USD Class	USD 0.5000
RM-Hedged Class	RM 0.5000
SGD-Hedged Class	SGD 0.5000
AUD-Hedged Class	AUD 0.5000

The Fund may create new Classes without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new Classes by way of a notification and prospective investors will be notified of the same by way of a supplementary information memorandum or replacement information memorandum.

Initial Offer Period

A period of twenty-one (21) days commencing from 8 October 2026 to 28 October 2026.

The initial offer period may be shortened at the Manager's discretion if the Manager is of the view that it is in the Unit Holders' best interest to commence the investment of the Fund.

Fund Objective

The Fund seeks to provide investors with income over the long-term by investing in a CIS.

ANY MATERIAL CHANGE TO THE FUND'S OBJECTIVE WOULD REQUIRE UNIT HOLDERS' APPROVAL.

Investment Strategy

The Fund will be investing a minimum of 85% of the Fund's NAV in the Target Fund and a maximum of 15% of the Fund's NAV in money market instruments and/or deposits. The Fund will be actively rebalanced from time to time to meet sales and withdrawal transactions. All the investment decisions will be made at the Target Fund level.

We may substitute the Target Fund with another fund that has a similar investment objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's objective. However, this is subject to the Unit Holder's approval before such changes are made. In such circumstances, we may redeem our investment in the Target Fund and invest in another fund on a staggered basis for smooth transition.

Currently, the Fund invests in I2-USD (C) share class of the Target Fund, which is a USD-denominated share class launched on 21 October 2025. The Fund may change its entire investment into another class of the Target Fund (which must be denominated in the same currency), if we are of the opinion that the change is in the best interest of the Unit Holders. If we wish to effect such change, we will seek concurrence from the Trustee, and Unit Holders will be notified before implementation.

The Fund may enter into derivative instruments only for hedging purposes. For example, the Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the Classes not denominated in the base currency of the Fund.

Target Fund	Minimum 85%
Money market instruments and/or deposits	Maximum 15%

Performance Benchmark

S&P 500 NR Index

Source: www.spglobal.com

Note: The performance benchmark is the benchmark of the Target Fund to allow for a similar comparison with the performance of the Target Fund. The risk profile of the Fund is not the same as the risk profile of the performance benchmark. Given that the strategy of the Target Fund is more income oriented rather than growth oriented, the performance of the benchmark is merely to provide information on how the US market has performed, rather than to directly compare with the performance of the Target Fund or the Fund.

The degree to which the Target Fund may resemble the composition and risk characteristics of the Target Fund's benchmark will vary over time and its performance may be meaningfully different. Additionally, the Target Fund's overall market exposure may vary significantly from the Target fund's benchmark as a result of the exposure in ELNs. There is no guarantee that the Fund will outperform the benchmark.

Any changes to the Target Fund's benchmark will be updated in our website and/or Fund's Product Highlights Sheet.

Income Distribution Policy

Subject to the availability of income, distribution of income, if any, will be on a monthly basis, or any other period at the discretion of the Manager, after deduction of taxation and expenses.

Distribution of income, if any, may be made from (i) realised income, (ii) realised capital gains and/or (iii) capital.

The rationale for distribution out of capital is to allow the Fund to consistently distribute income to Unit Holders in accordance with the distribution policy and to provide flexibility for the Fund, in a situation where the Fund has unrealised gains or income by virtue of the Fund's performance, to reward the Unit Holders without having to dispose the underlying assets of the Fund whilst further allowing future appreciation to the value of the assets.

It should be noted that the distribution of income is at our discretion and is not guaranteed. The making of any distribution does not imply that further distributions will be made and we reserve the right to vary the frequency and/or amount of distributions. Distribution out of capital represents a return or a withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained, and the value of future returns would be diminished.

Kindly refer to page 25 for more information on the mode of distribution.

TEMPORARY DEFENSIVE POSITIONS

If and when the Manager considers the market, economic, political or other conditions to be adverse to the Fund, the Manager may take temporary defensive position to respond to those conditions. In such circumstances, the Fund may temporarily increase its holdings in money market instruments and/or deposits by more than the allocated percentage of the Fund's asset allocation.

If in our opinion, the Target Fund no longer meets the Fund's objective, we may, in consultation with the Trustee, liquidate the investments in the Target fund and hold 100% of the Fund's NAV in liquid assets, i.e. money market instruments and deposits or replace the Target Fund with another fund with similar objective.

Note: A replacement of the Target Fund would require Unit Holders' approval.

RISK MANAGEMENT STRATEGIES

The risk management strategies employed by the Manager includes the following:

- monitoring market and economic conditions;
- monitoring adherence to the Fund's objective and investment restrictions and limits;
- monitoring the performance of the Fund;
- taking temporary defensive positions, when required;
- escalating and reporting investment matters to the committee undertaking the oversight function of the Fund, senior management team, risk management committee and board of directors; and
- practising prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet redemption request. Liquidity risk of the Fund will be identified, monitored and managed in order to meet the redemption requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. It has taken into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:
 - Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile.
 - Monitoring of the Fund's net flows against redemption requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status to ensure there is sufficient cash holdings in addressing any liquidity concerns, which would mitigate potential risks in relation to meeting Unit Holders' redemption requests.
 - Suspension of redemption requests from the Unit Holders when the Target Fund is suspended as stipulated in Suspension of Calculation of NAV of the Target Fund under Section 4. Target Fund Information. Prior to triggering a suspension, we seek to manage this by allowing the Fund to hold up to 15% of its NAV in liquid assets which seeks to allow the Fund to have a sufficient buffer to meet the Unit Holders' redemption request. Suspension will only be triggered as a last resort and if it is in the best interest of Unit Holders to do so. The Manager will inform the Unit Holders in a timely and appropriate manner of the decision to suspend dealing in Units of the Fund. During the suspension period, the redemption requests from the Unit Holders will not be accepted and such redemption requests will be dealt on the next Business Day once the suspension is lifted.
 - Should the suspension of redemption request be triggered, the redemption proceeds will be paid to the Unit Holders from the Fund within five (5) Business Days upon receiving the redemption proceeds from the Target Fund as stipulated in How to Redeem Units under Section 6. Transaction Information.

