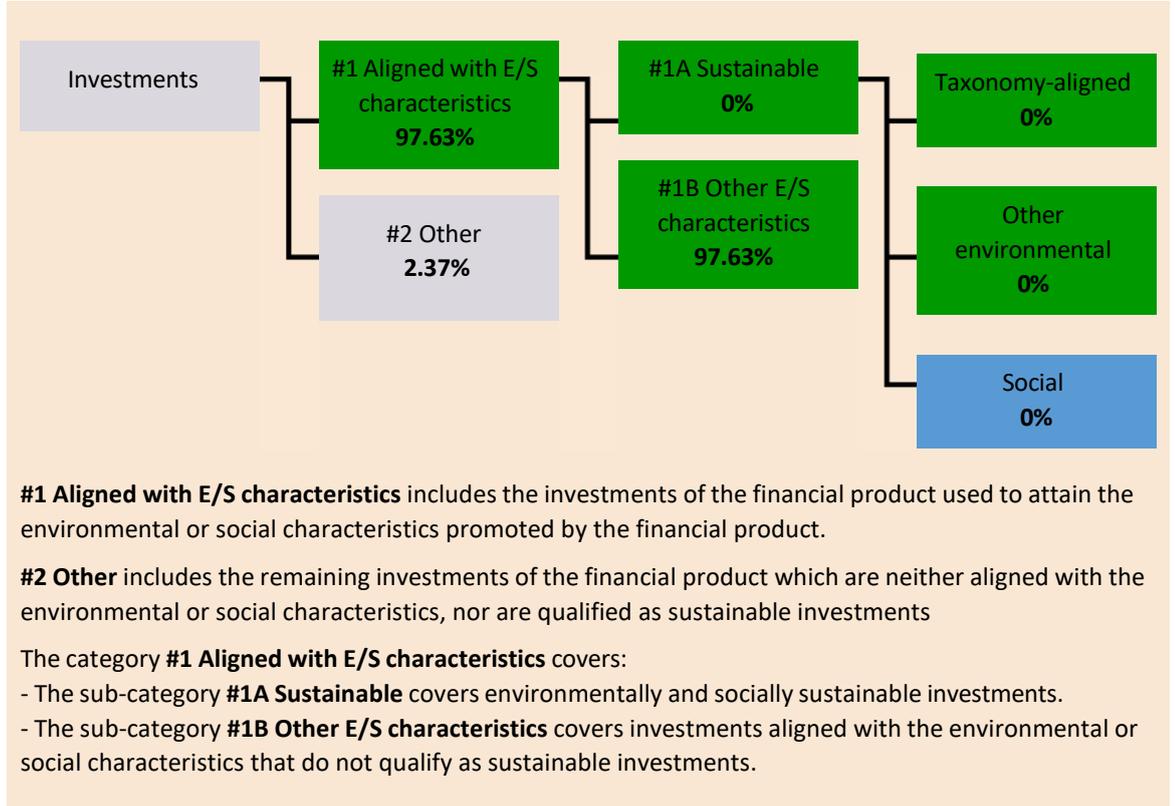

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● *What was the asset allocation?*

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	27.08%
MANUFACTURING	Manufacture of electronic components and boards	17.00%
MANUFACTURING	Manufacture of communication equipment	7.23%
Unclassified	Unclassified	6.97%
INFORMATION AND COMMUNICATION	Data processing, hosting and related activities; web portals	2.95%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	2.84%
CONSTRUCTION	Construction of utility projects	2.80%
ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	Manufacture of gas; distribution of gaseous fuels through mains	2.55%
Transporting and storage	Transport via pipeline	2.16%
MANUFACTURING	Manufacture of bodies (coachwork) for motor vehicles; manufacture of trailers and semi-trailers	2.13%
MANUFACTURING	Manufacture of optical instruments and photographic equipment	2.09%
ARTS, ENTERTAINMENT AND RECREATION	Gambling and betting activities	1.92%
MANUFACTURING	Manufacture of refined petroleum products	1.84%
MANUFACTURING	Manufacture of bakery and farinaceous products	1.82%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	1.65%
MANUFACTURING	Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	1.40%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Sale of motor vehicle parts and accessories	1.38%

HUMAN HEALTH AND SOCIAL WORK ACTIVITIES	Medical and dental practice activities	0.56%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Wholesale of food, beverages and tobacco	0.30%
HUMAN HEALTH AND SOCIAL WORK ACTIVITIES	Hospital activities	0.27%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

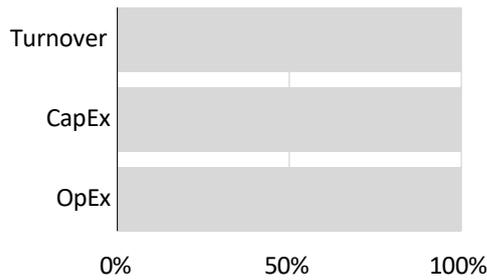

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

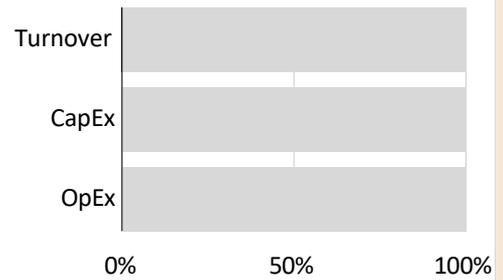

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

- ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

- ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Global Emerging Markets
Fundamental Value Fund

Legal entity identifier:

549300WH17GSWHDDDF354

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: __%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: __%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

95.92% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 95.92%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 95.58%

2023: 95.23%

2024: 95.92%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
TAIWAN SEMICONDUCT TWD 10	MANUFACTURING	6.70%	Taiwan (Province of China)

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

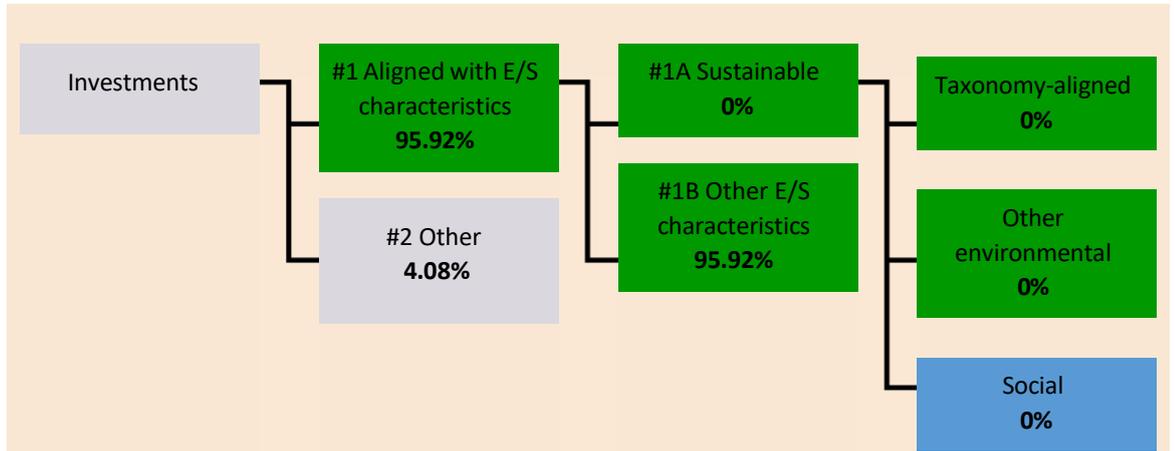

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	19.93%
MANUFACTURING	Manufacture of electronic components and boards	11.49%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

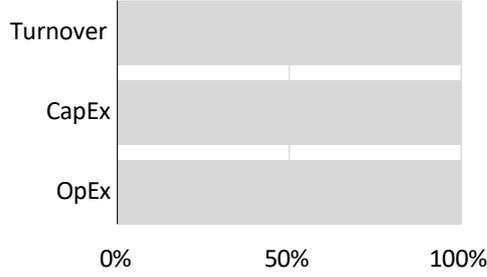

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments - Global Emerging Markets Total Return Bond Fund

Legal entity identifier:

636700XYRFP9I4CIOB14

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective : __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : __%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

95.31% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 95.31%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Not applicable. The sub-fund was launched in 2024.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

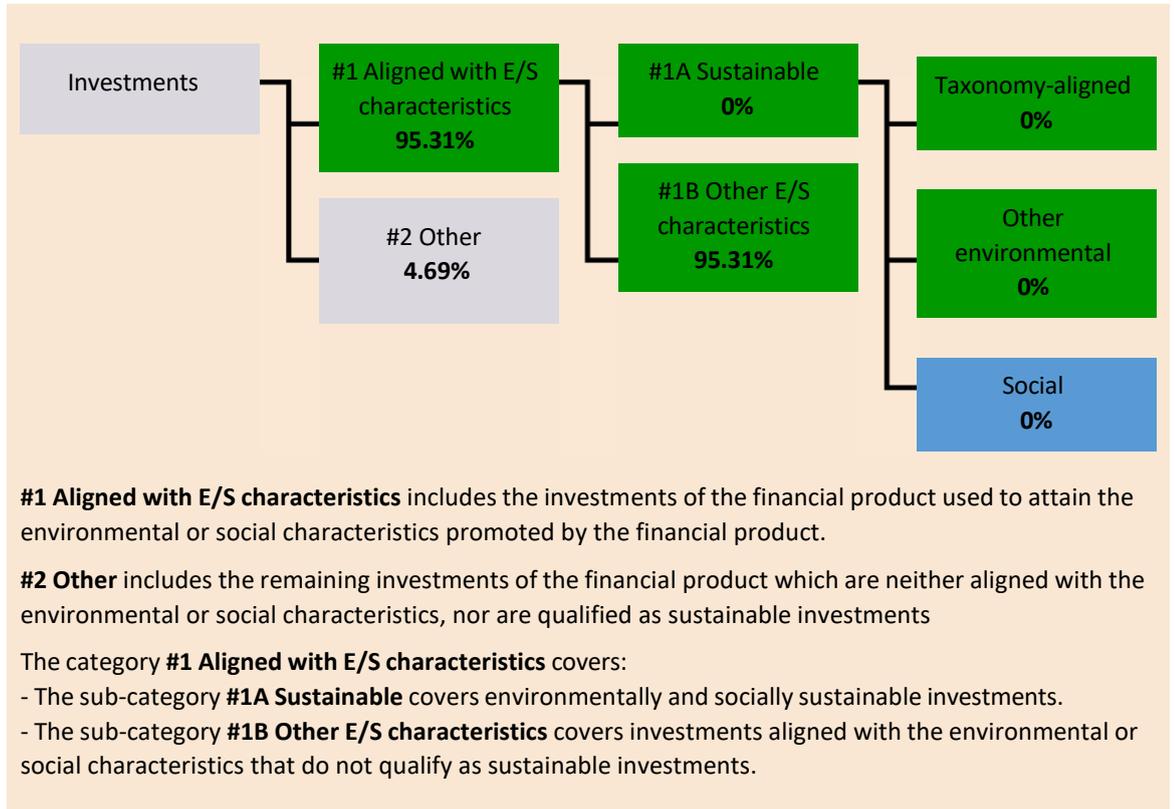

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY	Administration of the State and the economic and social policy of the community	33.50%
Unclassified	Unclassified	23.22%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	10.66%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	7.89%
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	5.04%
ACTIVITIES OF EXTRATERRITORIAL ORGANISATIONS AND BODIES	Activities of extraterritorial organisations and bodies	3.97%

MANUFACTURING	Manufacture of basic iron and steel and of ferro-alloys	0.24%
ACCOMMODATION AND FOOD SERVICE ACTIVITIES	Hotels and similar accommodation	0.24%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

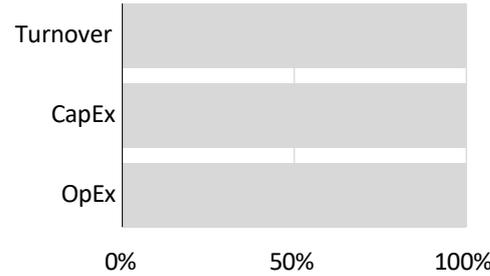

Yes

In fossil gas In nuclear energy

No

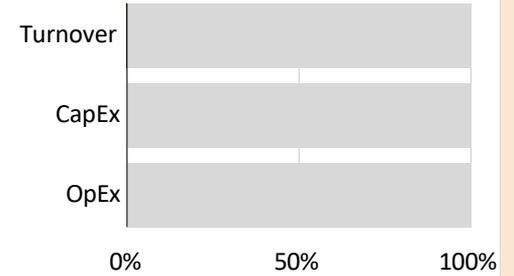

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under “Other” represent the maximum allowable cash position. Direct cash holdings, short term instruments, liquidity funds and money market funds may not be aligned with ESG Characteristics, and neither environmental nor social safeguards have been considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:
Eastspring Investments – Global Equity Navigator Fund

Legal entity identifier:
5493002K2H3NZHMX4C27

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

56.53% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1) For allocations made via CIS, the sustainability indicator used to measure the attainment of the E/S characteristics is the percentage of CIS proportion of the sub-fund that had undergone ESG integration, which was 56.53%;

where ESG integration refers to

- i) the sub-fund allocating investment as a priority to SFDR Article 8 or Article 9 vehicles, or
- ii) where ESG characteristics are explicitly mentioned in the vehicle's security description - this considered a range of ESG funds which may have included, but were not limited to, ESG exclusions in addition to positive tilts to higher ESG-scoring constituents.

