<sup>^</sup> There were no significant changes to the PTR during the period under review.

## KEY PERFORMANCE DATA (CONTINUED)

	1 year 1.6.2019 to 31.5.2020	3 years 1.6.2017 to 31.5.2020	Since commencement 12.5.2017 to 31.5.2020
	(%)	(%)	(%)
Average total return	2.78	4.32	4.29

Year ended	1.6.2019 to 31.5.2020	1.6.2018 to 31.5.2019	Since commencement 12.5.2017 to 31.5.2018
	(%)	(%)	(%)
Annual total return	2.78	8.06	2.37

**Source:** The above total return of the Fund was sourced from Lipper for Investment Management.

### Bases of calculation and assumptions made in calculating returns:

$$\text{Percentage growth} = \frac{\text{NAV}_t - 1}{\text{NAV}_0}$$

$\text{NAV}_t$  = NAV at the end of the period

$\text{NAV}_0$  = NAV at the beginning of the period

$$\text{Performance annualised} = (1 + \text{Percentage Growth})^{1/n} - 1$$

Adjusted for unit split and distribution paid out for the period

n = Number of years

**Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.**

## MANAGER'S REPORT

### Fund Performance

Since inception, the Fund registered a return of 13.69%, outperforming the benchmark return of 10.79% by 2.90%.

For the period under review, the Fund registered a positive return of 2.78%, underperforming the benchmark return of 3.16% by 0.38%.

Over the review period, Asian and Emerging-Market (EM) USD credit spreads widened as risk sentiment was hurt first by unresolved China-US trade tensions and subsequently by the outbreak of COVID-19. In this environment, US risk-free rates fell sharply. The Fund's holdings in USD-denominated Indonesian commodity-related and real estate credits weighed on performance. However, this was mitigated by positive contributions from the Fund's USD-denominated Chinese corporate bond holdings, as well as SGD-denominated corporate bond holdings. At the sector level, financial holdings from Asia and Turkey also added value.

The fund achieved its objective to provide regular income during the tenure of the Fund.

**The performance is calculated on NAV-to-NAV basis with gross income or dividend reinvested.**

**Benchmark:** 5-year Maybank fixed deposit rate as at Commencement Date.

**Fund performance is sourced from Lipper for Investment Management, 31 May 2020 and the benchmark is obtainable from Eastspring Investments Berhad upon request.**

**Past performance of the Fund is not necessarily indicative of its future performance.**

## MANAGER'S REPORT (CONTINUED)

### Analysis of Fund Performance

For the financial year ended 31 May 2020:

Income Return	Capital Return*	Total Return	Total Return of Benchmark
(%)	(%)	(%)	(%)
4.84	(1.97)	2.78	3.16

\* Capital return components (NAV per unit to NAV per unit).

### Distribution/ Unit Split

Ex-Date	26-Dec-19
Distribution Per Unit	(RM)
Gross	0.0515
Net	0.0515

Impact on NAV arising from distribution for the financial year ended 31 May 2020.

Ex-Date	26-Dec-19
Distribution Per Unit	(RM per unit)
Net Asset Value before distribution	1.1149
Less: distribution	<u>(0.0515)</u>
Net Asset Value after distribution	<u>1.0634</u>

No unit split were declared for the financial year ended 31 May 2020.

## MANAGER'S REPORT (CONTINUED)

---

### **Investment Strategy During the Period Under Review**

As this is a close-ended bond fund, the Fund will be managed primarily with a semi-active management strategy. The Fund's bond investments will be typically held to maturity. At the maturity of these debt securities, issuers of the debt securities held by the Fund will be obligated to pay the face value provided there is no occurrence of credit default by the issuer.

Nevertheless, the Fund Manager continues to monitor the Fund's investments and may trade and rebalance its investments under the following scenarios:

- Increased default risk and/or from uptrend interest rate concerns;
- Hedging transactions in the event that the sale of the security at risk is not possible; and
- Reinvesting proceeds from maturing securities

## MANAGER'S REPORT (CONTINUED)

## Asset Allocation

Asset Allocation	31-May 2020 (%)	31-May 2019 (%)	Changes (%)
Unquoted fixed income securities	87.79	91.77	(3.98)
Derivatives	1.69	6.04	(4.35)
Cash and other assets	10.52	2.19	8.33

## Asset Allocation as at 31 May 2020

There were no significant changes in asset allocation of the Fund for the period under review.

## State of Affairs of the Fund

There have been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the period under review.

