TAXATION OF THE FUNDS UNDER THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018 (“Second Supplementary Master Prospectus”) AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Second Supplementary Master Prospectus in connection with the Funds listed in the **Appendix** (“the Funds”).

The taxation of income for both the Funds and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 (“the Act”). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUNDS

The Funds will be regarded as resident for Malaysian tax purposes since the trustee of the Funds are resident in Malaysia.

1. Domestic Investments

(i) General taxation

Subject to certain exemptions, the income of the Funds consisting of dividends, interest income or profit¹ (other than interest income and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments by the Funds will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Funds may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Funds will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures² or sukuk, other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income or profit¹ derived from the following investments is exempt from tax:

- (a) Interest income or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013³;
- (b) Interest or profit¹ paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income or profit¹ paid or credited by Malaysia Building Society Berhad⁴.

The interest income or profit¹ or discount income exempted from tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

2. Foreign Investments

Income of the Funds in respect of income received from overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the Unit Holders. Such income from foreign investments may be subject to foreign taxes or withholding taxes. Any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Funds.

The foreign income exempted from Malaysian tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

3. Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

4. Income from Malaysia Real Estate Investment Trusts ("REITs")

Income from distribution from REITs will be received net of final withholding tax of 10 per cent. No further tax will be payable by the Funds on the distribution. Distribution from such income by the Funds will also not be subject to further tax in the hands of the Unit Holders.

5. Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

6. Real Property Gains Tax (“RPGT”)

With effect from 1 January 2014, any gains on disposal of real properties or shares in real property companies⁵ would be subject to RPGT as follows:

Disposal time frame	RPGT rates
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	5%

7. Sales and Service Tax (“SST”)

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax (“GST”). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

In general, the Funds, being collective investment vehicles, will not be caught under the service tax regime.

Certain professional, consultancy or management services obtained by the Funds may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax.

TAXATION OF UNIT HOLDERS

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Funds to the extent of the distributions received from the Funds. The income distribution from the Funds will carry a tax credit in respect of the tax paid by the Funds. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Funds.

Corporate Unit Holders, resident⁶ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Funds. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

Individuals and other non-corporate Unit Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 28 per cent⁷. Individuals

THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017 AND THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018.

and other non-corporate Unit Holders who are not resident in Malaysia will be subject to income tax at 28 per cent. The tax credits attributable to the distribution of income will be utilised against the tax liabilities of these Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of exempt income and gains arising from the disposal of investments by the Funds will be exempted from tax in the hands of the Unit Holders.

Any gains realised by Unit Holders (other than those in the business of dealing in securities, insurance companies or financial institutions) on the sale or redemption of the Units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Funds.

Unit Holders electing to receive their income distribution by way of investment in the form of new Units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Funds are not taxable in the hands of Unit Holders.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Funds.

Yours faithfully,
for and on behalf of

5. Amendments to page 84 of the Master Prospectus – “Information In Relation To The Fund – Risk Factors – General Risks When Investing In A Unit Trust Fund”

The information in relation to liquidity risk is hereby deleted and replaced with the following:

Liquidity risk

Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario is where the investment is thinly traded. This may cause the unit trust fund to dispose the investment at an unfavourable price in the market and may adversely affect investor’s investment. Generally, investments in securities of smaller capitalisation companies may expose the fund to greater liquidity risk as compared to investments in securities of larger capitalisation companies. This risk may be mitigated through stringent security selection process.

The information in relation to reclassification of Shariah status risk is hereby deleted and replaced with the following:

Shariah status reclassification risk

Applicable only to Eastspring Dana al-Islah

This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such securities. Opportunity loss could occur due to the restriction on the Fund to retain the dividend received and excess capital gains derived from the disposal of the reclassified Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

Note: Please refer to Shariah Investment Guidelines for details.

If this occurs, the Manager will take the necessary steps to dispose of such securities. Opportunity loss could occur due to the restriction on the Fund to retain the dividend received and excess capital gains derived from the disposal of the reclassified Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

9. Amendments to pages 113 – 117 of the Master Prospectus – “Information In Relation To The Fund – Other Information – Additional Information In Relation To Shariah-Compliant Fund”

The information in relation to this section is hereby deleted and replaced with the following:

1. Shariah Investment Guidelines

The following guidelines are adopted by the Shariah Adviser in determining the Shariah status of the Funds:

- ▶ The Funds must at all times and all stages of its operation comply with Shariah principles as resolved by the SAC of the SC or in cases where no specific rulings are made by the SAC of the SC, the decisions of the Shariah Adviser.
- ▶ The Funds must be raised and operated by the Manager, and finally redeemed by the investor on the basis of the contracts which are acceptable in Shariah. The banking facilities and short-term money market instruments used for the Funds have to be those which comply with Shariah principles. Similarly, all the securities, sukuk, etc. must be those which are Shariah-compliant.
- ▶ For Shariah-compliant securities listed on the Bursa Malaysia, the Funds’ investments must be strictly confined to those Shariah-compliant securities on the list approved by the SAC of the SC.
- ▶ For Islamic money market instruments and Shariah-compliant securities or sukuk, they shall be based on the data readily available at BNM and the SC websites.

THIS THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018 AND THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018.

- ▶ The SAC of the SC has adopted a standard methodology to determine the Shariah compliance of companies listed on Bursa Malaysia. This methodology takes into consideration both the quantitative and qualitative aspects of the listed companies.

Quantitative analysis:

The quantitative part is a two-tier benchmark applied to the business activities of the companies and to the financial ratios of the companies. The business activity benchmarks consist of the 5-percent benchmark and the 20-percent benchmark.

(i) Business activity benchmarks

For the business activity benchmarks, the revenue or income contribution of Shariah non-compliant business activities to the group revenue or group profit before taxation of the listed companies will be computed and compared against the relevant business activity benchmarks, namely either the 5% or 20% benchmarks.

The 5% benchmark would be applicable to the following business activities:

- ▶ Conventional banking;
- ▶ Conventional insurance;
- ▶ Gambling;
- ▶ Liquor and liquor-related activities;
- ▶ Pork and pork-related activities;
- ▶ Non-halal food and beverages;
- ▶ Shariah non-compliant entertainment;
- ▶ Interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitration);
- ▶ Dividends¹ from Shariah non-compliant investments;
- ▶ Tobacco and tobacco-related activities; and
- ▶ Other activities considered non-compliant according to Shariah.

The 20% benchmark would be applicable to the following activities:

- ▶ Share trading;
- ▶ Stockbroking business;
- ▶ Rental received from Shariah non-compliant activities; and
- ▶ Other activities considered non-compliant according to Shariah.

¹ Interest income and dividends from Shariah non-compliant investments will be compared against the group revenue. However, if the main activity of the company is holding of investment, the dividends from Shariah non-compliant investments will be compared against the group revenue and group profit before taxation.

(ii) Financial ratio benchmarks

In addition, the financial ratios for cash in conventional accounts and instruments as well as interest bearing debts over the total assets of the listed companies are also considered in the analysis carried out by the SAC of the SC to determine their Shariah compliance status.

The financial ratios applied are as follows:

› **Ratio of cash over total assets**

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

› **Ratio of debt over total assets**

Debt will only include interest-bearing debt whereas Islamic debt or financing or sukuk will be excluded from the calculation.

Both benchmark ratios, which are intended to measure *riba* and *riba*-based elements within a listed company's balance sheet, must be below 33%.

