Possible Outcomes of Investing in the Fund

These risk factors, among others, may cause you to lose some or all of your investment.	Refer to "Risk Factors" in the "Information In Relation to the Fund" section of the Fund's Master Prospectus.
KEY RISKS	
WHAT ARE THE KEY RISKS ASSOCIATED WITH THE FUND?	Refer to "Risk Factors" in the "Information In relation in the Fund" section of the Fund's Master Prospectus.
Credit or Default Risk

Interest rates offered by the financial institutions will fluctuate according to the overnight policy rate determined by Bank Negara Malaysia and this has direct impact on the Fund's future placement in Islamic deposit. The Fund will benefit from higher interest rate and in the event that the interest rate is low, the Fund's returns will also be low.	

Shariah Status Risk Reclassification

This risk refers to the risk of a possibility that the currently held Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such Shariah non-compliant instruments.
