INDEPENDENT AUDITOR'S REPORT

To the Investor

Eastspring Investments Fund Management Limited Liability Company

We have audited the accompanying Financial Safety Ratio Report of Eastspring Investments Fund Management Limited Liability Company ("the Company") as at 31 December 2016 including the explanatory notes thereto which were authorised for issue by the Company's Board of Director on 27 March 2017 ("Financial Safety Ratio Report"), as set out on pages 6 to 26.

Management's Responsibility

The Company's Board of Director is responsible for the preparation and presentation of the Financial Safety Ratio Report in accordance with the requirements of Circular No. 226/2010/TT-BTC dated 31 December 2010 and Circular No. 165/2012/TT-BTC dated 9 October 2012 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations, and for such internal control as the Board of Director determines is necessary to enable the preparation of the financial safety ratio report that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Financial Safety Ratio Report based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Safety Ratio Report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Safety Ratio Report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Safety Ratio Report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the Financial Safety Ratio Report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Director, as well as evaluating the overall presentation of the Financial Safety Ratio Report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the Financial Safety Ratio Report of Eastspring Investments Fund Management Limited Liability as at 31 December 2016 has been prepared, in all material respects, in accordance with the requirements of Circular No. 226/2010/TT-BTC dated 31 December 2010 and Circular No. 165/2012/TT-BTC dated 9 October 2012 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations.

Basis of Preparation and Restriction on Use

We draw attention to Note 2(a) to the Financial Safety Ratio Report, which describes the basis of preparation. The Financial Safety Ratio Report is prepared to assist the Company to comply with the requirements of Circular No. 226/2010/TT-BTC dated 31 December 2010 and Circular No. 165/2012/TT-BTC dated 9 October 2012 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations referred to above. As a result, the Financial Safety Ratio Report may not be suitable for another purpose. Our report is intended solely for the Company's use for submission to the State Securities Commission and preparation for the disclosure requirements of Circular No. 226/2010/TT-BTC and Circular No. 165/2012/TT-BTC and should not be used for any other purposes.

Eastspring Investments Fund Management Limited Liability Company
Notes to the Financial Safety Ratio Report as of 31 December 2016

These notes form an integral part of and should be read in conjunction with the accompanying Financial Safety Ratio Report.

1. Reporting entity

(a) Ownership structure

Eastspring Investment Fund Management Limited Liability Company (“the Company”) is a limited liability company licensed and incorporated in the Socialist Republic of Vietnam.

(b) Principal activities

The principal activities of the Company are to establish and manage securities investment funds, to provide portfolio management services and to give financial consultancy and securities investment consultancy under Fund Management Establishment and Operation Licence No. 03/UBCK-GPHDQLQ issued by the State Securities Commission of Vietnam on 26 May 2005 and amended on 23 July 2008, 20 November 2008, 15 April 2010, 9 December 2011 and under the Business Licence No. 51/GP-UBCK issued by the State Securities Commission on 23 March 2012, 26 March 2013 and 12 September 2013 (together referred to as the “Fund Management Licence”).

The total charter capital of the Company as stipulated in the Fund Management Licence is VND25 billion.

As at 31 December 2016, the Company had 24 employees (31/12/2015: 25 employees) of which 1 is management personnel. During the year, 2 employees were resigned and no disciplinary action was taken against any of the employees. As at 31 December 2016, the Company had 12 employees (31/12/2015: 12 employees) who were qualified for fund and assets management.

2. Basis of preparation

(a) Statement of compliance

The Financial Safety Ratio Report has been prepared to assist the Company to comply with the requirements of Circular No. 226/2010/TT-BTC dated 31 December 2010 (“Circular 226”) and Circular No. 165/2012/TT-BTC dated 9 October 2012 (“Circular 165”) issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations. Accordingly, the Financial Safety Ratio Report and its utilisation are not designed for those who are not informed about the principles and requirements of Circular 226 and Circular 165 on preparation and presentation of the Financial Safety Ratio Report applicable to securities business organisations in Vietnam. As a result, the Financial Safety Ratio Report may not be suitable for another purpose.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(b) Underlying financial data

The Financial Safety Ratio Report is prepared based on the Company's financial data as of and for the year ended 31 December 2016. This Financial Safety Ratio Report should be read in conjunction with the Company's audited financial statements for the year ended 31 December 2016.