Qualitative analysis:

As for qualitative aspect of the Shariah compliance analysis, an additional criterion will be considered:

- › The public perception or image of the listed company must be good.

Special Purpose Acquisition Company ("SPAC")

- › The Shariah Adviser had considered the following criteria for a SPAC to be classified as Shariah-compliant:
 - The proposed business activity should be Shariah-compliant;
 - The entire proceeds raised from the initial public offering should be placed in an Islamic account; and
 - In the event that the proceeds are invested, the entire investment should be Shariah-compliant.
- › Shariah-compliant securities include ordinary shares and warrants (issued by the companies themselves). This means that warrants are classified as Shariah-compliant securities provided the underlying shares are also Shariah-compliant. On the other hand, loan stocks and bonds are Shariah non-compliant securities unless they are structured based on SAC of the SC's approved Shariah rulings, concept and principles.

THIS THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018 AND THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018.

- ▶ For investment in foreign securities, the Funds are only allowed to invest in securities which are on the approved list of Dow Jones Islamic Index (DJII) or list by other approved Shariah competent authorities. With regards to the issue of delisting of Shariah-compliant securities from DJII or other approved Shariah competent authorities and Shariah non-compliant foreign securities, the Funds are to abide by the same processes as laid down in this Shariah Investment Guidelines. In the rare event that the Funds wish to invest in foreign securities not covered by DJII or other approved Shariah competent authorities, the Funds must submit to the Shariah Adviser the latest information pertaining to business activities, complete financial statements and other related information on the relevant company to enable the Shariah Adviser to carry out stock screening. The decision of the Shariah Adviser shall be final.
- ▶ To facilitate the purchase and sale of foreign securities, there may be a need to have cash placement in a Shariah non-compliant bank account outside Malaysia. In such circumstances, the Shariah non-compliant account should be non-interest bearing and the sole purpose is only to facilitate purchase and sale of foreign securities.

2. Cleansing process for the Funds

(a) Wrong Investment

This refers to Shariah non-compliant investment made by the Manager. The said investment shall be disposed of or withdrawn within a month of knowing the status of the securities irrespective of market price considerations. In the event that the investment resulted in gain (through capital gain and/or dividend or profit), the gain has to be channeled to *baitulmal* and/or any other charitable bodies as advised by the Shariah Adviser. For the avoidance of doubt, dividends shall include both received before and after disposal of the Shariah non-compliant securities. The Shariah Adviser advises that this cleansing process (i.e. channeling of gain from wrong investment to *baitulmal* and/or approved charitable bodies) shall be carried out within two (2) months from the said disposal or withdrawal date. If the disposal of the investment resulted in losses to the Funds, the losses are to be borne by the Manager.

(b) "Shariah-compliant securities" which are subsequently reclassified as "Shariah non-compliant"

These refer to those securities which were earlier classified as Shariah-compliant securities but due to certain reasons such as changes in the companies' business operations and financial positions, are subsequently reclassified as Shariah non-compliant. In this regard, if on the date that this updated list takes effect, the value of the securities held exceeds or equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) month. Any dividends received up to the date of announcement/review and capital gain arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the

THIS THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018 AND THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018.

announcement day/review can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the announcement day/review at a market price that is higher than the closing price on the announcement day/review should be channeled to *baitulmal* and/or any other approved charitable bodies as advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) months from the above disposal date.

The Fund is allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. In addition, during the holding period, the Funds are allowed to subscribe to:

- (a) any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds e.g. rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant e.g. irredeemable convertible unsecured loan stock (ICULS)]; and
- (b) securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in (b) above], they must be Shariah-compliant securities.

3. Zakat for the Funds

The Funds do not pay zakat on behalf of its Unit Holders both the Muslim individuals and Islamic legal entities. Thus, Unit Holders are advised to pay zakat on their own.

The Shariah Adviser confirms that the investment portfolio of the Funds comprises instruments which have been classified as Shariah-compliant by the SAC of the SC and, where applicable, the SAC of BNM. As for the instruments which are not classified as Shariah-compliant by the SAC of the SC and, where applicable, the SAC of BNM, the Shariah Adviser has reviewed the said instruments and opined that these instruments are designated as Shariah-compliant.

Shariah status reclassification risk

Applicable only to Eastspring Dana al-Islah

1. Shariah-compliant equity securities

The risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification should be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take

- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

2. Sukuk or Islamic money market instruments or Islamic deposits

This risk refers to the risk of a possibility that the currently held Shariah-compliant instruments invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such instruments. In such situation, the investment may need to be liquidated at an unfavourable market value which will affect the performance of the Fund.

SHARIAH INVESTMENT GUIDELINES, CLEANSING PROCESS AND ZAKAT FOR THE FUNDS

1. Shariah Investment Guidelines

The following guidelines are adopted by the Shariah Adviser in determining the Shariah status of investments of the Funds:

- The Funds must at all times and all stages of its operation comply with Shariah principles as resolved by the SAC of the SC or in cases where no specific rulings are made by the SAC of the SC, the decisions of the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices.
- The Funds must be raised and operated by the Manager, and finally redeemed by the investors on the basis of contracts which are acceptable in Shariah. The banking facilities and short-term money market instruments used for the Funds have to be Shariah-compliant. Similarly, all the other investment instruments including securities, sukuk, etc. must be Shariah-compliant.
- For Shariah-compliant securities listed on the Bursa Malaysia, the Funds' investments must be strictly confined to those Shariah-compliant securities on the list approved by the SAC of the SC.
- For Islamic money market instruments or sukuk, they shall be based on the data readily available on BNM and the SC websites.
- The SAC of the SC has adopted a standard methodology to determine the Shariah compliance of companies listed on Bursa Malaysia. This methodology takes into consideration both the quantitative and qualitative aspects of the listed companies.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

(a) Quantitative analysis:

The quantitative part is a two-tier benchmark applied to the business activities of the companies and to the financial ratios of the companies. The business activity benchmarks consist of a 5% benchmark and a 20% benchmark.

(i) Business activity benchmarks

For the business activity benchmarks, the revenue or income contribution of Shariah non-compliant business activities to the group revenue or group profit before taxation of the listed companies will be computed and compared against the relevant business activity benchmarks, and must be less than the 5% or the 20% benchmarks.

The 5% benchmark would be applicable to the following business activities:

- Conventional banking and lending;
- Conventional insurance;
- Gambling;
- Liquor and liquor-related activities;
- Pork and pork-related activities;
- Non-halal food and beverages;
- Shariah non-compliant entertainment;
- Interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitration);
- Dividends¹ from Shariah non-compliant investments;
- Tobacco and tobacco-related activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.

¹ Interest income and dividends from Shariah non-compliant investments will be compared against the group revenue. However, if the main activity of the company is holding of investment, the dividends from Shariah non-compliant investments will be compared against the group revenue and group profit before taxation.

The 20% benchmark would be applicable to the following activities:

- Share trading in Shariah non-compliant securities;
- Stockbroking business other than Islamic stockbroking company;
- Rental received from Shariah non-compliant activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.

(ii) Financial ratio benchmarks

In addition, the financial ratios for cash in conventional accounts and instruments as well as interest-bearing debts over the total assets of the listed companies are also considered in the analysis carried out by the SAC of the SC to determine their Shariah compliance status.