2) Where allocations were made via Segregated Mandate, the sustainability indicators used to measure the attainment of the E/S characteristics are

a) the percentage of the segregated mandate portion of the sub-fund that had ESG integration applied 56.53%- through the use of the ESG Risk Assessment framework which considered the strength of the fund manager's ESG credentials, ESG integration process, membership in reputable ESG organizations and the performance of sub-fund level ESG indicators versus Benchmark; and

b) the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Similar to the previous period, the selection process of implementation vehicles employed by the fund integrated the ESG criteria laid down in the Prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 69.13%

2023: 65.49%

2024: 56.53%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

No, decisions made by the Investment Manager for this Sub-Fund are primarily of a top-down asset allocation nature and implemented through the use of collective investment schemes or sub-delegated segregated mandates. Hence, taking into account the principal adverse impact on sustainability factors will not be practical and accurate.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

99.2% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics 99.2% - Quantifiable ESG metrics that were incorporated within the sub-fund's research program are generated by MSCI and include datapoints corresponding to E, S and G key issues such as company ESG ratings, board quality scores, occupational health and safety scores, and greenhouse gas emissions intensity.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 99.74%

2023: 99.08%

2024: 99.2%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

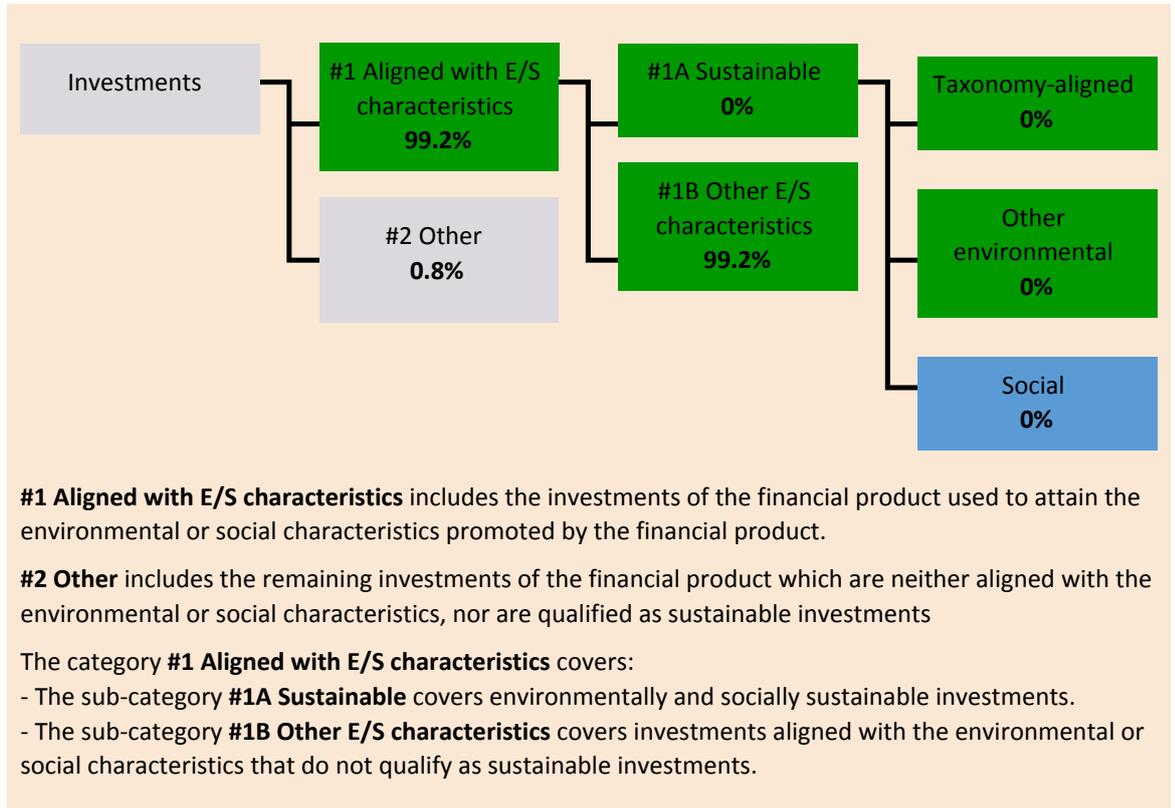

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
MANUFACTURING	Manufacture of pharmaceutical preparations	8.63%
ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	Electric power generation, transmission and distribution	6.64%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	6.38%
INFORMATION AND COMMUNICATION	Wireless telecommunications activities	6.12%
INFORMATION AND COMMUNICATION	Software publishing	5.77%
INFORMATION AND COMMUNICATION	Computer programming, consultancy and related activities	4.95%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	4.81%
MANUFACTURING	Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations	4.60%
MANUFACTURING	Manufacture of electronic components and boards	4.20%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Wholesale of household goods	3.72%
WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES	Waste collection	3.28%
MINING AND QUARRYING	Extraction of crude petroleum	2.89%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale in non-specialised stores	2.81%
MANUFACTURING	Manufacture of air and spacecraft and related machinery	2.50%
Unclassified	Unclassified	2.16%
MANUFACTURING	Manufacture of articles of paper and paperboard	1.82%
ACCOMMODATION AND FOOD SERVICE ACTIVITIES	Restaurants and mobile food service activities	1.64%
MANUFACTURING	Manufacture of grain mill products, starches and starch products	1.59%
MANUFACTURING	Manufacture of communication equipment	1.46%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	1.45%
Transporting and storage	Sea and coastal freight water transport	1.30%
MANUFACTURING	Manufacture of consumer electronics	1.29%
MANUFACTURING	Manufacture of other general-purpose machinery	1.23%
MANUFACTURING	Manufacture of refined petroleum products	1.13%
INFORMATION AND COMMUNICATION	Data processing, hosting and related activities; web portals	1.07%
MANUFACTURING	Manufacture of beverages	1.03%
HUMAN HEALTH AND SOCIAL WORK ACTIVITIES	Other human health activities	0.95%
MANUFACTURING	Manufacture of computers and peripheral equipment	0.86%
FINANCIAL AND INSURANCE ACTIVITIES	Activities auxiliary to insurance and pension funding	0.76%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Other specialised wholesale	0.75%
PROFESSIONAL, SCIENTIFIC AND TECHNICAL ACTIVITIES	Research and experimental development on natural sciences and engineering	0.74%

MANUFACTURING	Manufacture of bakery and farinaceous products	0.02%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Wholesale of information and communication equipment	0.02%
CONSTRUCTION	Construction of residential and non-residential buildings	0.01%
MINING AND QUARRYING	Support activities for petroleum and natural gas extraction	0.01%
MANUFACTURING	Manufacture of cutlery, tools and general hardware	0.01%
ARTS, ENTERTAINMENT AND RECREATION	Gambling and betting activities	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

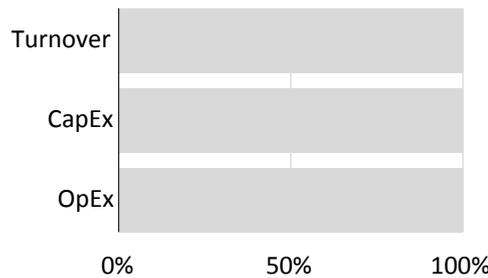

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

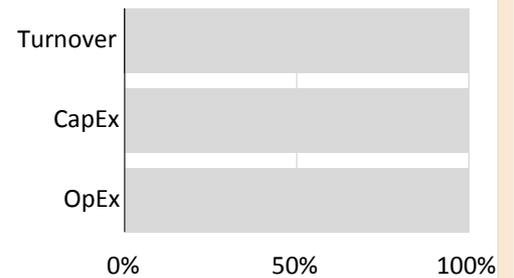

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

● ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Global Market Navigator Fund

Legal entity identifier:

549300LZKOL4I21B4X71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

70.87% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1) For allocations made via CIS, the sustainability indicator used to measure the attainment of the E/S characteristics is the percentage of CIS proportion of the sub-fund that had undergone ESG integration, which was 70.87%;

where ESG integration refers to

- i) the sub-fund allocating investment as a priority to SFDR Article 8 or Article 9 vehicles, or
- ii) where ESG characteristics are explicitly mentioned in the vehicle's security description - this considered a range of ESG funds which may have included, but were not limited to, ESG exclusions in addition to positive tilts to higher ESG-scoring constituents.

2) Where allocations were made via Segregated Mandate, the sustainability indicators used to measure the attainment of the E/S characteristics are

a) the percentage of the segregated mandate portion of the sub-fund that had ESG integration applied 70.87%- through the use of the ESG Risk Assessment framework which considered the strength of the fund manager's ESG credentials, ESG integration process, membership in reputable ESG organizations and the performance of sub-fund level ESG indicators versus Benchmark; and

b) the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Similar to the previous period, the selection process of implementation vehicles employed by the fund integrated the ESG criteria laid down in the Prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 78.01%

2023: 84.23%

2024: 70.87%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

No, decisions made by the Investment Manager for this Sub-Fund are primarily of a top-down asset allocation nature and implemented through the use of collective investment schemes or sub-delegated segregated mandates. Hence, taking into account the principal adverse impact on sustainability factors will not be practical and accurate.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

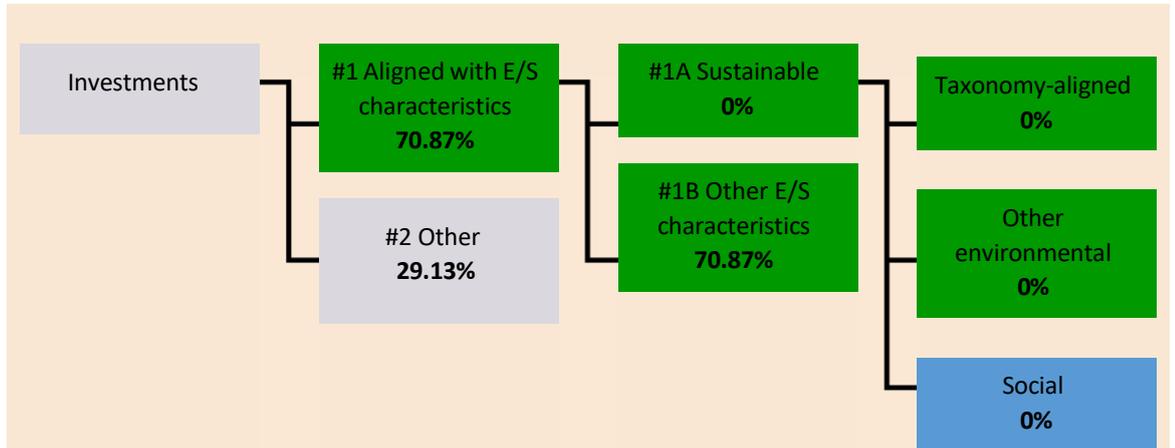

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

Sector	Sub Sector	% Assets
Unclassified	Unclassified	90.06%
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY	Administration of the State and the economic and social policy of the community	9.93%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds which may not be aligned with E/S characteristics. Environmental and social safeguards were not considered for their inclusion, or they were investments that were not assessed for alignment with the E/S characteristics described for this sub-fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

i) For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

ii) For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

Not applicable. The sub-fund was launched in 2024.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

No, decisions made by the Investment Manager for this Sub-Fund are primarily of a top-down asset allocation nature and implemented through the use of collective investment schemes or sub-delegated segregated mandates. Hence, taking into account the principal adverse impact on sustainability factors will not be practical and accurate.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

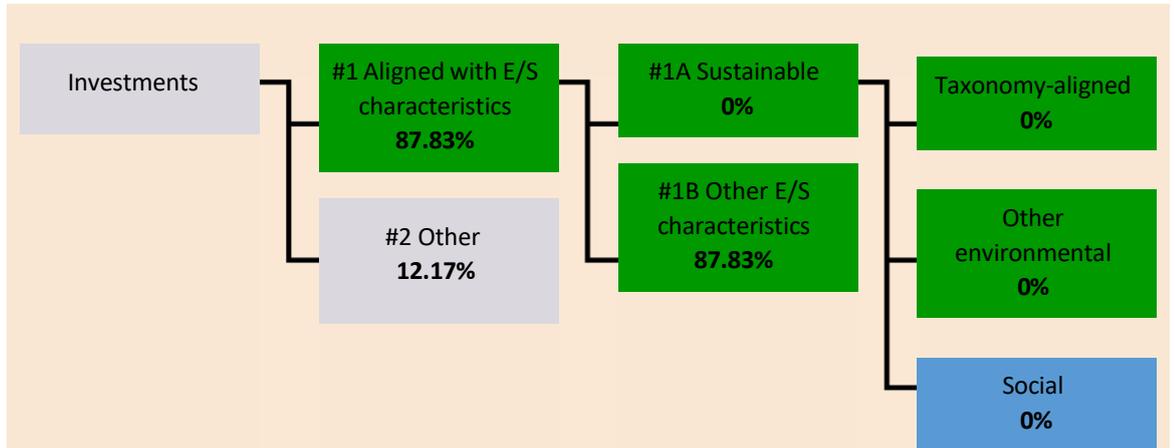

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g.

for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● *What was the asset allocation?*

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

Sector	Sub Sector	% Assets
Unclassified	Unclassified	96.98%
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY	Administration of the State and the economic and social policy of the community	3.02%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

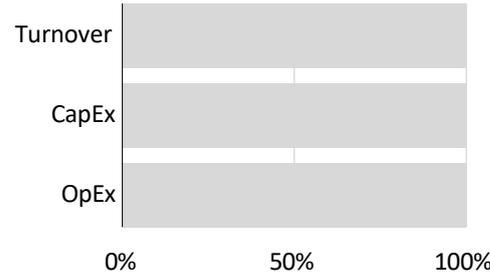

Not Applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

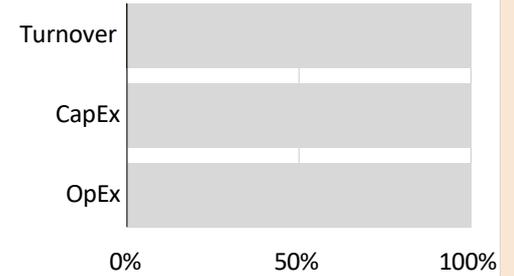

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" includes but not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds may not be aligned with ESG Characteristics, and neither environmental nor social safeguards have been considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

i) For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

ii) For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not Applicable.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments - Global Multi Asset Conservative Fund

Legal entity identifier:

636700SDVWBT9536GE18

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

80.11% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● ***How did the sustainability indicators perform?***

1) For allocations made via CIS, the sustainability indicator used to measure the attainment of the E/S characteristics is the percentage of CIS proportion of the sub-fund that had undergone ESG integration, which was 80.11%;

where ESG integration refers to

- i) the sub-fund allocating investment as a priority to SFDR Article 8 or Article 9 vehicles, or
- ii) where ESG characteristics are explicitly mentioned in the vehicle's security description - this considered a range of ESG funds which may have included, but were not limited to, ESG exclusions in addition to positive tilts to higher ESG-scoring constituents.