## Cross-Trade Transaction

During the period under review, there were cross-trades executed through a dealer or a financial institution on an arm's length and fair value basis and in the best interest of the Fund. There were no cross-trades executed for the period from June 2019 to March 2020. The trades for the period from April to May 2020 will be tabled for review at the upcoming investment committee meeting.

## MARKET REVIEW

Global markets sustained bouts of heightened volatility over the year under review. Fraught China-US trade talks buffeted risk sentiment initially. After rounds of retaliatory tariffs, investors finally cheered the announcement of a Phase One trade deal in December. However, the improvement in risk sentiment proved short-lived as the COVID-19 outbreak dented confidence in the latter half of the review period. As the number of infections and deaths climbed globally, equity markets witnessed record declines in March. US Treasury yields also fell to all-time lows as liquidity dried up even for safe haven assets. After the massive selloff, risk assets rebounded towards the period-end. During the year, global monetary policy remained accommodative as central banks acted to revive growth, stalled first by deteriorating China-US tensions and later by the worsening pandemic. Government everywhere pledged billions in fiscal stimulus.

Against this backdrop, Asian and EM USD credit markets delivered positive returns on the back of sharply lower US risk-free rates, which made up for wider credit spreads. In Asia, the representative JPMorgan Asia Credit index rose by 4.89%. Asian investment grade bonds, notably investment grade sovereigns, outperformed high yield bonds as investors sought quality in the risk-averse environment. Conversely, Asian high yield bonds underperformed amid heightened default fears. The main drag came high yield sovereigns. High yield corporates also lagged on the back of the sharp retreat in metals-and-mining credits amid concerns over weaker demand.

Outside of Asia, EM sovereign markets, as represented by the JPMorgan EMBIG Diversified index, rose by a more modest 0.38%. In Latin America, sentiment was weighed down by lingering concerns about some countries' inability to make bond payments, with Venezuela and Ecuador the biggest laggards. In the Middle East, Lebanon was dampened by worsening economic conditions, while the fall in oil prices weighed on a number of African credit markets.

## REBATES AND SOFT COMMISSIONS

During the period under review, the Manager and its delegates (if any) did not receive any soft commissions from stockbrokers.

# EASTSPRING INVESTMENTS TARGET INCOME FUND 6

FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 MAY 2020

## STATEMENT BY THE MANAGER

We, Tang Chee Kin and Iskander Bin Ismail Mohamed Ali, being two of the Directors of Eastspring Investments Berhad, do hereby state that, in the opinion of the Manager, the accompanying financial statements set out on pages 18 to 63 are drawn up in accordance with the provisions of the Deed and give a true and fair view of the financial position of the Fund as at 31 May 2020 and of its financial performance, changes in equity and cash flows for the financial year ended on that date in accordance with the Malaysian Financial Reporting Standards and International Financial Reporting Standards.

For and on behalf of the Manager,

**EASTSPRING INVESTMENTS BERHAD**

**TANG CHEE KIN**

Executive Director/Chief Executive Officer

**ISKANDER BIN ISMAIL MOHAMED ALI**

Independent, Non-Executive Director

Date: 10 July 2020

## TRUSTEE'S REPORT TO THE UNIT HOLDERS OF EASTSPRING INVESTMENTS TARGET INCOME FUND 6

We have acted as Trustee for Eastspring Investments Target Income Fund 6 (the "Fund") for financial year ended 31 May 2020. To the best of our knowledge, for the financial year under review, Eastspring Investments Berhad (the "Manager") has operated and managed the Fund in accordance with the following:

- a. limitations imposed on the investment powers of the Manager under the Deed(s), the Securities Commission's Guidelines on Unit Trust Funds, the Capital Markets and Services Act 2007 and other applicable laws;
- b. valuation and pricing for the Fund is carried out in accordance with the Deed(s) of the Fund and any regulatory requirements; and
- c. creation and cancellation of units for the Fund are carried out in accordance with the Deed(s) of the Fund and any regulatory requirements.

We are of the view that the distribution made during the financial year ended 31 May 2020 by the Manager is not inconsistent with the objectives of the Fund.

# INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF EASTSPRING INVESTMENTS TARGET INCOME FUND 6

## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Our opinion

In our opinion, the financial statements of Eastspring Investments Target Income Fund 6 ("the Fund") give a true and fair view of the financial position of the Fund as at 31 May 2020, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

### What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 May 2020, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 18 to 63.

### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determine is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intend to liquidate the Fund or have no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved

standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- d. Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- e. Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **OTHER MATTERS**

This report is made solely to the unit holder of the Fund and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying summary of significant accounting policies and notes to the financial statements form an integral part of these financial statements.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MAY 2020

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

### A. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared under the historical cost convention, as modified by financial assets and financial liabilities (including derivatives instruments) at fair value through profit or loss, except as disclosed in this summary of significant accounting policies, and in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The preparation of financial statements in conformity with the MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note K.