The financial ratios applied are as follows:

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

- **Ratio of cash over total assets**

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

- **Ratio of debt over total assets**

Debt will only include interest-bearing debt whereas Islamic financing or sukuk will be excluded from the calculation.

Both benchmark ratios, which are intended to measure *riba* and *riba*-based elements within a listed company's balance sheet, must be less than 33%.

(b) Qualitative analysis:

As for qualitative aspect of the Shariah compliance analysis, an additional criterion will be considered namely the public perception or image of the listed company which must be acceptable from the Shariah perspective.

- The SAC of the SC had considered the following criteria for a Special Purpose Acquisition Company (SPAC) to be classified as Shariah-compliant:
 - ❖ The proposed business activity should be Shariah-compliant;
 - ❖ The entire proceeds raised from the initial public offering should be placed in an Islamic account; and
 - ❖ In the event that the proceeds are invested, the entire investment should be Shariah-compliant.
- Shariah-compliant securities include ordinary shares and warrants (issued by the companies themselves). This means that warrants are classified as Shariah-compliant securities provided the underlying shares are also Shariah-compliant. On the other hand, loan stocks and bonds are Shariah non-compliant securities unless they are structured based on SAC of the SC's approved Shariah rulings, concepts and principles.
- For investment in foreign securities, the Funds are only allowed to invest in securities which are on the approved list of Dow Jones Islamic Market Index (DJIM) or other approved lists by the Shariah Adviser. In the event of reclassification of foreign Shariah-compliant securities to be Shariah non-compliant, the Funds are to abide by the rules as laid down by the SAC of the SC and by this Shariah Investment Guidelines. In the event that the Funds wish to invest in foreign securities not covered by DJIM or other approved lists by the Shariah Adviser, the Funds must submit to the Shariah Adviser the latest information pertaining to the issuer's business activities, its complete financial statements and other related information to enable the Shariah Adviser to carry out Shariah screening.
- As for investment in foreign sukuk or any foreign investment instrument, the Funds must submit to the Shariah Adviser all pertinent information including the memoranda and prospectuses, its structures, utilisation of the proceeds, Shariah contracts and Shariah pronouncements by the relevant Shariah advisers advising the sukuk issuance or instrument, for the Shariah Adviser to confirm the Shariah status of the sukuk or instrument.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

- The decision of the Shariah Adviser shall be final.
- To facilitate the purchase and sale of foreign securities, there may be a need to have cash placement in a conventional bank account outside Malaysia. In such circumstances, the conventional account should be non-interest bearing and the sole purpose is only to facilitate purchase and sale of foreign securities.

2. Cleansing Process for the Funds

(a) Wrong investment

(i) Investment in Shariah non-compliant equity securities

The said investment shall be disposed of/withdrawn with immediate effect, if possible; or otherwise within one (1) calendar month of knowing the status of the securities irrespective of market price considerations. In the event that the investment resulted in gain (through capital gain and/or dividend), it has to be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. For the avoidance of doubt, dividends shall include both received before and after disposal of the Shariah non-compliant securities. The Shariah Adviser advises that this cleansing process (i.e. channeling of gain from wrongful investment to *baitulmal* and/or charitable bodies approved by the Shariah Adviser) shall be carried out within two (2) calendar months from the said disposal/withdrawal date. If the disposal of the securities resulted in losses to the Funds, the losses are to be borne by the Manager.

(ii) Investment in other Shariah non-compliant instruments (i.e. fixed income instruments or bonds or money market instruments or deposits)

The said investment shall be disposed of/withdrawn with immediate effect, if possible; or otherwise within one (1) calendar month of knowing the status of the investment. In the event that the investment resulted in Shariah non-compliant income before or after the disposal of the instrument, it has to be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process (i.e. channeling of income from wrongful investment to *baitulmal* and/or charitable bodies approved by the Shariah Adviser) shall be carried out within two (2) calendar months from the said disposal/withdrawal date. If the disposal of the investment resulted in losses to the Funds, the losses are to be borne by the Manager.

(b) Reclassification of Shariah status of the Funds' investments

(i) Shariah-compliant equity securities

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the reclassification effective date, the value of the securities held exceeds or equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of reclassification.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

Any dividends received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the reclassification effective day can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the reclassification effective day at a market price that is higher than the closing price on the reclassification effective day shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds e.g. rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant e.g. irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic deposits

This refers to the instruments which were earlier classified as Shariah-compliant instruments but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such instruments.

If on the reclassification effective date, the value of the Shariah non-compliant instruments held exceeds or equal to the investment cost, the Funds which holds such Shariah non-compliant instruments must liquidate them. To determine the time frame to liquidate such instruments, the Shariah Adviser advises that such reclassified Shariah non-compliant instruments should be disposed of within one (1) calendar month of reclassification.

Any income received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the reclassification effective day can be kept by the Funds.

However, any income received and excess capital gain derived from the disposal after the reclassification effective day at a price that is higher than the price on the reclassification effective day shall be channeled to *baitulmal* and/or charitable bodies

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

3. Zakat for the Funds

The Funds do not pay zakat on behalf of both Muslim individuals and Islamic legal entities who are investors of the Funds. Thus, investors are advised to pay zakat on their own.

THE SHARIAH ADVISER CONFIRMS THAT THE INVESTMENT PORTFOLIO OF THE FUNDS COMPRISES INSTRUMENTS THAT HAVE BEEN CLASSIFIED AS SHARIAH-COMPLIANT BY THE SAC OF THE SC, THE SAC OF BNM OR THE SHARIAH SUPERVISORY BOARDS OF RELEVANT ISLAMIC INDICES. FOR INSTRUMENTS THAT ARE NOT CLASSIFIED AS SHARIAH-COMPLIANT BY THE SAC OF THE SC, THE SAC OF BNM OR THE SHARIAH SUPERVISORY BOARDS OF RELEVANT ISLAMIC INDICES, THE SHARIAH ADVISER WILL REVIEW AND DETERMINE THE SHARIAH STATUS OF THE SAID INSTRUMENTS.

17. Amendments to page 121 of the Master Prospectus – “Information In Relation To The Fund – Suspension Deferral of Redemptions”

The information in relation to the suspension and deferral of redemptions is hereby added as follows:

Suspension and Deferral of Redemptions

Eastspring Asia Select Income (for the avoidance of doubt, the Eastspring Asia Select Income is not a feeder fund).

The Target Fund relating to Eastspring Asia Select Income namely Eastspring Investments – Dragon Peacock Fund, has a suspension and deferral of redemptions in place to mitigate liquidity risk.

Liquidity risk is the risk that a particular position cannot be easily unwound or offset due to insufficient market depth or market disruption; or that the Target Fund’s financial obligations (such as investor redemptions) cannot be met.

The Target Fund will impose suspension and deferral of redemptions if:

- a) the redemption requests received by the Target Fund exceeds 10% of the net asset value of the Target Fund on a particular valuation day; or
- b) under exceptional circumstances as stipulated in "Suspension of the Determination of the Net Asset Value" of this Fifth Supplementary Master Prospectus.

The Target Fund may defer redemption requests received, on a “first in, first out” basis.