RISK FACTORS

General Risks of Investing in a Wholesale Fund

Inflation risk

This risk refers to the risk that investor's investment in unit trust fund may not grow or generate income at a rate that keeps pace with inflation, thus reducing investor's purchasing power even though the investment in monetary terms may have increased.

Management company risk

The performance of a unit trust fund depends on the experience, expertise and knowledge of the management company. Should there be a lack of any of the above qualities by the management company, it may adversely affect the performance of the unit trust fund.

Market risk

Market risk refers to potential losses that may arise from adverse changes in the market conditions. Market conditions are generally, affected by, amongst others, economic and political stability. If the market which the unit trust fund invests in suffers a downturn or instability due to adverse economic or political conditions, this may adversely impact the market prices of the investments of a unit trust fund.

Specific Risks when Investing in the Fund

CIS risk

Any adverse effect on the CIS which the Fund is investing in will impact the NAV of the Fund as the NAV of the Fund is dependent on the performance of the CIS.

Country risk

The Fund may be affected by risks specific to the country in which it invests. Such risks may be caused by but not limited to changes in the country's economic fundamentals, social and political stability, currency movements and foreign investment policies. These factors may have an impact on the prices of the Fund's investment in that country and consequently may also affect the Fund's NAV.

Currency risk

As the investments of the Fund may be denominated in a currency other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currency in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currency in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The impact of the exchange rate movement between the base currency of the Fund and the currency of the respective Classes may result in a depreciation of Unit Holder's holdings as expressed in the base currency of the Fund.

The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class (e.g. RM, SGD or AUD denominated) against the base currency of the Fund.

The Fund will be offering Hedged classes to reduce the currency risk of Units of the Hedged class against the base currency of the Fund. Unit Holders should be made aware that hedging may not fully eliminate currency risk and any gains or losses arising from hedging may further increase or decrease the returns of the investment. The cost of hedging will be borne by the Hedged class of the Fund and in the event of a favourable currency movement, the Hedged class may not appreciate as much as an unhedged Class of the same denomination.

Derivatives risk

The Manager may use derivatives for hedging purposes. Derivatives' market values may be subject to wide fluctuations and expose the Fund to potential gains and losses due to mark-to-market value. Some of the risks associated with derivatives are, but not limited to, market risk, management company risk, counterparty risk, and liquidity risk.

To the extent hedging transactions are imperfect, there is no guarantee that it will be possible to remove all currency, interest rate or credit exposures. In the event the hedging strategy does not meet its intended objective, this could have an adverse impact on the NAV of the Fund.

In the event that the counterparty of the derivatives is not able to fulfil its obligations especially in the event of its bankruptcy, this may lead to a loss to the Fund. Counterparty risk may be mitigated by conducting credit evaluation on the counterparty to ascertain the creditworthiness of the counterparty. Should there be a downgrade in the credit rating of the counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.

Fund management of CIS risk

While the Manager will exercise due skill and care in selecting the underlying CIS, it does not have control over the management of the underlying CIS which the Fund is investing in and there is no guarantee that the investment objective of the underlying CIS will be met. This may result in the NAV of the underlying CIS to be adversely affected and in turn, affect the NAV of the Fund.

Income distribution and distribution out of capital risk

It should be noted that the distribution of income is not guaranteed. The distribution of income, if any, may be made from (i) realised income, (ii) realised capital gains and/or (iii) capital. Distribution out of capital represents a return or a withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained, and the value of future returns would be diminished.

Liquidity risk

Liquidity risk in the context of this Fund is associated with the Target Fund's ability to meet the Fund's redemption request in a timely manner. If the Target Fund fails to meet the Fund's redemption request, it may jeopardise the Fund's ability to meet its own Unit Holders' request.

Suspension of redemption request risk

The Manager may, in consultation with the Trustee and having considered the interests of Unit Holders, suspend the dealing in Units of the Fund, when the Target Fund is suspended, as stipulated in Suspension of Calculation of NAV of the Target Fund under Section 4. Target Fund Information. No application will be dealt with when the suspension of dealing of Units is triggered and this will limit the Unit Holders' right to freely redeem their Units in the Fund.

Where a suspension of dealing in Units is triggered and when the redemption application has been accepted, the Fund may defer application until the suspension is lifted.

On any Valuation Day, the Target Fund will not be obligated to process redemption requests that, in total, exceed either 10% of its outstanding shares or 10% of its net asset value. To meet these limits, the Target Fund can reduce the requests on a pro rata basis. If this occurs, unfulfilled portions will be deferred to the next Valuation Day and given priority over new requests.

As such, Unit Holders should take note that the Fund will also defer redemption when the Target Fund defers redemption exceeding either 10% of the Target Fund's outstanding shares or 10% of its net asset value.

The Fund will not be able to redeem the Units and will be compelled to remain invested in the Target Fund for a longer period of time. Hence, the investments will continue to be subjected to the risks inherent to the Target Fund.

Prior to triggering a suspension, we seek to manage this by allowing the Fund to hold up to 15% of its NAV in liquid assets to allow the Fund to have a sufficient buffer to meet the Unit Holders' redemption request. Suspension will only be triggered as a last resort and if it is in the best interest of Unit Holders to do so. The Manager will inform the Unit Holders in a timely and appropriate manner of the decision to defer or suspend dealing in Units of the Fund. Should the deferral or suspension of redemption request be triggered, the redemption proceeds will be paid to the Unit Holders from the Fund within five (5) Business Days upon receiving the redemption proceeds from the Target Fund as stipulated in Redemption of Units of the Target Fund under Section 4. Target Fund Information.

Specific Risks Associated with the Target Fund

Collateral management risk

Counterparty risk arising from investments in OTC FDIs is generally mitigated by the transfer or pledge of collateral in favour of the Target Fund. However, transactions may not be fully collateralised. Fees and returns due to the Target Fund may not be collateralised. If a counterparty defaults, the Target Fund may need to sell non-cash collateral received at prevailing market prices. In such a case, the Target Fund could realise a loss due, inter alia, to inaccurate pricing or monitoring of the collateral, adverse market movements, deterioration in the credit rating of issuers of the collateral or illiquidity of the market on which the collateral is traded. Difficulties in selling collateral may delay or restrict the ability of the Target Fund to meet redemption requests.