- a. Standards, amendments to published standards and interpretations that are effective:

The Fund has applied the following amendments for the first time for the financial year beginning on 1 June 2019:

- Amendments to MFRS 112 ‘Income Taxes’ (effective from 1 January 2019) clarify that where income tax consequences of dividends on financial instruments classified as equity is recognised (either in profit or loss, other comprehensive income or equity) depends on where the past transactions that generated distributable profits were recognised.

Accordingly, the tax consequences are recognised in profit or loss when an entity determines payments on such instruments are distribution of profits (that is, dividends). Tax on dividend should not be recognised in equity merely on the basis that it is related to a distribution to owners.

This standard is not expected to have a significant impact on the Fund’s financial statements.

b. Standards, amendments that have been issued but not yet effective:

Amendments to the definition of material (Amendments to MFRS 101 and MFRS 108) effective 1 January 2020.

The amendments clarify the definition of materiality and use a consistent definition throughout MFRSs and the Conceptual Framework for Financial Reporting.

The definition of 'material' has been revised as "Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The amendments also:

- clarify that an entity assess materiality in the context of the financial statements as a whole.
- explain the concept of obscuring information in the new definition. Information is obscured if it have the effect similar as omitting or misstating of that information. For example, material transaction is scattered throughout the financial statements, dissimilar items are inappropriately aggregated, or material information is hidden by immaterial information.
- clarify the meaning of 'primary users of general purpose financial statements' to whom those financial statements are directed, by defining them as 'existing and potential investors, lenders and other creditors' that must rely on general purpose financial statements for much of the financial information they need.

The amendments shall be applied prospectively.

## **B. INCOME RECOGNITION**

Interest income from short term deposits is recognised on the accrual basis using the effective interest method.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Interest income from unquoted fixed income securities including amortisation of premium and accretion of discount are recognised using the effective interest method.

Realised gain or loss on disposal of unquoted fixed income securities is accounted for as the difference between the net disposal proceeds and the carrying amount of the investments, determined on cost adjusted basis for accretion of discount or amortisation of premium.

Exit fee income is a redemption fee charged to unit holders on cancellation of units before the maturity date and is recognised upon cancellation of units.

## **C. TAXATION**

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial year.

Tax on interest income from foreign unquoted fixed income securities is based on the tax regime of the respective countries that the Fund invests in.

## **D. FUNCTIONAL AND PRESENTATION CURRENCY**

Items included in the financial statements of the Fund are measured using the currency as the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

## **E. FOREIGN CURRENCY TRANSLATION**

Foreign currency transactions in the Fund are translated into the functional currency using the exchange rates prevailing at the transaction dates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

## **F. FINANCIAL ASSETS AND FINANCIAL LIABILITIES**

### **i. Classification**

The Fund classify its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and
- those to be measured at amortised cost

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund's classifies amount due to Manager, accrued management fee, amount due to Trustee and other payables and accruals as financial liabilities measured at amortised cost.

ii. Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial assets are derecognised when it is the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are recognised in statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial liabilities are derecognised when the obligation under the liabilities are extinguished. Gains and losses are recognised in the statement of comprehensive income when the liabilities are derecognised, and through the amortisation process.

Unrealised gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' including the effects of currency translation, are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit or loss' in the financial year in which they arise. Any unrealised gains however are not distributable.

Foreign exchange gains and losses on the derivative financial instrument are recognised in statement of comprehensive income when settled or at date of the statement of financial position at which time they are included in the measurement of the derivative financial instrument.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest rate method over the period from the date of placement to the date of maturity of the respective deposits.

Unquoted fixed income securities are carried at cost and adjusted for any amortisation of premium or accretion of discount from acquisition date to maturity date. The carrying cost is revalued to reflect its fair value on a daily basis using the net present value method based on fair value prices quoted by a bond pricing agency ('BPA') registered with the Securities Commission as per the Securities Commission's Guidelines on Unit Trust Funds. Where such quotations are not

available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted fixed income securities differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

- (i) records its basis for using a non-BPA price;
- (ii) obtains necessary internal approvals to use the non-BPA price; and
- (iii) keeps an audit trail of all decisions and basis for adopting the market yield.

