### LIPPER LEADERS RATING (OVERALL)

Total Return	Consistent Return	Preservation	Lipper Leaders Key
③	④	③	Lowest ① Highest ⑤

The Lipper Leaders Ratings System is a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. It uses investors-centred criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns.

Lipper Leader ratings are derived from highly sophisticated formulas that analyse funds against clearly defined criteria. Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and then the top 20% of funds in that ranking receive the Lipper Leader designation. Lipper Leaders measures are not predictive of future performance, but they do provide context and perspective for making knowledgeable fund investment decisions.
