■ The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you. **Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. There are other risks materially relevant to the PRIIP which are not included in the summary risk indicator. For more information, please refer to the prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment.

Strategy overview

The Fund seeks to generate income and long-term capital growth by investing primarily in China onshore renminbi (RMB) bonds issued by government, quasi-government, as well as non-government entities. The team employs a dynamic investment approach as well as a rigorous credit research process that focuses on fundamental, valuation and technical factors.

Performance Disclosure:

(p.a.): per annum. Source: Eastspring Investments (Singapore) Limited. Returns are based in share class currency and computed on NAV-NAV basis with net income reinvested, if any. Since inception returns for periods less than a year are not annualised. The benchmark for the hedged share classes, if any, is also calculated on a hedged basis. Benchmark is for information purposes only unless specifically referenced in the Investment Objective. Wef July 2018, the monthly fund and benchmark returns calculated are aligned to the last NAV date of the fund for the month. Returns may increase or decrease as a result of currency fluctuations. **Past performances is not a guide to future performance and should not be the sole factor of consideration when selecting a product.**

Benchmark: This Sub-Fund aims to outperform the return of Markit iBoxx ALBI China Onshore Bond Index ("Benchmark"). The Sub-Fund is actively managed. The Benchmark has been selected because it is representative of the investment universe of the Sub-Fund and it is therefore an appropriate performance comparator. The majority of the Sub-Fund's exposure to bonds will not necessarily refer to, nor have weightings derived from the Benchmark. The Investment Manager may use its discretion to invest in bonds not included in the Benchmark in order to take advantage of specific investment opportunities. It is thus expected that the performance of the Sub-Fund will moderately deviate from the Benchmark.

Important information

Prior to investing, Investors should read the Prospectus and Key Information Document (KID), or the UCITS Key Investor Information Document / KIID (for UK based investors).

¹Due to rounding, the allocation table may not add up to 100%. Credit ratings by S&P/Moody's/Fitch.

²**Sustainability characteristics:** All data is from MSCI ESG Fund Ratings. Note the fund's ESG characteristics may differ from MSCI ESG Fund Ratings from time to time. Potential risks and opportunities relating to environmental, social and governance factors are considered within the context of the investment objective of the fund, the fund's investment philosophy, investment approach and process. For the avoidance of any doubt, the above benchmark is a performance benchmark as per section 1.1 of the SICAV Prospectus and is not used as a reference for the attainment of the fund's E/S characteristics. The fund's aggregate ESG score and weighted average carbon intensity data are to be considered as outcomes of the investment approach and are not necessarily direct determinants of investment decisions. The fund's aggregate ESG score is derived from third party ESG vendor methodologies and are disclosed for illustrative purposes only. The ESG scoring methodology reflects the analysis and opinions of the third party ESG vendor, which may differ from the overall investment view held by the fund. Eastspring Investments - China Bond Fund qualifies as Article 8 fund within the meaning of Sustainable Finance Disclosure Regulation ("SFDR" EU 2019/2088), promoting Environmental (E) and

Social (S) characteristics without engaging into sustainable investing. Further SFDR disclosures, including information on the promotion of environmental and social characteristics by the fund are available under the SICAV Prospectus as well as under <https://www.eastspring.com/lu/funds/fund-downloads>.

³**Share class details:** Distributions are not guaranteed and may fluctuate. Past distributions are not necessarily indicative of future trends, which may be lower. Distribution payouts and its frequency are determined by the Board of Directors, and can be made out of (a) income; or (b) net capital gains; or (c) capital of the Fund or a combination of any of (a) and/or (b) and/or (c). The payment of distributions should not be confused with the Fund's performance, rate of return or yield. Any payment of distributions by the Fund will result in an immediate reduction in the net asset value per share. Funds with Monthly and Quarterly Distribution Frequency: Annualised Dividend yield = (Dividend per share / Reference NAV at start of distribution period) x (No. of calendar days in a year / No. of calendar days in distribution period) x 100%. Funds with Yearly Distribution Frequency: Annualised Dividend Yield = (Dividend amount / Total Net Assets) x (No. of calendar days in a year / No. of calendar days in distribution period) x 100%. *Or their near equivalent in any major freely convertible currency of the amounts specified. "N.A.": This share class does not distribute dividends. The charges are the fees the fund charges to investors to cover the costs of running the Fund. Additional costs are paid out by the Fund, which will impact on the overall return of the Fund. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations. NOT all costs are presented. Further information on costs can be found in the SICAV Prospectus.