Unquoted fixed income securities denominated in foreign currencies are revalued on a daily basis by reference to the price obtained from at least three financial institutions. However, if such quotations are not available or should the gaps of the quotations provided by the financial institutions differ by more than 20 basis points, the valuation shall be determined by reference to the value of such debt securities quoted by Reuters.

Financial assets and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

### iii. Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 months expected credit losses as any such impairment would be wholly insignificant to the Fund.

#### Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

#### Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

### Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

## **G. CASH AND CASH EQUIVALENTS**

For the purpose of the statement of cash flows, cash and cash equivalents comprise bank balances and deposit with a licensed financial institution that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## **H. UNIT HOLDERS' CAPITAL**

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net assets value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value ("NAV") per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

## **I. DERIVATIVE FINANCIAL INSTRUMENTS**

A derivative financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

The Fund's derivative financial instruments comprise forward foreign currency contracts. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value.

The fair value of forward foreign exchange contracts is determined using forward exchange rates at the date of statements of financial position, with the resulting value discounted back to present value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and the nature of the item being hedged. Derivatives that do not qualify for hedge accounting are classified as held-for-trading and accounted for in accordance with the accounting policy set out in Note F to the financial statements.

## **J. DISTRIBUTION**

A distribution to the Fund's unit holders is accounted for a deduction from realised reserves. A proposed distribution is recognised as a liability in the year in which it is approved by the Trustee.

## **K. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES**

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

### **a. Estimate of fair value of unquoted fixed income securities**

The Fund uses significant judgement in determining whether an investment is impaired. The Fund evaluates, among other factors, the duration and extent to which the fair value of the investment is less than cost, and the financial health and near-term business outlook for the investee, including factors such as industry and sector performance, macroeconomic factors and speculation.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with Securities Commission Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that in applying the accounting policies, no significant judgment was required.

Unquoted fixed income securities are valued using fair value prices quoted by a bond pricing agency ("BPA"). Where the Manager is of the view that the price quoted by BPA for a specific bond differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

Unquoted fixed income securities denominated in foreign currencies are revalued on a daily basis by reference to the price obtained from at least three financial institutions. However, if such quotations are not available or should the gaps of the quotations provided by the financial institutions differ by more than 20 basis points, the valuation shall be determined by reference to the value of such debt securities quoted by Reuters.

# NOTES TO THE FINANCIAL STATEMENTS

## FOR THE FINANCIAL YEAR ENDED 31 MAY 2020

### 1. INFORMATION ON THE FUND

Eastspring Investments Target Income Fund 6 (the "Fund") was constituted pursuant to the execution of a Deed dated 30 May 2016 (the "Deed") entered into between Eastspring Investments Berhad (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee").

The Fund was launched on 28 March 2017 and will continue its operations until terminated by the Trustee or the Manager as provided under Part 12 of the Deed.

The Fund seeks to achieve its objective by investing in local and/or foreign debt securities. The Fund will invest a minimum of 70% of its NAV in local and/or foreign debt securities. Not more than 40% of the Fund's NAV may be invested either in non-rated debt securities and/or debt securities rated below investment grade rating by RAM, MARC, Standard & Poor's, Moody's, Fitch or other rating agencies (i.e. lower than BBB3 rating by RAM or below investment grade rating by other rating agencies) while the remainder will be invested in investment grade bonds. Additionally, up to 30% of the Fund's NAV may be invested in liquid assets. All investments will be subjected to the Securities Commission's (the "SC") Guidelines on Unit Trust Funds, the Deed and the objective of the Fund.

The main objective of the Fund is to provide regular income during the tenure of the Fund.

The Manager is a company incorporated in Malaysia and is related to Prudential Plc., a public listed company in the United Kingdom. The principal activity of the Manager is the establishment and management of unit trust funds and asset management.

## 2. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to market risk (inclusive of price risk, interest rate risk and foreign exchange/currency risk), country risk, fund management risk, liquidity risk, non-compliance risk, capital risk and credit/default risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deed.

Financial instruments of the Fund are as follows:

	Note	Financial assets at amortised cost	Financial assets at fair value through profit or loss	Total
		RM	RM	RM
<u>2020</u>				
Cash and cash equivalents	8	11,299,375	-	11,299,375
Tax recoverable		34,742	-	34,742
Unquoted fixed income securities	6	-	93,831,143	93,831,143
Forward foreign currency contracts at fair value through profit or loss	9	-	1,807,744	1,807,744
		<u>11,334,117</u>	<u>95,638,887</u>	<u>106,973,004</u>
<u>2019</u>				
Cash and cash equivalents	8	2,578,067	-	2,578,067
Tax recoverable		12,376	-	12,376
Other receivable		3,055	-	3,055
Unquoted fixed income securities	6	-	101,850,230	101,850,230
Forward foreign currency contracts at fair value through profit or loss	9	-	6,698,685	6,698,685
		<u>2,593,498</u>	<u>108,548,915</u>	<u>111,142,413</u>

All liabilities except forward foreign currency contracts are financial liabilities which are carried at amortised cost.

