## KEY PERFORMANCE DATA (CONTINUED)

	1 year 1.7.2022 to 30.6.2023	3 years 1.7.2020 to 30.6.2023	5 years 1.7.2018 to 30.6.2023
	(%)	(%)	(%)
Average total return	3.51	3.07	1.62

Year ended	1.1.2022 to 31.12.2022	1.1.2021 to 31.12.2021	1.1.2020 to 31.12.2020	1.1.2019 to 31.12.2019	1.1.2018 to 31.12.2018
	(%)	(%)	(%)	(%)	(%)
Annual total return	(0.53)	(0.62)	13.64	3.93	(8.30)

**Source:** The above total return of the Fund was sourced from Lipper for Investment Management.

**Bases of calculation and assumptions made in calculating returns:**

$$\text{Percentage growth} = \frac{\text{NAV}_t - 1}{\text{NAV}_0}$$

$\text{NAV}_t$  = NAV at the end of the period

$\text{NAV}_0$  = NAV at the beginning of the period

$$\text{Performance annualised} = (1 + \text{Percentage Growth})^{1/n} - 1$$

Adjusted for unit split and distribution paid out for the period

n = Number of years

**Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.**

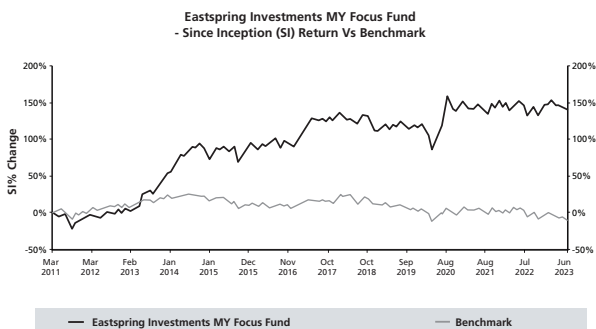

## MANAGER'S REPORT

### Fund Performance

Over the 5-year period, the Fund recorded a return of 8.38%, outperforming the benchmark return of -18.61% by 26.99%.

For the period under review, the Fund recorded a return of -2.93%, outperforming the benchmark return of -7.94% by 5.01%.

The outperformance was mainly due to good stock selection.

**The performance is calculated on NAV-to-NAV basis with gross income or dividend reinvested.**

**Benchmark:** FTSE Bursa Malaysia KLCI Index ("FBMKLCI")

**Source:** Lipper for Investment Management and [www.bursamalaysia.com](http://www.bursamalaysia.com), as at 30 June 2023.

**Past performance of the Fund is not necessarily indicative of its future performance.**

## MANAGER'S REPORT (CONTINUED)

### Analysis of Fund Performance

For the financial period ended 30 June 2023:

<b>Income Return</b>	<b>Capital Return*</b>	<b>Total Return</b>	<b>Total Return of Benchmark</b>
<b>(%)</b>	<b>(%)</b>	<b>(%)</b>	<b>(%)</b>
0.00	(2.93)	(2.93)	(7.94)

\* Capital return components (NAV per unit to NAV per unit).

### Distribution/ Unit Split

No distribution or unit split were declared for the financial period ended 30 June 2023.

### Investment Strategy During the Period Under Review

The period under review was challenging on the back of slowdown in global economy. Domestically, post pandemic-related stimulus being digested, domestic consumption has since softened. Positively, further recovery in tourist visitations could help Malaysia partly buffer some of these challenges. For the period under review, we stay defensive and is invested in large caps.

## MANAGER'S REPORT (CONTINUED)

### Asset Allocation

Asset Allocation	30-Jun 2023 (%)	31-Dec 2022 (%)	Changes (%)
Quoted securities	87.97	85.99	1.98
Cash and other assets	12.03	14.01	(1.98)

### Asset Allocation as at 30 June 2023

There were no significant changes in asset allocation of the Fund for the period under review.

### State of Affairs of the Fund

There have been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the period under review.

## MARKET REVIEW

Malaysian equities started 1Q2023 with a relatively short trading month as Chinese New Year fell on 22-23 January. Nevertheless, the start of the year was an eventful month for Malaysian politics, as UMNO which is part of PM Anwar Ibrahim's unity government, expelled former health minister Khairy Jamaluddin, while former defense minister Hishammuddin Hussein was among a number of politicians suspended from the party. A total of 4 UMNO members were suspended, whilst 42 others were sacked from the party. BNM surprised the market by keeping the OP unchanged at 2.75% at the January MPC, after four consecutive hikes.