The Target Fund may also incur a loss in reinvesting cash collateral received, where permitted. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Target Fund to the counterparty as required by the terms of the transaction. The Target Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Target Fund.

Counterparty risk

An entity with which the Target Fund does business (e.g. entering into OTC derivative agreements or efficient portfolio management techniques) could become unwilling or unable to meet its obligations to the Target Fund.

Credit risk

The Target Fund invests in buy-write ELNs which are structured products designed to convert market volatility into a consistent income stream through a covered call strategy. These notes are structured as fixed income securities with monthly coupon distributions and return of principal at maturity, which occurs after fifty-three (53) weeks. Therefore, the note structure carries the credit risk of the sponsoring issuer or counterparty. Such securities could lose value if the issuer's financial health deteriorates. If the financial health of the security's issuer weakens, or if the market believes it may weaken, the value of the security may fall. The lower the credit quality of the debt, the greater the credit risk. In some cases, an individual issuer could go into default, even though ordinary conditions prevail in the general market.

Derivatives risk

Certain derivatives could behave unexpectedly or could expose the Target Fund to losses that are significantly greater than the cost of the derivative. Derivatives in general are highly volatile and do not carry any voting rights. The pricing and volatility of many derivatives (especially credit default swaps) may diverge from strictly reflecting the pricing or volatility of their underlying reference(s). In difficult market conditions, it may be impossible or unfeasible to place orders that would limit or offset the market exposure or losses created by certain derivatives.

- **OTC derivatives:** Because OTC derivatives are in essence private agreements between the Target Fund and one or more counterparties, they are less highly regulated than market-traded securities. OTC derivatives carry greater counterparty risk and liquidity risk, and it may be more difficult to force a counterparty to honour its obligations to the Target Fund. The list of counterparty's contracts will be available in the Target Fund's annual report. This counterparty default risk is limited by the regulatory OTC derivatives counterparty limits. Mitigation techniques aiming to limit this risk are used, such as collateral policy or resets in contracts for difference.

If a counterparty ceases to offer a derivative that the Target Fund had been planning on using, the Target Fund may not be able to find a comparable derivative elsewhere and may miss an opportunity for gain or find itself unexpectedly exposed to risks or losses, including losses from a derivative position for which it was unable to buy an offsetting derivative.

Because it is generally impractical for Amundi Funds to divide its OTC derivative transactions among a wide variety of counterparties, a decline in the financial health of any one counterparty could cause significant losses. Conversely, if any other funds of Amundi Funds experience any financial weakness or fails to meet an obligation, counterparties could become unwilling to do business with Amundi Funds, which could leave Amundi Funds unable to operate efficiently and competitively.

- **Exchange-traded derivatives:** While exchange-traded derivatives are generally considered lower-risk than OTC derivatives, there is still the risk that a suspension of trading in derivatives or in their underlying assets could make it impossible for the Target Fund to realise gains or avoid losses, which could in turn cause a delay in handling redemptions of shares. There is also a risk that settlement of exchange-traded derivatives through a transfer system may not happen when or as expected.

Equity risk

Equities can lose value rapidly and typically involve higher risks than bonds or money market instruments. If a company goes through bankruptcy or a similar financial restructuring, its equities may lose most or all of its value.

ELN risk

The two primary risks associated with investments in ELNs are the default risk of the issuing bank and the full downside risk associated with the underlying security. The ELN's cap may limit the upside potential, the ELN can however provide its owner the benefit of attractive coupon payments.

Hedging risk

Any attempts to hedge (reduce or eliminate certain risks) may not work as intended, and to the extent that they do work, they will generally eliminate potentials for gains along with risks of loss. Any measures that the Target Fund takes that are designed to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely. To the extent that no hedge exists, the Target Fund or share class of the Target Fund will be exposed to all risks that the hedge would have protected against. The Target Fund may use hedging within its portfolio. With respect to any designated share classes, the Target Fund may hedge either the currency exposure of the class (relative to the currency exposure(s) of the relevant portfolio or reference currency). Hedging involves costs, which reduce investment performance.

Investment fund risk

As with any investment fund, investing in the Target Fund involves certain risks an investor would not face if investing in markets directly:

- the actions of other investors, in particular sudden large outflows of cash, could interfere with orderly management of the Target Fund and cause its net asset value to fall;
- the investor cannot direct or influence how money is invested while it is in the Target Fund;
- the Target Fund's buying and selling of investments may not be optimal for the tax efficiency of any given investor;
- the Target Fund is subject to various investment laws and regulations that limit the use of certain securities and investment techniques that might improve performance; to the extent that the Target Fund decides to register in jurisdictions that impose narrower limits, this decision could further limit its investment activities;
- because the Target Fund is based in Luxembourg, any protections that would have been provided by other regulations (including, for investors outside Luxembourg, those of their home regulator) may not apply;
- because the Target Fund shares are not publicly traded, the only option for liquidating shares is generally redemption, which could be subject to delays and any other redemption policies set by the Target Fund;
- to the extent that the Target Fund invests in other UCITS/UCIs, it may incur a second layer of investment fees, which will further erode any investments gains;
- to the extent that the Target Fund uses efficient portfolio management techniques and in particular if it reinvests collateral associated with these techniques, the Target Fund takes on counterparty, liquidity, legal, custody (e.g. absence of the assets' segregation) and operational risks, which can have an impact on the performance of the Target Fund. To the extent that related parties (companies of the same group as the Management Company or as the Target Fund Investment Manager) may intervene as either counterparty or agent (or in any other role) in efficient portfolio management operations, a potential conflict of interest risk may arise. The Management Company is responsible for managing any conflict that might arise and avoid that such conflicts

negatively impact shareholders. All the revenues arising from efficient portfolio management shall be returned to the Target Fund following the deduction of any direct and indirect operational costs and fees. Such direct and indirect operational costs and fees, which shall not include hidden revenue, shall include fees and expenses payable to agents or counterparties at normal commercial rates. Amundi group policy for prevention and management of conflicts of interest is available on the website of Amundi (www.amundi.com); and

- the Target Fund Investment Manager or its designees may at times find their obligations to the Target Fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably).