If such limitation is imposed, this would restrict the ability of the Fund to redeem from the Target Fund on a particular valuation day. This may affect the Fund’s ability to meet Unit Holders’ redemption requests, should the Fund also make redemption requests at the same time. However, given that the Fund is only allowed to invest up to 40% of the Fund’s NAV in the Target Fund, the Fund will still be able to meet Unit Holders’ redemption requests, as the Fund still has at least 1% in liquid assets and is also able to liquidate the fixed income securities in the Fund.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

18. Amendments to page 125 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Investment Objective of the Target Fund”

The information in relation to the investment objective of Eastspring Investments – Dragon Peacock Fund is hereby deleted and replaced with the following:

The Target Fund aims to maximise long-term total returns by investing primarily in equity and equity-related instruments of corporations, which are incorporated in, or listed in, or operating principally from, or carrying on significant business in, or derive substantial revenue from, or whose subsidiaries, related or associated corporations derive substantial revenue from the People’s Republic of China (PRC) and the Republic of India (India).

The investments of the Target Fund include, but are not limited to, listed securities in the recognised markets, depository receipts including ADRs and Global Depository Receipts, debt securities convertible into common shares, preference shares and warrants.

The Target Fund may invest up to 20% of its net assets in China-A shares directly through the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect.

19. Amendments to pages 133 – 135 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Risk Management”

The information in relation to the risk management is hereby deleted and replaced with the following:

Liquidity Risk Management

Liquidity risk is the risk that a particular position cannot be easily unwound or offset due to insufficient market depth or market disruption; or that the Target Fund’s financial obligations (such as investor redemptions) cannot be met. An inability to unwind a particular investment or portion of the Target Fund’s assets may have a negative impact on the value of the Target Fund and to the Target Fund’s ability to meet its investment objectives. Additionally, an inability to unwind the Target Fund’s assets may have negative implications for investors being able to redeem in a timely fashion, and also to investors who remain invested in the Target Fund.

The Investment Manager of the Target Fund has established a liquidity management policy which enables it to identify, assess, monitor and manage the liquidity risks of the Target Fund and to ensure that the liquidity profile of the investments of the Target Fund will facilitate compliance with the Target Fund’s obligation to meet redemption requests. Such policy, combined with the liquidity management tools that may be employed, also seeks to achieve fair treatment of shareholders (including the Fund) and safeguard the interests of remaining shareholders (including the Fund) in case of sizeable redemptions.

The oversight of the liquidity risk management function will be performed by the Investment Risk department of the Investment Manager of the Target Fund, which is functionally independent from the investment management function of the Investment Manager of the Target Fund, to assess the liquidity of the Target Fund’s assets under the current and likely future market conditions.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

Liquidity stress testing is performed regularly by the Investment Manager of the Target Fund to assess the Target Fund's estimated liquidation cost when bid-ask spread widens significantly and/or available trading volume reduces significantly. Risk monitoring is reported regularly to risk management function and committee of the Investment Manager of the Target Fund, the Management Company and the directors of the Company. Exceptions on liquidity risk related issues will be escalated to the risk management committee of the Investment Manager of the Target Fund.

The following tools may be employed by the Management Company to manage liquidity risks:

- (a) the Management Company shall not be bound to redeem and convert on any valuation day more than 10% of the net asset value of the Target Fund on such valuation day (subject to the conditions under "Suspension and Deferral of Redemptions" of this Fifth Supplementary Master Prospectus*). If such limitation is imposed, this would restrict the ability of a shareholder (including the Fund) to redeem the shares he intends to redeem on a particular redemption day;
- (b) the Management Company may suspend redemption and/or conversion under exceptional circumstances as described in "Suspension of the Determination of the Net Asset Value" of this Fifth Supplementary Master Prospectus*. During such period of suspension, shareholders (including the Fund) would not be able to redeem and/or convert their shares of the Target Fund;
- (c) the board of directors of the Company may, at its discretion, make a price adjustment to the net asset value per share of the Target Fund (for example, when the Target Fund is experiencing a net outflow of redemptions that requires significant sales of assets or when the Target Fund is experiencing significant levels of net subscriptions relative to its size) to mitigate the effect of dilution. Price adjustment may either be implemented at the Target Fund level or at a share class level, depending on the circumstances. For details, please refer to "Price Adjustment Policy/Swing Pricing" of this master prospectus. As a result of such adjustment, the net asset value per share will be higher or lower than the net asset value per share which otherwise would be if such adjustment has not been made; and
- (d) subject to "Permitted Investments & Investment Restrictions and Limits of the Target Fund", sub-section (17) of this master prospectus, the Target Fund may not borrow more than 10% of its net assets, and then only from financial institutions and on a temporary basis. There can be no assurance that the Target Fund will be able to borrow on favourable term.

** A copy of the full prospectus of the Target Fund is available from Eastspring Investments Berhad on request.*

Financial Derivative Instruments

The Company may use financial derivative instruments as set forth in the Permitted Investments & Investments Restrictions and Limits of the Target Fund above, sub-section (1)(g), for hedging and efficient portfolio management purposes.

The Management Company, on behalf of the Company may, for the Target Fund, for the purpose of efficient portfolio management of the assets of the Target Fund and/or to protect its assets and commitments, employ certain techniques and instruments as set out in this section.

Efficient portfolio management transactions may not include speculative transactions. These transactions must be economically appropriate (this implies that they are realised in a cost-effective way) and be entered into for one or more of the following specific aims:

- the reduction of risks;
- the reduction of cost; or

- the generation of additional capital gain or income for the Target Fund with an appropriate level of risk, taking into account its risk profile and the risk diversification rules laid down in the investment restrictions.

These transactions include but not limited to the following:

- using swap contracts to adjust interest rate risk;
- using currency derivatives to manage currency risk;
- writing covered call options to generate additional income;
- using credit default swaps to manage credit risk;
- market access pending the availability of relevant custody accounts on behalf of the Target Fund;
- using volatility derivatives to adjust volatility risk; and
- using total return swaps or other swap contracts which have similar characteristics as total return swaps.

The relating risks of these transactions must be adequately captured by the risk management process.

The Management Company, on behalf of the Company must ensure that the overall risk associated with derivatives does not exceed the net assets of the Target Fund. The following are taken into account in computing risk: the market value of the underlying instruments, the risk of default, future foreseeable market developments and the period within which the positions are to be liquidated. This also applies to the following two points:

- In the case of investments in derivatives, the overall exposure for the underlying instruments may not exceed the investment limits set forth in the investment restrictions. Investments in index-based derivatives need not be taken into account in the case of the investment limits set forth in the investment restrictions.
- If a derivative has a security or money market instrument as the underlying, it has to be taken into account with regard to compliance with the rules set forth under the investment restrictions.

In no case whatsoever must recourse to transactions involving derivatives or other financial techniques and instruments cause the Management Company, on behalf of the Company to depart from the investment objectives set out in the prospectus of the Target Fund or add substantial supplementary risks in comparison to the Company's general risk policy (as described in the prospectus of the Target Fund).

In addition, the financial derivative instruments must comply with the provisions contained in the investment restrictions.

Should the Management Company on behalf of the Company decide to enter into derivative transactions for purposes other than hedging and/or efficient portfolio management purposes, the investment policy of the Target Fund will be amended accordingly.

Commitment Approach

The method used to calculate the global exposure of the Target Fund is the commitment approach.