By mid-1Q2023 equity markets corrected in line with global and regional markets. Investors were cautious ahead of Budget 2023 which was read on 24 February 2023, which failed to provide any positive catalysts for the market. The economy and cost of living issues remain a priority in Budget 2023, the government announced lower taxes for the M40 while the T20 would see higher taxes and there was also an announcement of a tax on luxury goods (details to release later).

By the end of 1Q2023, Malaysian equity markets posted its third consecutive month of decline in, as investor sentiment remained weak due to concerns over a potential global banking crisis, following the collapse of the Silicon Valley Bank, Signature Bank and the takeover of the Credit Suisse by UBS Bank. As a result, foreign investors remained net sellers in the month of March of RM1.4b, and have been net sellers for 7 consecutive months. EPF declared the dividend for 2022 of 5.35% for Conventional Savings and 4.75% dividend rate for Shariah Savings.

Malaysian equity markets posted its fourth consecutive month of decline in April 2023, despite posting a small rally for most of the month outperforming the region, before giving up the gains towards the end of the month. The news was fairly light during the month with some focus on OPEC+ and crude oil prices initially spiking to USD85/bbl, post the announcement by OPEC+ to indicate continued production cuts in coming months. However, the International Energy Agency ("IEA") came out with a statement that the surprise cut (by OPEC+) risked exacerbating global supply deficits in oil and could impact global economic growth. Brent crude oil prices subsequently ended the month below USD80/bbl. Domestically, PM Anwar made an official visit to China, and secured RM170b in investment pledges. Malaysian equity markets continued its decline for the fifth consecutive month in May 2023, in tandem with regional markets which were also lackluster. The focus for the month of May was around corporate earnings, with most reporting earnings below consensus expectations. News flow was light during the month, with some focus on interest rates in Malaysia as BNM raised OPR by 25bps. Malaysian Ringgit also saw a lot of pressure versus the US dollar, weakening to above RM4.60/USD.

Malaysian equity markets closed lower for the sixth consecutive month in June. Foreign investors continued to be net sellers of equities for the month of June and have been for the tenth consecutive month. During the month, Bank Negara Malaysia announced that the Yang di-Pertuan Agong has consented to the appointment of Datuk Shaik Abdul Rasheed bin Abdul Ghaffour as Governor for a five-year term effective 1 July 2023 to 30 June 2028.

The FBM KLCI closed the period under review at 1,376.68 points, down 7.94%. The broader FBM Emas (“FBMEmas”) Index closed the period under review lower by 5.23%. The MSCI Asia Pacific ex-Japan Index rose by 1.65% in USD terms.<sup>1</sup>

## REBATES AND SOFT COMMISSIONS

During the period under review, the Manager and its delegates (if any) received soft commissions from brokers/dealers in the form of goods and services which directly assist the investment management of the Fund, including research and advisory services, market analyses, data and quotation services, and computer hardware and software used for and/or in support of the investment process of fund managers. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to the Fund and Unitholders. There were no churning of trades.

The Manager and its delegates (if any) have not received any rebates or shared any commissions from any brokers during the same period under review.

## SECURITIES LENDING OR REPURCHASE TRANSACTIONS

No securities lending or repurchase transaction have been carried out during the financial period under review.

The accompanying summary of significant accounting policies and notes to the unaudited financial statements form an integral part of these unaudited financial statements.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 JUNE 2023

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

### **A. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS**

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with the MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial period. It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note J.

- a. Standards, amendments and interpretations that have been issued but not yet effective and have not been early adopted:

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

## **B. INCOME RECOGNITION**

Interest income from deposits placed with licensed financial institutions is recognised on an accrual basis using the effective interest rate method.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Dividend income is recognised on the ex-dividend date, when the right to receive the dividend has been established.

Realised gain or loss on disposal of quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of the investments, determined on a weighted average cost basis.

## **C. TAXATION**

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial period.

## **D. FUNCTIONAL AND PRESENTATION CURRENCY**

Items included in the financial statements of the Fund are measured using the currency as the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia, which is the Fund’s functional and presentation currency.

## **E. FINANCIAL ASSETS AND FINANCIAL LIABILITIES**

### **i. Classification**

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from Manager, amount due from broker and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies accrued management fee, amount due to Manager, amount due to Trustee, amount due to brokers and other payables and accruals as financial liabilities measured at amortised cost.