2) Where allocations were made via Segregated Mandate, the sustainability indicators used to measure the attainment of the E/S characteristics are

a) the percentage of the segregated mandate portion of the sub-fund that had ESG integration applied 80.11%- through the use of the ESG Risk Assessment framework which considered the strength of the fund manager's ESG credentials, ESG integration process, membership in reputable ESG organizations and the performance of sub-fund level ESG indicators versus Benchmark; and

b) the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● ***...and compared to previous periods?***

Not applicable. The sub-fund was launched in 2024.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

No, decisions made by the Investment Manager for this Sub-Fund are primarily of a top-down asset allocation nature and implemented through the use of collective investment schemes or sub-delegated segregated mandates. Hence, taking into account the principal adverse impact on sustainability factors will not be practical and accurate.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" includes but not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds may not be aligned with ESG Characteristics, and neither environmental nor social safeguards have been considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

i) For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

ii) For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Global Multi Asset Income Plus Growth Fund

Legal entity identifier:

5493001E747GFBAS5T36

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

<input type="checkbox"/> It made sustainable investments with an environmental objective: __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: __%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

73.41% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1) For allocations made via CIS, the sustainability indicator used to measure the attainment of the E/S characteristics is the percentage of CIS proportion of the sub-fund that had undergone ESG integration, which was 73.41%;

where ESG integration refers to

- i) the sub-fund allocating investment as a priority to SFDR Article 8 or Article 9 vehicles, or
- ii) where ESG characteristics are explicitly mentioned in the vehicle's security description - this considered a range of ESG funds which may have included, but were not limited to, ESG exclusions in addition to positive tilts to higher ESG-scoring constituents.

2) Where allocations were made via Segregated Mandate, the sustainability indicators used to measure the attainment of the E/S characteristics are

a) the percentage of the segregated mandate portion of the sub-fund that had ESG integration applied 73.41%- through the use of the ESG Risk Assessment framework which considered the strength of the fund manager's ESG credentials, ESG integration process, membership in reputable ESG organizations and the performance of sub-fund level ESG indicators versus Benchmark; and

b) the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Similar to the previous period, the selection process of implementation vehicles employed by the fund integrated the ESG criteria laid down in the Prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 76.63%

2023: 66.97%

2024: 73.41%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

No, decisions made by the Investment Manager for this Sub-Fund are primarily of a top-down asset allocation nature and implemented through the use of collective investment schemes or sub-delegated segregated mandates. Hence, taking into account the principal adverse impact on sustainability factors will not be practical and accurate.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

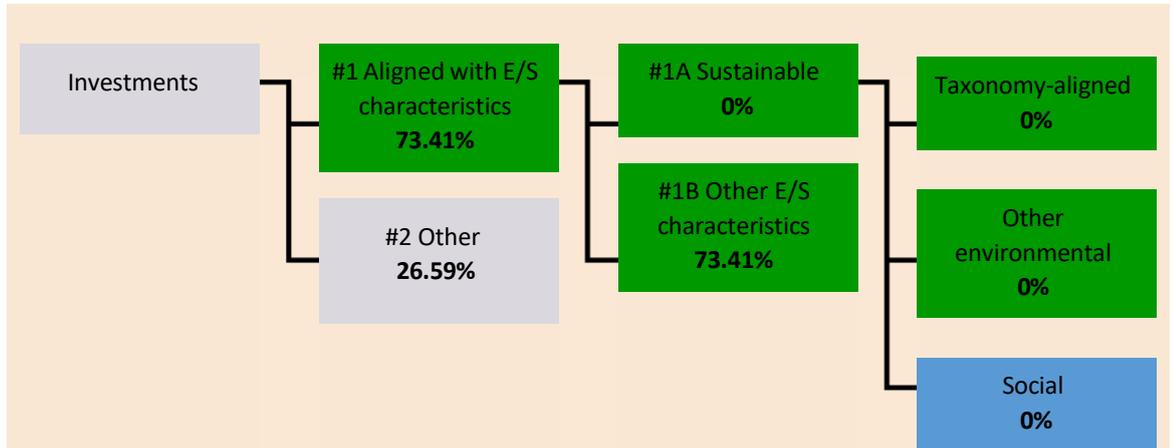

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

Sector	Sub Sector	% Assets
Unclassified	Unclassified	85.17%
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY	Administration of the State and the economic and social policy of the community	14.83%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

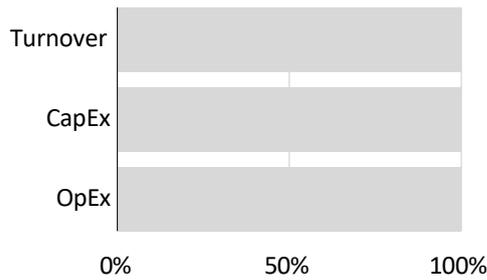

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

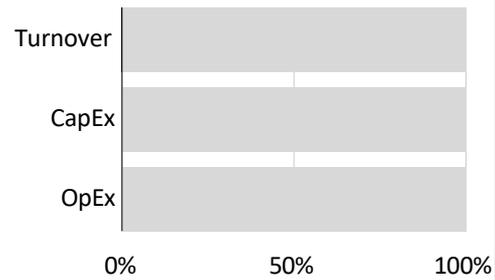

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The asset allocation for the Sub-Fund is not directly aligned with environmental and social characteristics. While taking into account material ESG factors into their assessment of each investment, the portfolio manager's discipline seeks to overweight asset classes, sectors and securities that are considered to have superior relative value versus other comparable opportunities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

i) For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

ii) For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Global Multi Factor Equity Fund

Legal entity identifier:

549300P38T38JNXE065

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: __%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: __%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

99.33% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics 99.33% - Quantifiable ESG metrics that were incorporated within the sub-fund's research program are generated by MSCI and include datapoints corresponding to E, S and G key issues such as company ESG ratings, board quality scores, occupational health and safety scores, and greenhouse gas emissions intensity.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: Nil
2023: 99.15%
2024: 99.33%

2) ESG exclusions applied:

2022: Nil
2023: There were no breaches during the year.
2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

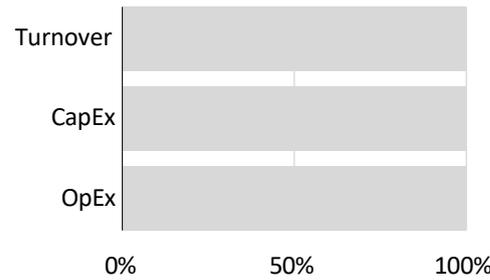

Yes

In fossil gas In nuclear energy

No

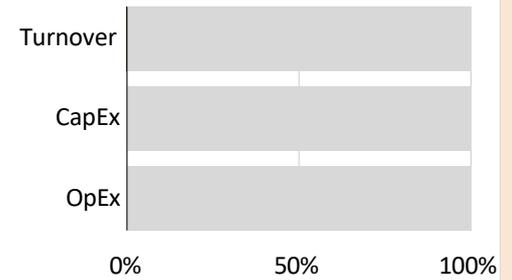

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

---	--

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 1 Jan 2024 until the end of the reference period 31 Dec 2024 (herein referred to as the 'reference period'), the fund promoted climate change mitigation and support for the UNGC Principles (which cover matters including human rights, labour, corruption, and environmental pollution). Additionally, the fund also sought to avoid investments in certain activities with the potential to cause harm to human health and wellbeing by applying binding exclusions. The fund applied proxy voting and engagement in line with the Investment Manager's policy. The fund does not use a reference benchmark to attain its environmental or social characteristics.

● **How did the sustainability indicators perform?**

The sustainability indicators performed in line with expectations, providing a low carbon portfolio, promoting (by investing in and engaging/voting on) climate change mitigation, adhering to the UN Global Compact and OECD MNE principles, as well as the ESG exclusionary screens. Specifically, issuers are excluded if they have any involvement with chemicals of concern or derived more than 5% of their revenue from the production of fossil fuels, nuclear weapons, tobacco, fur, alcohol, civilian armaments, intensive farming, nuclear power, gambling, pornography and animal testing (excluding medical testing). Issuers are also excluded if they are deemed to have failed to comply with the UNGC Principles (which cover matters including human rights, labour, corruption, and environmental pollution). The Sub-Fund also applies the Firmwide Exclusions Policy, which includes controversial weapons.

Below are the carbon metrics for end December 2024.

Carbon Footprint (scopes 1 & 2) tCO₂e per US\$1mn invested (EVIC) 2024: 4.60

Weight Average Carbon Intensity or WACI (scopes 1 & 2) tCO₂e per US\$1mn of revenues 2024: 28.03

Source: MSCI, Janus Henderson Investors

● **...and compared to previous periods?**

Comparison against the period ending December 2023;

Across both periods the sustainability indicators performed in line with expectations, providing a low carbon portfolio, promoting (by investing in and engaging/voting on) climate change mitigation, adhering to the UN Global Compact and OECD MNE principles, as well as the ESG exclusionary screens. Specifically, issuers are excluded if they have any involvement with chemicals of concern or derived more than 5% of their revenue from the production of fossil fuels, nuclear weapons, tobacco, fur, alcohol, civilian armaments, intensive farming, nuclear power, gambling, pornography and animal testing (excluding medical testing). Issuers are also excluded if they are deemed to have failed to comply with the UNGC Principles (which cover matters including human rights, labour, corruption, and environmental pollution). The Sub-Fund also applies the Firmwide Exclusions Policy, which includes controversial weapons.

Set out below is a comparison between the two periods using MSCI as the source for both periods.

Carbon Footprint (scopes 1 & 2) tCO₂e per US\$1mn invested (EVIC) 2024: 4.60

2023: 8.06

2022: 5.19

Weight Average Carbon Intensity or WACI (scopes 1 & 2) tCO₂e per US\$1mn of revenues

2024: 28.03

2023: 24.79

2022: 23.07

Source: MSCI, Janus Henderson Investors

According to MSCI, the portfolio's carbon footprint (scopes 1 and 2) decreased and WACI (scope 1 and 2) increased in 2024 when compared with 2023. Scope 3 is discussed qualitatively as data quality varies. The reasons for this are:

- Artificial Intelligence bringing the fourth wave of compute has boosted next generation infrastructure names which has led to an increase in holdings in relatively high carbon emitting tech sub-sectors such as semiconductors, seen in increased positions and position initiations. Many next gen infrastructure names are enabling others to decarbonise by providing low carbon solutions and enhanced energy efficiency for areas such as high performance compute, as well as enabling AI to tackle major ESG issues in novel ways. We believe AI will help drive carbon reductions but we are in a period of infrastructure buildout which will result in emissions increases in the short term. Decarbonisation may not be linear. Responsible AI remains an area of engagement.

- General trend of decarbonisation continues, inclusion of low emitting and intensity names, and reduction of weightings in higher emitting names like Uber Technologies.

- Increased weightings in high carbon footprint/ intensity names like Amazon.com and Taiwan Semiconductor Manufacturing, etc.

While many lower carbon and more efficient names were selected, as well as decarbonisation enablers, climate change adaptation

and mitigation names, our wider definition of a Technology stock can lead to inclusion of higher carbon emitters through non technology classified sector holdings. Data discrepancies between company reported, data provider reported and/or estimated were also found which can distort our carbon, typically increasing our footprint incorrectly. The bias towards higher growth names increases our carbon footprint and intensity as portfolio companies may be earlier on in their decarbonisation journey or are increasing their footprint in order to decarbonise others.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs are considered at the product level. As at the date of this disclosure, the Investment Manager considers the following principal adverse impacts on sustainability factors ('PAIs'):

GHG Emissions:Exclusionary screens

Carbon Footprint:Exclusionary screens

GHG Intensity of Investee Companies:Exclusionary screens

Exposure to companies active in the fossil fuel sector: Exclusionary screens

Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises: Exclusionary screens

Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons):Exclusionary screens

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

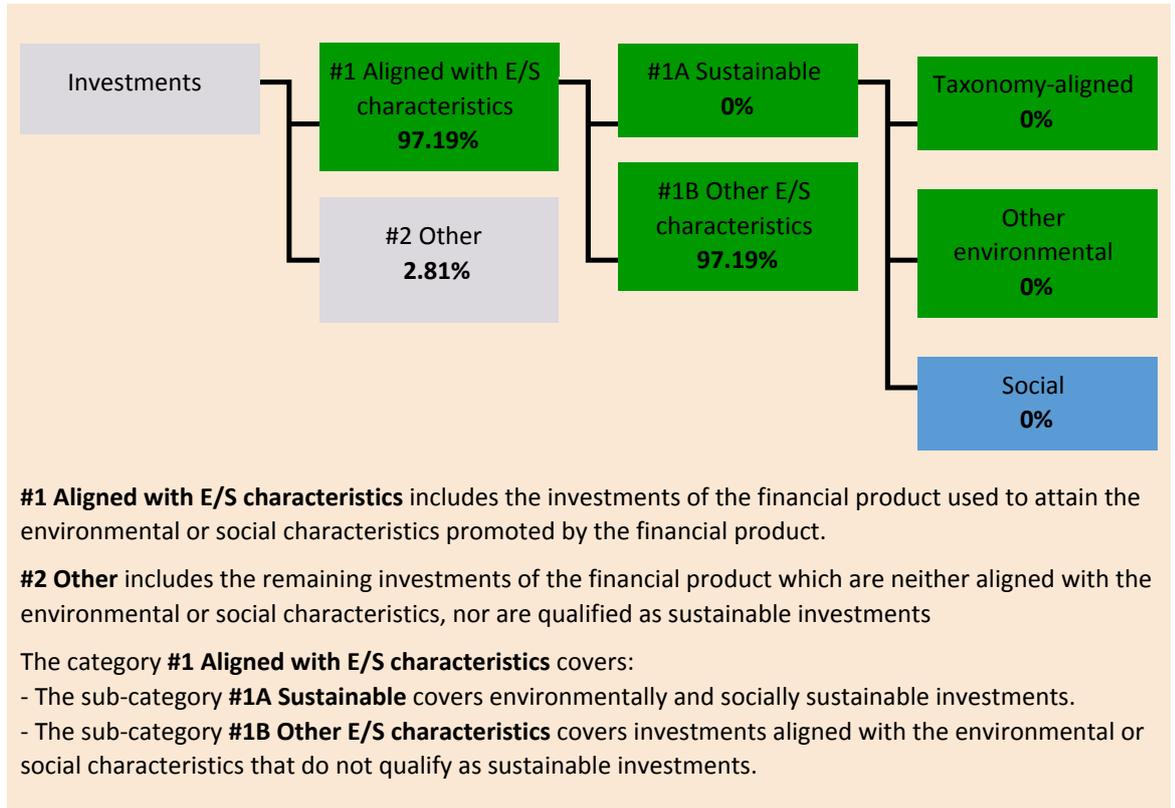

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
MANUFACTURING	Manufacture of electronic components and boards	19.83%
INFORMATION AND COMMUNICATION	Data processing, hosting and related activities; web portals	18.89%
INFORMATION AND COMMUNICATION	Software publishing	15.41%
MANUFACTURING	Manufacture of computers and peripheral equipment	9.64%
INFORMATION AND COMMUNICATION	Computer programming, consultancy and related activities	6.65%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	6.28%
MANUFACTURING	Manufacture of communication equipment	6.00%
Unclassified	Unclassified	5.20%
MANUFACTURING	Manufacture of other special-purpose machinery	3.56%
INFORMATION AND COMMUNICATION	Other information service activities	2.93%
FINANCIAL AND INSURANCE ACTIVITIES	Activities auxiliary to financial services, except insurance and pension funding	2.85%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Travel agency and tour operator activities	1.24%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail trade not in stores, stalls or markets	0.47%
MANUFACTURING	Manufacture of instruments and appliances for measuring, testing and navigation; watches and clocks	0.42%
MANUFACTURING	Manufacture of irradiation, electromedical and electrotherapeutic equipment	0.25%
MANUFACTURING	Manufacture of parts and accessories for motor vehicles	0.19%
INFORMATION AND COMMUNICATION	Sound recording and music publishing activities	0.18%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