The Management Company, on behalf of the Company shall ensure that the Target Fund's global exposure relating to derivative instruments does not exceed the total net value of its portfolio. The

risk exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

Net Derivative Exposure

Effective from 2 December 2019, as the Target Fund is authorized by the Securities and Futures Commission, the net derivative exposure may be up to 50% of the Target Fund's net asset value. The net derivative exposure set out above may be exceeded in such circumstances as permitted under the Code on Unit Trusts and Mutual Funds, handbook, code and/or guideline issued by the Securities and Futures Commission from time to time or permitted by the Securities and Futures Commission from time to time.

The term "net derivative exposure" has the meaning as defined in the Code on Unit Trusts and Mutual Funds and should be calculated in accordance with the requirement and guidance issued by the Securities and Futures Commission, which may be updated from time to time (including but not limited to the "Guide on the Use of Financial Derivative instruments for Unit Trusts and Mutual Funds").

Collateral Policy

The collateral policy of the Company is as follows:

- permitted types of collateral: cash collateral.
- level of collateral: fully collateralised, subject to decisions thresholds as per relevant credit support annex.

- haircut policy: no haircut.

The Management Company will, for and on behalf of the Company and the Target Fund, for the time being, not enter into repurchase and reverse repurchase transactions nor engage in securities lending transactions. Should the Management Company decide to use such techniques and instruments in the future, this can be done so at the Management Company's discretion and the prospectus of the Target Fund will be updated accordingly thereafter, subject to regulatory approval.

20. Amendments to pages 135 – 136 of the Master Prospectus – "Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Pricing Adjustment Policy"

The information in relation to the pricing adjustment policy is hereby deleted and replaced with the following:

PRICE ADJUSTMENT POLICY / SWING PRICING

The actual cost of purchasing or selling assets and investments for the Target Fund may however deviate from the latest available price or net asset value used, as appropriate, in calculating the net

asset value per share due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of the Target Fund and are known as “dilution”. To mitigate the effects of dilution, the board of directors of the Company may, at its discretion, make a price adjustment to the net asset value per share of the Target Fund.

Shares will in principle be issued, redeemed and converted on the basis of a single price, i.e., the net asset value per share. However – to mitigate the effect of dilution – the net asset value per share may be adjusted for any valuation day in the manner set out below depending on whether or not the Target Fund is in a net subscription position or in a net redemption position for such valuation day to arrive at the applicable adjusted price (the “Adjusted Price”). Where there is no dealing in the Target Fund or class of the Target Fund on any valuation day, the applicable price will be the unadjusted net asset value per share. The board of directors of the Company will retain the discretion in relation to the circumstances under which to make such a price adjustment. As a general rule, the requirement to make a price adjustment will depend on whether the net volume of subscriptions, redemptions or conversions of shares in the Target Fund exceeds a certain threshold, as determined by the board of directors of the Company, that will require significant purchases of assets or sales of assets in order to provide the required liquidity. The board of directors of the Company may make a price adjustment if, in its opinion, the existing shareholders (including the Fund) (in case of subscriptions or conversions) or remaining shareholders (including the Fund) (in case of redemptions or conversions) might otherwise be adversely affected. In particular, the price adjustment may be made where, for example but without limitation:

- a) the Target Fund is in continual decline (i.e. is experiencing a net outflow of redemptions that requires significant sales of assets);
- b) the Target Fund is experiencing significant levels of net subscriptions relative to its size;
- c) the Target Fund is experiencing a net subscription position or a net redemption position on any valuation day that requires significant purchases or sales of assets; and
- d) in any other case where the board of directors of the Company is of the opinion that the interests of shareholders (including the Fund) require the imposition of a price adjustment.

The price adjustment will involve adding to, when the Target Fund is in a net subscription position, and deducting from, when the Target Fund is in a net redemption position, the net asset value per share such figure as the board of directors of the Company considers an appropriate figure to meet duties and charges and spreads. In particular, the net asset value of the Target Fund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the Target Fund and (iii) the estimated bid/offer spread of the assets in which the Target Fund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will however be limited to a maximum of 2% of the then applicable net asset value per share. However, under exceptional circumstances the board of directors of the Company may, in the interest of shareholders (including the Fund), decide to increase beyond the maximum swing factor indicated above. In such case the board of directors of the Company would inform the investors.

The Adjusted Price of each class in the Target Fund will be calculated separately but any price adjustment will in percentage terms affect the Adjusted Price of each class in an identical manner. On the occasions when the price adjustment is not made there may be an adverse impact on the total assets of the Target Fund.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

For the avoidance of doubt, price adjustment may either be implemented at the Target Fund level or at a share class level, depending on the circumstances and does not address the specific circumstances of each individual investor transaction.

For a list of sub-funds to which the board of directors of the Company has decided not to apply the price adjustment policy, these will be made public and available at the website of the Management Company (www.eastspring.lu). The Target Fund is currently subject to the price adjustment policy.

The Management Company may defer, on a “first in, first out” basis (i.e. when processing the requests for redemption and/or conversion, the request(s) which is received by The Bank of New York Mellon SA/NV Luxembourg branch, as the central administration agent, with an earlier timestamp shall be redeemed and/or converted first), any requests for redemption and/or conversion on any valuation day when the redemption and/or conversion requests received on a particular valuation day exceeds 10% of the net asset value of the Target Fund. The deferred requests for redemption and/or conversion will continue to be given priority to subsequently received requests and dealt on the next valuation day insofar the aforementioned limit is not exceeded.

- any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of shares of the Target Fund or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares of the Target Fund cannot in the opinion of the directors of the Management Company be effected at normal prices or rates of exchange;

9. Amendments to page 92 of the Master Prospectus – “Information In Relation To The Fund – Risk Factors – Specific Risks When Investing In A Mixed Asset Fund”

The information in relation to the Shariah status reclassification risk is hereby deleted and replaced with the following:

Shariah status reclassification risk

Applicable only to Eastspring Dana Dinamik

a) Shariah-compliant equity securities

The risk refers to the risk that the currently held Shariah-compliant equity securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC. If this occurs, the Manager will take the necessary steps to dispose of such Shariah non-compliant equity securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the last trading day before the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the last trading day before the effective date of Reclassification. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities on and after the effective date of Reclassification should be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the last trading day before the effective date of Reclassification until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser; or

(iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

b) Sukuk or Islamic money market instruments or Islamic deposits

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such Shariah non-compliant instruments.

Note: Please refer to cleansing process for the Fund for details.

10. Amendments to page 92 of the Master Prospectus – “Information In Relation To The Fund – Risk Factors – Specific Risks When Investing In A Mixed Asset Fund”

(i) The information in relation to the collective investment scheme risk is hereby inserted as follows:

Collective investment scheme risk

Applicable only to Eastspring Dynamic

Any adverse effect on the collective investment scheme which the Fund is investing in will impact the NAV of the Fund as the NAV of the Fund is dependent on the performance of the respective collective investment scheme.

(ii) The information in relation to the currency risk is hereby inserted as follows:

Currency risk

Applicable only to Eastspring Dynamic

As the Fund may invest in collective investment scheme with its underlying investments denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the underlying investments of the collective investment scheme are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the underlying investments of the collective investment scheme are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The impact of the exchange rate movement between the base currency of the Fund and the currencies of the underlying investments of the collective investment scheme may result in a depreciation of the value of the investments as expressed in the base currency of the Fund.

The Fund does not intend to engage in any currency hedging to mitigate the currency risk.

(iii) The information in relation to the countries or foreign securities risk is hereby inserted as follows:

THIS SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019 AND THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020.