3. Summary of significant policies adopted in the preparation of the Financial Safety Ratio Report

The following significant policies have been adopted by the Company in the preparation of this Financial Safety Ratio Report.

(a) Liquid capital ratio

The Company's liquid capital ratio is calculated in accordance with the requirements of Circular 226 as follows:

$$\text{Liquid capital ratio} = \frac{\text{Liquid capital}}{\text{Total risk value}} * 100\%$$

in which, total risk value is the aggregate of market risk value (Note 3(c)), settlement risk value (Note 3(d)) and operational risk value (Note 3(e)).

(b) Liquid capital

Liquid capital is the capital which can be converted into cash within 90 days, in which allowances and provisions provided in accordance with the prevailing regulations as at the reporting date, are added back to retained profits/(accumulated losses).

Additions to the Company's liquid capital include the following items:

- 50% value of upward revaluations of fixed assets, if any, in accordance with the prevailing regulations;
- All increases in the values of investments, excluding the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Convertible bonds and preference shares issued by the Company with the original terms to maturity of at least five (5) years and registered with the State Securities Commission to supplement the liquid capital; and
- Other debt instruments issued by the Company with the original terms to maturity of more than ten (10) years and registered with the State Securities Commission to supplement the liquid capital.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

Value of items used to supplement the liquid capital is capped at 50% of the Company's equity. For debts convertible to equity and registered with the State Securities Commission to supplement the liquid capital, the Company deducts 20% of original value each year during the last five (5) years before maturity/conversion into ordinary shares and deducts 25% of the remaining value for each quarter in the last four (4) quarters before maturity/conversion into ordinary shares.

Deductions from the Company's liquid capital include the following items:

- Redeemable preference shares and treasury shares (if any);
- 100% value of the downward revaluations of fixed assets, if any, in accordance with the prevailing regulations;
- All decreases in the values of investments, excluding the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Long-term assets and current assets with remaining term to maturity of more than 90 days; and
- Asset items being qualified in the audited financial statements (if any).

When determining the deductions from liquid capital, the Company deducts from the liquid capital an amount equal to the minimum value of the market value of the assets, the book value and the residual value of the obligations (for the assets used as collaterals for the obligations of the Company and third parties) and the minimum value of the market value of the collaterals and the book value (for the assets secured by customers' assets).

(c) Market risk value

Market risk value is the value corresponding to the level of loss which may occur if the market value of assets changes unfavourably. Market risk value is determined in accordance with the provisions of Circular 226 as follows:

$$\text{Market risk value} = \text{Net position} * \text{Asset value} * \text{Market risk coefficient}$$

(i) Net position

Net position of any securities at a point of time is the quantity of securities currently held by the Company, after deducting the number of securities lent out and adding the number of securities borrowed in accordance with the prevailing regulations.

The market risk value is not determined for following securities and assets:

- Treasury shares;
- Securities issued by a related organisation of the Company;
- Securities with the remaining restricted trading period exceeding 90 days at the reporting date; and
- Matured bonds, debt instruments and money market valuable papers.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(ii) Asset value

Asset value is determined in accordance with principles for determining market value in Circular 226 as follows:

No.	Type of asset	Principles for determining market value
Cash and cash equivalents, money market instruments		
1	Cash in VND	Account balance at the reporting date
2	Foreign currencies	Value converted into VND at the exchange rate of credit institutions authorised for trading foreign currencies at the reporting date
3	Term deposits	Deposit amount plus accrued interest at the reporting date
4	Treasury bills, bank drafts, commercial papers, transferable certificates of deposits, bonds and other discounted money market instruments	Purchase price plus accrued interest at the reporting date
Bonds		
5	Listed bonds	<ul style="list-style-type: none"> ➤ Average quoted price from the Stock Exchanges at the latest trading date plus accrued interest ➤ If there was no trading in the previous two weeks prior to the reporting date, then market value is the highest value of the followings: <ul style="list-style-type: none"> + Purchase price plus accrued interest; + Par value plus accrued interest; or + Value determined in accordance with the Company's internal methodology plus accrued interest. <p><i>In other words:</i> Max (Purchase price plus accrued interest; Par value plus accrued interest; Value determined in accordance with the Company's internal methodology plus accrued interest)</p>
6	Unlisted bonds	<p>The highest value of the followings:</p> <ul style="list-style-type: none"> + Quoted price, (if any), from the quoting system selected by the Company plus accrued interest; + Purchase price plus accrued interest; + Par value plus accrued interest; or + Value determined in accordance with the Company's internal methodology plus accrued interest. <p><i>In other words:</i> Max (Quoted price (if any); Purchase price plus accrued interest; Par value plus accrued interest;</p>

