| Parties Involved | |
| <p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Manager is Eastspring Investments Berhad (company no.: 200001028634 (531241-U)) incorporated in November 2000 and is an ultimately wholly owned subsidiary of Prudential plc. • The Trustee of the Fund is Deutsche Trustees Malaysia Berhad (company no.: 200701005591 (763590-H)). • The Shariah Adviser of the Fund is BIMB Securities Sdn Bhd (company no.: 199401004484 (290163-X)). • The Manager has appointed Eastspring Al-Wara’ Investments Berhad (company no.: 200901017585 (860682-K)) as the External Investment Manager. • The Manager and the External Investment Manager are within the same group of companies i.e. Prudential group of companies; therefore there is a possibility of conflict of interest element and/or related party transactions. However, the Manager has in place policies and procedures to deal with any conflict of interest and/or related party situations. | Refer to “The Management and the Administration of the Fund”, “The Trustee” and “The Shariah Adviser” sections of the Fund’s Master Prospectus. |
| Possible Outcomes of Investing in the Fund | |
| Investment involves risk and different types of unit trust funds carry different levels of risk. The value of the Fund and its distributions (if any) may rise or fall. These risk factors, among others, may cause you to lose some or all of your investment. | Refer to “Risk Factors” in the “Information In Relation to the Fund” section of the Fund’s Master Prospectus. |
| KEY RISKS | |
| <p>WHAT ARE THE KEY RISKS ASSOCIATED WITH THE FUND?</p> <p>Refer to “Risk Factors” in the “Information In Relation to the Fund” section of the Fund’s Master Prospectus</p> | |
| Security risk | |
| Adverse price movements of a particular Shariah-compliant security invested by the Fund may adversely affect the Fund’s NAV. | |
| Countries or Foreign securities risk | |
| The Fund may be affected by risks specific to the countries in which it invests. Such risks may be caused by but not limited to changes in the country’s economic fundamentals, social and political stability, currency movements and foreign investment policies. These factors may have an impact on the prices of the Fund’s investments in that country and consequently may also affect the Fund’s NAV. | |
| Currency risk | |
| <p>As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p> <p>The impact of the exchange rate movement between the base currency of the Fund and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the base currency of the Fund.</p> | |
| Credit or Default risk | |
| This risk refers to the inability of the issuer of the sukuk held by the Fund to make the profit or principal payments when due. In the | |

| |
|---|
| event the issuer defaults in the profit or principal payments, the value of the Funds will be adversely affected. |
| Interest rate risk |
| Generally, the value of sukuk will move inversely to interest rate movements. Therefore, the value of sukuk may fall when interest rates rise and vice versa. Sukuk of longer duration tend to be more sensitive to interest rate changes. |
| Counterparty risk |
| The Fund will be exposed to credit risk on the counterparties with whom the Fund trades with. The Fund may enter into Shariah-compliant derivative contracts. In the event that the counterparty is not able to fulfil its obligations especially in the event of bankruptcy this may lead to a loss to the Fund. |
| License risk |
| This risk is associated with investments in Shariah-compliant securities listed in a country which requires a license prior to making any investments in the said country. Such license may be revoked or not be renewed should the Manager breach the relevant regulations of the said country. |
| Shariah-compliant derivatives risk |
| The Manager may invest in Shariah-compliant derivatives for hedging and efficient portfolio management purposes. Shariah-compliant derivatives' market values may be subject to wide fluctuations and expose the Fund to potential gains or losses due to mark-to-market value. |
| Prepayment and commitment risk |
| Islamic structured products are designed as a hold-to-maturity investment. Therefore, the early redemption amount may be lesser than the principal amount originally invested or part thereof, in the case of partial redemptions. Any request to restructure the Islamic structured products, if agreed by the issuer, is effectively an early redemption by the Fund. The full amount that would have been received is used to invest in a new Shariah-compliant investment on such terms that are applicable to the new investment. Such amount may factor in all accrued profit due (if any), losses due to market movements, break costs and other losses incurred in discharging a related hedging or other arrangements made in the design of the Islamic structured products. |
| Shariah status reclassification risk |
| <p><u>Shariah-compliant equity securities</u></p> <p>The risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the Securities Commission Malaysia, the Shariah Adviser or the Shariah supervisory boards of relevant Islamic indices.</p> <p><u>Sukuk or Islamic money market instruments or Islamic deposits</u></p> <p>This risk refers to the risk of a possibility that the currently held Shariah-compliant instruments invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser.</p> |

Please be advised that if you invest in Units through an Institutional Unit Trust Scheme Adviser (IUTA) which adopts the nominee system of ownership, you would not be considered to be a Unit Holder under the deed of the Fund and you may, consequently, not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's Meeting and to vote thereat and the right to have your particulars appearing in the register of Unit Holders of the Fund).