### **ii. Recognition and measurement**

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the quoted financial instrument.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the “financial assets at fair value through profit or loss” category are presented in the statement of comprehensive income within “net gain/(loss) on financial assets at fair value through profit or loss” in the financial period in which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within dividend income when the Fund's right to receive payments is established.

Quoted securities in Malaysia are valued at the last done market price quoted on the Bursa Malaysia Securities Berhad (“Bursa Securities”) at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions or no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the quoted securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest method over the period from the date of placement to the date of maturity of the respective deposits.

Financial assets and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

### iii. Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 months expected credit losses as any such impairment would be wholly insignificant to the Fund.

iv. Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

v. Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

vi. Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

## **F. AMOUNT DUE FROM/(TO) BROKERS**

Amount due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The amount due from brokers balance is held for collection.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amount due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12 months expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Any contractual payment which is more than 90 days past due is considered credit impaired.

## **G. CASH AND CASH EQUIVALENTS**

For the purpose of the statement of cash flows, cash and cash equivalents comprise bank balances and deposits with licensed financial institutions that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## **H. UNIT HOLDERS' CAPITAL**

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there are no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

## **I. TRANSACTION COSTS**

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

## **J. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES**

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Unit Trust Funds.

# NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

## FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 JUNE 2023

### 1. INFORMATION ON THE FUND

Eastspring Investments MY Focus Fund (the "Fund") was constituted pursuant to the execution of Deed dated 25 November 2008 (the "Deed"), as amended by Supplemental Deed dated 11 May 2009 entered into between Eastspring Investments Berhad (the "Manager") and OSK Trustees Berhad (the "Trustee"). The Fund replaced OSK Trustees with Deutsche Trustees Malaysia Berhad (the "Trustee") effective 1 October 2010. A Supplemental Master Deed was entered into between Eastspring Investments Berhad (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee") on 30 July 2010 to effect the change of trustee from OSK Trustees to the Trustee, followed by Second Supplemental Master Deed dated 28 January 2011, Third Supplemental Master Deed dated 9 March 2011, Fourth Supplemental Master Deed dated 20 January 2012, Fifth Supplemental Master Deed dated 26 March 2014, Sixth Supplemental Master Deed dated 2 January 2015, Seventh Supplemental Master Deed dated 11 July 2016, Eighth Supplemental Master Deed dated 25 January 2017, Ninth Supplemental Master Deed dated 11 December 2017, Tenth Supplemental Master Deed dated 4 June 2018, Eleventh Supplemental Master Deed dated 30 September 2021, Twelfth Supplemental Master Deed dated 29 June 2022 and Thirteenth Supplemental Master Deed dated 29 November 2022 (collectively referred to as the "Deeds").

The Fund was launched on 1 March 2011 and will continue its operations until terminated as provided under Part 12 of the Deed.

The Fund seeks to provide investors with capital appreciation in the medium to long term with an opportunity for income, if any. The Fund targets to invest up to but not limited to 30 Malaysian securities that are expected to provide medium to long-term capital appreciation and income potential.

All investments will be subjected to the the Securities Commission's ("SC") Guidelines on Unit Trust Funds, the Deeds and the Fund's objective.

The Manager is a company incorporated in Malaysia and is related to Prudential Plc., a public listed company in the United Kingdom. The principal activity of the Manager is the establishment and management of unit trust funds and asset management.

## 2. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to market risk (inclusive of price risk and interest rate risk), stock/issuer risk, fund management risk, liquidity risk, non-compliance risk, capital risk and credit/default risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds.

Financial instruments of the Fund are as follows:

	Note	Financial assets at amortised cost RM	Financial assets at fair value through profit or loss RM	Total RM
<u>2023</u>				
Cash and cash equivalents	7	27,013,131	-	27,013,131
Quoted securities	6	-	196,146,178	196,146,178
Amount due from Manager		173,082	-	173,082
Dividends receivable		166,759	-	166,759
		<u>27,352,972</u>	<u>196,146,178</u>	<u>223,499,150</u>
<u>2022</u>				
Cash and cash equivalents	7	28,381,220	-	28,381,220
Quoted securities	6	-	217,794,064	217,794,064
Amount due from Manager		13,951,917	-	13,951,917
Amount due from broker		746,634	-	746,634
Dividends receivable		134,944	-	134,944
		<u>43,214,715</u>	<u>217,794,064</u>	<u>261,008,779</u>

All liabilities are financial liabilities which are carried at amortised cost.