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(d) Settlement risk value

Settlement risk value is the value corresponding to the level of loss which may occur if a counterparty is unable settle obligations or transfer assets on time as committed. Settlement risk value is determined at the end of transaction date or contract date as follows:

- Settlement risk value before the due date for payment/transfer of securities is determined in accordance with following principle:

Settlement risk before due date:

$$= \text{Settlement risk coefficient by counterparty} * \text{Value of the asset with settlement risk}$$

The above principle to determine settlement risk value before due date is applicable for following contracts:

- Term deposits at credit institutions, loans to other organisations and individuals;
 - Securities lending contracts and securities borrowing contracts in compliance with laws;
 - Repurchase agreements in compliance with laws;
 - Reverse repurchase agreements in compliance with law;
 - Margin loan contracts in compliance with laws; and
 - Accounts receivable, other receivables and other current assets with settlement risks.
- For underwriting contracts signed with other organisations in an underwriting syndicate in the form of a firm undertaking in which the Company is the lead underwriter, the settlement risk value shall be 30% of the residual value of an underwriting contract for which payment has not been made.
 - For overdue accounts receivable, other receivables and other current assets and securities which are not transferred on time, including securities and cash not yet received from following contracts:
 - Term deposits at credit institutions, loans to other organisations and individuals;
 - Securities lending contracts and securities borrowing contracts in compliance with laws;
 - Repurchase agreements in compliance with laws;
 - Reverse repurchase agreements in compliance with laws; and
 - Margin loan contracts in compliance with laws.

Overdue settlement risk value is determined in accordance with following principle:

Overdue settlement risk:

$$= \text{Settlement risk coefficient by overdue status} * \text{Value of the asset with settlement risks}$$

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(i) Settlement risk coefficient

In accordance with the provisions of Circular 226, settlement risk coefficient by counterparty is as follows:

No.	Counterparty	Settlement risk coefficient
1	The Government, issuing organisations guaranteed by the Government or the Ministry of Finance, the State Bank of Vietnam, Governments and Central banks of countries in the OECD, People's Committee of provinces and cities under Central authority	0%
2	The Stock Exchanges, Vietnam Securities Depository	0.8%
3	Credit institutions, financial institutions, and securities companies established in countries in the OECD and with a credit rating satisfying the internal rules of the Company	3.2%
4	Credit institutions, financial institutions, and securities companies established in countries outside the OECD; or established in countries in the OECD but with a credit rating not satisfying the internal rules of the Company	4.8%
5	Credit institutions, financial institutions and securities companies established and operating in Vietnam	6%
6	Other organisations and individuals	8%

In accordance with the provisions of Circular 226, settlement risk coefficient by overdue status is as follows:

No.	Overdue status	Settlement risk coefficient
1	0 - 15 days after the due date for payment/transfer of securities	16%
2	16 - 30 days after the due date for payment/transfer of securities	32%
3	31 - 60 days after the due date for payment/transfer of securities	48%
4	Above 60 days after the due date for payment/transfer of securities	100%

Time for payment/transfer of securities is T+2 (for listed securities), T+1 (for listed bonds), or T+n (for transactions agreed outside the trading system).

