

# Eastspring Investments – World Value Equity Fund (the "Fund")

- Eastspring Investments - World Value Equity Fund is referred to as the 'Fund'.
- The Fund invests in equities and equity-related securities and is exposed to the risk of market price fluctuations.
- The Fund will be subjected to risks associated with the underlying collective investment schemes and exchange traded funds. There is no assurance that the investment objective and strategy of the underlying investments will be successfully achieved, and it may negatively impact the Fund. The underlying investments may not be regulated by the SFC. Additional costs may be involved when investing into the underlying investments. There is no guarantee that the underlying investments will always have sufficient liquidity to meet the Fund's redemption requests as and when made.
- The Fund may invest primarily in specific geographical Region and may be more volatile than a diversified fund.
- Investments in the Eurozone may be subject to risk related to those countries, such as sovereign debt risks and, in adverse event, credit downgrade of a sovereign or exit of EU members from the Eurozone.
- The Fund invests in securities of small-capitalisation/ mid-capitalisation companies which may have lower liquidity and their prices are more volatile in adverse economic developments than those of larger capitalisation companies in general.
- The Fund may incur substantial losses if it is unable to sell those investments with liquidity risks at opportune times or prices.
- The Fund may invest in securities denominated in currencies other than the Fund's base currency and may be exposed to currency and exchange rates risk.
- The Fund may use financial derivatives instruments (FDIs) for hedging and efficient portfolio management purposes. Using FDIs may expose the Fund to market risk, management risk, credit risk, counterparty risk, liquidity risk, volatility risk, operational risk, leverage risk, valuation risk and over-the-counter transaction risk. The use of such instruments may be ineffective and the Fund may incur significant losses.
- Investment involves risk. Investors should not rely solely on this document in making investment decision. Past performance information presented is not indicative of future performance.

## Investment objective

The Fund aims to maximize long-term total return by investing primarily (at least 66% of the Fund's net assets) in global equity, equity-related securities, exchange traded funds and other collective investment schemes (including sub-funds of the SICAV). Equity-related securities in which the Fund may invest include but are not limited to listed securities in recognised markets, depository receipts, including ADRs and GDRs, debt securities convertible into common shares, preference shares and warrants. ADRs and GDRs that the Fund may invest in will not have embedded derivatives. Subject to the above strategy, from time to time, the Fund may invest more than 30% of its net assets in any one single country or region globally.

**Share class details**

Share class	Currency	ISIN	Annual management fee % (Current)	Distribution frequency	Ex-date	Dividend per share	Annualised dividend rate %
A	USD	LU0170899867	1.250	N.A.	N.A.	N.A.	N.A.

Distributions are not guaranteed and may fluctuate. Past distributions are not necessarily indicative of future trends, which may be lower. Distribution payouts and its frequency are determined by the Board of Directors, and can be made out of (a) income; or (b) net capital gains; or (c) capital of the Fund or a combination of any of (a) and/or (b) and/or (c). The payment of distributions should not be confused with the Fund's performance, rate of return or yield. Any payment of distributions by the Fund will result in an immediate reduction in the net asset value per share. Funds with Monthly and Quarterly Distribution Frequency: Annualised Dividend rate = (Dividend per share / NAV per share of previous ex-dividend date) x (No. of calendar days in a year / No. of calendar days in distribution period) x 100%. Annualised Dividend Rate is calculated based on the dividend distribution for the relevant distribution period and does not refer to the dividend yield for the preceding 12 months, and it may be higher or lower than the actual annual dividend yield. "N.A.": This share class does not distribute dividends. For details of other fees and charges, please refer to the offering document.