## Market risk

### i. Price risk

Price risk is the risk that the fair value of the investment in quoted securities will fluctuate because of changes in market prices (other than those arising from interest rate risk). The value of investments may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's net asset value and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and asset allocation whereby the quoted securities exposure will be reduced in the event of anticipated market weakness.

The table below shows assets of the Fund as at 30 June which are exposed to price risk.

	2023	2022
	RM	RM
Financial assets at fair value through profit or loss:		
Quoted securities	196,146,178	217,794,064

The following table summarises the sensitivity of the Fund's loss after tax and net asset value to movements in prices of quoted securities at the end of each reporting financial period. The analysis is based on the assumptions that the market price of the quoted securities increased by 5% and decreased by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the quoted securities, having regard to the historical volatility of the prices.

% Change in price	2023		2022	
	Market value	Impact on loss after tax and net asset value	Market value	Impact on loss after tax and net asset value
	RM	RM	RM	RM
+5% (2022: +5%)	205,953,487	9,807,309	228,683,767	10,889,703
-5% (2022: -5%)	186,338,869	(9,807,309)	206,904,361	(10,889,703)

ii. Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Fund's investments in deposits with licensed financial institutions are short-term in nature. Therefore, exposure to interest rate fluctuations is minimal.

As at the end of the financial period, the Fund does not hold any other financial instruments that expose it to interest rate risk.

**Stock/Issuer risk**

This risk refers to the individual risk of the respective companies issuing the securities. Specific risk includes but is not limited to changes in consumer tastes and demand, legal suits, competitive operating environments, changing industry conditions and management omissions and errors. However, this risk is minimised through investing in a wide range of companies in different sectors and thus function independently from one another.

**Fund management risk**

There is the risk that the management company may not adhere to the investment mandate of the respective Funds. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the interest of unit holders.

## Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise bank balances, deposits with licensed financial institutions and other instruments which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	<b>Less than 1 month</b>	<b>Between 1 month to 1 year</b>	<b>Total</b>
	<b>RM</b>	<b>RM</b>	<b>RM</b>
<u>2023</u>			
Accrued management fee	275,637	-	275,637
Amount due to Manager	222,152	-	222,152
Amount due to Trustee	14,701	-	14,701
Other payables and accruals	-	16,816	16,816
Contractual undiscounted cash outflows	512,490	16,816	529,306
<u>2022</u>			
Accrued management fee	310,316	-	310,316
Amount due to Manager	39,024	-	39,024
Amount due to Trustee	16,550	-	16,550
Amount due to brokers	1,890,961	-	1,890,961
Other payables and accruals	-	24,196	24,196
Contractual undiscounted cash outflows	2,256,851	24,196	2,281,047

### **Non-compliance risk**

Non-compliance risk arises when the Manager and others associated with the Fund are not compliant to the rules set out in the Fund's constitution or the laws that govern the Fund or applicable internal control procedures, or acts of fraudulence or dishonesty.

Non-compliance may expose the Fund to higher risks which may result in a fall in the value of the Fund which in turn may affect its investment goals. However, the risk can be mitigated by the internal controls and compliance monitoring undertaken by the Manager.

### **Capital risk**

The capital of the Fund is represented by equity consisting of unit holders' capital of RM220,412,121 (2022: RM256,400,996) and retained earnings of RM2,557,723 (2022: RM2,326,736). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

### **Credit/Default risk**

Credit risk refers to the ability of an issuer or a counter party to make timely payments of interest income, principals and proceeds from realisation of investments.

The credit risk arising from placements of deposits with licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions. For amount due from brokers, the settlement terms are governed by the relevant rules and regulations as prescribed by Bursa Malaysia Securities Berhad ("Bursa Malaysia"). The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

The credit/default risk is minimal as all transactions in quoted securities are settled/paid upon delivery using approved brokers.

The following table sets out the credit risk concentrations and counterparties of the Fund.

	<b>Cash and cash equivalents</b>	<b>Dividends receivable</b>	<b>Amount due from Manager</b>	<b>Total</b>
	<b>RM</b>	<b>RM</b>	<b>RM</b>	<b>RM</b>

None of these financial assets are past due or impaired.

### Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active market (such as trading securities) are based on quoted market prices at the close of trading on the financial period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is representative of the fair value.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

i. Fair value hierarchy

The following table analyses financial instruments carried at fair value by valuation method.