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(ii) Value of assets with settlement risk

➤ *Value of assets with settlement risk in securities borrowing activities, securities lending activities, margin trading activities, and repurchase/reverse repurchase agreements:*

No.	Type of transaction	Value of assets with settlement risks
1	Term deposits and unsecured loans	Total value of the deposits and loans
2	Securities lending	Max {(Market value of the contract – Value of collateral assets (if any)), 0}
3	Securities borrowings	Max {(Value of collateral assets – Market value of the contract), 0}
4	Reverse repurchase agreements	Max {(Contract value calculated in accordance with purchase price – Market value of the contract * (1 – Market risk coefficient)),0}
5	Repurchase agreements	Max {Market value of the contract * (1 – Market risk coefficient) – Contract value based on the selling price),0}
6	Margin loans (lending to customers to purchase securities)/Other arrangements with similar nature	Max {(Outstanding loan balance – Value of collateral assets),0}

Outstanding balance comprises the principal, interest and related fees.

Value of collateral assets is based on the market value. When the market values of collateral assets are not available, market values are determined in accordance with Company's internal methodology.

➤ *Value of assets with settlement risk in securities trading activities:*

No.	Time	Value of assets with settlement risks
A. For the sale of securities transactions (seller is the Company or the Company's customers in brokerage activities)		
1	Before the due date for payment	Nil
2	After the due date for payment	Market value of the contract (if the market value is lower than the transaction price)
		Nil (if the market value is higher than the transaction price)
B. For the purchase of securities transactions (buyer is the Company or the Company's customers in brokerage activities)		
1	Before the due date for securities transfer	Nil
2	After the due date for securities transfer	Market value of the contract (if the market value is higher than the transaction price)
		Nil (if the market value is lower than the

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

- *Settlement risk values of overdue accounts receivable, matured bonds and debt instruments are the underlying amounts including par value plus accrued interest and fees, less actual cash previously received, if any.*

(iii) Deductions from the value of assets with settlement risk

The Company deducts the value of collateral asset received from counterparties or customers from the value of assets with settlement risk when determining the value of assets with settlement risks if the contracts and transactions meet the following criteria:

- The counterparties or customers have collateral assets to secure for their obligations including cash, cash equivalents, valuable papers, transferable money market instruments, listed securities on the Stock Exchanges, Government bonds, or bonds underwritten by the Ministry of Finance; and
- The Company has the right to control, manage, use or transfer the collateral assets if the counterparties or customers fail to settle the obligations according to the contractual schedules.

Value of collateral assets deducted from the value of assets with settlement risk is calculated as follows:

$$\text{Value of collateral assets} = \text{Asset quantity} * \text{Asset value per unit} * (1 - \text{Market risk coefficient})$$

Asset value is determined in accordance with the provisions of Circular 226 as described in Note 3c(ii).

Market risk coefficient is determined in accordance with the provisions of Circular 226 as disclosed in Note 4.

(iv) Settlement risk value increase

Settlement risk values are increased in the following cases:

- Increase by 10% if the value of loans to any organisation or individual and group of related organisations and individuals accounts for from 10% to 15% of the Company's equity;
- Increase by 20% if the value of loans to any organisation or individual and group of related organisations and individuals accounts for from 15% to 25% of the Company's equity; or
- Increase by 30% if the value of loans to any organisation or individual and group of related organisations and individuals, or to any individual and entities related to such individual, accounts for from 25% or more of the Company's equity.

Eastspring Investments Fund Management Limited Liability Company
Notes to Financial Safety Ratio Report as of 31 December 2016 (continued)

(v) *Netting off value of assets with settlement risk*

The value of assets with settlement risk is netted off if:

- The settlement risk is related to the same counter party;
- The settlement risk arises from the same type of transactions; and
- The netting off is agreed by the parties in writing.

(e) **Operational risk value**

Operational risk value is the value corresponding to the level of loss which may occur due to a technical or system error, human error during the operations, shortage of capital arising from expenses, losses from investment activities, or other reasons.

The operational risk value of the Company is calculated at the higher of 25% of the operating expenses in the latest 12 month period and 20% of its legal capital.

Operating expenses include all costs incurred during the period after deducting:

- Depreciation and amortisation expenses;
- Allowance for diminution in the value of short-term investments;
- Allowance for diminution in the value of long-term investments; and
- Allowance for doubtful debts.