## Market risk

### i. Price risk

This risk refers to changes and developments in regulations, politics and the economy of the country. The very nature of a Unit Trust Fund, however, helps mitigate this risk because a Fund would generally hold a well-diversified portfolio of securities from different market sectors so that the collapse of any one security or any one market sector would not impact too greatly on the value of the Fund.

The table below shows assets of the Fund as at 31 May which are exposed to price risk:

	2020	2019
	RM	RM
Unquoted fixed income securities designated at fair value through profit or loss*	93,831,143	101,850,230

\* Includes interest receivable of RM1,257,858 (2019: RM1,228,522).

#### Derivatives

Forward foreign currency contracts		
Financial asset at fair value through profit or loss	1,807,744	6,698,685

The following table summarises the sensitivity of the Fund's NAV and profit after tax to movements in prices of unquoted fixed income securities and derivatives at the end of the reporting financial year. The analysis is based on the assumptions that the market price of the unquoted fixed income securities and derivatives increased by 5% and decreased by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the unquoted fixed income securities and derivatives, having regard to the historical volatility of the prices.

% Change in price	2020		2019	
	Market value	Increase/ (decrease) in profit after tax and NAV	Market value	Increase/ (decrease) in profit after tax and NAV
	RM	RM	RM	RM
+5%	99,100,080	4,719,051	112,686,413	5,366,020
-5%	89,661,978	(4,719,051)	101,954,373	(5,366,020)

ii. Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

In general, when interest rates rise, unquoted fixed income securities prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund holds an unquoted fixed income securities till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

Investors should note that the movement in prices of unquoted fixed income securities and money market instruments are subject to interest rate fluctuations.

Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of interest income and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The Fund's investments in deposit with a licensed financial institution are short term in nature. Therefore, exposure to interest rate fluctuations is minimal.

The table below summarises the sensitivity of the Fund's profit after tax and NAV to movements in prices of unquoted fixed income securities and money market instruments held by the Fund at the end of the reporting financial year as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate changed by 1% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

	2020	2019
% Change in interest rate of unquoted fixed income securities	Impact on profit after tax/change in NAV	Impact on profit after tax/change in NAV
	RM	RM
+1%	(179,660)	(220,419)
-1%	180,423	221,287

### iii. Foreign exchange/Currency risk

As the Fund may invest its assets in unquoted fixed income securities denominated in a wide range of currencies other than Ringgit Malaysia, the NAV of the Fund expressed in Ringgit Malaysia may be affected favourably or unfavourably by exchange control regulations or changes in the exchange rates between Ringgit Malaysia and such other currencies. The risk is minimised through investing in a wide range of foreign currencies denominated assets and thus, diversifying the risk of single currency exposure.

In the normal course of investment, the Manager will usually not hedge foreign currency exposure. The Manager may however depending on prevailing market circumstances at particular point in time, choose to use forward or swap contracts for hedging and risk reduction purposes.

The following table sets out the foreign exchange/currency risk concentrations and counterparties of the Fund.

	<b>Financial assets at fair value through profit or loss</b>	<b>Cash and cash equivalents</b>	<b>Forward foreign currency contracts</b>	<b>Total</b>
	<b>RM</b>	<b>RM</b>	<b>RM</b>	<b>RM</b>
<u>2020</u>				
SGD	20,767,221	2,441,816	1,594,411	24,803,448
USD	73,063,922	800,023	213,333	74,077,278
	<u>93,831,143</u>	<u>3,241,839</u>	<u>1,807,744</u>	<u>98,880,726</u>
<u>2019</u>				
SGD	21,263,502	201,787	1,544,107	23,009,396
USD	80,586,728	2,088,348	5,154,578	87,829,654
	<u>101,850,230</u>	<u>2,290,135</u>	<u>6,698,685</u>	<u>110,839,050</u>

The table below summarises the sensitivity of the Fund's financial assets to changes in foreign exchange movements at the end of the reporting financial year. The analysis is based on the assumption that the foreign exchange rate changes by 5% with all variables remain constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate having regard to historical volatility of this rate.

Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	<b>Change in foreign exchange rate</b>	<b>Impact on profit after tax</b>	<b>Impact on NAV</b>
	<b>%</b>	<b>RM</b>	<b>RM</b>
<u>2020</u>			
SGD	5	1,240,172	1,240,172
USD	5	3,703,864	3,703,864
<u>2019</u>			
SGD	5	1,150,470	1,150,470
USD	5	4,391,483	4,391,483

## Country risk

A Unit Trust Fund (UTF) that invests in foreign countries may experience more rapid and extreme changes in value than a unit trust fund that invests exclusively in Malaysia. Nationalisation, expropriation or confiscatory, taxation, currency blockage, political changes or diplomatic developments could adversely affect a unit trust fund's investments in a foreign country. In the event of nationalisation, expropriation or other confiscation, a unit trust fund could lose its entire investment in foreign countries. Adverse conditions in a certain region can adversely affect securities of other countries whose economies appear to be unrelated. Careful consideration shall be given to risk factors such as liquidity, political and economic environment before any investments are made in a foreign country.

### **Fund management risk**

There is the risk that the Manager may not adhere to the investment mandate of the respective Fund. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the interests of unit holders.

### **Liquidity risk**

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the Fund Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise bank balances, deposit with a licensed financial institution and other instruments which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month	Between 1 month to 1 year	More than 1 year	Total
	RM	RM	RM	RM
<u>2020</u>				
Forward foreign currency contracts at fair value through profit or loss	-	283,965	14,377	298,342
Amount due to Manager	20,722	-	-	20,722
Accrued management fee	17,856	-	-	17,856
Amount due to Trustee	5,357	-	-	5,357
Other payables and accruals	-	30,121	-	30,121
Contractual cash outflows	<u>43,935</u>	<u>314,086</u>	<u>14,377</u>	<u>372,398</u>

### 2019

Forward foreign currency contracts at fair value through profit or loss	-	138,540	-	138,540
Amount due to Manager	101,832	-	-	101,832
Accrued management fee	18,871	-	-	18,871
Amount due to Trustee	5,661	-	-	5,661
Other payables and accruals	-	30,382	-	30,382
Contractual cash outflows	<u>126,364</u>	<u>168,922</u>	<u>-</u>	<u>295,286</u>

### **Non-compliance risk**

Non-compliance risk arises when the Manager and others associated with the Fund do not comply to the rules set out in the Fund's constitution or the law that governs the Fund or applicable internal control procedures, or act fraudulently or dishonestly.

The non-compliance may expose the Fund to higher risks which may result in a fall in the value of the Fund which in turn may affect its investment goals. However, the risk can be mitigated by the internal controls and compliance monitoring undertaken by the Manager.

## **Capital risk**

The capital of the Fund is represented by equity consisting of unit holders' capital of RM103,622,799 (2019: RM105,568,480) and retained earnings of RM3,276,149 (2019: RM5,417,187). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

## **Credit/Default risk**

Credit risk refers to the ability of an issuer or a counter party to make timely payments of interest, principals and proceeds from realisation of investments. In the case of the Fund, both the Manager and the External Fund Manager regularly review the ratings assigned to the Issuer so that the necessary steps can be taken if the ratings fall below those prescribed by the SC.

The credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The Fund seeks to mitigate credit/default risk by investing in high quality fixed income securities and entering into forward foreign currency contracts with reputable counterparties.

The following table sets out the credit risk concentrations and counterparties of the Fund.

	Cash and cash equivalents	Financial assets at fair value through profit or loss	Total

None of these assets are past due or impaired.

## **Fair value estimation**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active market (such as traded derivatives) are based on quoted market prices at the close of trading on the year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Fund Manager will determine the point within the bid-ask spread that is representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

## Fair value hierarchy

- i. The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:
- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
  - Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	Level 1	Level 2	Level 3	Total
	RM	RM	RM	RM
<u>2020</u>				
Financial assets at fair value through profit or loss:				
Unquoted fixed income securities	-	93,831,143	-	93,831,143
Forward foreign currency contracts	-	2,106,086	-	2,106,086
Financial liabilities at fair value through profit or loss:				
Forward foreign currency contracts	-	298,342	-	298,342
<u>2019</u>				
Financial assets at fair value through profit or loss:				
Unquoted fixed income securities	-	101,850,230	-	101,850,230
Forward foreign currency contracts	-	6,837,225	-	6,837,225
Financial liabilities at fair value through profit or loss:				
Forward foreign currency contracts	-	138,540	-	138,540

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted fixed income securities and derivatives. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note F to the financial statements.

- ii. The carrying value of cash and cash equivalents and all liabilities are a reasonable approximation of their fair values due to their short term nature.