Liquidity risk

Any security could become hard to value or to sell at a desired time and price. Liquidity risk could affect the Target Fund's ability to repay repurchase proceeds by the deadline stated in the Target Fund prospectus. To the extent that the Target Fund uses derivatives to increase its net exposure to any market, rate, basket of securities or other financial reference source, fluctuations in the price of the reference sources will be amplified at the Target Fund level.

Management risk

The Target Fund's management team may be wrong in its analysis, assumptions, or projections. This includes projections concerning industry, market, economic, demographic, or other trends.

Market risk

Prices of many securities change continuously, and can fall based on a wide variety of factors. Examples of these factors include political and economic news; government policy; changes in technology and business practices; changes in demographics, cultures and populations; natural or human-caused disasters; weather and climate patterns; scientific or investigative discoveries; costs and availability of energy, commodities and natural resources. The effects of market risk can be immediate or gradual, short-term or long-term, narrow or broad. In particular, commodity market risk may experience significant, sudden price variations that have a direct effect on the valuation of shares and securities that equate to the shares in which the Target Fund may invest and/or indices that the Target Fund may be exposed to. Moreover, the underlying assets may evolve in a markedly different way from traditional securities markets (equity markets, bond markets, etc.).

Operational risk

In any country, but especially in emerging markets, there could be losses due to errors, service disruptions or other failures, as well as fraud, corruption, electronic crime, instability, terrorism or other irregular events. Operational risks may subject the Target Fund to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, and trading, among other things. Operational risks may go undetected for long periods of time, and even if they are detected it may prove impractical to recover prompt or adequate compensation from those responsible.

Small and mid-cap stock risk

Stocks of small and mid-size companies can be more volatile than stocks of larger companies. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of bankruptcy or other long-term or permanent business setbacks. Initial public offerings can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME. INVESTORS SHOULD CONSULT A PROFESSIONAL ADVISER FOR A BETTER UNDERSTANDING OF THE RISKS.

BASES OF VALUATION FOR THE FUND

The bases of valuation of the respective asset classes of the Fund are as follows:

CIS

Investments in unlisted CIS will be valued each day based on the last published redemption price.

Money market instruments

Money market instruments will be valued each day based on the price quoted by a bond pricing agency registered with the SC.

Deposits

Deposits placed with financial institutions will be valued each day by reference to the principal value of such investments and interests accrued thereon, if any, for the relevant period.

Derivatives

Derivative instruments are marked-to-market on a daily basis, where possible. Otherwise, the valuation will be based on fair value as determined in good faith by the Manager on methods or bases that have been verified by the auditor of the Fund and approved by the Trustee.

Foreign exchange rate conversion

Where the value of an asset of the Fund is denominated in a foreign currency, the assets are translated on a daily basis to USD using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. the same day.

VALUATION OF THE FUND

Valuation Point

The Fund will be valued at least once every Business Day. The Fund adopts a forward pricing basis which means that prices of Units will be calculated based on the NAV of the Fund at the next valuation point after the application to purchase or redeem Units is received by the Manager.

As the Fund invests in foreign markets, the valuation of the Fund is conducted after the close of a Business Day but not later than 5.00 p.m. of the following Business Day (T+1) due to the different time zones of the foreign markets. Consequently, the daily NAV of the Fund will be published two (2) Business Days later instead of the next Business Day. If application for sale or redemption is received by the Manager on or before the cut-off time of 4.00 p.m. on any Business Day, say, Tuesday, the Tuesday's Unit pricing shall apply and will be calculated on Wednesday (if Wednesday is a Business Day). Tuesday's Unit pricing will be published on Thursday (T+2).

You may contact the Manager directly or visit the Manager's website, www.eastspring.com/my, to obtain the latest NAV per Unit of the Fund.

POLICY ON GEARING

The Fund is not permitted to obtain cash financing or borrow other assets (including those within the meaning of the Securities Borrowing and Lending Guidelines) in connection with its activities. However, the Fund may obtain cash financing for the purpose of meeting redemption request for Units and for short-term bridging requirement. Such financings are subject to the following:

- the Fund's financing is only on a temporary basis and that financing is not persistent;
- the financing period should not exceed a month;
- the aggregate financing of the Fund should not exceed 10% of the Fund's NAV at the time the financing is incurred; and
- the Fund may only obtain financing from financial institutions.

CLASSES OF THE FUND

The Fund is established with a multi-class structure which has more than one (1) Class. The Unit Holder of each Class has the same rights and liabilities under the Deed. Although the Fund has multiple Classes, the Unit Holders should note that the assets of the Fund are pooled and invested as a single fund and are not segregated in respect of each Class. A separate price will be calculated for each Class and will be denominated in the currency of the respective Classes.

Unit Holders should note that the Manager shall have the sole and absolute right to issue other Classes with different and/or similar features including but not limited to currency denomination, fees, charges and transaction details without the need to obtain the Unit Holders' approval before introducing such other Classes to the Fund provided that the issuance of such other Classes shall not in the opinion of the Manager prejudice the right of the Unit Holders of the existing Class. Unit Holders will be notified of the introduction of such other Classes by way of a supplementary information memorandum or replacement information memorandum.

The Management Company is responsible for investment management, administrative services, marketing services and distribution services. The Management Company has the option of delegating to third parties some or all of its responsibilities. For example, so long as it retains control and supervision, the Management Company can appoint one or more investment managers to handle the day-to-day management of the Target Fund's assets, or one or more advisors to provide investment information, recommendations and research concerning prospective and existing investments.

Investment Manager of the Target Fund

The Investment Manager, Victory Capital Management Inc. is the investment manager of the Target Fund and is regulated by the United States Securities and Exchange Commission.

The Investment Manager is responsible for day-to-day management of the Target Fund.

Upon request of the board of directors of the SICAV, the Investment Manager may provide advice and assistance to the board of directors of the SICAV in setting investment policy and in determining related matters for the SICAV or for the Target Fund. The Investment Manager has the option of delegating to investment sub-investment managers, at its own expense and responsibility and with the approval of the board of directors of the SICAV, the Management Company and the CSSF, any or all of its investment management and advisory duties. For example, so long as it retains control and supervision, the Investment Manager can appoint one or more sub-investment managers to handle the day-to-day management of the Target Fund's assets, or one or more advisors to provide investment information, recommendations and research concerning prospective and existing investments.