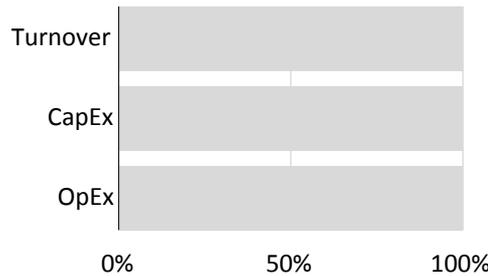

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

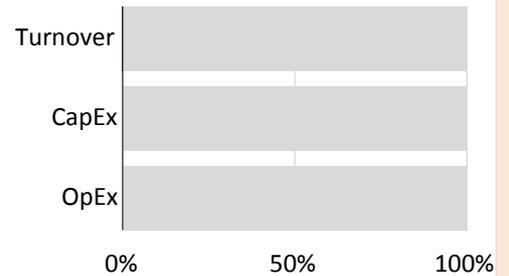

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:
Eastspring Investments – Greater China Equity Fund

Legal entity identifier:
5493004VR6KCOG1VJ473

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

98.95% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 98.95%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.47%

2023: 98.04%

2024: 98.95%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

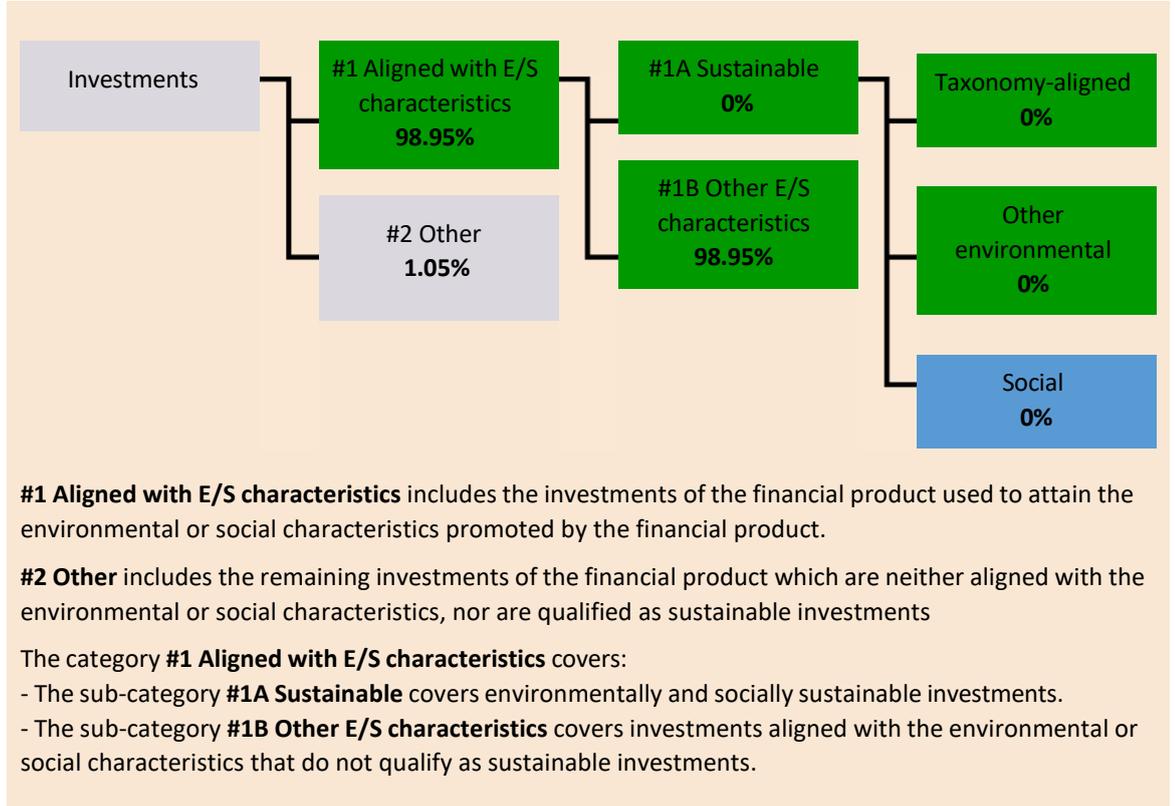

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
MANUFACTURING	Manufacture of electronic components and boards	22.67%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale of other goods in specialised stores	12.49%
INFORMATION AND COMMUNICATION	Other information service activities	9.36%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	7.41%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	5.30%
MANUFACTURING	Manufacture of computers and peripheral equipment	4.40%
MANUFACTURING	Manufacture of other electrical equipment	3.19%
Unclassified	Unclassified	3.17%
MANUFACTURING	Manufacture of beverages	2.07%
FINANCIAL AND INSURANCE ACTIVITIES	Activities auxiliary to financial services, except insurance and pension funding	2.07%
MANUFACTURING	Manufacture of motor vehicles	1.92%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Travel agency and tour operator activities	1.75%
INFORMATION AND COMMUNICATION	Software publishing	1.66%
MANUFACTURING	Manufacture of communication equipment	1.65%
MANUFACTURING	Manufacture of knitted and crocheted apparel	1.43%
CONSTRUCTION	Development of building projects	1.36%
MANUFACTURING	Manufacture of other general-purpose machinery	1.25%
ARTS, ENTERTAINMENT AND RECREATION	Gambling and betting activities	1.00%
REAL ESTATE ACTIVITIES	Real estate activities on a fee or contract basis	0.92%

WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Wholesale of household goods	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

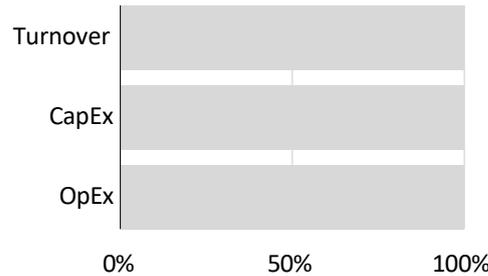

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

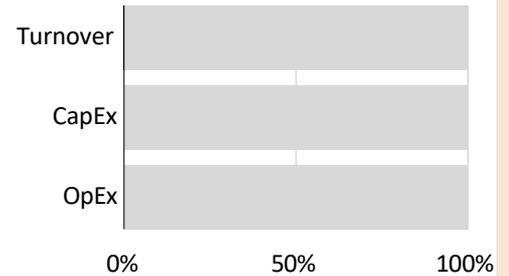

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds which may not be aligned with E/S characteristics. Environmental and social safeguards were not considered for their inclusion, or they were investments that were not assessed for alignment with the E/S characteristics described for this sub-fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology (“GICS”): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – India Equity Fund

Legal entity identifier:

5493006UQ4LVGF5WHY47

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

97.39% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.39%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 98.70%

2023: 72.71%

2024: 97.39%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

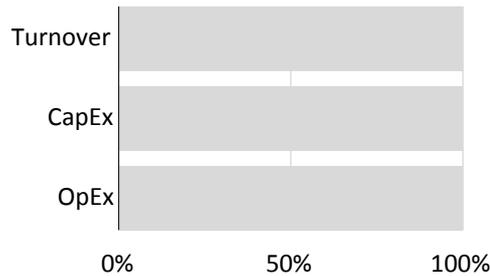

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

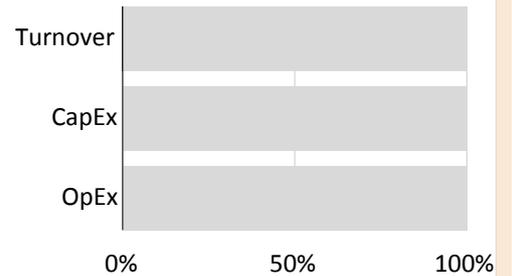

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

1. Proportion of sub-fund stated as aligned with E/S characteristics - 97.72%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 95.42%

2023: 95.95%

2024: 97.72%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

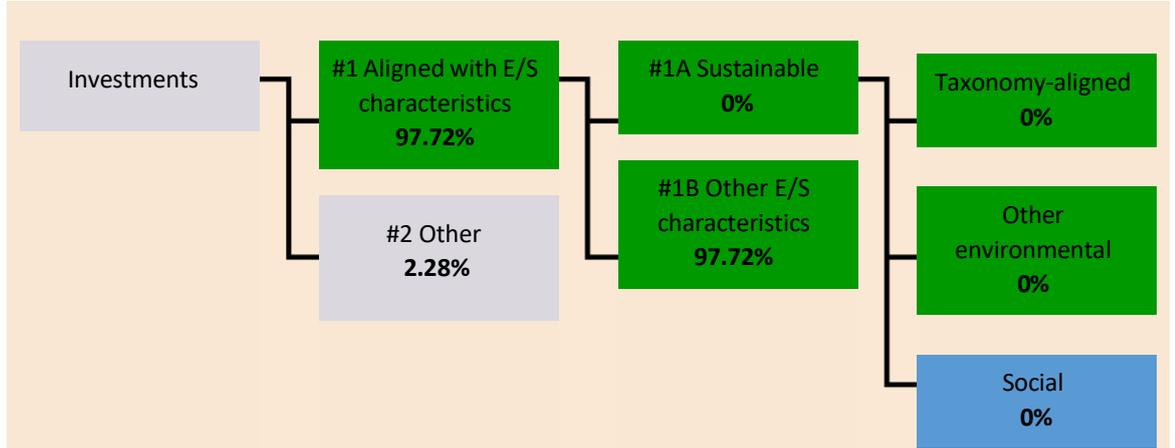

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	31.89%
INFORMATION AND COMMUNICATION	Wireless telecommunications activities	11.93%
Unclassified	Unclassified	9.04%
MINING AND QUARRYING	Mining of non-ferrous metal ores	7.98%
MANUFACTURING	Manufacture of bakery and farinaceous products	7.16%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale in non-specialised stores	4.85%
MANUFACTURING	Manufacture of pharmaceutical preparations	4.59%
MANUFACTURING	Manufacture of prepared animal feeds	4.51%
MANUFACTURING	Manufacture of refined petroleum products	4.11%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Sale of motor vehicle parts and accessories	3.59%
MANUFACTURING	Manufacture of pulp, paper and paperboard	3.32%
INFORMATION AND COMMUNICATION	Other information service activities	2.93%
MANUFACTURING	Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations	2.80%
MANUFACTURING	Manufacture of cement, lime and plaster	0.83%
REAL ESTATE ACTIVITIES	Renting and operating of own or leased real estate	0.47%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

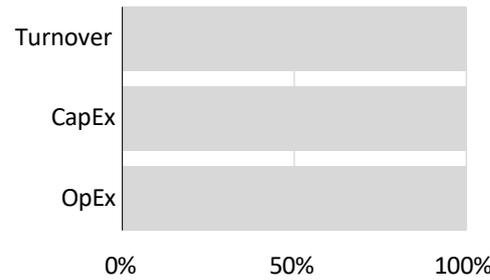

Yes

In fossil gas In nuclear energy

No

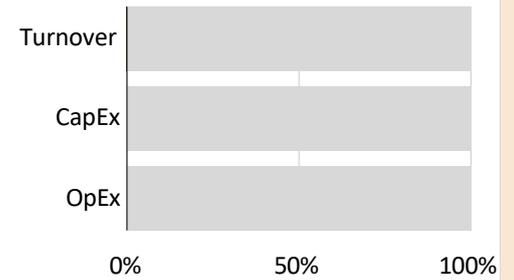

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company’s valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company’s readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company’s exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology (“GICS”): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 50.67% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager’s sustainability approach, in which environmental, social and governance factors are incorporated into the investment process, is the basis for the management and promotion of Environmental/Social characteristics of the Eastspring Investments – Japan ESG Equity Fund (the “Sub-Fund”). The Sub-Fund promoted the following E/S characteristics:

- i. The Sub-Fund promoted certain environmental and social standards through the adoption of exclusion criteria to avoid investing in companies whose products and business practices the Investment Manager believe are detrimental to the environment and the society, such as fossil fuels, tobacco, controversial weapons, severe violations of human rights, labour standard or categorically rated as “strongly misaligned” with any of the 17 sustainable development goals by the United Nations (UN SDGs)
 - ii. The Sub-Fund had weighted average carbon intensity metrics that were at least 20% lower than that of MSCI Japan index (the “Reference Index”)
 - iii. The Sub-Fund had a weighted average ESG score and ESG rating that are equal or better than those of the Reference Index, based on the ESG ratings provided by MSCI ESG Research.
 - iv. The Sub-Fund sought to contribute to the achievement of the UN SDGs by investing in companies whose products/services and business practices are aligned to the goals defined by the UN SDGs.
- The Sub-Fund did not have a reference index designated for the purpose of attaining the environmental or social characteristics which it promotes.