### **3. MANAGEMENT FEE**

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 0.20% per annum of the net asset value of the Fund accrued and calculated on a daily basis.

For the financial year ended 31 May 2020, the Management fee is recognised at a rate of 0.20% (2019 :0.20%) per annum on the net asset value of the Fund, excluding foreign custodian charges, calculated on daily basis.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

### **4. TRUSTEE FEE**

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.06% per annum of the net asset value of the Fund, subject to a minimum fee of RM15,000 per annum (excluding foreign custodian fees and charges).

For the financial year ended 31 May 2020, the Trustee fee is recognised at a rate of 0.06% (2019: 0.06%) per annum on the net asset value of the Fund, excluding foreign custodian charges, calculated on daily basis.

There will be no further liability to the Trustee in respect of the trustee fee other than the amounts recognised above.

## 5. TAXATION

	2020	2019
	RM	RM
Tax charged for the financial year:		
Current taxation	7,102	11,624
Overprovision in prior year	(5,468)	(5,720)
Total income tax expense	<u>1,634</u>	<u>5,904</u>

The numerical reconciliation between profit before taxation multiplied by the Malaysian statutory tax rate and tax expense of the Fund is as follows:

	2020	2019
	RM	RM
Profit before taxation	<u>3,292,825</u>	<u>8,322,937</u>
Tax at Malaysian statutory rate of 24% (2019: 24%)	790,278	1,997,505
Tax effects of:		
Investment income exempt from tax	(864,802)	(2,068,954)
Expenses not deductible for tax purposes	31,101	28,292
Restriction on tax deductible expenses for Unit Trust Funds	50,525	54,781
Overprovision in prior year	(5,468)	(5,720)
Taxation	<u>1,634</u>	<u>5,904</u>

**6. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS**

	2020	2019
	RM	RM
Designated at fair value through profit or loss:		
Unquoted fixed income securities	93,831,143	101,850,230
Net gain on financial assets at fair value through profit or loss:		
Realised gain on disposals	153,223	1,044,756
Change in unrealised fair value gain	149,505	5,553,125
	<u>302,728</u>	<u>6,597,881</u>

The effective weighted average rate of return of unquoted fixed income securities per annum as at the date of the statement of financial position is as follows:

	2020	2019
	%	%
Unquoted fixed income securities	<u>8.28</u>	<u>6.60</u>

## 7. DISTRIBUTION

	2020	2019
	RM	RM
Distribution to unit holders are from the following sources:		
Prior period's realised income	4,431,862	2,554,062
Current financial years' realised income	1,339,136	3,442,591
Gross realised income	5,770,998	5,996,653
Less: Expenses	(338,769)	(515,025)
	<u>5,432,229</u>	<u>5,481,628</u>
Gross distribution per unit (sen)	<u>0.0515</u>	<u>0.0515</u>
Net distribution per unit (sen)	<u>0.0515</u>	<u>0.0515</u>
Ex-date	24 August 2018 and <u>26 December 2019</u>	11 January 2019 <u>11 January 2019</u>

Gross distribution per unit is derived from gross realised income less expenses divided by the number of units in circulation, while net distribution per unit is derived from gross realised income less expenses and taxation divided by the number of units in circulation.

Distribution equalisation represents the average amount of distributable income included in the creation and cancellation prices of units. It is computed as at each date of creation and cancellation of units. For the purposes of determining amount available for distribution, income equalisation is included in the computation of realised gain or income available for distribution.

Included in the distribution for the financial year is an amount of RM4,431,862 (2019: RM2,554,062) made from previous financial year's realised income.

**8. CASH AND CASH EQUIVALENTS**

Bank balances with a licensed bank	11,299,375	2,578,067

The currency exposure profile of cash and cash equivalents is as follows:

	<b>2020</b>	<b>2019</b>
	<b>RM</b>	<b>RM</b>
- MYR	8,057,536	287,932
- SGD	2,441,816	201,787
- USD	800,023	2,088,348
	<u>11,299,375</u>	<u>2,578,067</u>

**9. FORWARD FOREIGN CURRENCY CONTRACTS**

As at the date of statement of financial position, there are 16 (2019:17) forward foreign currency contracts outstanding. The notional principal amount of the outstanding forward foreign currency contracts amounted to RM94,693,200 (receivable) and RM29,242,690 (payable) (2019: RM124,844,345 (receivable) and RM6,153,075 (payable)). The forward foreign currency contracts entered into during the financial year were for hedging against the currency exposure arising from the investment in the foreign unquoted fixed income securities denominated in SGD and USD. As the Fund has not adopted hedge accounting during the financial year, the change in the fair value of the forward foreign currency contract is recognised immediately in the statement of comprehensive income.