Investment Objective of the Target Fund

The Target Fund seeks to increase the value of investments (mainly through income) over the recommended holding period.

Investment Policy and Strategy of the Target Fund

The Target Fund is actively managed. It mainly invests in equities and ELNs relating to companies in the U.S. Specifically, the Target Fund invests in equities and ELNs, with at least 51% of net assets in companies that are headquartered, or do most of their business, in the U.S. These investments may include the following up to the stated percentages of net assets:

- ELNs¹: 50%
- Equity-linked instruments²: 25%

The Target Fund may also invest in the following up to the stated percentage of net assets:

- Real estate investment trusts: 10%
- UCITS/ UCIs: 10%

¹ An equity-linked note (ELN) is a structured investment product that pays a coupon similar to a bond, but whose return is also tied to the performance of an underlying equity investment. An ELN has a cap that limits the upside return of the underlying security to a predetermined amount. The cap, the coupon and the duration of the ELN are negotiated with the issuing bank and determined at the inception of the note.

² A security or instrument that replicates or is based on an equity, including a share warrant, a subscription right, an acquisition or purchase right, an embedded derivative based on equities or equity indexes and whose economic effect leads to be exclusively exposed to equities, a depositary receipt such as an American Depositary Receipts and Global Depositary Receipts, or a P-Note.

The Target Fund may or may not hedge currency risk at the portfolio level, at the discretion of the Target Fund Investment Manager. The Target Fund uses derivatives to reduce various risks (hedging), manage the portfolio more efficiently, and gain exposure (long or short) to various assets, markets or other investment opportunities. The Target Fund does not intend to use securities financing transactions nor total return swaps.

The Target Fund Investment Manager uses market and fundamental analysis to identify equities that appear to provide high current income (top-down and bottom-up approach). The Target Fund Investment Manager is not constrained by the benchmark for the construction of the portfolio and makes its own investment decisions.

Permitted Investments and Investment Restrictions and Limits of the Target Fund

The following describes the types of securities and transactions that are allowable to any UCITS under the 2010 Law. The Target Fund sets limits which are more restrictive in one way or another, based on its investment objective and strategy. The Target Fund will not make use of the investments described in (6) and (9) below except as described in the Investment Strategy and Policy of the Target Fund under Section 4. Target Fund Information. The Target Fund's usage of a security or technique must be consistent with its investment policy and restrictions. Should the Target Fund invests or be marketed in jurisdictions outside the EU, it may be subject to further requirements (not described here) from regulators in those jurisdictions. Except in exceptionally unfavourable market conditions where a temporary breach of the 20% limit is required by the circumstances and justified having regard to the interests of the shareholders of the Target Fund, the Target Fund may hold up to 20% of its net assets in ancillary liquid assets (as defined in (8) below), in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets or for a period of time strictly necessary in case of unfavourable market conditions. The Target Fund does not need to comply with investment limits when exercising subscription rights, so long as any violations are corrected as prescribed under "Permitted securities and transactions" in the Target Fund prospectus.

 - (i) Must meet all requirements in (3) above. The UCITS/ UCI cannot impose any charges for buying, switching or redeeming units.

 - (ii) The acquiring sub-fund surrenders all voting rights in units it acquires. The units do not count as assets of the acquiring sub-fund for purposes of minimum asset thresholds. Adhering to these requirements exempts Amundi Funds from the requirements of the Law of 10 August 1915.

Diversification Requirements of the Target Fund

To ensure diversification, the Target Fund cannot invest more than a certain amount of its assets in one body or one category of securities. For purposes of the tables below, a "body" means an individual company, except for the limits in the "In aggregate" column, which are monitored at the group or consolidated level. These diversification rules do not apply during the first six (6) months of the Target Fund's operation.

Category of securities	Maximum investment/ exposure, as a % of Target Fund's assets

** Not applicable to money market fund sub-fund.

*** For index-tracking sub-funds, increases to 20%, so long as the index is a published, sufficiently diversified index that is adequate as a benchmark for its market and is recognised by the CSSF. This 20% increases to 25% (but for one issuer only) in exceptional circumstances, such as when the security is highly dominant in the regulated market in which it trades.

Limits of the Target Fund to Prevent Significant Influence

These limits, which apply at Amundi Funds level, except in respect of the money market funds sub-funds, are intended to prevent Amundi Funds from the risks that could arise for it and the issuer if Amundi Funds were to own a significant percentage of a given security or issuer.

Categories of securities	Maximum ownership, as a % of the total value of the securities issue	
Securities carrying voting rights	Less than would allow Amundi Funds significant management influence	These limits can be disregarded at purchase if not calculable at that time. There rules do not apply to: - securities described in A. of Diversification Requirements of the Target Fund under Section 4. Target Fund Information - shares of EU funds that represent the only way a sub-fund can invest in the EU fund's home country and that comply with the applicable articles of the 2010 Law.
Non-voting securities of any one issuer	10%	
Debt securities of any one issuer	10%	
Money market securities of any one issuer	10%	
Shares of any one UCITS or UCI	25%	

Swing Pricing of the Target Fund

On Valuation Days when the Management Company believes that trading in the Target Fund's shares will require significant purchases or sales of portfolio investments, the board of directors of the SICAV may adjust the Target Fund's net asset value to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations.

In general, the net asset value will be adjusted upward when there is strong demand to buy the Target Fund shares and downward when there is a strong demand to redeem the Target Fund shares. Any such adjustment is applied to the Target Fund's transactions of a given day, when net demands exceed a certain threshold set by the board of directors of the SICAV.

Those adjustments follow the objective to protect Amundi Funds' long-term shareholders from costs associated with ongoing subscription and redemption activity and are not meant to address specific circumstances of each individual investor. Therefore, orders in the opposite direction of the Target Fund's net transaction activity may be executed at the expense of the other others. For any given Valuation Day, the adjustment will normally not be larger than 2% of net asset value, but the board of directors of the SICAV can raise this limit when necessary to protect the interests of shareholders.