The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 : Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgement by the Fund. The Fund considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets (by class) measured at fair value:

	Level 1	Level 2	Level 3	Total
	RM	RM	RM	RM
<u>2023</u>				
Financial assets at fair value through profit or loss:				
Quoted securities	196,146,178	-	-	196,146,178
<u>2022</u>				
Financial assets at fair value through profit or loss:				
Quoted securities	217,794,064	-	-	217,794,064

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active quoted securities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note E to the financial statements.

- ii. The carrying value of cash and cash equivalents, amount due from Manager, amount due from broker, dividends receivable and all liabilities are a reasonable approximation of their fair values due to their short term nature.

### **3. MANAGEMENT FEE**

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 2.00% per annum of the net asset value of the Fund calculated on daily basis.

For the financial period ended 30 June 2023, the management fee is recognised at a rate of 1.50% (2022: 1.50%) per annum on the net asset value of the Fund, calculated on daily basis.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

### **4. TRUSTEE FEE**

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.20% per annum of the net asset value of the Fund, subject to a minimum fee of RM18,000 per annum.

For the financial period ended 30 June 2023, the Trustee fee is recognised at a rate of 0.08% (2022: 0.08%) per annum on the net asset value of the Fund, calculated on daily basis.

There will be no further liability to the Trustee in respect of the trustee fee other than the amounts recognised above.

## 5. TAXATION

	6-months financial period ended 30.6.2023	6-months financial period ended 30.6.2022
	RM	RM

Tax charged for the financial period:

Current taxation

-

-

The numerical reconciliation between loss before taxation multiplied by the Malaysian statutory tax rate and tax expense of the Fund is as follows:

	6-months financial period ended 30.6.2023	6-months financial period ended 30.6.2022
	RM	RM
Loss before taxation	(6,642,720)	(17,815,203)
Tax at Malaysian statutory rate of 24% (2022: 24%)	(1,594,253)	(4,275,649)
Tax effect of:		
Investment loss not deductible for tax purposes	1,128,523	3,731,930
Expenses not deductible for tax purposes	52,846	109,302
Restriction on tax deductible expenses for Unit Trust Funds	412,884	434,417
Taxation	-	-

Others	7,663,433	6.55	15,327	6.38
	<u>117,269,846</u>	<u>100.00</u>	<u>240,380</u>	<u>100.00</u>

All brokers highlighted above are not related to the Manager.

## 10. UNITS HELD BY THE MANAGER AND PARTIES RELATED TO THE MANAGER

The related parties and their relationships with the Fund are as follows:

Related parties	Relationship
Director of Eastspring Investments Berhad	Director of the Manager
Eastspring Investments Berhad	The Manager
Eastspring Investments Group Private Limited	Immediate holding company of the Manager
Prudential Plc	Ultimate holding company of the Manager

### Units held by Manager:

	2023		2022	
	No. of units	RM	No. of units	RM
Eastspring Investments Berhad	1,330	1,197	1,272	1,156

The above units were transacted at the prevailing market price.

The units are held legally and beneficially by the Manager and are within the prescribed limit allowed by the SC's Guidelines on Unit Trust Funds. Other than the above, there were no units held by the Directors or parties related to the Manager.

In addition to the related parties disclosure mentioned in the financial statements, there were no other significant related parties transactions and balances.

**11. TOTAL EXPENSE RATIO ("TER")**

	<b>2023</b>	<b>2022</b>
	%	%
TER	0.79	0.79

TER is derived from the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E)}{F} \times 100$$

A = Management fee

B = Trustee fee

C = Audit fee

D = Tax agent fee

E = Other expenses (excluding sales and service tax on transaction cost and withholding tax)

F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial period calculated on a daily basis is RM230,863,947 (2022: RM243,175,574).

**12. PORTFOLIO TURNOVER RATIO ("PTR")**

	<b>2023</b>	<b>2022</b>
PTR (times)	0.07	0.24

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisitions for the financial period} + \text{total disposals for the financial period}) \div 2}{\text{Average net asset value of the Fund for the financial period calculated on a daily basis}}$$

where:

total acquisitions for the financial period = RM17,594,892 (2022: RM70,550,041)

total disposals for the financial period = RM15,877,888 (2022: RM47,617,819)

### **13. APPROVAL OF FINANCIAL STATEMENTS**

The unaudited financial statements have been approved for issue by the Manager on 23 August 2023.