## 10. UNITS IN CIRCULATION

	2020	2019
	No. of units	No. of units
At the beginning of the financial year	105,640,394	107,278,441
Cancellation of units during the financial year	(1,870,593)	(1,638,047)
At the end of the financial year	<u>103,769,801</u>	<u>105,640,394</u>

## 11. TRANSACTIONS WITH DEALERS

Details of transactions with the top 10 dealers are as follows:

Name of dealers	Value of trades	Percentage of total trades	Brokerage fees	Percentage of total brokerage fees
	RM	%	RM	%
<u>2020</u>				
Standard Chartered Bank Limited	4,939,994	18.10	-	-
Societe Generale Paris Branch	3,058,318	11.21	-	-
SGS Bond Trading Pte Ltd	2,558,144	9.38	-	-
Oversea-Chinese Banking Corporation Limited	2,285,850	8.38	-	-
Jefferies International Ltd	2,240,650	8.21	-	-
Merrill Lynch Int Ltd (London)	1,706,418	6.25	-	-
HSBC Singapore	1,536,383	5.63	-	-
Credit Agricole CIB	1,287,599	4.72	-	-
UBS AG London	1,092,700	4.00	-	-
China International Capital Corporation				
Hong Kong Securities Limited	935,220	3.43	-	-
Others	5,644,739	20.69	-	-
	<u>27,286,015</u>	<u>100.00</u>	<u>-</u>	<u>-</u>

Name of dealers	Value of trades	Percentage of total trades	Brokerage fees	Percentage of total brokerage fees
	RM	%	RM	%
<b>2019</b>				
HSBC Singapore	9,552,970	15.71	-	-
Societe Generale Paris Branch	8,103,974	13.32	-	-
Merrill Lynch Int Ltd (London)	6,597,660	10.85	-	-
Oversea-Chinese Banking Corporation Limited	5,594,586	9.20	-	-
Morgan Stanley And Co. International Plc, London Branch	4,604,145	7.57	-	-
UBS AG London	4,150,484	6.82	-	-
DBS Bank Ltd	3,312,511	5.45	-	-

Others	11,077,306	18.21	-	-
	<b>60,820,433</b>	<b>100.00</b>	<b>-</b>	<b>-</b>

All dealers highlighted above are not related to the Manager.

## 12. UNITS HELD BY THE MANAGER

The related party of and its relationship with the Fund are as follows:

<b>Related party</b>	<b>Relationship</b>			
Eastspring Investments Berhad	The Manager			

	<b>2020</b>		<b>2019</b>	
	<b>No. of units</b>	<b>RM</b>	<b>No. of units</b>	<b>RM</b>
Eastspring Investments Berhad	1,000	1,030	1,000	1,051

The above units were transacted at the prevailing market price.

The units are held legally by the Manager and are within the prescribed limit allowed by SC's Guidelines on Unit Trust Funds. Other than the above, there were no units held by the Directors or parties related to the Manager.

**13. MANAGEMENT EXPENSE RATIO (“MER”)**

	<b>2020</b>	<b>2019</b>
	%	%
MER	0.32	0.32

MER is derived from the following calculation:

$$\text{MER} = \frac{(A + B + C + D + E)}{F} \times 100$$

A = Management fee

B = Trustee fee

C = Audit fee

D = Tax agent fee

E = Other expenses

F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial year calculated on a daily basis is RM111,941,614 (2019: RM108,250,743).

**14. PORTFOLIO TURNOVER RATIO (“PTR”)**

	<b>2020</b>	<b>2019</b>
PTR (times)	0.12	0.28

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisitions for the financial year} + \text{total disposals for the financial year}) \div 2}{\text{Average net asset value of the Fund for the financial year calculated on a daily basis}}$$

where:

total acquisitions for the financial year = RM9,792,949 (2019: RM34,402,293)

total disposals for the financial year = RM17,493,066 (2019: RM26,418,140)

**15. SIGNIFICANT EVENT DURING THE FINANCIAL YEAR**

The worsening macro-economic outlook as a result of Covid-19, both domestically and globally, has resulted in the deterioration of the Fund's Net Asset Value/unit as of the date of this report. This is mainly due to the decrease in fair value of the Fund's investments at fair value through profit or loss.

The Manager is monitoring the situation closely and will be actively managing the portfolio to achieve the Fund's objective.

**16. APPROVAL OF FINANCIAL STATEMENTS**

The financial statements have been approved for issue by the Manager on 10 July 2020.