Temporarily Suspend the Calculation of Net Asset Value or Transactions in the Target Fund's shares

Amundi Funds reserves the right to temporarily suspend the calculation of the net asset value or transactions in the Target Fund's shares when any of the following is true:

- the principal stock exchanges or markets associated with a substantial portion of the Target Fund's investments are closed during a time when they normally would be open, or their trading is restricted or suspended.
- the board of directors of the SICAV believes an emergency exists that has made it impractical to reliably value or to trade the Target Fund's assets; this may include political, military, economic, monetary, fiscal, or infrastructure-related events.
- portfolio transactions are being hampered or blocked by restrictions on cash transfers or currency conversions, cannot be completed at normal exchange rates, or are otherwise affected by any settlement issue.
- notice has been given of decision to merge Amundi Funds or the Target Fund or of a shareholder meeting at which it will be decided whether or not to liquidate the Target Fund or Amundi Funds.
- any other circumstance exists that would justify the suspension for the protection of shareholders of the Target Fund.

A suspension could apply to any share class of the Target Fund and Target Fund, or to all, and to any type of request (buy, switch, redeem). Amundi Funds can also refuse to accept requests to buy, switch or redeem shares.

During times of suspension, any unprocessed subscription orders are cancelled, and any unprocessed conversion/ redemption orders are suspended, unless the shareholders of the Target Fund withdraw them.

If a shareholder of the Target Fund's order is delayed in processing because of a suspension, the shareholder of the Target Fund will be notified of the suspension within seven (7) days of the shareholders' request, and of its termination. If a suspension lasts for an unusually long time, all investors will be notified.

Redemption of Shares of the Target Fund

On any Valuation Day, the Target Fund will not be obligated to process redemption requests that, in total, exceed either 10% of its outstanding shares or 10% of its net assets. To meet these limits, the Target Fund can reduce the requests on a pro rata basis. If this occurs, unfulfilled portions will be deferred to the next Valuation Day and given priority over new requests.

On any day when the volume of redemptions to be processed is larger than the redemption capacity for the day, as determined by the rules stated above, all orders scheduled to be processed will be processed as partial redemptions, with the same pro rata percentage for each order. The Target Fund will only limit redemptions when necessary to prevent liquidity constraints that would be detrimental to remaining shareholders.

Note: Investors should note that if the Fund's redemption request is deferred or suspended by the Target Fund, there may be a delay in the payment of proceeds to the Unit Holders and the Manager may also suspend the subscription and/or redemption of Units of the Fund for as long as the Target Fund is suspended. Please refer to Suspension of Sales and Redemption of Units under Section 6. Transaction Information for further details.

OTHER FEES AND CHARGES

Other Charges

In executing transactions upon a Unit Holder's request, certain charges may be incurred. A Unit Holder shall bear these transaction charges, for instance bank charges, telegraphic or online transfer charges and courier charges. The Manager reserves the right to vary such conditions from time to time, which shall be communicated to the Unit Holder in writing.

We may for any reason and at any time, waive or reduce: (a) any fees (except for the trustee fee); and/or (b) other charges payable by you to the Fund, for any Unit Holder and/or investments made via any distribution channels or platform.

REBATES AND SOFT COMMISSIONS

The Manager, the Trustee and the Trustee's delegate should not retain any rebates from, or otherwise share in any commission with any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate and shared commission will be directed to the account of the Fund.

Notwithstanding the aforesaid, the Manager may retain goods and services by way of soft commissions provided by any broker or dealer if the following conditions are met:

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer and the Manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

Soft commissions which are not allowed include, among others, entertainment allowance, travel, accommodation and membership fee.

THERE ARE FEES AND CHARGES INVOLVED AND INVESTORS ARE ADVISED TO CONSIDER THEM BEFORE INVESTING IN THE FUND.

Pricing Policy

➤ Single Pricing Policy

The Manager adopts the single pricing policy, i.e. the selling price and repurchase price are fixed at the initial offer price during the Fund's initial offer period. After the initial offer period, the selling price and repurchase price will be the NAV per Unit rounded to four (4) decimal places.

➤ Forward Pricing

The Fund is valued on a forward pricing basis. The daily NAV per Unit is valued at the next valuation point after the application to purchase or redeem Units is received by the Manager.

➤ Incorrect Valuation and Pricing

The Manager shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is a significant error in the valuation of the Fund and pricing of Units, the Manager shall take remedial action to correct the error. The Manager's remedial action will involve the reimbursement of money in the following manner:

- if there is an over valuation and pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- if there is an over valuation and pricing in relation to the redemption of Units, the Manager shall reimburse the Fund;
- if there is an under valuation and pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
- if there is an under valuation and pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

The reimbursement of money shall be made to Unit Holder if the incorrect valuation and pricing:

- is equal or more than 0.50% of the NAV per Unit; and
- results in a total sum of RM10.00 or more, or in the case of a foreign currency Class, 10.00 denominated in the respective foreign currency denomination of the Class or more, to be reimbursed to a Unit Holder for each sale or withdrawal transaction.

We shall have the right to amend, vary or revise the aforesaid limits from time to time, subject to any regulatory or governing body's requirements.

The redemption proceeds of the Target Fund will be paid to the Fund within five (5) Business Days from the date the Management Company receives the duly completed redemption application from the Manager. As such, you will be paid no later than ten (10) Business Days from the date the redemption request is received by the Manager **via e-payment ONLY according to your bank account details as stated in your myEastspring account or in the master account opening form or redemption form**, or in such other manner as determined by the Manager on a case-to-case basis. If you redeem immediately after the purchase of Units, the Manager shall have the right to withhold the redemption application until sufficient time has elapsed to ensure that the amount remitted by you (for purchase of Units) is realised and credited to the Manager's client trust bank account.

Should the redemption request of the Target Fund be deferred or suspended, the redemption of the Fund may also be deferred or suspended accordingly.

On any Valuation Day, the Target Fund will not be obligated to process redemption requests that, in total, exceed either 10% of its outstanding shares or 10% of its net asset value. To meet these limits, the Target Fund can reduce the requests on a pro rata basis. If this occurs, unfulfilled portions will be deferred to the next Valuation Day and given priority over new requests.