8th bullet:

- For investment in foreign Shariah-compliant equities, the Funds are only allowed to invest in equities which are on the approved list of Dow Jones Islamic Market Index (DJIM) or other approved lists by the Shariah Adviser. In the event of reclassification of foreign Shariah-compliant equities to be Shariah non-compliant, the Funds are to abide by the rules as laid down by the SAC of the SC and by this Shariah Investment Guidelines. In the event that the Funds wish to invest in foreign equities not covered by DJIM or other approved lists by the Shariah Adviser, the Funds must submit to the Shariah Adviser the latest information pertaining to the issuer’s business activities, its complete financial statements and other related information to enable the Shariah Adviser to carry out Shariah screening. The Shariah Adviser applies the screening methodology of the SAC of the SC in this Shariah screening.

11th bullet:

- (ii) The information in relation to point (b) under cleansing process for the Funds is hereby deleted and replaced with the following:

(b) Reclassification of Shariah status of the Funds’ investments

(i) Shariah-compliant equity securities

THIS SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019 AND THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020.

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the last trading day before the reclassification effective date, the value of the securities held exceeds or is equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of reclassification.

Any dividends received up to the last trading day before the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the last trading day before the reclassification effective date can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal on and after the reclassification effective date at a market price that is higher than the closing price on the last trading day before the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds such as rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant such as irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic deposits

This refers to the instruments which were earlier classified as sukuk or Islamic money market instruments or Islamic deposits but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant

If on the last trading day before the reclassification effective date, the value of the Shariah non-compliant instruments held exceeds or is equal to the investment cost, the Funds which holds such Shariah non-compliant instruments must liquidate them. Any income received up to the last trading day before the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the last trading day before the reclassification effective date can be kept by the Funds.

However, any income received and excess capital gain derived from the disposal on and after the reclassification effective date at a price that is higher than the price on the last trading day before the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Fund may use financial derivative instruments for hedging purposes to manage the investments of the Fund which may not be denominated in the base currency of the Fund. If this occurs, the External Investment Manager will take the necessary steps to dispose of such Shariah non-compliant equity securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC or date of review (“Review”) by the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser; or
- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund’s value.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

b) Sukuk or Islamic money market instruments or Islamic Deposits

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic Deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the External Investment Manager will take the necessary steps to dispose of or withdraw such bond or money market instruments or deposits.

21. Amendments to page 96 of the Master Prospectus – “Information in Relation To the Fund – Specific Risks When Investing In The Target Fund”

The information in relation to “Sustainability risk” and “Miscellaneous risk” are hereby inserted at the end of the section as follows:

Sustainability risk

Applicable only to Eastspring Global Emerging Markets

The Investment Manager takes sustainability risks into account in the management of the Target Fund. A sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment and the returns of the Target Fund. There is also the risk that new regulations, taxes or industry standards to protect or encourage sustainable businesses and practices may be introduced – such changes may negatively impact issuers that are poorly placed to adapt to new requirements. The regulatory framework applying to sustainable products and sustainable investing is rapidly evolving. As such, the sustainable investing characteristics of the Target Fund and how they are described for investors may be subject to change over time in order to comply with new requirements or applicable regulatory guidance.

Miscellaneous risk

Applicable only to Eastspring Global Emerging Markets

Suspension of redemption request risk

Applicable only to Eastspring Global Emerging Markets

The redemption requests by the Fund may be subject to suspension due to exceptional circumstances. Under these circumstances, the redemption of part or all shares in excess of 10% for which a redemption has been requested will be deferred until the next dealing day and will be valued at the net asset value per share prevailing on that dealing day. The Fund will not be able to redeem the Units and will be compelled to remain invested in the Target Fund for a longer period of time than the original timeline. Hence, the investments will continue to be subject to the risks inherent to the Target Fund.

Note: Please also refer to Chapter 3 Information in Relation to the Fund, 6th bullet of the Risk Management Strategies at page 12 of this Seventh Supplementary Master Prospectus in relation to the exceptional circumstances, where the market value or fair value of a material portion of the Fund’s assets cannot be determined.

24. Amendments to pages 113 – 117 of the Master Prospectus – “Information In Relation To The Fund – Other Information – Additional Information In Relation To Shariah-Compliant Fund”

The information in relation to point (b) under cleansing process for the Fund is hereby deleted and replaced with the following:

(b) Reclassification of Shariah status of the Funds’ investments

(i) Shariah-compliant equity securities

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC or the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC or date of review (“Review”) by the Shariah Adviser or the Shariah Supervisory Boards of relevant indices, the value of the securities held exceeds or is equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of Reclassification or Review.

Any dividends received up to the effective date of Reclassification or Review and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the effective date of Reclassification or Review can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the effective date of Reclassification or Review at a market price that is higher than the closing price on the effective date of Reclassification or Review shall be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds such as rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant such as irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be

Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic Deposits

This refers to the instruments which were earlier classified as sukuk or Islamic money market instruments or Islamic Deposits but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such Shariah non-compliant instruments.

If on the reclassification effective date, the value of the Shariah non-compliant instruments held exceeds or is equal to the investment cost, the Funds which holds such Shariah non-compliant instruments must liquidate them. To determine the time frame to liquidate such instruments, the Shariah Adviser advises that such reclassified Shariah non-compliant instruments should be disposed of within one (1) calendar month of reclassification.

Any income received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the reclassification effective date can be kept by the Funds.

However, any income received and excess capital gain derived from the disposal after the reclassification effective date at a price that is higher than the price on the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Target Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging markets.

The Target Fund may invest directly in China B-Shares and China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the Science, Technology and Innovation board of the Shanghai Stock Exchange (STAR Board) and the ChiNext market of the Shenzhen Stock Exchange.

The Target Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash.

The Target Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Target Fund more efficiently.

The Target Fund maintains a higher overall sustainability score than the MSCI Emerging Markets (Net TR) index, based on the Investment Manager's rating criteria.

The Target Fund does not directly invest in certain activities, industries or group of issuers above the limits listed under "Sustainability Information" on the Target Fund's webpage, accessed via www.schroders.com/en/lu/private-investor/gfc.

Sustainability Criteria

The Investment Manager applies governance and sustainability criteria when selecting investments for the Target Fund.

The Investment Manager performs due diligence on potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Target Fund's sustainability criteria. In some cases, companies which fall below the sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet its sustainability criteria within a realistic time horizon.

For a company to be eligible to be held in the Target Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Target Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data and reports. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures.

The Investment Manager ensures that at least:

- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, held in the Target Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

29. Amendments to pages 157 – 169 of the Master Prospectus – “Information In Relation To The Target Fund – Permitted Investment & Restrictions and Limits of the Target Fund”

- (i) Paragraphs A(2) and A(3) under investment in transferable securities and liquid assets are hereby deleted;
- (ii) Paragraph D(2) under investment in transferable securities and liquid assets is hereby deleted and replaced with the following:

The Target Fund may acquire no more than (a) 10% of the non-voting shares of any single issuing body, (b) 10% of the value of debt securities of any single issuing body, (c) 10% of the money market investments of the same issuing body. However, the limits laid down in (b) and (c) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market investments or the net amount of securities in issue cannot be calculated.