● **How did the sustainability indicators perform?**

The sustainability indicators used by the Sub-Fund are as follows:

1.The Sub-Fund's weighted average ESG score is measured against that of the Reference Index. The Sub-Fund's weighted average ESG score and resulting ESG rating was higher than those of the Reference Index:

Sub-Fund: 7.52 vs. Reference Index: 7.43

2.The Sub-Fund's carbon footprint metrics are at least 20% lower than that of the Reference Index. The Investment Manager defines the Sub-Fund's carbon footprint under two common carbon dioxide (CO₂) emission intensity metrics:

(i)The first carbon intensity metric of the Sub-Fund is calculated by measuring direct greenhouse gas emission from the individual companies in the Sub-Fund (known as scope 1 emission) as well as indirect greenhouse gas emission from those companies' externally-purchased electric power sources (known as scope 2 emission) relative to their revenues:

Sub-Fund: 42.5 tonnes of CO₂ equivalent/million USD revenues

Reference Index: 61.6 tonnes of CO₂ equivalent/million USD revenues

(ii)The other carbon intensity metric of the Sub-Fund is calculated by measuring direct greenhouse gas emission from the individual companies in the Sub-Fund (known as scope 1 emission) as well as indirect greenhouse gas emission from those companies' externally-purchased electric power sources (known as scope 2 emission) per one million US dollar of the assets of the Sub-Fund:

Sub-Fund: 76.0 tonnes of CO₂ equivalent/million USD revenues

Reference Index: 120.9 tonnes of CO₂ equivalent/million USD revenues

3.At least 80% of the assets of the Sub-Fund will be invested in companies the Investment Manager deems to support and/or do not hinder the achievement of the 17 UN SDGs, based on the SDG Alignment framework developed by and assessment by MSCI ESG Research. These companies are categorically rated by MSCI as "Neutral", "Aligned" or "Strongly Aligned" to all of the 17 goals. MSCI provides qualitative and quantitative assessment of a company's alignment to each of the 17 goals by evaluating the businesses and operations of each company, reflected in a net alignment assessment of Strongly Aligned, Aligned, Neutral, Misaligned and Strongly Misaligned:

Sub-Fund: 98.1%

4.At least 90% of the assets of the Sub-Fund will be invested in companies whose business models are categorically rated as "Neutral", "Aligned" or "Strongly Aligned" to the following goals: (i) Sustainable Development Goal 7 – Affordable and Clean Energy, (ii) Sustainable Development Goal 13 – Climate Action, (iii) Sustainable Development Goal 14 – Life Below Water, and (iv) Sustainable Development Goal 15 – Life on Land:

Sub-Fund: 98.1%

5.The Sub-Fund's investments complied with an exclusion policy, which excluded investments in securities of companies that are materially exposed to controversial business activities and practices:

(i)companies that are involved in the development, production, use, maintenance, offering for sale, distribution, import or export, storage or transportation of nuclear weapons, biological weapons, chemical weapons, non-detectable fragments, blinding laser weapons, anti-personnel mines, cluster munitions, depleted uranium ammunition and armour, incendiary weapons, white phosphorus weapons.

(ii)companies that are involved in the production of tobacco products,

(iii)companies that are involved in business activities relating to exploration and production of arctic oil and gas, and in production of hydrocarbon from oil sands, and companies that are involved in the mining, extraction, and sales of thermal coal.

6.The Sub-Fund excluded securities of companies that that derived 5% or more of their revenue from any of the following activities: supplying inputs to tobacco production, distribution and retailing and licensing of tobacco products, production of shale oils and/or shale gas, production of conventional

and/or gas, power generation using fossil fuels, and/or 10% or more of their revenue from power generation using nuclear energy. In the event where a company may derive their revenue from more than one of the activities related to fossil fuels as listed, the 5% revenue threshold shall apply to the aggregate sum of revenues derived from all relevant fossil fuel related activities.

7.The Sub-Fund excluded securities of companies that that derived no more than 0% of their revenue from the mining and/ or sales of thermal coal.

8.The Sub-Fund shall exclude securities of companies that are assessed as having severe violations of the United Nations Global Compact, the Guiding Principles for Business and Human Rights of the United Nations, and the International Labour Organization (ILO)'s Broader Sets of Standards and Fundamental Principles and Rights at Work.

9.The Sub-Fund excluded securities of companies whose business models are assigned a categorical assessment of "Strongly Misaligned" with any of the 17 Sustainable Development Goals (SDGs) of the United Nations, based on the SDG alignment framework developed and assessment made by MSCI ESG Research LLC.

The Investment Manager adopted research conclusions made by third-party service providers in order to determine whether a company is involved in and/or derives more than 5% of its revenue from these above-mentioned business activities or derives more than 10% of its revenue from nuclear energy power generation. Where there was a passive breach of such exclusion rules, the Investment Manager promptly engaged with the company with regard to the breach. Where the Investment Manager determined that it is not possible for the company to remedy the breach, the Investment Manager divested the holdings within a reasonable timeframe of a maximum of ninety (90) days from the date of the said engagement from the Sub-Fund.

These above exclusion rules are coded in and verified daily in the Aladdin portfolio management system by the investment risk function which is responsible for ensuring no active violation of the rules and is separate from the investment team. Data and assessment used to determine whether companies generate revenues or have operations listed in the exclusion list are supplied by third-party service providers.

In addition to the exclusionary policies mentioned above, the Investment Manager closely monitored investee companies that were (i) categorised as being in the Watch List for possible violations of the UN Global Compact, the UN Guiding Principles for Business and Human Rights, the Broader Sets of Standards and Fundamental Principles and Rights at Work of the ILO, (ii) assessed as "Misaligned" to any of the 17 UN SDGs, and (iii) assessed as having Severe and Most Severe Controversies by third-party research providers. The Investment Manager assessed whether the issues have material impact on the trend assumptions and sustainable earnings of the companies

The Investment Manager thoroughly analysed and valued companies based on quantifiable metrics which were generated in-house, supplemented by non-financial data including sustainability data, reports and research conclusions, provided by investee companies and market-leading third-party data providers, including but not limited to MSCI ESG Research LLC, Sustainable Accounting Standards Board (SASB), financial materiality framework, which helps identify material ESG evaluation criteria where data is available and relevant, and Institutional Shareholder Services (ISS) for research conclusions on exclusions of controversial weapons and guidance on corporate governance and proxy voting.

The Sub-Fund did not have a reference index designated for the purpose of attaining the environmental or social characteristics which it promoted to the extent that the Reference Index did not have any sustainability specific factors.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Investment Manager had allocated 50.67 % of the assets of the Sub-Fund were invested in sustainable investments, and in particular in companies whose products and services contribute positively to address climate change mitigation and/or climate change adaptation.

The Investment Manager monitored the level of investments aligned with the EU Taxonomy. The related data to be used to assess sustainable investments of the Sub-Fund will be provided by MSCI ESG Research LLC and/or other data service providers and is calculated based on the percentage of revenues of the portfolio companies that are aligned with EU Taxonomy and is pro-rated across the portfolio holdings.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applied only to those investments underlying the financial product that took into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product did not take into account the EU criteria for environmentally sustainable economic activities.

The Investment Manager took into account relevant principal adverse impact indicators to assess and estimate the impact of the sustainable investments on environmental or social objectives. The Investment Manager used a combination of exclusionary screening and monitoring to ensure that portfolio companies adhere to the Do No Significant Harm principle.

Exclusionary screening

The Sub-Fund adhered to an extensive list of exclusion criteria to exclude investments in companies that are involved in controversial behaviour and controversial activities, including controversial weapons, chemical weapons, biological weapons, nuclear weapons, certain conventional weapons, tobacco, fossil fuel, fossil fuel based power generation, nuclear power generation, severe violations of the UN Global Compact, the UN Guiding Principles for Business and Human Rights, the ILO’s Broader Sets of Standards and Fundamental Principles and Rights at Work. In addition, the Investment Manager also adopted the SDG Alignment Framework by third-party vendors such as MSCI ESG Research to avoid investing in companies that are categorically assessed as “strongly misaligned” with any of the 17 sustainable development goals of the United Nations.

The Investment Manager used ESG data, research, and relevant assessment and conclusions by MSCI ESG Research to support their fundamental analysis to identify and estimate sustainable investments of the Sub-Fund. The Investment Manager also adopted the ESG Controversies Methodology and assessment by MSCI ESG Research (MSCI ESG Controversies) to identify companies whose activities may potentially cause significant harm to any environmental or social objective under EU Taxonomy.

To identify and measure companies’ involvement in sustainable activities potentially qualified under EU Taxonomy, MSCI ESG Research excluded companies that were involved in controversial practices and assessed as having Severe (Orange flag) and Very Severe (Red flag) environmental controversies or having Very Severe (Red flag) social or governance controversies, which may be deemed as having significant adverse impact on environmental or social objective.

Monitoring

In addition, the Investment Manager closely monitored investee companies that were (i) rated as being in the Watch List for possible violations of the UN Global Compact, the UN Guiding Principles for Business and Human Rights, the ILO’s Broader Sets of Standards and Fundamental Principles and Rights at Work, (ii) assessed as “Misaligned” to any of the 17 UN sustainable development goals, and (iii) assessed as having Severe and Very Severe Environmental and/or Very Severe Social or Governance Controversies by third-party research providers.

In such occasions, the Investment Manager assessed whether the issues had material impact on the trend assumptions and sustainable earnings of the companies, and the sustainability policies of the Sub-Fund. The Investment Manager sought to directly engage with management of the companies to address and/or rectify the environmental and/or social issues as soon as practical. In the event where the Investment Manager deemed that it was unlikely to observe any positive change for a period of up to 3 years since the date of the first of such engagement, the companies were excluded from the investment universe of the Sub-Fund, and any investment of the Sub-Fund in such companies, if any, were divested within a reasonable timeframe of a maximum of ninety (90) days from the date of the decision made by the Investment Manager.

How were the indicators for adverse impacts on sustainability factors taken into account?

As an integral part of the investment process, the Investment Manager shall consider relevant Principal Adverse Impact (PAI) indicators on the Sub-Fund’s sustainable investments, including all mandatory PAI indicators and certain relevant optional indicators. List of indicators that were

considered is available under the latest Prospectus.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager used MSCI ESG Controversies research conclusions to support their ESG considerations as part of their investment process. A combination of exclusionary screening and monitoring of ESG controversies was implemented to avoid and/or identify companies which were involved in controversial practices that may constitute a breach of the UN Global Compact, the UN Guiding Principles on Business and Human Rights, the ILO's Broader Sets of Standards and Fundamental Principles and Rights at Work as well as OECD Guidelines for Multinational Enterprises.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that are involved in business activities relating to exploration and production of arctic oil and gas, and in production of hydrocarbon from oil sands, and companies that are involved in the mining, extraction, and sales of thermal coal.
- iii) PAI 10: No investment in companies with UNGC human rights violation
- iv) PAI 3: Greenhouse gas intensity of sub-fund at least 20% lower than that of the Reference Index

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
PANASONIC HOLDING JPY NPV	MANUFACTURING	6.00%	Japan
RICOH CO LTD JPY NPV	MANUFACTURING	5.54%	Japan
RESONA HOLDINGS I JPY NPV	FINANCIAL AND INSURANCE ACTIVITIES	4.32%	Japan

TAKUMA CO LTD JPY NPV	WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES	2.73%	Japan

What was the proportion of sustainability-related investments?

There is 50.67% in sustainability-related investment.

Asset

allocation describes the share of investments in specific assets.

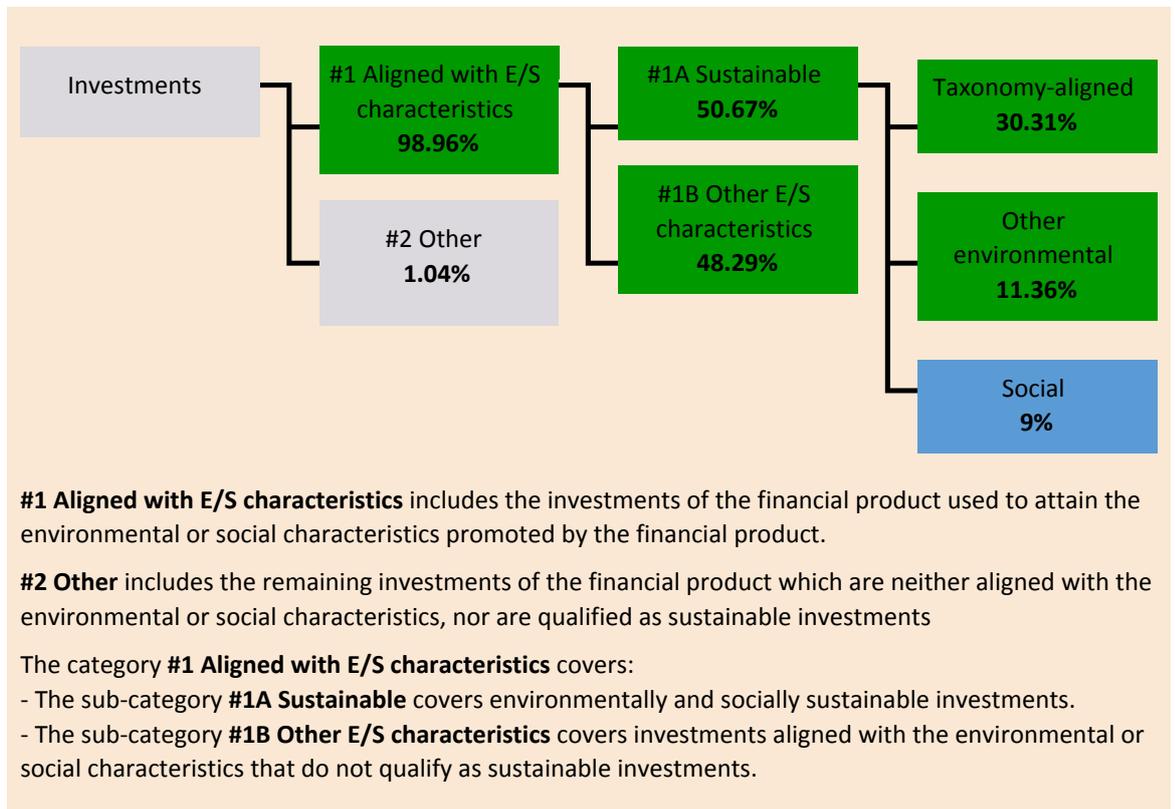

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital**

expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	10.55%
MANUFACTURING	Manufacture of other general-purpose machinery	9.19%
MANUFACTURING	Manufacture of pharmaceutical preparations	6.64%
MANUFACTURING	Manufacture of computers and peripheral equipment	5.54%
MANUFACTURING	Manufacture of electric lighting equipment	5.41%
Transporting and storage	Passenger rail transport, interurban	4.18%
MANUFACTURING	Manufacture of general-purpose machinery	4.07%
MANUFACTURING	Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	4.03%
MANUFACTURING	Manufacture of motor vehicles	3.99%
WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES	Waste treatment and disposal	3.68%
REAL ESTATE ACTIVITIES	Renting and operating of own or leased real estate	3.63%
HUMAN HEALTH AND SOCIAL WORK ACTIVITIES	Other human health activities	3.46%
Transporting and storage	Freight transport by road and removal services	3.46%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	2.75%
MANUFACTURING	Manufacture of electronic components and boards	2.60%
MANUFACTURING	Manufacture of agricultural and forestry machinery	2.46%
CONSTRUCTION	Construction of utility projects	2.36%
MANUFACTURING	Manufacture of beverages	2.19%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Retail sale in non-specialised stores	2.18%
MANUFACTURING	Manufacture of basic precious and other non-ferrous metals	2.01%
Transporting and storage	Other passenger land transport	1.91%
MANUFACTURING	Manufacture of other textiles	1.65%
CONSTRUCTION	Construction of residential and non-residential buildings	1.62%
MANUFACTURING	Manufacture of electric motors, generators, transformers and electricity distribution and control apparatus	1.40%
MANUFACTURING	Manufacture of communication equipment	1.37%
MANUFACTURING	Manufacture of other special-purpose machinery	1.32%
MANUFACTURING	Manufacture of paints, varnishes and similar coatings, printing ink and mastics	1.16%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	1.09%
Transporting and storage	Other postal and courier activities	0.95%
MANUFACTURING	Manufacture of medical and dental instruments and supplies	0.88%
Unclassified	Unclassified	0.60%
MANUFACTURING	Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations	0.52%
MANUFACTURING	Manufacture of other chemical products	0.44%
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	Wholesale of food, beverages and tobacco	0.35%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Private security activities	0.27%
MANUFACTURING	Manufacture of other food products	0.09%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

