### LIPPER LEADERS RATING (OVERALL)

Total Return	Consistent Return	Preservation	Lipper Leaders Key
②	②	④	Lowest ① Highest ⑤

The Lipper Leaders Ratings System is a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. It uses investors-centred criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns.

Lipper Leader ratings are derived from highly sophisticated formulas that analyse funds against clearly defined criteria. Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and then the top 20% of funds in that ranking receive the Lipper Leader designation. Lipper Leaders measures are not predictive of future performance, but they do provide context and perspective for making knowledgeable fund investment decisions.

### FUND MANAGER'S COMMENTARY

**Equity**  
October was a busy month for Malaysia, both for news and events. On the 10th Oct 2025, the PM unveiled Budget 2026, focus on restoring fiscal resilience, strengthening economic foundations and uplifting the dignity and livelihoods of the rakyat. A lot of the measures were people centric, with efforts to raise disposable income for households. Later in the month, Malaysia played host to the ASEAN Summit, where we welcomed the leaders of many countries who attended, the most prominent one being US President Trump. Malaysia and US inked Agreement on Reciprocal Trade which includes significant preferential market access for industrial goods and agricultural imports from the US and trade on rare earth. Malaysia continued to see net foreign selling in October of RM2.7 billion, and YTD cumulative net outflow of RM19.2 billion.

The KLCI closed the month at 1,609.15, down 0.17% mom. The FBM Small Cap index was up 0.11% for the month, outperforming the KLCI.