The limits set out in paragraph D(1) and (2) above shall not apply to:

- (i) transferable securities and money market instruments issued or guaranteed by an EU member state or its local authorities;
 - (ii) transferable securities and money market instruments issued or guaranteed by any other Eligible State;
 - (iii) transferable securities and money market instruments issued by public international bodies of which one (1) or more EU member states are members; or
 - (iv) shares held in the capital of a company incorporated in a non-EU member state which invests its assets mainly in the securities of issuing bodies having their registered office in that state where, under the legislation of that state, such holding represents the only way in which the Target Fund's assets may invest in the securities of the issuing bodies of that state, provided, however, that such company in its investment policy complies with the limits laid down in Article 43, 46 and 48(1) and 2 of the Law.
- (iii) A new paragraph E(4) is hereby inserted under investment in transferable securities and liquid assets as follows:

The Target Fund may acquire no more than 25% of the units or shares of the same UCITS and/or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units or shares in issue cannot be calculated. In case of a UCITS or other UCI with multiple sub-funds, this restriction is applicable by reference to all units or shares issued by the UCITS/UCI concerned, all sub-funds combined.

- (iv) Paragraph (F)(e) under investment in transferable securities and liquid assets is hereby deleted.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

- (v) The following paragraphs are hereby inserted immediately after the last paragraph under derivative:

The Target Fund may invest in financial derivative instruments that are traded OTC including, without limitation, total return swaps or other financial derivative instruments with similar characteristics, in accordance with the conditions set out in appendix I of the Target Fund's prospectus and the investment objective and policy of the Target Fund. Such OTC derivatives shall, to the extent capable of being held in custody, be safekept by the depositary. A total return swap is an agreement in which one party (total return payer) transfers the total economic performance of a reference obligation to the other party (total return receiver). Total economic performance includes income from interest and fees, gains or losses from market movements, and credit losses.

Total return swaps entered into by the Target Fund may be in the form of funded and/or unfunded swaps. An unfunded swap means a swap where no upfront payment is made by the total return receiver at inception. A funded swap means a swap where the total return receiver pays an upfront amount in return for the total return of the reference asset and can therefore be costlier due to the upfront payment requirement.

All revenue arising from total return swaps, net of direct and indirect operational costs and fees, will be returned to the Target Fund.

- (vi) Paragraph 1 under agreements on OTC derivatives is hereby deleted and replaced with the following:

The Target Fund may enter into agreements on OTC derivatives. The counterparties to any OTC derivatives transactions, such as total return swaps, or other derivatives, entered into by the Target Fund, are selected from a list of counterparties approved by the management company. The management company will aim to select the best available counterparties for any given markets in accordance with its group internal policy. The counterparties will be institutions which are either credit institutions or investment firms in each case with a registered office in an EU member state, a Group of Ten (G10) country or another country whose prudential rules are considered equivalent by the CSSF for this purpose, which are authorised under the Markets in Financial Instruments Directive (MiFID) directive or a similar set of rules and which are subject to prudential supervision. Such firms will, at trade inception either be rated BBB/Baa2 or above or have been approved by Schroders' Group Agency Credit Risk Committee. The management company monitors the ongoing creditworthiness of all counterparties and the list may be amended. The counterparties will have no discretion over the composition or management of the Target Fund's portfolio or over the underlying of the financial derivative instruments. The identity of the counterparties will be disclosed in the annual report of the Company.

- (vii) Paragraphs 2 and 3 under use of techniques and instruments relating to transferable securities and money market instruments are hereby deleted and replaced with the following:

To the extent permitted by and within the limits prescribed by the regulations and in particular (i) the CSSF Circular 08/356 relating to the use of financial techniques and instruments (as may be amended, supplemented or replaced from time to time) and (ii) the CSSF circular 14/592 relating to European Securities and Markets Authority (ESMA) Guidelines on ETFs and other UCITS issues, the Target Fund may for the purpose of generating additional capital or income or for reducing its costs or risks, enter as purchaser or seller into optional or non-optional repurchase or reverse repurchase transactions and engage in securities lending transactions.

The Company will, for the time being, not engage in securities lending transactions, repurchase or reverse repurchase transactions. Should the Company decide to use such techniques in the future, the Company will update the Target Fund's prospectus accordingly and will comply with the regulations and in particular CSSF Circular 14/592 relating to ESMA guidelines on ETFs and other UCITS issues and Regulation (EU) 2015/2365 of 25 November 2015 on transparency of securities financing transactions and of reuse.

- (viii) Paragraph 1 under reverse repurchase and repurchase agreements is hereby deleted and replaced with the following:

Should the Target Fund engage in reverse repurchase and repurchase agreements, the Target Fund will only enter into reverse repurchase and repurchase agreements with counterparties which are subject to prudential supervision rules considered by the CSSF as equivalent to that laid down in EU law.

- (ix) Paragraph 1 under management of collateral is hereby deleted and replaced with the following:

The risk exposures to a counterparty arising from OTC derivatives transactions and efficient portfolio management techniques shall be combined when calculating the counterparty risk limits provided for in section 1(C) above.

Collateral received for the benefit of the Target Fund may be used to reduce its counterparty risk exposure if it complies with the conditions set out in applicable laws and regulations. Where the Target Fund enters into OTC derivatives transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure shall comply with the following criteria at all times:

- (A) Any collateral received other than cash shall be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received shall also comply with the provisions in section 1(D) above.
- (B) Collateral received shall be valued on at least a daily basis. Assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place.
- (C) Collateral received shall be of high quality.
- (D) The collateral received shall be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- (E) Collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Target Fund receives from a counterparty of efficient portfolio management and OTC derivatives transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the Target Fund is exposed to different counterparties, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a member state of the EU, one or more of its local authorities, Eligible state or a public international body to which one or more of the local member states of the EU belong. - (xi) The information in relation to sustainability risk management and liquidity risk management framework is hereby inserted under risk management process as follows:

Sustainability Risk Management

The investment decision making process for the Target Fund includes the consideration of sustainability risks alongside other factors. A sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment and the returns of the Target Fund. Sustainability risks could arise within a particular business or externally, impacting multiple business. Sustainability risks that could negatively affect the value of a particular investment might include the following:

- Environmental: extreme weather events such as flooding and high winds; pollution incidents; damage to biodiversity or marine habitats.
- Social: labour strikes; health and safety incidents such as injuries or fatalities; product safety issues.
- Governance: tax fraud; discrimination within a workforce; inappropriate remuneration practices; failure to protect personal data;

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

- Regulatory: new regulations, taxes or industry standards to protect or encourage sustainable businesses and practices may be introduced.

Different asset classes, investment strategies and investment universes may require different approaches to the integration of such risks in investment decision-making. The Investment Manager will typically analyse potential investments by assessing (alongside other relevant considerations), for example, the overall costs and benefits to society and the environment that an issuer may generate or how the market value of an issuer may be influenced by individual sustainability risks such as a rise in carbon tax. The Investment Manager will also typically consider the relevant issuer's relationships with its key stakeholders – customers, employees, suppliers and regulators - including an assessment of whether those relationships are managed in a sustainable manner and, therefore, whether there are any material risks to the market value of the issuer.

The impact of some sustainability risks may have a value or cost that can be estimated through research or the use of proprietary or external tools. In such cases, it will be possible to incorporate this into more traditional financial analysis. An example of this might be the direct implications of an increase in carbon taxes that are applicable to an issuer, which can be incorporated into a financial model as an increased cost and/or as reduced sales. In other cases, such risks may be more difficult to quantify, and so the Investment Manager may seek to incorporate their potential impact in other ways whether explicitly, for example by reducing the expected future value of an issuer or implicitly, for example by adjusting the weighting of an issuer's securities in the Target Fund's portfolio depending on how strongly it believes a sustainability risk may affect that issuer.