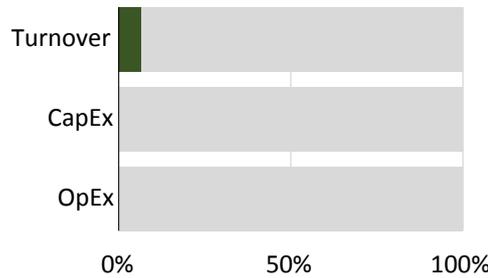

Climate Change Mitigation and Climate Change Adaptation. The Investment Manager allocated 30.31 % of the assets of the Sub-Fund to taxonomy aligned sustainable investments that address climate change mitigation and/or climate change adaptation objective while remaining consistent to their investment process.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

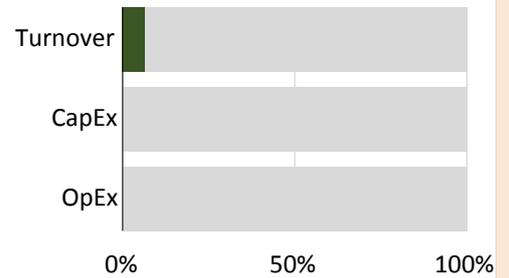

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 6.6175%
- Non Taxonomy-aligned : 93.3825%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 6.6175%
- Non Taxonomy-aligned : 93.3825%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Due to the limited availability of reliable public information as Japanese companies do not fall within the scope of the EU Taxonomy, a material portion of the Sub-Fund was invested in non-transitional and enabling activities. However, the Investment Manager do not expect these activities to be detrimental to the long-term objectives of the Sub-Fund’s sustainable investments due to the Sub-Fund’s binding ESG policies and investment framework. Over time, it may be possible that more Japanese companies will commit to EU Taxonomy, the Investment Manager expects investments in transitional and enabling activities to decline in favour of Taxonomy-aligned activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

1) Percentage of investments that were aligned with the EU Taxonomy:
2022: 8.86%
2023: 46.66%
2024: 30.31%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

11.36% of the sub-fund’s sustainable investments with environmental objective were not in line with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 9%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under “Other” represented the maximum allowable cash position under Luxembourg regulations. Direct cash holdings, short term instruments, liquidity funds and money market funds may not be aligned with ESG characteristics, and neither environmental nor social safeguards have been considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Please refer to detailed answers under the question “How did the sustainability indicators perform”.

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not Applicable.

- ***How did this financial product perform compared with the broad market index?***

Not Applicable.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Japan Smaller Companies Fund

Legal entity identifier:

5493008Y5DKL2XNZ4B15

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

98.69% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 98.69%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 99.17%

2023: 99.34%

2024: 98.69%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

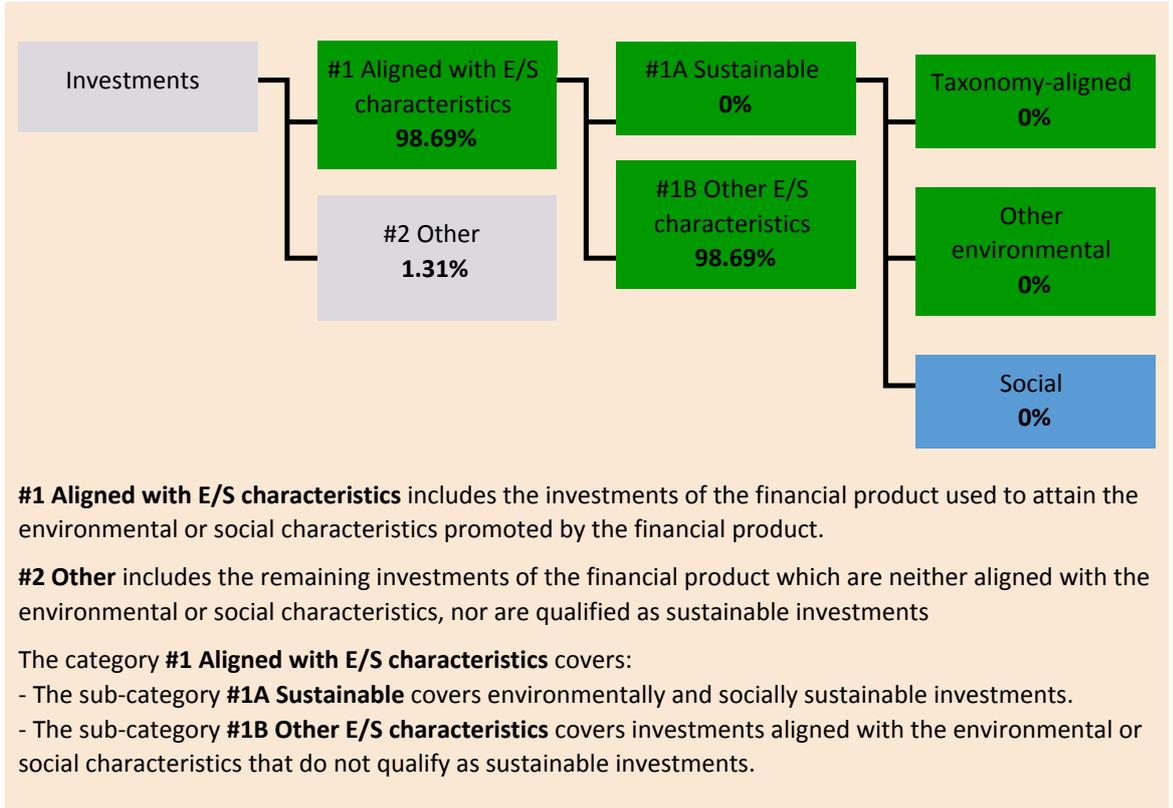

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
Unclassified	Unclassified	13.27%
MANUFACTURING	Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	7.69%
CONSTRUCTION	Construction of residential and non-residential buildings	6.97%
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	5.90%
MANUFACTURING	Manufacture of computers and peripheral equipment	4.95%

ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Temporary employment agency activities	0.34%
MANUFACTURING	Manufacture of other fabricated metal products	0.30%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

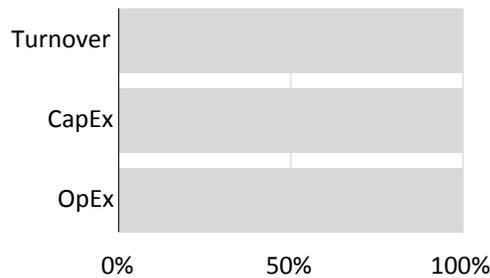

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

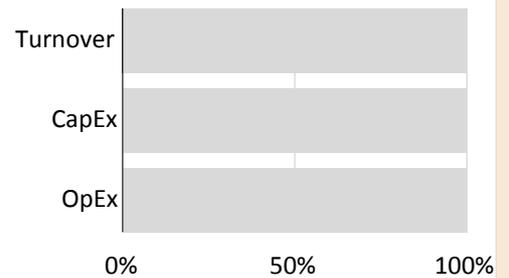

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "Other" represented the maximum allowable cash position under Luxembourg regulations. Direct cash holdings, short term instruments, liquidity funds and money market funds may not be aligned with ESG characteristics, and neither environmental nor social safeguards have been considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.
2. ESG Exclusions were applied on
 - i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
 - ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
 - iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – Philippines Equity Fund

Legal entity identifier:

549300JT5KX8JA6YYD13

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

95.57% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1. Proportion of sub-fund stated as aligned with E/S characteristics - 95.57%

The sub-fund adopts an ESG integration process which focuses on materiality. The issues that are the subject of focus at the analysis phase are those that are assessed to have a material impact on an investment's valuation, credit worthiness, or license to operate. The relevance and magnitude of impact pertaining to each material ESG issue across a given investment horizon may be considered in the context of the market, sector, level of ownership, and track record of operation. Consideration of the potential impact of the issue should incorporate management's willingness and ability to mitigate material ESG risks and exploit profitable ESG opportunities on a forward-looking basis. Assessments were monitored and periodically reviewed. ESG issues considered included, but were not limited to, governance indicators such as board quality, environmental indicators such as Greenhouse Gas Emissions and energy efficiency and social indicators such as occupational health and safety.

2. ESG Exclusions - the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Same as In the previous period, the sub-fund complied with its exclusion policy and the percentage of alignment with the E/S characteristics was above the Prospectus thresholds.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.59%

2023: 95.67%

2024: 95.57%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data.

2. ESG Exclusions were applied on

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Eastspring Investments (Singapore) Limited is the investment manager for the Eastspring Investments – US Corporate Bond Fund (the Sub-Fund), and PPM America, Inc. (PPM) serves as the Sub-Fund’s investment sub-manager.

Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating environmental and social factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can impact their ability to deliver investment results for clients. PPM incorporates both environmental and social factors utilizing an ESG (environmental, social and governance) integration approach as well as through client-led ESG exclusions.

1.PPM ESG Integration: Proportion of Sub-Fund stated as aligned with E/S characteristics – 96.7%. The Sub-Fund's environmental, social and governance (ESG) integration approach focuses on the impact material ESG factors may have on the investment value of the Sub-Fund’s debt securities (excludes instruments such as direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds). Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating ESG factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can have an impact on their ability to deliver investment results for clients.

As part of the credit research process, credit analysts make a judgement regarding the materiality of each

ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees or discussed in sector and company update meetings with portfolio managers. In addition to the information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPM will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. ESG issues considered include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues.

While a variety of factors go into the investment analysis, the overall principle guiding all investment decisions focuses on value.

2. ESG exclusions applied to the Sub-Fund include:

i) Companies with a verified involvement in cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4).

● **How did the sustainability indicators perform?**

PPM uses the following sustainability indicators:

1. Proportion of Sub-Fund stated as aligned with E/S characteristics – 96.7%

The Sub-Fund adopts an ESG integration approach that focuses on identifying ESG issues that have a material impact on an investment's valuation and credit worthiness. The Sub-Fund shall invest up to a maximum of 100% in debt securities with a possibility to hold up to 33.3% of its assets in other investment instruments. Over the reporting period, PPM ensured the Sub-Fund's debt securities were aligned with environmental and social characteristics contemplated through its ESG integration approach.

As part of the credit research process, analysts make a judgement regarding the materiality of each ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees, or discussed in sector and company update meetings with portfolio managers. In addition to information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPMA will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. While the Sub-Fund does not have any specific ESG-focused objectives in place, portfolio managers access an Aladdin® ESG dashboard to review issuer, industry and portfolio level reporting, which is driven by a robust third-party ESG issuer-level dataset that covers an extensive universe of public corporate bonds. MSCI ESG ratings and scores are also integrated into both PPMA's proprietary Credit Research Portal and Aladdin® to support our broader portfolio monitoring efforts. These tools allow portfolio managers to evaluate the ESG characteristics of their portfolios both separately and relative to a benchmark.

2. ESG Exclusions – the following exclusions are applied to the Sub-Fund:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14)
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products
- iii) Companies that derive greater than 30% of their revenue from thermal coal mining and/or electricity from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4)

The Sub-Fund did not have any exposure to these companies in the reporting period.

● **...and compared to previous periods?**

The approach described in "How did the sustainability indicators perform?" was consistent to the previous period.

Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 95.3%

2023: 95.7%

2024: 96.7%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considers principal adverse impacts on sustainability factors through its exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

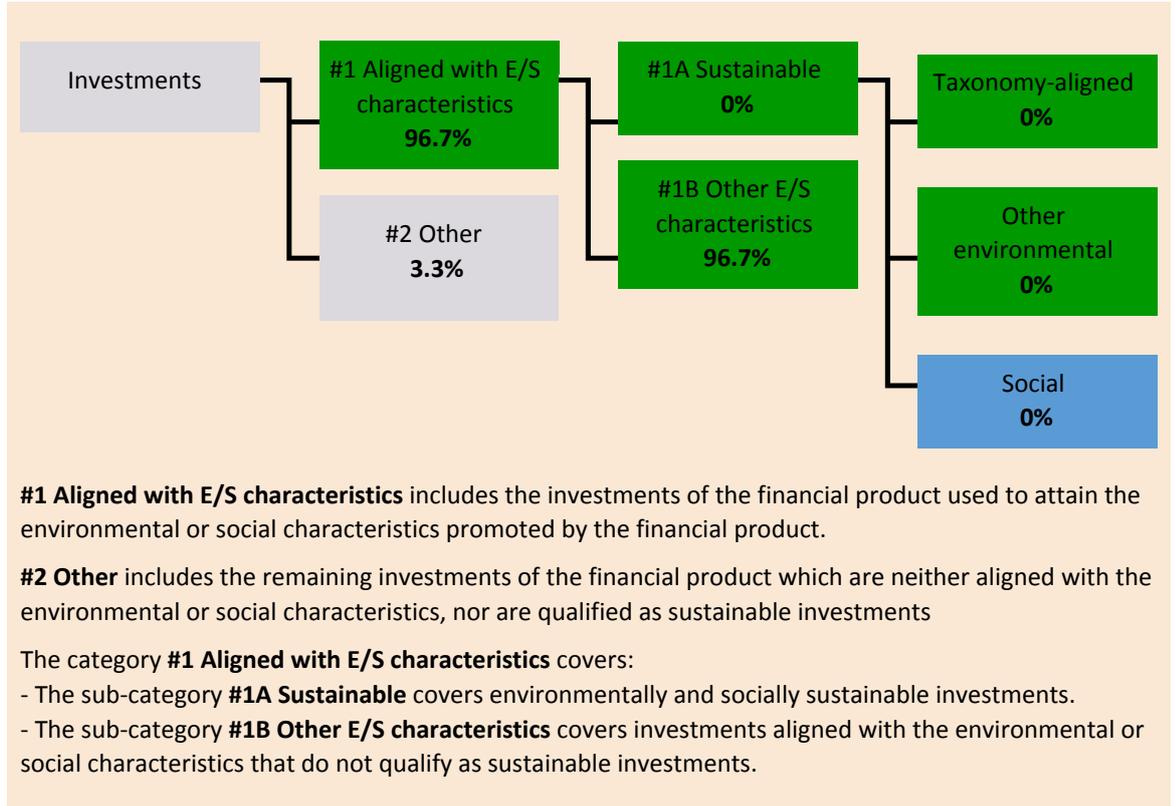

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	14.87%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	12.39%
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	9.83%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

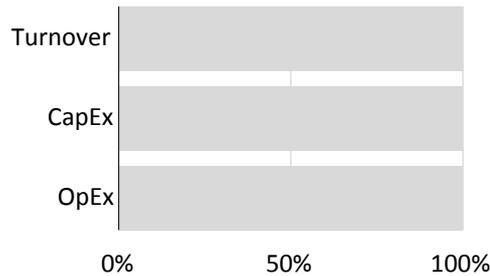

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

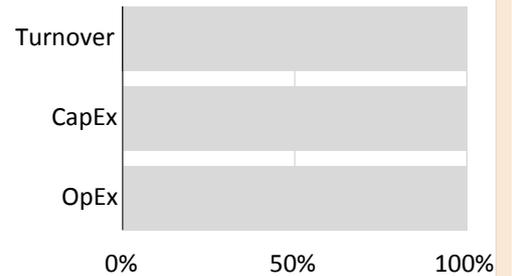

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “Other” included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1.PPMA ESG Integration: The Sub-Fund's ESG integration approach focuses on the impact material ESG factors may have on the investment value of the Sub-Fund's debt securities (excludes instruments such as direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds). Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients' interests first. PPM believes that incorporating ESG factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can have an impact on their ability to deliver investment results for clients.

As part of the credit research process, credit analysts make a judgement regarding the materiality of each ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees or discussed in sector and company update meetings with portfolio managers. In addition to the information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPMA will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. ESG issues considered include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues.

While a variety of factors go into the investment analysis, the overall principle guiding all investment decisions focuses on value.

2.ESG exclusions applied to the Sub-Fund include:

- i)Companies with a verified involvement in cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14).
- ii)Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii)Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

● ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

● ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – US High Investment Grade Bond Fund

Legal entity identifier:

5493001NYMT73ZLX1W09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Eastspring Investments (Singapore) Limited is the investment manager for the Eastspring Investments – US High Investment Grade Bond Fund (the Sub-Fund), and PPM America, Inc. (PPM) serves as the Sub-Fund’s investment sub-manager.

Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating environmental and social factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can impact their ability to deliver investment results for clients. PPM incorporates both environmental and social factors utilizing an ESG (environmental, social and governance) integration approach as well as through client-led ESG exclusions.

1.PPM ESG Integration: Proportion of Sub-Fund stated as aligned with E/S characteristics – 97.1%. The Sub-Fund's environmental, social and governance (ESG) integration approach focuses on the impact material ESG factors may have on the investment value of the Sub-Fund’s debt securities (excludes instruments such as direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds). Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating ESG factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can have an impact on their ability to deliver investment results for clients.

As part of the credit research process, credit analysts make a judgement regarding the materiality of each

ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees or discussed in sector and company update meetings with portfolio managers. In addition to the information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPM will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. ESG issues considered include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues.

While a variety of factors go into the investment analysis, the overall principle guiding all investment decisions focuses on value.

2. ESG exclusions applied to the Sub-Fund include:

- i) Companies with a verified involvement in cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4).

● **How did the sustainability indicators perform?**

PPM uses the following sustainability indicators:

1. Proportion of Sub-Fund stated as aligned with E/S characteristics – 97.1%

The Sub-Fund adopts an ESG integration approach that focuses on identifying ESG issues that have a material impact on an investment's valuation and credit worthiness. The Sub-Fund shall invest up to a maximum of 100% in debt securities with a possibility to hold up to 33.3% of its assets in other investment instruments. Over the reporting period, PPM ensured the Sub-Fund's debt securities were aligned with environmental and social characteristics contemplated through its ESG integration approach.

As part of the credit research process, analysts make a judgement regarding the materiality of each ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees, or discussed in sector and company update meetings with portfolio managers. In addition to information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPMA will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. While the Sub-Fund does not have any specific ESG-focused objectives in place, portfolio managers access an Aladdin® ESG dashboard to review issuer, industry and portfolio level reporting, which is driven by a robust third-party ESG issuer-level dataset that covers an extensive universe of public corporate bonds. MSCI ESG ratings and scores are also integrated into both PPMA's proprietary Credit Research Portal and Aladdin® to support our broader portfolio monitoring efforts. These tools allow portfolio managers to evaluate the ESG characteristics of their portfolios both separately and relative to a benchmark.

2. ESG Exclusions – the following exclusions are applied to the Sub-Fund:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14)
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products
- iii) Companies that derive greater than 30% of their revenue from thermal coal mining and/or electricity from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4)

The Sub-Fund did not have any exposure to these companies in the reporting period.

● **...and compared to previous periods?**

The approach described in "How did the sustainability indicators perform?" was consistent to the previous period.

Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 90.9%

2023: 94.5%

2024: 97.1%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

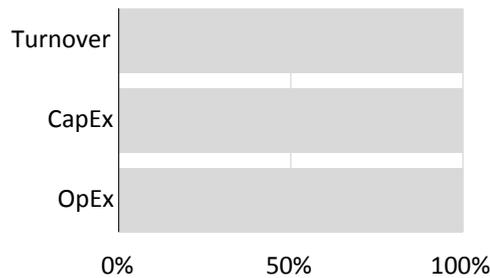

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

Yes
 In fossil gas In nuclear energy
 No

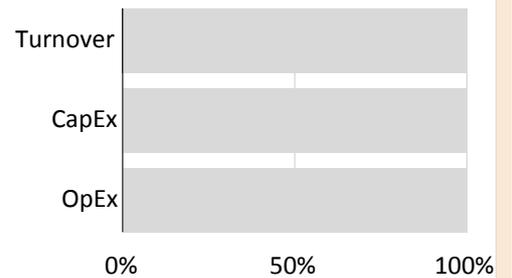

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – US High Yield Bond Fund

Legal entity identifier:

549300LSXB13BK0WLT04

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Eastspring Investments (Singapore) Limited is the investment manager for the Eastspring Investments – US High Yield Bond Fund (the Sub-Fund), and PPM America, Inc. (PPM) serves as the Sub-Fund’s investment sub-manager.

Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating environmental and social factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can impact their ability to deliver investment results for clients. PPM incorporates both environmental and social factors utilizing an ESG (environmental, social and governance) integration approach as well as through client-led ESG exclusions.

1.PPM ESG Integration: Proportion of Sub-Fund stated as aligned with E/S characteristics – 95.3%. The Sub-Fund's environmental, social and governance (ESG) integration approach focuses on the impact material ESG factors may have on the investment value of the Sub-Fund’s debt securities (excludes instruments such as direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds). Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating ESG factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can have an impact on their ability to deliver investment results for clients.

As part of the credit research process, credit analysts make a judgement regarding the materiality of each

ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees or discussed in sector and company update meetings with portfolio managers. In addition to the information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPM will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. ESG issues considered include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues.

While a variety of factors go into the investment analysis, the overall principle guiding all investment decisions focuses on value.

2. ESG exclusions applied to the Sub-Fund include:

i) Companies with a verified involvement in cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4).

● **How did the sustainability indicators perform?**

PPM uses the following sustainability indicators:

1. Proportion of Sub-Fund stated as aligned with E/S characteristics – 95.3%

The Sub-Fund adopts an ESG integration approach that focuses on identifying ESG issues that have a material impact on an investment's valuation and credit worthiness. The Sub-Fund shall invest up to a maximum of 100% in debt securities with a possibility to hold up to 33.3% of its assets in other investment instruments. Over the reporting period, PPM ensured the Sub-Fund's debt securities were aligned with environmental and social characteristics contemplated through its ESG integration approach.

As part of the credit research process, analysts make a judgement regarding the materiality of each ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees, or discussed in sector and company update meetings with portfolio managers. In addition to information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPMA will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. While the Sub-Fund does not have any specific ESG-focused objectives in place, portfolio managers access an Aladdin® ESG dashboard to review issuer, industry and portfolio level reporting, which is driven by a robust third-party ESG issuer-level dataset that covers an extensive universe of public corporate bonds. MSCI ESG ratings and scores are also integrated into both PPMA's proprietary Credit Research Portal and Aladdin® to support our broader portfolio monitoring efforts. These tools allow portfolio managers to evaluate the ESG characteristics of their portfolios both separately and relative to a benchmark.

2. ESG Exclusions – the following exclusions are applied to the Sub-Fund:

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14)

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products

iii) Companies that derive greater than 30% of their revenue from thermal coal mining and/or electricity from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4)

The Sub-Fund did not have any exposure to these companies in the reporting period.

● **...and compared to previous periods?**

The approach described in "How did the sustainability indicators perform?" was consistent to the previous period.

Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 94.6%

2023: 94.5%

2024: 95.3%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

allocation describes the share of investments in specific assets.

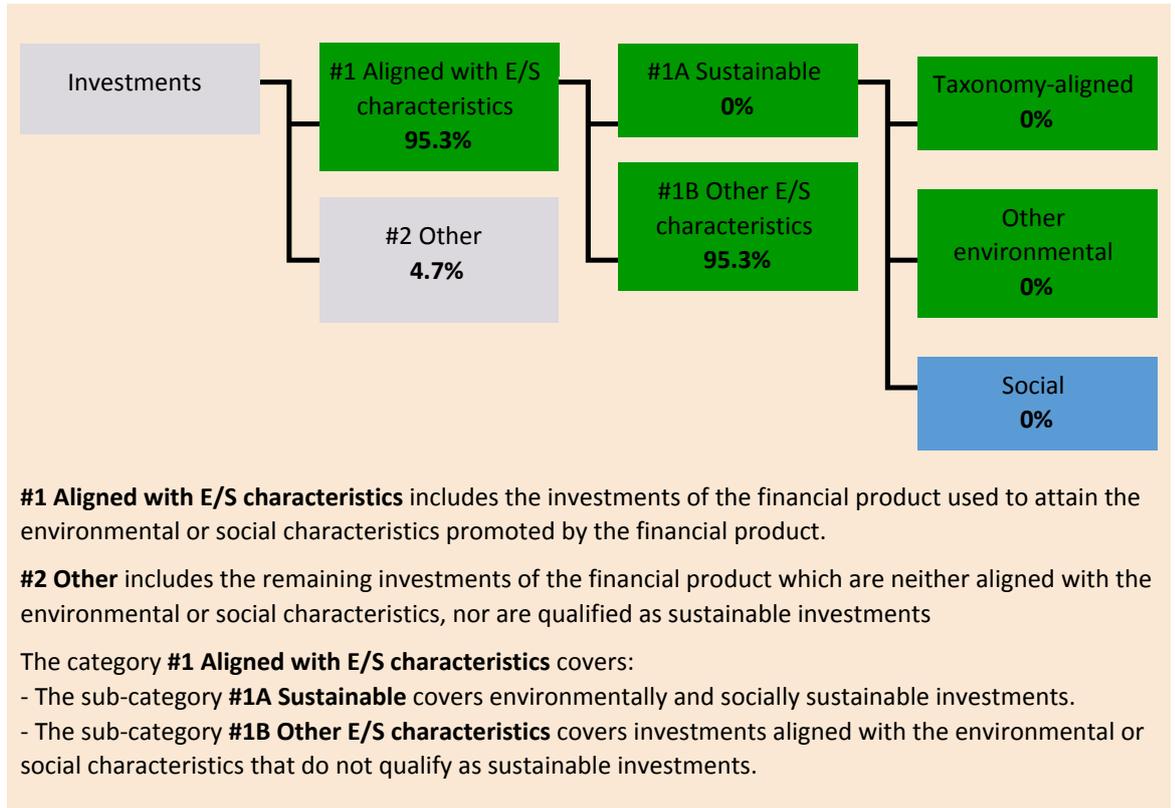

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital**

expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
Unclassified	Unclassified	36.51%
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	10.35%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

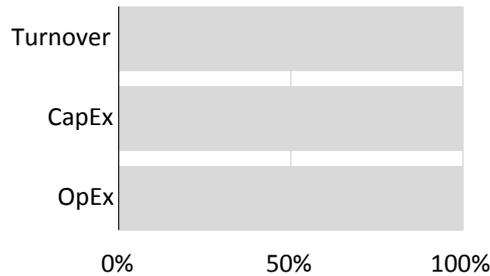

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

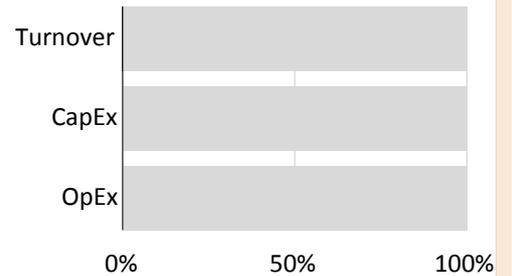

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Eastspring Investments (Singapore) Limited is the investment manager for the Eastspring Investments – US Investment Grade Bond Fund (the Sub-Fund), and PPM America, Inc. (PPM) serves as the Sub-Fund’s investment sub-manager.

Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating environmental and social factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can impact their ability to deliver investment results for clients. PPM incorporates both environmental and social factors utilizing an ESG (environmental, social and governance) integration approach as well as through client-led ESG exclusions.

1.PPM ESG Integration: Proportion of Sub-Fund stated as aligned with E/S characteristics – 95.3%. The Sub-Fund's environmental, social and governance (ESG) integration approach focuses on the impact material ESG factors may have on the investment value of the Sub-Fund’s debt securities (excludes instruments such as direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds). Consistent with their fiduciary obligations, PPM seeks to serve the best interest of their clients and put clients’ interests first. PPM believes that incorporating ESG factors into the investment analysis is consistent with that obligation, as PPM seeks to consider all factors that can have an impact on their ability to deliver investment results for clients.

