Upon Maturity, the Fund is forced to sell that bond at the prevailing market price (as at 1 June 2021) which may be lower than the purchase price of the bond.

Upon Early Termination of the Fund

Assuming that the Fund early terminates on 1 June 2018 (2 years from the Commencement Date of 1 June 2016) but the Fund is holding a bond that matures only in 2022.

Upon Early Termination, the Fund is forced to sell that bond at the prevailing market price (as at 1 June 2018) which may be lower than the purchase price of the bond.