A range of proprietary tools may be used to perform these assessments, along with supplementary metrics from external data providers and the Investment Manager's own due diligence, as appropriate. This analysis informs the Investment Manager's view of the potential impact of sustainability risks on the Target Fund's overall investment portfolio and, alongside other risk considerations, the likely financial returns of the Target Fund.

The management company's risk function provides independent oversight of portfolio exposures from a sustainability perspective. The oversight includes ensuring there is an independent assessment of sustainability risks within investment portfolios and adequate transparency and reporting on sustainability risk exposures.

More details on the management of sustainability risks and the Investment Manager's approach to sustainability are available on the internet site <https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures>. Please also refer to the risk factor entitled "Sustainability Risks" in appendix II of the Target Fund's prospectus.

Liquidity Risk Management Framework

The management company has established, implemented and consistently applies a liquidity risk management framework which sets out the governance standards and requirements for the oversight of liquidity risk in relation to investment funds. The framework outlines the responsibilities for assessing, monitoring, and providing independent oversight of liquidity risks of the Target Fund. It also enables the management company to monitor the liquidity risks of the Target Fund and to ensure compliance with the internal liquidity parameters so that the Target Fund can normally meet its obligation from share redemptions at the request of shareholders.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

Qualitative and quantitative assessments of liquidity risks at a portfolio and security level are performed to ensure that investment portfolios are appropriately liquid and that the portfolios of the Target Fund are sufficiently liquid to honour shareholders' redemption requests. In addition, shareholder concentrations are regularly reviewed to assess their potential impact on anticipated financial obligations of the Target Fund.

The Target Fund is reviewed with respect to liquidity risks.

The management company's assessment of liquidity risks within the Target Fund includes (but is not limited to) consideration of the investment strategy, the dealing frequency, the underlying assets' liquidity (and their valuation) and shareholder base.

A detailed description of the liquidity risks are further described in appendix II of the Target Fund's prospectus.

The board of directors of the Company, or the management company, as appropriate, may also make use, among others, of the following to manage liquidity risk:

- (A) the directors may declare that the redemption of part or all shares of the Target Fund in excess of 10% for which a redemption or switch has been requested will be deferred until the next dealing day and will be valued at the net asset value per share prevailing on that dealing day.
- (B) the Company may suspend the calculation of the next asset value per share of the Target Fund and the issue and redemption of any shares in the Target Fund, as well as the right to switch shares in the Target Fund into shares of a different share class of the Target Fund or into any share class of any other fund.

30. Amendments to page 170 of the Master Prospectus - Information In Relation To The Target Fund – Dilution”

The information in relation to dilution is hereby deleted and replaced with the following:

The Target Fund is single priced and may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Target Fund. This is known as “dilution”. In order to counter this and to protect shareholders' interests, the management company will apply “swing pricing” as part of its daily valuation policy to the extent allowed by applicable law. This will mean that in certain circumstances the management company will make adjustments in the calculations of the net asset values per share, to counter the impact of dealing and other costs to be incurred by the Target Fund in liquidating or purchasing investments on occasions when these are deemed to be significant. The calculation of such adjustments may take into account any provision for the impact of estimated market spreads (bid/offer spread of underlying securities), duties (for example transaction taxes) and charges (for example settlement costs or dealing commission) and other dealing costs related to the acquisition or disposal of investments.

Dilution Adjustment

In the usual course of business the application of a dilution adjustment will be triggered mechanically and on a consistent basis.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

Schroders' group pricing committee provides recommendations to the management company on the appropriate level of dilution adjustment and level of threshold that should trigger the application of swing pricing in the Target Fund. The management company remains ultimately responsible for such pricing arrangements.

The need to make a dilution adjustment will depend upon the net value of subscriptions, switches and redemptions received by the Target Fund for each dealing day. The management company therefore reserves the right to make a dilution adjustment where the Target Fund experiences a net cash movement which exceeds a certain threshold.

The management company may also make a discretionary dilution adjustment if, in its opinion, it is in the interest of shareholders to do so.

The dilution adjustment is applied to all subscriptions, redemptions and/or switches in and out of the Target Fund on any given dealing day once the total level of such dealing in the Target Fund on that dealing day has exceeded the applicable threshold referred to above.

Where a dilution adjustment is made, it will increase the net asset value per share when there are net inflows into the Target Fund and decrease the net asset value per share when there are net outflows. The net asset value per share of each share class in the Target Fund will be calculated separately but any dilution adjustment will, in percentage terms, affect the net asset value per share of each share class identically.

As dilution is related to the inflows and outflows of money from the Target Fund it is not possible to accurately predict whether dilution will occur at any future point in time. It is also not possible to accurately predict how frequently the management company will need to make such dilution adjustments.

Swing pricing may vary from fund to fund and in normal market conditions is not expected to exceed 2% of the unadjusted net asset value per share of the Target Fund on any dealing day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the management company may decide, on a temporary basis, to adjust the net asset value of the Target Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the net asset value by more than 2% will be published on the following website: www.schroders.lu.

The Company currently applies dilution to the Target Fund.

You may request for a copy of the prospectus of the Target Fund from us.

Dear Sirs,

This letter has been prepared for inclusion in the Seventh Supplementary Master Prospectus in connection with the Funds listed in the **Appendix** ("the Funds").

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

The taxation of income for both the Funds and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 (“the Act”). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUNDS

The Funds will be regarded as resident for Malaysian tax purposes since the Trustee of the Funds are resident in Malaysia.

(1) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Funds consisting of dividends or interest or profit¹ (other than interest and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments in Malaysia by the Funds will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Funds may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Funds will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures² or sukuk, other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income or profit¹ derived from the following investments is exempt from tax:

- (a) Interest income or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;

¹ Under section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah.

The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

² Structured products approved by the Securities Commission Malaysia are deemed to be “debenture” under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income or profit¹ paid or credited by Malaysia Building Society Berhad³.

The interest income or profit¹ or discount income exempted from tax at the Funds level will also be exempted from tax upon distribution to the Unit Holders.

With effect from 1 January 2019, the exemption shall not apply to interest or profit¹ paid or credited to a unit trust that is a wholesale money market fund.

- ii. Retail money market fund ("RMMF")

Based on the Finance Act 2021, the interest income or profit¹ of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act. This new WHT is effective from 1 January 2022 onwards.

The WHT is to be withheld and remitted by the RMMF to the tax authorities within 30 days upon distribution of the income to the Unit Holders.

(2) Foreign Investments

With effect from 1 January 2022, the exemption of foreign-sourced income received in Malaysia is only applicable to a person who is a non-resident.

However, subject to qualifying conditions (also subject to compliance with conditions imposed by the Ministry of Finance as specified in the Inland Revenue Board ("IRB")'s guidelines), the following foreign-sourced income received from 1 January 2022 to 31 December 2026 (5 years) will continue to be exempted from Malaysian income tax:

- Dividend income received by resident companies, limited liability partnerships and resident individuals (in respect of dividend income received through a partnership business in Malaysia).

Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Funds.

Unit Holders electing to receive their income distribution by way of investment in the form of new units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Funds are not taxable in the hands of Unit Holders.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Funds.