As part of the credit research process, credit analysts make a judgement regarding the materiality of each

ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees or discussed in sector and company update meetings with portfolio managers. In addition to the information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPM will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. ESG issues considered include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues.

While a variety of factors go into the investment analysis, the overall principle guiding all investment decisions focuses on value.

2. ESG exclusions applied to the Sub-Fund include:

- i) Companies with a verified involvement in cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4).

● **How did the sustainability indicators perform?**

PPM uses the following sustainability indicators:

1. Proportion of Sub-Fund stated as aligned with E/S characteristics – 95.3%

The Sub-Fund adopts an ESG integration approach that focuses on identifying ESG issues that have a material impact on an investment's valuation and credit worthiness. The Sub-Fund shall invest up to a maximum of 100% in debt securities with a possibility to hold up to 33.3% of its assets in other investment instruments. Over the reporting period, PPM ensured the Sub-Fund's debt securities were aligned with environmental and social characteristics contemplated through its ESG integration approach.

As part of the credit research process, analysts make a judgement regarding the materiality of each ESG issue. Their assessments of material ESG issues or risks are summarized for investment committees, or discussed in sector and company update meetings with portfolio managers. In addition to information provided by issuers, the credit research team may reference external research from rating agencies, sell side brokers and third-party data providers. Where ESG ratings are not readily available, PPMA will rely on the existing investment process and due diligence to reflect its internal assessment of ESG, whenever possible. While the Sub-Fund does not have any specific ESG-focused objectives in place, portfolio managers access an Aladdin® ESG dashboard to review issuer, industry and portfolio level reporting, which is driven by a robust third-party ESG issuer-level dataset that covers an extensive universe of public corporate bonds. MSCI ESG ratings and scores are also integrated into both PPMA's proprietary Credit Research Portal and Aladdin® to support our broader portfolio monitoring efforts. These tools allow portfolio managers to evaluate the ESG characteristics of their portfolios both separately and relative to a benchmark.

2. ESG Exclusions – the following exclusions are applied to the Sub-Fund:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as defined by Institutional Shareholder Services ("ISS") (PAI 14)
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products
- iii) Companies that derive greater than 30% of their revenue from thermal coal mining and/or electricity from thermal coal as defined by Morgan Stanley Capital International ("MSCI") (PAI 4)

The Sub-Fund did not have any exposure to these companies in the reporting period.

● **...and compared to previous periods?**

The approach described in "How did the sustainability indicators perform?" was consistent to the previous period.

Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 97.7%

2023: 96.4%

2024: 95.3%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements:

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

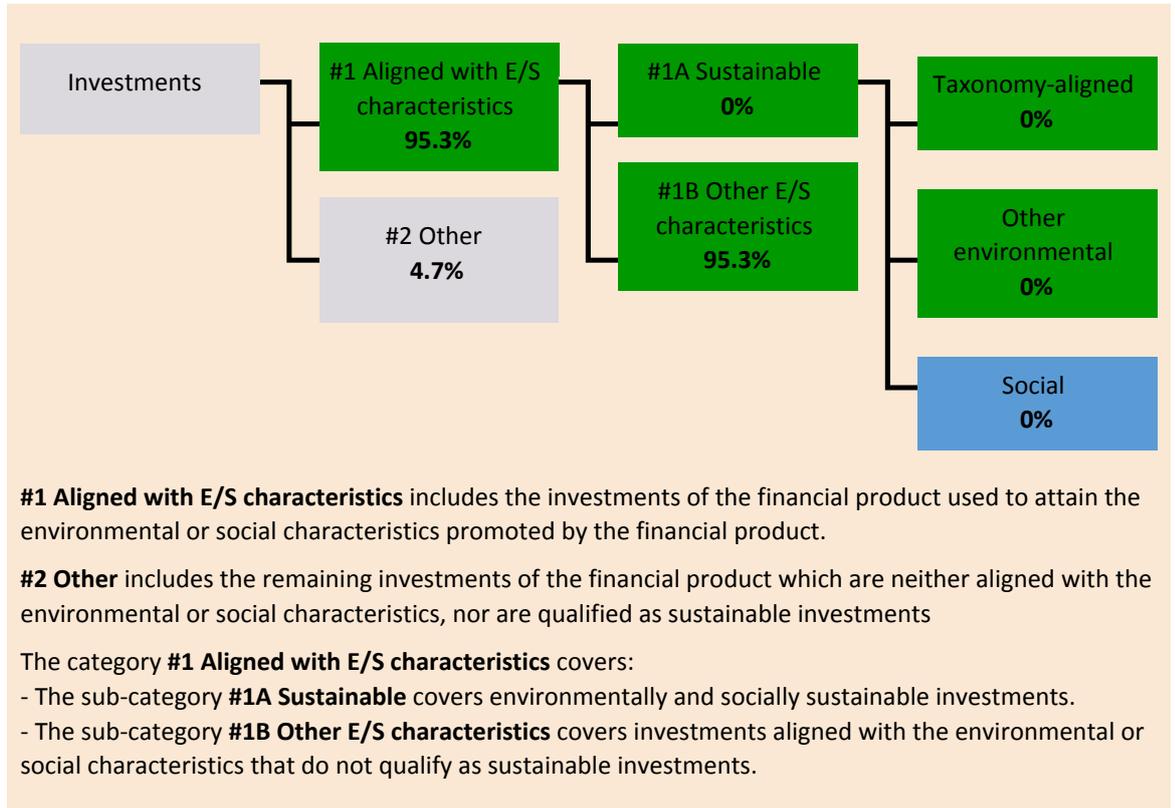

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	13.02%
FINANCIAL AND INSURANCE ACTIVITIES	Other financial service activities, except insurance and pension funding	11.99%
FINANCIAL AND INSURANCE ACTIVITIES	Trusts, funds and similar financial entities	11.00%
ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	Electric power generation, transmission and distribution	7.94%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

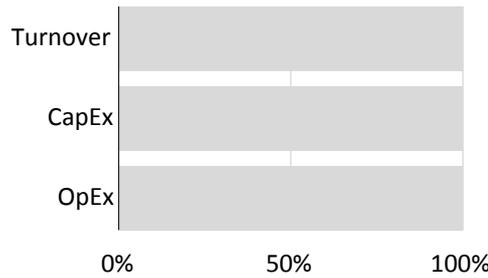

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process where ESG was incorporated within the sub-fund's research program. The fund manager conducted research on alpha signals, including those related to material ESG issues, using available historical data. The fund manager looked to identify and validate ESG alpha factors that improve the returns of the fund, as well as to identify ESG risk factors that may mitigate risk.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not Applicable

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

● ***How did this financial product perform compared with the reference benchmark?***

Not Applicable

● ***How did this financial product perform compared with the broad market index?***

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name:

Eastspring Investments – World Value Equity Fund

Legal entity identifier:

549300IJ1YXDYXRWEU64

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes No

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

98.57% of the sub-fund's assets was in line with E/S characteristics as these are detailed in the Prospectus.

For allocations made via Collective Investment Schemes ("CIS") and Segregated Mandates: ESG integration - ESG factors were assessed during due diligence while considering any prospective investment and was applied from origination to exit.

For allocations made via Segregated Mandate: In addition to ESG integration described above, ESG Exclusions were applied on i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **How did the sustainability indicators perform?**

1) For allocations made via CIS, the sustainability indicator used to measure the attainment of the E/S characteristics is the percentage of CIS proportion of the sub-fund that had undergone ESG integration, which was 98.57%;

where ESG integration refers to

- i) the sub-fund allocating investment as a priority to SFDR Article 8 or Article 9 vehicles, or
- ii) where ESG characteristics are explicitly mentioned in the vehicle's security description - this considered a range of ESG funds which may have included, but were not limited to, ESG exclusions in addition to positive tilts to higher ESG-scoring constituents.

2) Where allocations were made via Segregated Mandate, the sustainability indicators used to measure the attainment of the E/S characteristics are

a) the percentage of the segregated mandate portion of the sub-fund that had ESG integration applied 98.57%- through the use of the ESG Risk Assessment framework which considered the strength of the fund manager's ESG credentials, ESG integration process, membership in reputable ESG organizations and the performance of sub-fund level ESG indicators versus Benchmark; and

b) the sub-fund also applied the following ESG Exclusions and had no exposure to:

- i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).
- ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.
- iii) Companies that derive greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

● **...and compared to previous periods?**

Similar to the previous period, the selection process of implementation vehicles employed by the fund integrated the ESG criteria laid down in the Prospectus.

1) Proportion of sub-fund stated as aligned with E/S characteristics:

2022: 89.07%

2023: 96.66%

2024: 98.57%

2) ESG exclusions applied:

2022: There were no breaches during the year.

2023: There were no breaches during the year.

2024: There were no breaches during the year.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Yes, this financial product considered principal adverse impacts on sustainability factors through the exclusion requirements on allocations made through Segregated Mandates

- i) PAI 14: No investment in companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons
- ii) PAI 4: No investment in companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 2024-01-01 to 2024-12-31

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
APPLE INC USD 0.00001	MANUFACTURING	2.32%	United States of America (the)

MASCO CORP USD 1	MANUFACTURING	0.75%	United States of America (the)

What was the proportion of sustainability-related investments?

The Sub-Fund does not hold any sustainability-related investments.

Asset

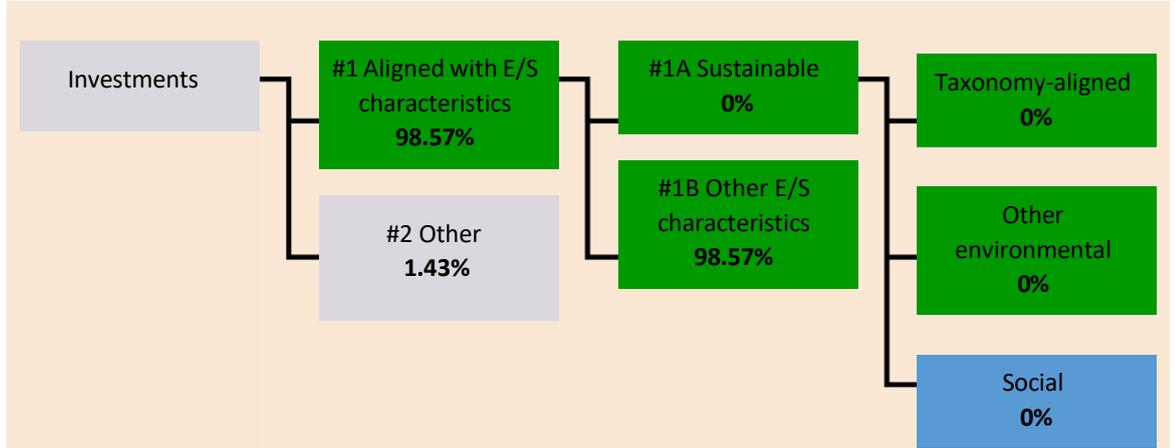

allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% Assets
FINANCIAL AND INSURANCE ACTIVITIES	Monetary intermediation	10.02%
Unclassified	Unclassified	9.64%
MANUFACTURING	Manufacture of pharmaceutical preparations	5.11%
FINANCIAL AND INSURANCE ACTIVITIES	Insurance	4.36%

MANUFACTURING	Manufacture of bakery and farinaceous products	0.01%
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	Leasing of intellectual property and similar products, except copyrighted works	0.01%
MANUFACTURING	Manufacture of knitted and crocheted apparel	0.01%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

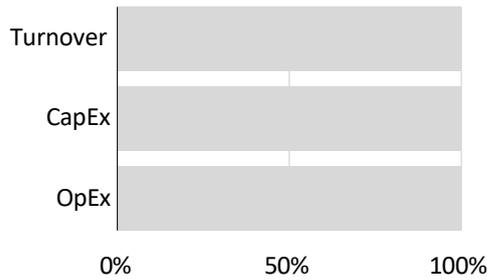

Yes

In fossil gas In nuclear energy

No

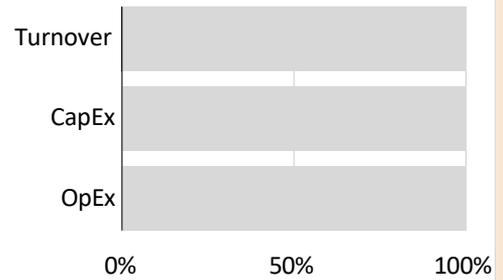

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas : 0%
- Taxonomy-aligned: Nuclear : 0%
- Taxonomy-aligned (no gas and nuclear) : 0%
- Non Taxonomy-aligned : 100%

This graph represents 100% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

There is 0% share of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

What was the share of socially sustainable investments?

Not applicable

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under "Other" included but were not limited to direct cash holdings, short term instruments, index instruments, liquidity funds, derivatives and money market funds. As such, they were not likely to contribute to environmental or social impacts, hence safeguards were not considered for their inclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined in "To what extent were the environmental and/or social characteristics promoted by this financial product met?",

1. ESG integration - Non-cash and non-cash equivalent securities underwent a process of ESG integration. The sub-fund sought to identify, assess, and monitor material ESG risks and opportunities. The Investment Team integrated ESG issues with material impact on a company's valuation, credit worthiness, and license to operate within the investment analysis, investment decision, and active monitoring of holdings. This process also considered the impact of a company's readiness to position itself positively to exploit future ESG opportunities in its specific market and sector. Through the ESG integration process, the Investment Team developed an informed and holistic assessment of a company's exposure to and management of ESG risks and opportunities. This included incorporation of third party ESG data, materiality metrics, as well as company and market specific data. The ESG integration process resulted in the assignment of an overall internal ESG risk and preparedness ranking. Issuers assessed to have high ESG risk and low ESG preparedness were excluded from the investment universe of this sub-fund.

2. ESG Exclusions were applied on

i) Companies with a verified involvement to cluster munitions, anti-personnel mines, biological weapons, chemical weapons, and nuclear weapons outside of the UN Treaty on the Non-Proliferation of Nuclear Weapons ("NPT") as companies to be excluded for controversial weapons (PAI 14).

ii) Companies classified under the Tobacco Sub-Industry by Global Industry Classification Methodology ("GICS"): manufacturers of cigarettes and other tobacco products.

iii) Companies that derived greater than 30% of their revenues from thermal coal mining and/or electricity generated from thermal coal (PAI 4).

Reference

benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not Applicable

- ***How did this financial product perform compared with the reference benchmark?***

Not Applicable