The deferred requests for redemption will continue to be given priority to subsequently received requests and dealt on the next Valuation Day insofar the aforementioned limit is not exceeded. Should this occur, we will pay our Unit Holders the redemption proceeds within five (5) Business Days upon receiving the redemption proceeds from the Target Fund.

Should the redemption request for the Fund be suspended due to the Target Fund being suspended, we will pay our Unit Holders the redemption proceeds within five (5) Business Days upon receiving the redemption proceeds from the Target Fund.

There is no switching fee imposed on switching of Units but Unit Holders have to pay the difference of sales charge if Unit Holders wish to switch to another fund with a higher sales charge. However, no sales charge will be imposed if the fund to be switched to has a lower sales charge than the Fund. Switching between Classes with different currency denomination is not allowed.

There is no limit on the frequency of switching. However, during the initial offer period, the units of other funds are not allowed to switch to Units of the Fund except at the Manager's discretion.

Switching application should be made before the cut-off time of 4.00 p.m. on any Business Day. The Units will be switched at NAV per Unit calculated at the next valuation point (i.e. forward pricing) after the switching application is received by the Manager. SUSPENSION OF SALE AND REDEMPTION OF UNITS

The Manager may, in consultation with the Trustee and having considered the interests of Unit Holders, suspend dealing in Units of the Fund when the Target Fund is suspended as stipulated in Temporarily Suspend the Calculation of Net Asset Value or Transactions in the Target Fund's Shares under Section 4. Target Fund Information. Should the redemption request of the Target Fund be deferred or suspended, the redemption of the Fund may also be deferred or suspended accordingly.

- On any Valuation Day, the Target Fund will not be obligated to process redemption requests that, in total, exceed either 10% of its outstanding shares or 10% of its net asset value. To meet these limits, the Target Fund can reduce the requests on a pro rata basis. If this occurs, unfulfilled portions will be deferred to the next Valuation Day and given priority over new requests.

As such, Unit Holders should take note that the Fund will also defer redemption when the Target Fund defers redemption exceeding either 10% of the Target Fund's outstanding shares or 10% of its net asset value.

- Should the redemption request for the Fund be suspended due to the Target Fund being suspended, we will pay our Unit Holders the redemption proceeds within five (5) Business Days upon receiving the redemption proceeds from the Target Fund.

The Manager will cease the suspension as soon as practicable after the circumstances which result in the suspension have ceased, and in any event within twenty-one (21) days of the commencement of suspension. The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interests of the Unit Holders for the dealing in Units to remain suspended and such extension will be subject to weekly review by the Trustee.

The Manager will inform the Unit Holders in a timely and appropriate manner of the decision to suspend dealing in Units of the Fund.

Please note that the transaction procedures such as investment, redemption, switching and transfer of Units via our distribution channels may differ from that described in this Information Memorandum, and you are advised to check with the relevant Authorised Distributor for details on these procedures.

The Manager reserves the right to change the minimum redemption and minimum holding of Units of the Fund from time to time.

Note 2: If the Units in a Unit Holder's account are less than the minimum holding of Units after a switching application is made, all Units in the Fund will be switched automatically. There is no limit on the frequency of switching. However, the Manager may at its sole discretion disallow switching into any fund which is managed by the Manager from time to time.

Note 3: Both the transferor and transferee should maintain the minimum holding of Units for the Fund after a transfer is made.

The Manager reserves the right to change the minimum amounts and number of Units stipulated above from time to time. Should the Manager decide to increase the minimum amounts and number of Units as stipulated under the transaction details section, the Manager will notify Unit Holders via written notice at least fourteen (14) days prior to the effective date of such change. Investments made via digital platforms may have a lower minimum initial investment, minimum additional investment amount, minimum redemption and/or minimum holding of Units of the Fund, subject to the respective digital platforms' terms and conditions, which may be amended from time to time.

In the event the Units carry more than one (1) Unit Holder's name, i.e. "Joint Application", the redemption/ switching/ transfer application will be signed by all the jointholders. If the application specifies "Either Applicant to sign", any one (1) Unit Holder will have the authority to sign the application. In all cases, redemption proceeds will be paid to the principal account holder or in the names of both account holders in the register of Unit Holders.

In the event a master account has more than one (1) registered owner, the first-named Unit Holder (as determined by reference to the original master account application form) shall receive the confirmation advice, notices and correspondence with respect to the master account, as well as any redemption proceeds or income distribution or other distributions. In addition, such first-named Unit Holder shall have the voting rights, as permitted, associated with such Units.

In the case of jointholders, any one (1) of such jointholders may vote either personally or by proxy as comprised in the jointholding. If the jointholders are present at any meeting either personally or by proxy, the jointholder whose name stands first in the register of Unit Holders shall alone be entitled to vote.

Minimum Redemption (Units)

In the case of a partial redemption, instructions will be carried out only if the minimum holding of Units (being 1,000 Units or such other number of Units as the Manager may determine from time to time) remains in the Fund after the redemption. If the Units in a Unit Holders' account are less than the minimum holding of Units after a redemption application is made, all Units that the Unit Holder holds in the Fund will be redeemed automatically. The Manager reserves the right to change the minimum redemption of Units of the Fund from time to time.

Minimum Switched Out (Units)

There is no limit on the frequency of switching; however, there is a minimum of 1,000 Units to be switched. The Manager may at its sole discretion disallow switching into any fund which is managed by the Manager from time to time.

After a switching application is made, Units in a Unit Holder's account for both the Fund and the fund to be switched into should maintain the minimum holding of Units.

- If the Units in the Unit Holder's account for the Fund are less than the minimum holding of Units after a switching application is made, all Units that the Unit Holder holds in the Fund will be switched out automatically.
- If the Units in the Unit Holders' account for the fund to be switched into are less than the minimum holdings of Units after a switching application is made, the Manager may at its sole discretion disallow switching.

The units of other funds are not allowed to switch to Units of the Fund during initial offer period except at the Manager's discretion.

Minimum Transfer (Units)

Any number of Unit.

Both the transferor and transferee should maintain the minimum holding of Units for the Fund after a transfer is made.

INCOME DISTRIBUTION POLICY

Subject to the availability of income, distribution of income, if any, will be on a monthly basis, or any other period at the discretion of the Manager, after deduction of taxation and expenses.

Distribution of income, if any, may be made from (i) realised income, (ii) realised capital gains and/or (iii) capital.

The rationale for distribution out of capital is to allow the Fund to consistently distribute income to Unit Holders in accordance with the distribution policy and to provide flexibility for the Fund, in a situation where the Fund has unrealised gains or income by virtue of the Fund's performance, to reward the Unit Holders without having to dispose the underlying assets of the Fund whilst further allowing future appreciation to the value of the assets.

It should be noted that the distribution of income is at our discretion and is not guaranteed. The making of any distribution does not imply that further distributions will be made, and we reserve the right to vary the frequency and/or amount of distributions. Distribution out of capital represents a return or a withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained, and the value of future returns would be diminished.

INCOME REINVESTMENT POLICY

Income distribution to a Unit Holder will automatically be reinvested into additional Units in the Fund at the NAV per Unit at the end of the Business Day of the income distribution date at no cost if the Unit Holder did not elect the mode of distribution in the master account opening form or provide any written instruction to the Manager.

Any fees or charges imposed by the bank will be borne by the Unit Holder.

The Manager reserves the right to reinvest income distribution without providing any reason if the instruction in the master account opening form or written instruction is incomplete. **In the absence of a valid and active registered bank account, the distribution (if any) will be reinvested.**

Distribution payment which is less than or equal to the amount of \$300 in the currency of the respective Classes or such other amount which will be determined by the Manager will be reinvested into additional Units in the Fund at the NAV per Unit at the end of the Business Day of the income distribution date at no cost.

Please note that the income reinvestment policy adopted by our distribution channels may differ from that described in this Information Memorandum, and you are advised to check with the relevant Authorised Distributors for details on these procedures.

AUTO REINVESTMENT POLICY

Any moneys payable to a Unit Holder as a result of income distribution which remains unclaimed after six (6) months from the date of payment shall automatically be reinvested into additional Units of the Fund at the NAV per Unit on the closing of the fifteenth (15th) day after the said six (6) months period at no cost. In the event the fifteenth (15th) day falls on a non-Business Day, reinvestment will be made on the following Business Day. The Manager reserves the right to change the income distribution instruction to "Reinvestment" if the Unit Holder did not claim the income distribution payment for the last three (3) consecutive distributions. There will be no cost imposed on such distribution reinvestments.

UNCLAIMED MONEYS POLICY

Any unclaimed moneys will be filed with and paid to the Registrar of Unclaimed Moneys after the lapse of two (2) years from the date of payment in accordance with the requirements of the *Unclaimed Moneys Act 1965*. Unit Holders will have to liaise directly with the Registrar of Unclaimed Moneys to claim their moneys.

POLICY ON ANTI-MONEY LAUNDERING, ANTI-TERRORISM FINANCING, ANTI-RESTRICTED ACTIVITY FINANCING AND PROCEEDS OF UNLAWFUL ACTIVITIES ACT 2001

The Manager has an anti-money laundering, anti-terrorism financing and anti-restricted activity financing policy in place where Unit Holder's due diligence will be performed by the Manager and its Authorised Distributors on all Unit Holders without exception. Application for Units must be accompanied by proper identification documents for the Manager's verification. All Unit Holders will be checked against various reliable sources on money laundering, terrorism financing, anti-restricted activity financing and proceeds of unlawful activities information. Enhanced due diligence process will be conducted on high-risk Unit Holders which would require the Manager's senior management's review and approval, where applicable. Suspicious transactions, if any, will be reported to the Manager's internal money laundering prevention officer for further review and onward reporting to the Financial Intelligence and Enforcement Department of BNM and the SC.

In compliance with the applicable anti-money laundering, anti-terrorism financing, anti-restricted activity financing and proceeds of unlawful activities laws and the guidelines, the Manager, together with its Authorised Distributors reserve the right to request all relevant information pertaining to the Unit Holders' information as may, in the Manager's opinion or its Authorised Distributors' opinion, be necessary to verify the identity of the Unit Holders.

Notwithstanding the above, if such disclosure becomes mandatory under the relevant laws in Malaysia, the Manager shall be entitled to make such disclosure to the Authority without the prior consent of, or any notification to, a Unit Holder.

Updating of information by Unit Holder

A Unit Holder shall provide his or her assistance as may be necessary (including, where required, providing the Manager with further information and documents relating to the Unit Holder, associated persons or affiliates and where the Unit Holder is a corporation or any other type of entity, further information and documents relating to its management, and legal and beneficial owners) to enable the Manager to comply with its obligations under the Applicable Requirements.

The Unit Holder will update the Manager in a timely manner of any change to any of the details previously provided to the Manager whether at the time of subscription or at any other times. In particular, it is very important that the Unit Holder notifies the Manager immediately if:

- (a) the Unit Holder is an individual, and there is a change in his or her nationality, he or she acquires additional nationality or citizenship, or changes in his or her tax residency; or
- (b) the Unit Holder is a corporation or any other type of entity, and there is a change in its registered office, business address, substantial shareholders or their details, legal and beneficial owners or controllers or their details.

If any of these changes occurs or if any other information comes to the Manager’s attention concerning such changes, the Manager may be required to request certain documents or information from the Unit Holder. Such information and documents include but are not limited to duly completed and/or executed (and, if necessary, notarised) tax declarations or forms.

Effect of non-compliance by Unit Holder

If:

- (a) a Unit Holder does not provide the Manager with the information or documents or any other assistance requested by the Manager in a timely manner;
- (b) a Unit Holder does not update the Manager in a timely manner of any change to any of the details previously provided to the Manager whether at the time of subscription or at any other times; or
- (c) any information or document provided by a Unit Holder is not up-to-date, accurate or complete such that the Manager is unable to comply with or adhere to the Applicable Requirements,

the Manager may continue to request for such information or document from the Unit Holder by letter, email, telephone or any other manner which the Manager may deem appropriate, or repurchase all the Units held by the Unit Holder by providing prior written notice to the Unit Holder of such repurchase if such repurchase is necessary, to ensure that the Manager is in compliance with the Applicable Requirements.
